FIRMU. C. Scientist Inspects
Foundation of Huge
Steel FrameHis Inquiry Disproves
Rumors of Sinking of
StructureNO SETTLING OF
FOUNDATION

Oakland, Cal., June 6, 1914.
Mr. Harry S. Anderson, Commissioner of Public Works, Oakland, Cal.—Dear Sir: At the request of Mr. J. J. Donovan, supervising architect of the city of Oakland, I have this morning personally run lines of levels to determine elevations for foundations and steel frame on the Oakland Auditorium.

One line of levels was run by me from the official bench mark near the south side of the building to column No. 141 at the northwest corner of the structure, where the city engineers had already established a mark. I found this mark unchanged in position in any respect from the position in which it should be and in which it was placed.

I then ran an additional line of levels to the first floor of the building, checked the level of the bench mark on column No. 78 and took readings on the steel girders in the first floor levels in various positions surrounding the arena. The bench mark on column No. 78 is unchanged in position in any respect. The levels taken on the five girders show them to be all in the same level, indicating a very accurate location of the steel work.

I have heard rumors which would possibly lead some citizens of Oakland to believe that there is settling in the foundation or steel frame of this structure. The surveys which I have just made, and of which I enclose above in detail, indicate that there can be no truth whatever in such rumors. The figures speak for themselves.

The citizens of Oakland might be reminded further that this structure, in all its foundations, rests on first-class pile grillages. The piles entered the ground sixty to eighty-five feet. These piles were driven to a firm hardpan layer.

On such a foundation the building could not settle unless the whole city of Oakland moved with it. Very truly yours,
CHARLES DERLETH JR.,
Head of department of civil engineering, University of California.

Rumor that the foundation of the new municipal auditorium is inadequate for the weight of the superstructure and that signs of sinking were noticeable have been dissipated into thin air, and the stability of the structure established beyond the possibility of a doubt as the result of a careful survey made this morning by Professor Charles Derleth Jr., head of the department of civil engineering of the University of California.

Two hours of measurements with transit, level and plumb lines failed to discover the slightest deviation from the original elevations, and in his report submitted to Commissioner of Public Works EARL E. Anderson, Derleth declares emphatically that the building cannot sink unless the solid rock gives way beneath it.

In company with Supervising Architect J. J. Donovan, J. P. Montgomery and a representative of THE OAKLAND TRIBUNE, Professor Derleth went to the auditorium this morning at 9 o'clock and spent two hours at the task of inspection. Starting from the established city bench mark, a topographical elevation based on the surveys of the United States government, levels were taken to the structural iron pillar at the northwest corner of the building. This was found to be in the exact position in which it had been originally placed months ago.

WORK WAS PERFECT.
From this point levels were taken to the first floor and the same exactitude was manifest there. The transit was then placed in the center of the concrete floor of the arena and levels were taken to five points on the girders of the side walls. These points were selected at random by THE TRIBUNE representative. The beams were found to align without the slightest variation of level—positive proof that the structure was not settled and that the iron work has been done in a perfect manner.

In preparing the foundation, lines to eighty-five feet through the stiff blue clay to the hardpan below. They

HERE'S A MODERN CINDERELLA
SHE RESIDES IN OAKLANDOAKLAND'S CINDERELLA, MISS NEVA BREEDING, AND THE FOOT
THAT THE ARTISTS DISCOVERED AND DECLARE THE SMALLEST IN OAKLAND.

HAS TINIEST FOOT

And Doesn't Know Until Artists,
Like Prince, Bring
Tidings.Who has the smallest foot in
Oakland?

This isn't a puzzle or a prize contest; no one wanted to know except a couple of artists, and they found out. By consequence, pretty Neva Breeding, 1735 Bridge avenue, Oakland, is hailed as the Cinderella of the city. Miss Breeding has a foot a little less than six inches long. It takes the smallest girl's slipper made—almost a child's slipper.

The strange part of it was that she didn't know how small her foot was until told. Her friends had commented on its size and the artists called on her. She produced. They wondered.

Miss Breeding has lived in Oakland for some time. She is a member of fashionable dancing clubs.

PERISHED
IN LAKEOaklander Meets Sudden
Death in Plumas
CountyVictim of Accident Civic
Worker and Prominent
Merchant

W. C. Barnard, merchant, churchman, former president of the Public Service Club of Alameda County, and vice-president of the Public Welfare League, was drowned while fishing in Gold Lake, several miles from Eureka, in Plumas County, word having been received by his family here, late last night. The body is being brought back to Oakland by Leslie Burks of this city. Particulars as to the manner in which Barnard met his death have not yet been learned.

The telegram came last night to the Rev. Albert W. Palmer, pastor of Plymouth Congregational Church, and he hastened to Barnard's home on El Cerrito avenue, Piedmont. Barnard's family were visiting, however, at the home of Frank M. Butler, 635 El Dorado avenue, a brother-in-law. The bad news was borne to the widow there.

Barnard had been active in church and civic work in Oakland for many years. He was a prominent member of the First Congregational church and president of the Men's League of the church for some time. He was also a trustee of the church.

HEADED COMMISSION.
When Mayor Mott, two years ago, created the Public Welfare Commission, he appointed Barnard chairman of the commission as the result of his prominence in this work, although he was not a resident of Oakland at the time. Barnard had been a resident of Oakland since his marriage.

Oakland High school with the class of 1882. He later went to Mill Valley to live for a time and served as town trustee there. Barnard engaged in business, being at first employed with Hippolyte Durtard, a well known grain merchant of San Francisco.

After Durtard's death the firm became known as that of Barnard & Bunker, the offices at present being at California and Front streets, San Francisco.

Barnard is survived by his widow, a sister, Miss Grace E. Barnard, a well-known kindergarten expert of Berkeley, who has recently been appointed a member of the summer school faculty, and by four children, William Everett Barnard, Mrs. Harold Haven, Miss Eleanor Barnard and Gerald Barnard.

Barnard's father was a former city councilman of Oakland and the family has been well known here for many years.

CAMPUS SKELETON

Find Evidence of Early Race at
the University of
California.

BERKELEY, June 6.—Mute evidence of a race that lived and died before the white man came to California, was found beside Strawberry creek on the University of California campus yesterday afternoon and this morning—the skeletons of four Indians, one of them a woman, buried there perhaps centuries ago.

The discovery of the first body was made by workmen who are excavating for an addition to the Faculty Club. The continuing excavating with redoubled caution, until all four bodies and a number of articles that had been buried with them had been brought to light. The bodies were discovered in a little turn of Strawberry creek, which anthropologists of the university here in the past found to have been a favorite burial place for the prehistoric western races.

DON'T WEATHER DOWN.
The first body found was that of a woman. The knees were doubled up against the chin, the arms being secured about the legs. Over the head of the woman had been inverted a mortar well shaped and cleverly carved and weighing about 100 pounds. The body was found at a depth of about three and a half feet. There was no pestle beside the body. As the excavation carefully continued one after another set of bones was discovered. With the last skeleton was dug up a

glass, three and a half inches long. The skeletons were buried in a place where clay soil formed about them.

ONE MAN SLAIN.
ANOTHER SUICIDE,
IN PETTY QUARREL

LOS ANGELES, June 6.—A fight in an automobile, said to have had its cause in a dispute over the merits of a certain contractor as a house builder, resulted today in the shooting of George E. Platt, president of the Los Angeles Creamery Company, and the suicide of Clifford Deyoune, a real estate agent.

Deyoune, whom Platt had invited to ride down town with him in his motor car, attacked the creamery man as they sped along a boulevard. Platt either was thrown or jumped from the machine and as he fell Deyoune fired a bullet into his back.

Lloyd Herron, a motorcyclist, who was riding abreast of the automobile, saw Platt fall. The motor car was stopped. Deyoune alighted and after noting Platt's prostrate body re-entered the machine and fired a bullet into his own head.

Platt was paralyzed by the bullet. He was unconscious when taken to a hospital and small hope was entertained for his recovery. Deyoune was said to have been slightly unbalanced mentally, one result of which was that he imagined that many persons, including Platt, owed him sums of money that would make him wealthy if he could collect it.

This and the dispute over the relative merits of a contractor brought about the attempted murder and suicide.

RICHMOND
SENT IN
CANDYPackage Mailed to Woman,
She Says, Because of
AccusationsMrs. Simmons Will Be
Taken South to Be
Tried

Mrs. Georgie Burke Simmons broke down at noon today at Richmond and confessed to Chief of Police Arnold of that city that she was the person who sent the deadly box of poisoned candy from her home at Winslow, Arizona, to Mrs. William H. Dagg at San Diego. Mrs. Simmons said that she sent the candy to make Mrs. Dagg ill, but with no intention of killing her.

"It was in a fit of rage over accusations by Mrs. Dagg that I did it."

"I was sorry afterwards and employed Nick Harris as private detective in Los Angeles to recover the candy, but it was too late."

POURS IN POISON.

"I bought the candy in Winslow, and taking it home, where I had pulverized chloride of mercury tablets, I opened the pieces of candy with a sharp knife and poured the poison inside of nearly every piece in the box. I then sealed the candy and mailed it to Mrs. Dagg, who was then living at San Diego."

"I had lived at Winslow for twenty years and until family trouble separated Mr. and Mrs. Dagg, I was one of the most respected women there."

"Mrs. Dagg and her daughters and other people accused me of having caused the separation. For years I have been friendly with both, but as God is my judge, there was nothing wrong in my friendship with Dagg. The gossip made life so unpleasant for me in the little city where I had spent the happiest years of my life that I was practically forced to sell my rooming house and leave. I don't know why I sent the candy, but I was so crazy over the unjust charges and the fact that Mrs. Dagg had caused it all, that I am glad that the poison did not kill her."

Captain of Detectives Joseph Myers of San Diego, accompanied by Miss Ethel Simpson, police matron, arrived here at 11 o'clock from San Diego. They will return this afternoon.

MONEY FOR
PEOPLES
WATERRailroad Commission
Criticises Management
of CompanyDeclares It Is Purpose to
Protect Those Who
Invested

SAN FRANCISCO, June 6.—In granting permission today to the People's Water Company of Oakland to issue promissory notes to the amount of \$2,229,882.86 for the purpose of refunding obligations in the same amount, the Railroad Commission takes occasion to criticize the methods of financing the corporation and its manner of doing business prior to March 23, 1912, on which day the commission's powers over public utility securities became effective.

The commission refuses to recommend the authorization of any new bonds and merely permits the company to satisfy its obligations and to take measures to finance its business without plunging more deeply into debt.

The commission, in addition to authorizing the notes, allows the company to pledge as security for them such bonds as have been previously pledged for needed obligations at a ratio of two and a half in bonds to one in notes.

The commission also directs the company to prepare a bond of reorganization and orders that it shall undertake to obtain agreements from

BAND TO PLAY IN AUDITORIUM
HALL UNFINISHED, NOT MUSIC

For the first time in its history the great municipal auditorium will reverberate to the music of a great military band, and the people of Oakland, sitting under the big steel beams, will hear their first auditorium concert tomorrow, when a special military band will give a Sunday program in the massive pile of uncompleted structure.

Temporary seats will be placed in the structure for the accommodation of the throngs expected to attend the big free program. Extra features will be rendered during the concert. The Orpheus Club, noted organization of male voices, has been invited to assist. The program will be as follows:

March—"Auditorium" (Kegel).
Overture—"Morning, Noon and Night" (Suppe).
Waltz—"Dreams of Childhood" (Waldteufel).
The Good Ship Mary Ann" (Gumbie).
Minuet (Boccherini).
Concert Mazurka—"La Carina" (Ganne).
Columbia Overture (Albani).
Paraphrase—Schubert's Serenade (List-Horst).
Tone pictures of north and south (Bendix).
Coronation March (Ellenbourg).

TO PROBE SHORTAGE

Because of Suicidal Attempt
Grand Jury Will Scan
Recorder's Accounts.

Following a fairly restless night, during which he gained considerable strength, T. V. Corcoran, County Recorder of Solano County, who Thursday night attempted suicide by cutting his throat in a local hospital, today stands a good chance for life. According to the hospital attaches he will be in danger for several days yet, but indications favor recovery.

Corcoran regained spirits this morning, despite the accusation that he is \$1200 short in his county accounts, and talked cheerfully, almost jokingly, with his nurses. It was with difficulty that he was restrained from discussing his case, the doctors in attendance so ordering least excitement to repair his condition. Although still weak from loss of blood, he has recuperated remarkably, according to the surgeons, and is showing remarkable vitality.

The man attempted suicide Thursday night, and was discovered in a semiconscious state.

BEAUTIES HERE TO RAISE FLAG

Queen Rosaria of Portland and
Rising Stars for Ex-
position Ceremonies.

SAN FRANCISCO, June 6.—Queen Rosaria of Portland, with her retinue of eleven beautiful girls, arrived here from the north this morning to take part in the flag raising ceremony on the Exposition grounds this afternoon. The tallest flagpole in the world, standing 230 feet and made of a single shaft of Oregon pine, stands in front of the Oregon building and today the queen, Miss Thelma Hollingsworth of Portland, will take to the topmost peak the beautiful flag donated by the people of Astoria. The colors flying in the breeze will be easily seen by ships at sea long before they reach the Golden Gate, testifying to Oregon's participation in the 1915 Fair.

Nathan Leaves for Return to Italy

SAN FRANCISCO, June 6.—Ernesto Nathan, former mayor of Rome and Italian commissioner to the Panama-Pacific Exposition, left San Francisco today for Chicago and New York accompanied by his suite. He will go to Italy to arrange that country's exhibit, returning to San Francisco in four or five months to attend the dedication of the Italian building.

SCRATCHES "BITE," IGNITES MATCHES

TAFT, June 6.—The oil-soaked streets and petroleum-laden atmosphere of Taft do not encourage the propagation of mosquitoes, but a handsome specimen of the tribe started something in the west side of metropolis recently when he inserted his bill just over the heart of H. H. Penman, a Taft electrician. Penman scratched the bit, ignited matches he carried in his pocket and when he got to the kitchen sink and put himself out there wasn't much left of his shirt except the neckband.

ELS LIKE A NEW WOMAN

As Lydia E. Pinkham's Vegetable Compound Dispelled Backache, Headaches and Dizziness.

Piqua, Ohio.—"I would be very ungrateful if I failed to give Lydia E. Pinkham's Vegetable Compound the praise it deserves, for I have taken it at different times and it always relieved me when other medicines failed, and when I hear a woman complain I always recommend it. Last winter I was attacked with a severe case of organic weakness. I had backache, pains in my hips and over my kidneys, headache, dizziness, lassitude, had no energy, limbs ached and I was always tired. I was hardly able to do my housework. I had taken Lydia E. Pinkham's Vegetable Compound on one other occasion, and it had helped me so I took it again and it has quite me up, until now I feel like a new woman. You have my hearty consent to use my name and testimonial in any way and I hope it will benefit suffering women."—Mrs. ORPHEA TURNER, 431 S. Wayne St., Piqua, Ohio.

Women who are suffering from those distressing ills peculiar to their sex should not doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

RAIN TO CONTINUE, SAYS WEATHER MAN

"Willson Put One Over," Says
Land Forecaster.

"Willson put one over this time. When he predicted rain yesterday they thought he was crazy. Well—it rained."

So did Charles Burchhalter of Chabot observatory applaud the San Francisco weather prophet this morning. "It is a good thing," he said, "that the rain came when it did, for it was sudden, that lasted through the night and from indications may last with occasional showers for several days yet. The barometer this morning, according to the Chabot observatory, figures, stood at 29.08. The wind is light and from the southeast."

"It looks like unsettled weather for several days yet," declared Burchhalter. "I think it safe to predict showers for several days yet. The rainfall last night started almost with the appearance of heavy fog. By midnight heavy drops fell and this morning the showers were considerable. The rainfall in all, up to 3 a. m., was .06 of an inch."

According to Chabot observatory the light wind is bringing in more storm clouds from the south. The storm is of small area.

The rain has done no damage on farms, according to local agriculturists, crops being too well developed at this time to suffer.

WON'T HURT CROPS.

SAN FRANCISCO, June 6.—Coming so late in the season today's rain will have little or no effect on orchard and field crops in this section. The cherry harvest has been practically all gathered in by this time. While the hay crop has been cut and is lying in the fields it will suffer no harm from the rain, which is most likely to do any damage. Most of the other crops are also immune from damage unless the rainy weather continues over several days.

The few cherries which remain on the trees will mostly be for home use, and the orchards have been disappointed in the cherry crop this season. After a promising start unusual weather conditions resulted in an abnormally light crop. High prices have been obtained for cherries as a rule. The prices were 5 cents for early whites, 8 cents for blacs and from 7 to 7 1/2 cents for Royal Annes.

RAIN FOR 24 HOURS.

SAN FRANCISCO, June 6.—Unsettled weather conditions prevail over the state of California and showers and thunderstorms have been reported from the entire Pacific slope and eastward to the Mississippi valley.

The forecast for the next 24 hours is for probable showers in this district and in the region south of the Tehachapi mountains. Forecaster Willson announced this morning that he believed that the storm on the Washington coast has caused a general rainy condition along the Pacific coast.

Heavy rain falling last night in the bay cities, Oakland receiving .06 and San Francisco .02 up to 5 o'clock this morning. The only other rain reported in California is .04 in San Jose, .02 from San Bernardino and .05 from Point Reyes.

The heaviest rain on the coast was felt at Portland, Ore., where .32 of an inch fell.

The storm is moving southward and it is expected that the showers will reach Los Angeles today.

East of the Mississippi the weather is generally fair. Southeast storm warnings have been displayed along the Pacific slope from Point Lobos to Eureka.

"I don't think there will be any fun for the baseball fans today or tomorrow," said Forecaster Willson. "It looks to me as though we were going to have some real rain."

CORCORAN HAS CHANGE OF LIFE

Official Who Sought Death,
Rallies From Suicide
Attempt.

(Continued From Page 1.)

terday, following his attempt, news came from Fairfield of his alleged shortage. District Attorney J. M. Raines of Solano county declares that he was informed of the shortage by Court A. ditto Bert M. Sheldon, who asserted that the recorder had not settled his accounts for two months. The district attorney stated notice upon Corcoran that he must do so or the matter would be taken before the district attorney's office.

Monday the question was brought before the county board by Raines. In the meantime Corcoran, ill with pleurisy, was in Oakland. The district attorney declares that in view of the attempted suicide he deems it his duty to take up the matter before the grand jury.

Curse Stubborn, Itchy Skin Troubles. "I could scratch myself to pieces," is often heard from sufferers of Eczema, Tetter, Itch and similar Skin Eruptions. Don't Scratch—Stop the Itching at once with Dr. Hobson's Eczema Ointment. Its first application starts healing; the Red, Rough, Scaly, Itching Skin is soothed by the Healing and Cooling Medicines. W. W. Hobson's Acme Ointment. Using: "This is the first time in nine years I have been free from the dreadful ailment." Guaranteed, 50c, at your drugist.

CYCLONE IN IOWA ENDS LIVES

Heavy Wind Also Does Damage on Mexican Coast

SIoux CITY, Ia., June 6.—The storm which swept across northwestern Iowa last night killed seven and injured a dozen, some seriously, according to reports received in Sioux City this afternoon.

The known dead are: P. W. Yetuma, Sanborn; Patrick Dougherty,

Bisland, child, Archer; William Bills; Sanborn; Howard Bills, Sanborn; William M. McDaniels, Marcus.

The tornado hit Sanborn about 6 last evening, leaving ruin and death in its wake. Near Archer the storm tore the child of John Bisland from its father's arms and dashed it to death against the side of the farm house.

Near Hosper the storm struck the farm house of James Allen and threw the members of the family were injured and the buildings wrecked.

WRECKING TRAIN SENT.

MAISON CITY, Ia., June 6.—Calls for assistance at Sanborn, Ia., stricken by last night's storm, were received here today. A wrecking train was sent west to assist those repairing damage and all available wire repair men in town were taken along.

STORM ON MEXICAN COAST.

ON BOARD U. S. S. CALIFORNIA, Mazatlan, June 6.—By wireless to San Diego, June 6.—The storm that has been sweeping the western coast of the United States struck the Mexican coast today. From Acapulco to Cape Corinto the wind is blowing at hurricane velocity and fear is felt for shipping. The British steamer Cetina, returning from San Francisco, where she landed refugees from various Mexican ports, narrowly escaped foundering in the storm and arrived today at Manzanillo with a bad list as a result of a shifted cargo.

DEATH IN CYCLONE.

SIoux CITY, June 6.—A telephone message from Alton, Ia., says a cyclone visited the town of Harpers, Ia., late yesterday afternoon. A number are reported dead and injured.

BORAH MAY NOT SPEAK FOR CLUB

Progressive Influences Said to
Behind Statesman's "En-
gagements."

SAN FRANCISCO, June 6.—Senator Borah of Idaho, who was to have been the principal speaker before the convention of the Young Republican League clubs here today, and who disappointed the leaders who postponed the convention until July, may not come at all. This is the opinion of those who have followed the matter for sometime past. It is reported that Borah was a staunch supporter of Roosevelt at the Chicago convention, but instead of following the Colonel he remained a Republican with Progressives.

He came here to deliver the campaign of the Young Republican League. But someone threw sand in the eyes, it is rumored, declaring that the Young Republicans were an outgrowth of the old machine, the rumor goes with the result that Borah pleaded pressing business in Washington to stall the matter for the time being.

Congressman Knowland has a busy itinerary ahead of him in his campaign for nomination in the United States Senatorial race. He is to appear before the Grand Parlor of Native Daughters in Oakland Monday night. On June 25 he is invited to be the principal speaker at the commencement exercises of the Ukiah High School and on July Fourth he is wanted at Monterey as orator of the day. In the meantime, he has many other engagements.

Senator Charles M. Belshaw, candidate for Governor, opened his campaign in Antioch last night with a rally at his theater following a parade. William C. Ralston, another Republican candidate for Governor, will leave shortly on a tour of the State to deliver his campaign.

Attorney Philip M. Walsh of Oakland, aspirant to the office of Attorney General, Walsh served two terms in the State Legislature from Oakland. He will oppose John C. Catlin of San Francisco for the Republican nomination.

FATHER SEEKING ABDUCTED CHILD

Humboldt Magistrate Believes
Women Are Hiding His
Daughter.

SAN FRANCISCO, June 6.—Aided by San Francisco police detective J. C. Gist, justice of the peace, mining man and merchant of Weitchpec, Humboldt county is searching the city for two women believed to be hiding his 11-year-old daughter, who vanished from her Humboldt home May 11, under circumstances that indicated abduction. Gist is positive that he saw the women and the girl on Kearny street Thursday afternoon. He gave chase but they boarded a car and eluded him. He appealed to the police last night.

Gist says the disappearance of the child was a climax to a series of disasters within the last four years.

burned his home, destroyed his ferry boat, set fire to his blacksmith shop, where were stored 270 pounds of dynamite, and threatened him with death unless he left the country.

SMITH BORAX HOLDINGS SOLD

Big Mining Land Deal Is An-
nounced; Four Millions
Paid.

The immense borax deposits of Southern California owned by F. M. Smith have been sold to London capitalists for approximately \$4,000,000, according to the announcement made yesterday by Mortimer Fleischacker of San Francisco. Word of the transaction came in cipher code from England to the trustees into whose care was entrusted the untangling of the financial affairs of the millionaire.

"After six months of negotiations in New York and London, Smith has sold his borax holdings in this state," said Fleischacker. "A syndicate of London banks has made the purchase and the price was about \$4,000,000. It may be that the price represents to a large extent other holders of stock of the Borax Consolidated Company. The sale price will pay all of Smith's debts, which are secured by this property."

To apply on other obligations." Practically the purchase price is somewhat over \$3,000,000, as the borax fields have been pledged for the payment of \$4,000,000 of bonds issued in the financing of other ventures. Yet the terms of the contract made in London call for the delivery of \$4,000,000 in cash for properties yielding annual returns of \$360,000 net, or nearly \$1000 for each calendar day of the year.

The value of the borax fields, as shown in the balance because of a difference of 6 per cent in the admitted value of the borax fields. Smith demanded a valuation of 38 per cent and was supported by the trustees, who had hopes of greater returns for the creditors. While the British syndicate would offer no more than 32 per cent. Negotiations were broken off several times, until a few days ago Smith agreed to a compromise.

The trustees gained some points of advantage and realized their chief purpose of obtaining a considerable sum of money for use in conserving the Smith properties remaining in their hands. Fleischacker declares that he is encouraged by the progress of negotiations for the disposal of Smith's railway interests. He stated that he will have ready in a few days a statement of the physical valuation of the Smith properties demanded by the state railroad commission.

Dead Man's Period Of Probation Ended

The unusual procedure of terminating the probation of a man was effected by Superior Judge Ogden today at the request of the probation office in the case of William Garland, who was killed in Emeryville two months ago by Hazel Lux and Arthur Bechard who was on probation for forgery. William Garland was on probation for attempting to smuggle drugs to Hazel Lux while the latter was a prisoner in the city jail some time ago.

'Mother Ship' of U. S. Submarines Launched

QUINCY, Mass., June 6.—The submarine tender Fulton, launched today by the Fore River Shipbuilding Company's yard is the first of her type in the United States navy. She will be equipped with heavy oil engines. The tender will act as a "mother ship" for a division of submarines. She is about 226 feet long and her speed is estimated at about fourteen knots an hour.

Mrs. Alice Cray Sutcliffe of New York, a granddaughter of Robert Fulton, was chosen as sponsor for the craft.

Demurrer to Frank Motion Is Sustained

ATLANTA, Ga., June 6.—Judge Ben H. Hill of the Fulton County Superior Court today sustained the state's demurrer to the motion to set aside the verdict by which Lee M. Frank was found guilty of the murder of Mary Phagan, a factory girl.

The motion was based on the claim that Frank's constitutional rights were violated when the verdict was returned during the condemned man's absence from court.

Adlai E. Stevenson's Condition Serious

CHICAGO, June 6.—Adlai E. Stevenson, Vice-President of the United States under President Cleveland, seriously ill at the Presbyterian Hospital, was no better today. Weakness incident to his 89 years and the nervous breakdown he suffered after the death of his wife six months ago, told against the veteran statesman. A critical turn in his condition was expected within twenty-four hours. His son, Louis, and other members of the family were at his bedside today.

KEEP "IN FORM"

This really means keeping the digestion good, the liver active and the bowels free from constipation. You are then ready to "play the game" to win. For any disturbance in the digestive functions

HOSTETTER'S STOMACH BITTERS

has been proven very helpful. You should try it, but insist on getting HOSTETTER'S.

BRENTWOOD IRRIGATED FARMS

"Best in the West"

The Soil is a sedimentary deposit of great depth and Joaquin River in abundance through a complete irrigation system of the highest type of construction.

The Climate is excellent—a blending of the interior valleys with that of the Coast.

The Markets are the million people of San Francisco Bay district besides numerous smaller adjacent communities.

Alfalfa, fruit, nuts and vegetables grow abundant crops. There is no better location in the State for dairying, hog and poultry raising.

Brentwood Irrigated Farms are for the man who wants the best. All an expert farmer needs to do is visit the property—he will see enough in an hour to satisfy him.

East of Mt. Diablo in Eastern Contra Costa County.

aptly the early hour there was a small crowd at the station to greet him.

ATTENTIONS PLEASE HIM.

The private car of President Polk was sent to Cherbouge for the use of the former American executive, and M. Nicoux, assistant prefect of Cherbouge, was delegated to welcome the former President.

Colonel Roosevelt declared the voyage had greatly benefited him and that he never felt better in his life. He looked the picture of health. He was in fine spirits.

The cane he carried on board the Olympic at New York had been discarded when he came ashore. He said he had gained in weight since he left the United States and hoped that after his European trip he would be entirely recovered from the illness contracted in the jungles of South America.

Colonel Roosevelt declined to comment on the criticisms published concerning his reported discoveries in South America. He had nothing to say regarding the political situation in the United States. He expressed pleasure at the courtesies shown him by President Polk and said he expected to pay his respects to the President tomorrow.

I. W. W. Prisoners in Court; No Disorder

TARRYTOWN, N. Y., June 6.—Twelve prominent members of the Industrial Workers of the World, arrested here a week ago while proclaiming their rights of free speech, were brought here today from White Plains jail and their cases were temporarily disposed of without a sign of the disturbance for which the anxious village fathers had carefully prepared.

The local police magistrate denied the motion of their counsel that they be allowed to appear before a grand jury, but to give them time for further local maneuvers he postponed their cases until next week, Friday.

Full for each of the twelve men was set at \$200.

Alexander Berkman, who had promised to bring hundreds of sympathizers from New York, Paterson and Passaic, arrived in town with "Toto" Sinclair and half a dozen others. Berkman explained the absence of a large band of I. W. W. followers saying he expected them later.

Murderer Slays Two Policemen in Fight

BUDAPEST, Hungary, June 6.—A mad murderer, August Tomasek, has since yesterday made an impregnable fortress out of the steeple of the village church at Hossany.

Armed with a repeating rifle and 500 bullets he killed a farmer and his wife and wounding their daughter.

Police tried to reach the criminal, but were repulsed with a full fusillade which killed two and wounded fourteen others.

Declared Insane, Loses His Appeal for Rights

NEW YORK, June 6.—John Armstrong Chaloner, who fled to Virginia and made his home there after he was declared insane by the courts of New York state, lost yesterday on appeal his suit for the restoration of his rights in this commonwealth. The United States Circuit Court of Appeals upheld Federal Judge George C. Helt in dismissing the action brought by Chaloner to recover damages against Thomas T. Sherman, who was appointed a committee for Chaloner in 1901, for refusal to turn over the plaintiff's property.

Judge May Find Work For Kelly's Jobless

FORT WAYNE, Ind., June 6.—Fifty-one tattered and footsore men, the remnant of "Kelly's army," which left Sacramento, Cal., weeks ago with Washington as its destination, reached Fort Wayne last night. They are quartered now at the police detention station under charges of vagrancy and Police Judge Kerr declared his intention of putting them to work.

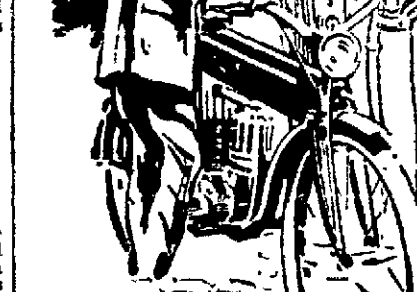

RYN DOWN BY AUTO.

Dr. J. C. Sackler, who has rooms at the Hotel Athens, was seriously injured last night when he was run down at Fourteenth and Broadway by an automobile driven by Frank Miller. Dr. Sackler was taken to the Merritt hospital.

COLLEGE OF MEDICINE TO HOLD COMMENCEMENT

The eighth annual Commencement exercises of the Oakland College of Medicine and Surgery will be held in Oakland College Building, Grove and Third-street Tuesday afternoon, June 8. A short program will be rendered and Dr. Lemuel P. Adams will confer the degrees. The graduates for the term are Miss Edna M. Barber, Louis L. Sherman and Paul E. Dolan.

Guard against the uncertainties of the future by beginning a Bank account -now-to-day-

Those who spend all they earn are usually on the brink of discomfort.

People put confidence in those who put money in the Bank and confidence is a big asset when you are looking for favors. If you should seek a new position would it not be worth a good deal to you if you could use this Bank for reference? \$1.00 opens an account.

Proposed Recall of the City Administration

Action having for its object the recall of the mayor and city commissioners is being considered by certain elements in Oakland and an effort in that direction may be made. THE TRIBUNE is opposed to this proposition, believing it unwise, inexpedient and a useless expenditure of public money.

THE TRIBUNE has no apologies to offer for Commissioners Turner, Anderson, Baccus and Forrest, knowing full well that they have been anything but successful in their conduct of public affairs. It has no excuse to present for their errors and shortcomings in office. But it is different with Mayor Mott. Oakland has had many mayors, but in all its history it has but one real constructive executive, Frank H. Mott. It is unjust to attempt to saddle him with the delinquencies of the commissioners, as has been and is being attempted, for to him this city is indebted for many great results accomplished, many times in the face of great difficulties. He has neglected no opportunity, has improved every occasion, has taken advantage of circumstances and his ac-

tions on behalf of the public have been well-timed and uniformly successful. During his career as a public official his course of conduct has been such as to commend him to fair-minded citizens, and no act of his has provoked criticism as to his ability or his integrity. His judgment has been sound and his conclusions justified by results. Some day a gratified citizenship will recognize the signal ability he has displayed while working on behalf of this city, will appreciate the personal sacrifices he has made and will commemorate his efforts by erecting in Lakeside Park his bust in marble, a fitting tribute to a man who has accomplished so many great things for the benefit of all the people. He will leave the mayor's office a comparatively poor man.

A recall election at this time would be ill-advised, for many reasons. Mayor Mott and Commissioners Turner and Forrest have but a few months more to serve. The election for their successors occurs in April next. If the citizens do not desire to re-elect them they can be replaced by others, and if it is desired to recall Commission-

ers Baccus and Anderson, this can be done at that time and the money which would be expended for a recall at this time conserved for a more useful purpose.

The money spent for a recall would be cash thrown away, for the regular election must be held, even if the proposed recall should be successful, for those chosen to succeed the officials whose terms are about to expire would have to be re-elected or succeeded by others at that time.

Realizing conditions as they exist THE TRIBUNE believes an election between this and the time for the regular election, when everything necessary to be corrected can be corrected, would be a mistake, an unwarranted outlay of the taxpayers' money, and for that reason urges the citizens contemplating such action to refrain from adding to the financial burdens of Oakland by imposing upon it the duty of spending such a large sum as will be required to submit the proposition to the electorate and a waste of money that might be applied to consummation of plans more useful in promoting public welfare.

Immense Yield in California.

Figures compiled on the output of California for the year 1914 are so startling in character as to almost tax credibility, yet they are doubtless accurate. The income from all sources, including grain, fruit, dairy products, poultry, vegetables, wines and brandy, cattle, hogs and sheep, nuts, wool, hay, lumber, oil and gold and other mineral products will be approximately \$500,000,000, or \$1700 for every man, woman and child in the State. This is a measure of prosperity that undoubtedly leads all other States in the Union. The exact estimate is \$474,000,000, but other and smaller products not included in the table are expected to bring the total to the half-million mark.

Dissected, the estimate is of interest and should prove valuable advertising for the Golden State. For example, the cereal crops will bring in \$31,000,000, of which \$20,000,000 is represented by the more than 800,000 tons of barley, wheat, oats and other grains producing the other \$11,000,000.

Despite the fact that the prune crop is short in some localities, canned, dried, citrus and green fruits, with a \$5,000,000 output of canteloupes, will net approximately \$85,000,000, truly a majestic array of figures. This does not include the grapes used in making wines and brandy, the output of which is fixed at \$30,000,000.

Dairy products will be \$33,000,000, of which \$18,000,000 will be produced in butter alone. These figures are gratifying as showing the advance made by this industry. Poultry products are represented by \$17,000,000, of which \$15,000,000 will be represented by the sale of eggs.

Not the least interesting figure is the vegetable output which is fixed at \$42,000,000, an \$11,000,000 bean crop figuring as one incidental in the total. Sugar beets are included in this output.

Other products worthy of note are olives and oil, \$3,000,000; cattle, hogs and sheep, \$35,000,000; hops, \$4,500,000; nuts, \$4,000,000; wool, \$2,000,000; hay and forage, \$50,000,000; lumber \$30,000,000; gold, \$20,000,000; oil, \$50,000,000, and other mineral products, \$30,000,000.

To the uninitiated this estimate may appear to be counting one's chickens before they are hatched, but in California, where the climate is equable, lacking the elements which in many of the States go to causing the unexpected, such as drouth, rains, heavy storms and other conditions militating against success, at this season of the year one can predict his output in perfect confidence by observation. At this time crops are in splendid shape. The harvest is assured. This is indeed a prosperous one for the people of this empiric commonwealth and all should prepare to share in the general benefits to accrue.

Kings county's grain crop this year will approximate 1,680,000 sacks of wheat and barley on about 90,000 acres, to harvest which 600 men are preparing. Wheat will average twenty sacks to the acre, barley much more. Coincident with this comes the news that the San Joaquin barley crop is so large the warehouses will be inadequate and the same conditions obtain in Monterey county. These are mentioned just to show that Kansas, Oklahoma and Missouri, where the grain crops this year are large, are not the only cereal growing states on the map.

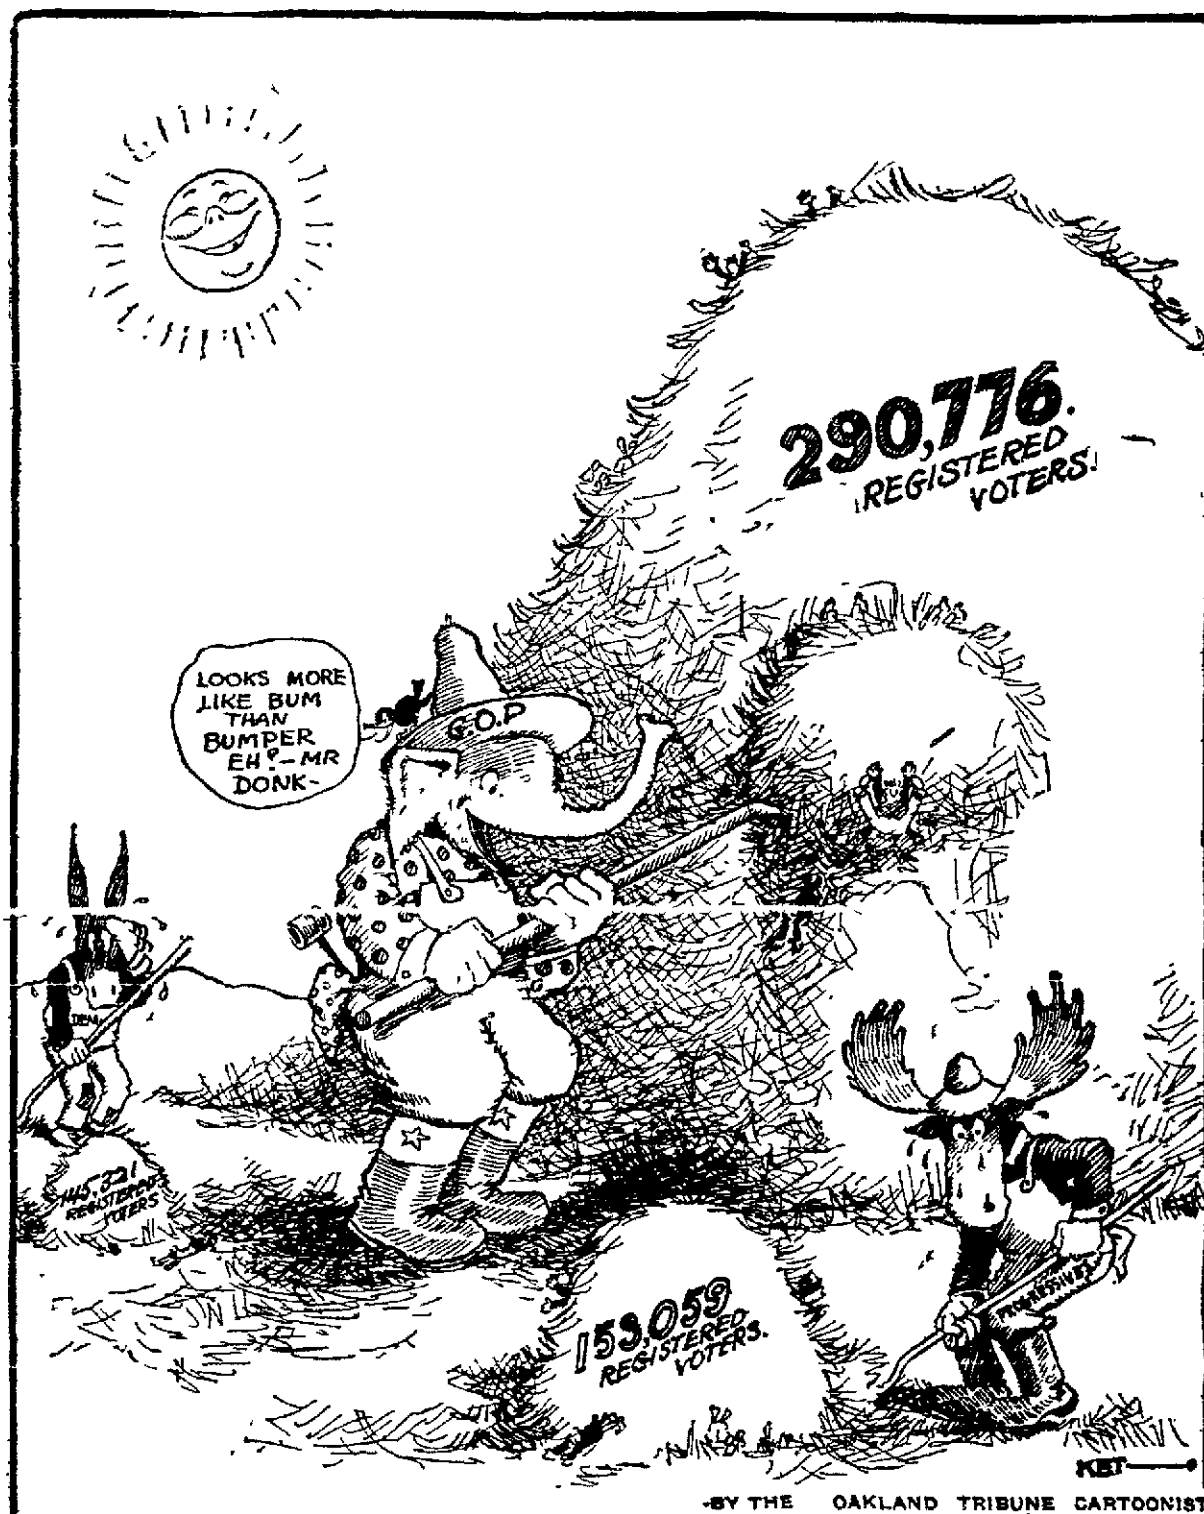

Oakland's postal receipts for the fiscal year ending March 31 exceeded those of the previous fiscal year by \$26,989. The increase in April, 1914, over the same month last year was \$8070. Inasmuch as postal business is regarded as a good commercial barometer, this condition is especially gratifying as showing the increasing importance of the city.

San Francisco's Superior Court having ruled that a free lunch served by a saloon lessee was not up to standard, we impatiently await the full text of the opinion in order to obtain definite information as to what constitutes free lunch from a judicial standpoint.

An El Dorado county mother has just given birth to a twenty-year-old child. When it comes to large products California sets the

ANOTHER BUMPER CROP

TWENTY YEARS AGO TODAY

Thomas Frather, president of the Union National Bank, has returned from his trip east. About three weeks ago he left Oakland to visit Chicago, New York, Washington and other cities. Mr. Frather's trip east was partly a business one, and he returned home just as soon as his objects had been accomplished. "In and about the docks and warehouses of both Chicago and New York shipping seemed to be at a standstill," he said. "I don't think I saw as many ships about the docks of New York as there are about the docks of San Francisco."

There has been a shake-up in the ranks of several members of the police force, which affects the following fourteen of the "finest": Moore, Sullivan, Kyrle, Boyce, Murray, Schroeder, McCloy, Green, Brown, Curtis, Cooney, O'Hara and Kingsbury.

The terms of Dr. Akery and Dr. Woolsey as members of the board of health have expired and Mayor Pardee will appoint their successors in a few days.

The employees of the East Oakland Street Railroad Company are making a hard fight to get the wages which they claim are justly due them. The union

of the employees to compel the receiver of the road to pay them money came up before Judge Ogden this morning for argument. It was represented on the part of the employees that they had been working for four months and had not received their wages, now aggregating about \$4500. The men asked that the receiver be directed to borrow money on the line so that their claims might be paid in full. Judge Ogden, after listening to the arguments, decided the case in favor of the men. However, the ruling was withdrawn and the matter continued.

The Hanna Memorial United Presbyterian church was dedicated at the corner of Castro and Eighteenth streets. The dedicatory prayer and sermon were delivered by Rev. T. H. Hanna, father of the deceased young clergyman in whose honor the church is named.

Peculiar and Pertinent

An apple tree belonging to S. W. Alexander of Los Angeles county, California, is exciting considerable interest because it bore two crops in one season, and the second crop was of different variety than the first. The apples of the first crop were light in color and of medium size, while the second edition were dark red-dish in color and in no way resembling the earlier crop.

The latest report of the directors of the bureau of agriculture at Manila says that the rice crop of the last year was the greatest which has been recorded for many years in the Philippines, being 100 per cent greater than in the previous year. As a direct result of the bumper crop there has been a decrease of rice imports of more than 175,000,000 pounds, representing in value more than \$2,500,000.

ALAMEDA

ALAMEDA WILL IMPROVE STREETS

**Central and Lincoln Avenues.
Ordered Paved by City
Council.**

ALAMEDA, June 8.—Immediate improvement of two of Alameda's main thoroughfares. Central avenue, from Fourth street to High street, and Lincoln avenue, from Sherman street to Park street—was decided upon last night at a meeting of the committee of the whole of the city council. The two streets are to be paved with asphaltic concrete and the abutting property own-

be held June 16 at 10 a. m. at the commission's office. City Attorney Cornish will attempt to show that the new lines on Ellsworth street and California street

TO IMPROVE TRACKS.

Incidentally last night it was agreed by the members of the council with representatives of the San Francisco and Oakland Terminal Railways that the council would contract with the latter to ask that company to improve Santa Clara avenue, from Webster street to Park street, with asphaltic concrete. The council will place the space between its tracks in front of the street and the wedding of rails now being in process of completion. The roadwork at either side of the tracks will be repaired by the city.

At the city street fund, Messrs. Brown and Blum of the traction company were present and asked as to whether the council anticipated improving Santa Clara avenue with asphaltic concrete.

This was the case they would have to make prompt plans as they are now contemplating expending \$30,000 in making the improvement.

The councilmen agreed to let the five-year embargo stand.

A communication was received from the Alameda Improvement club, recommending that the streets be improved by the issuance of bonds. This was ordered filed.

EXPRESS COMPANY TO
AID IN LOWERING COST

regarded as an effective blow at the high cost of living is the establishment of an order and food products bureau by the Adams Express Company. The company will promote more intimate relations between the producer or dealer and the consumer, and create a market for food products that, instead of the ordinary complicated and cumbersome system of handling such goods, will

The company will become a clearing-house for excess production, distribution of fruits, berries, butter, eggs and poultry. It will make contracts with articles at a minimum of expense to seller and buyer. The company is responsible to both, delivering the commodities to the buyer's door and the money to the seller without any intervening agency.

The rate on the place of manufacture for which the bureau has been designed is 25 cents below the commercial rate fixed by the Interstate Commerce Commission. It is no higher than parcel post charges.

AGED WOMAN IS CALLED

BERKELEY, June 8. — Mrs. Hannah Emile, 82, of 1241 Oak street, died this morning at the residence of her son, C. C. Emile, of 1241 Oak street. She had been ill but a week.

Mrs. Emile was 52 years of age and was married to her husband, "Boss" Emile, who died about 1890. She was for many years in the employ of the

newspaper man, she is survived by another son, Henry Ernelle of Savannah.

The Meddler

It has been said that if one writes of social matters these days one must be serious, for the smart set finds much time for things serious in these strenuous days. It is true that the smart set plays bridge a great deal, and that afternoon tea carries a special appeal, and that everyone dances. It is equally true that almost everyone studies, and the smart set is being constantly reinforced by graduates of our two universities and of Eastern women's colleges.

It used to be said that to be a success of auction and speak French fluently. One might add to that the ability in America to discuss the leading books of the day, and also the leading problems as they affect the conditions of women and children. Indeed, there are very few people any more generous than women of the smart set today—generous with their time, their efforts and with kindly thoughts.

That fascinating Englishwoman, Mrs. Alec Tweedie, who came over to America specially to study us, and especially women here, wrote much that has been quoted all over the world about our smart set. Some times pictures made by foreigners of our people are very interesting, because they have a different viewpoint from our own.

Mrs. Tweedie writes:

"Yes, American women strive after culture; culture is a craze, and so hard do they work at self-improvement, it is really sad to see how few women have risen to acknowledged prominence in art, science literature, or music, in comparison with Europe. America is young yet, but she is growing older and more matured rapidly. There are, nevertheless, crowds of brilliant women in the States. They are clever and they are fascinating. They lay themselves out to be charming. Our American masters are delightful. They take so much pains to be nice to one another; wear their smartest clothes at women's functions, and arrive determined to enjoy themselves and make everyone with whom they come in contact do the same.

"One of the prettiest things in America is the way women send one another flowers. Flowers are given for everything. They are sent as an offer of friendship; they are handed as a token of love; they are laid on the dinner table as a decoration for the ladies. In fact, flowers—and mighty expensive they are, too, and very beautiful—tied up with the loveliest ribbons and given with the prettiest grace, often from one woman to another, are an American craze. It is most touching and gratifying.

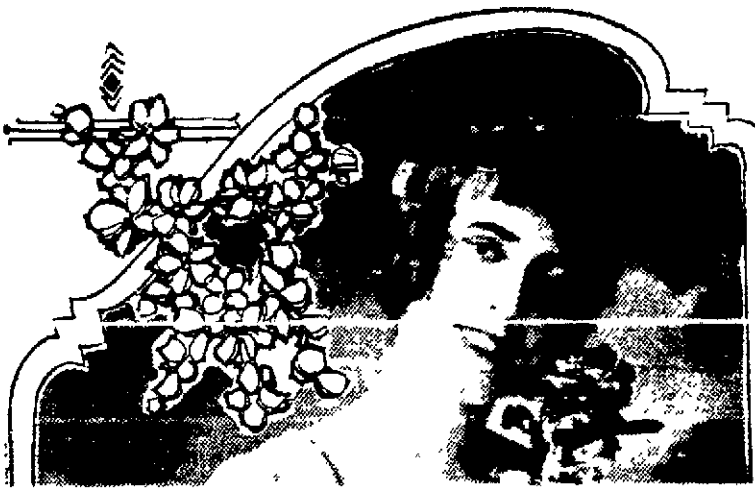

"Flowers for wearing are so exquisitely arranged in bouquets. One loves those huge bunches of violets, with purple bows or cords; those gorgeous heliotrope orchids tied with heliotrope ribbons and a large pin to match; the yellow roses or pink roses with bows or pins to correspond. They are adorable, and when sent by a woman to a woman they have an added charm."

That is all perfectly true, and, indeed, the woman of the smart set has much to do in caring for her neighbors, and seeing that no little social requirement is omitted. She must write to the pretty bride-elect of the hour and send her lovely flowers. She must give her an engagement present, and a wedding present later. She must send flowers—not once—but many times to the dear friend who is ill. She must go at once when there has been a bereavement in the family. And she has her charities—only she would not call them charities now—they are philanthropies. And she knows she is not "giving"—only sharing. From the heart of the exclusive smart sets are coming some of the great movements of the day. In England it is Consovel, the Duchess of Marlborough, who bravely leads the way, and she is personally studying social conditions in London. In New York Mrs. Anne Morgan the daughter of the late Pierpont Morgan, is idolized by the working girls, because she is their champion, and she won great things for them in the famous shirt-waist strike. At many women's gatherings of the day one may hear

"Have you read Strindberg?" and "What do you think of Bergson?" are not unusual questions. And it hardly does take time to be well read. For the more serious one's heart in the more slowly must it be

There are lectures, of course, and they are easy ways of acquiring

the woman of the smart set, who has intellectual ability, pre-

fers, for the most part, to study for herself—the mental training being greater and the results more lasting.

Simplicity and a desire for study are characteristics of "the first ladies of the land," for in democratic America the first ladies belong to the executive circle at Washington, and are made up of the members of the President's household and the wives and daughters of cabinet members.

Miss Margaret Wilson is interested in the movement for an eight-hour law for women and children workers in the district. Her committee of men and women from almost every walk in life holds its meetings in the White House.

Mrs. Marshall attends almost every session of Congress and knows a great deal about the many bills proposed.

The women of our new cabinet have notable achievements to their credit.

Mrs. Redfield made her husband's iron works in South Brooklyn one of the model industrial plants of the country, with reading rooms and gymnasiums. And there is Miss Agnes Wilson, daughter of the secretary of labor, who was her father's main assistant. She is very proud, indeed, of the watch presented to her by the American Federation of Labor.

Mrs. Burleson, wife of the postmaster-general, is a full-fledged playwright, and it has been said that "The wives of nine Congressmen and Senators could be listed as practicing lawyers, and Mrs. William

And now our Mrs. Joseph R.

Chamberlain, Mrs. A. A. Moore, Miss Ethel Moore, Mrs. Mark L. Requa, Mrs. Sam Bell Wakefield, Miss Playter, Mrs. C. C. Clay, Mrs. Charles H. King, Mrs. Henry Wetherbee, the Misses Herrick, Mrs. Charles Leonard Smith, Mrs. J. R. Scupham, Mrs. Ella Bacon Soule, Miss Carrie Bacon, Miss Janet Haight, Mrs. L. F. Cockcroft, Mrs. Warren S. Palmer, Mrs. Barriolhet, Mrs. Rabe, Mrs. George de Colla, Mrs. John P. Neville, Mrs. Oscar Sutor, Mrs. James K. Moffitt, Mrs. Pearl Tanner, Mrs. Victor Reiter, Mrs. George Sterling, Mrs. Wigginton Creed, Mrs. Guy C. Earl, Mrs. Daniel Easterbrook, Miss

Lena Redington, Mrs. Dudley Kinsell, Mrs. William G. Henshaw, Miss Emma Farrier, Miss Alice Grimes, Mrs. Victor Metcalf, Miss Ogden, Mrs. Prentiss Selby, Mrs. W. E. Sharon, Mrs. Herbert Hamilton Brown, Mrs. W. H. Wellby, Mrs. I. Lowenberg, Mrs. Ralph Kinney, Mrs. Louis T. Mrs. William H. Chickering, Miss Martha Chickering, Miss Margaret Taylor, Miss Janet Haight, Miss Laura McKinstry, Miss Wellman, Miss Mabel Pierce, Mrs. Templeton Crocker, Miss Lucille Knowland,

as in money. A picture that the fascinating Englishwoman, Mrs. Tweedie, draws of us is very startlingly true:

"Money lightly earned is often lightly spent. Just as money lost is mighty hard to replace. On the whole, I cannot help thinking that the American women's luncheons are too magnificent. A repast, consisting of melon or grapefruit, soup, fish, and a bird, with endless vegetables; an elaborate salad handed alone; an ice cream with angel cakes, and then candies galore, followed by coffee, takes a couple of hours to serve for twenty or thirty

ends like olives and celery, a separate sandwich or hot bread for each course, each and all solemnly and separately handed in turn.

"Often there is music in the background, such as four girls at violin, piano, cello and guitar; or a man playing a zither. It is all most costly and elaborate; very charming, very sociable, with beautiful flowers and perfect linen; embroidered cloths and

months ago. Now-a-days the wise hostess is leaving much to the hotel, and the latter takes much of the trouble off her hands. The hotel management always prefers to plan a luncheon or dinner of few courses, very exquisitely cooked and served. And in that it follows out the line of good form, set in foreign countries. No land serves many dishes now-a-days, and King Edward reduced the long English dinners to five courses. He even refused to sit more than an hour at the table.

The bridge luncheon is doing much to simplify luncheons these days. Players are anxious to reach

may consist of several rubbers, and as the hostess often wishes to serve afternoon tea as well as luncheon, the latter is more enjoyable if it is along simple lines.

But the woman of the smart set is beginning to economize time as well as other things, and in this she is also bravely leading the way. She can be very serious—this woman of the smart set—and she can be help-

today, would never have been a success.

CAWSTON-FILLMORE WEDDING NOTABLE.

Of course the large social event of the week was the wedding of Miss Pearl Cawston and Mr. William Fillmore—the ceremony representing a very brilliant wedding at the church, and the reception, a gathering of relatives and intimate friends at the home of the bride's parents, Mr. and Mrs. Tyler Henshaw.

Mrs. Fillmore was not only a beautiful bride, but was lovely in many

so thoughtful of others, that her older friends are very fond of her indeed, and her young girl friends accord her most true affection. If loving good wishes could have made any young girl happy, the bride's wedding must have brought her happiness in its best and truest sense. The bride was married in St. Paul's—our lovely new church which makes such a superb setting for a wedding, and which has already a long list of wonderful weddings to make bright chapters in its history. The church decorations seemed unusually appropriate

MRS. P. H. LUTTRELL, WHO IS A PROMINENT HOSTESS OF SOCIETY.—Eraser Photo.

lace mats, exquisite china; but it does seem a long time to spend feeding in the middle of the day, sl-

ful and studious. But in later months she has done one big thing. She has taught the whole world how to play

creams, are wonderful."

All that was true not so many

for a wedding—all in green and white as they were. There were quantities of beautiful Bermuda lilies—some of them very tall, and bride gladioli gleamed from the heart of green foliage. The chancel was very lovely, and

wasted in smart set circles. Americans are spendthrifts in time as well

Mrs. Oscar Long, Mrs. Frank C. Haynes, Mrs. A. C. Posey, Mrs. C. H.

Mrs. Frederick Kohl, Mrs. Chabot,

the bridal party made a picture of unusual beauty.

Weddings have been very attractive this year, because of the color used in the wedding details. Across the bay there have been silver and white weddings—and at Miss Cawston's wedding gold tones were used—and the lovely pastel shades seen in the costumes of the bridesmaids were wonderfully attractive. The bride, who is a very young girl, made a beautiful picture. Wedding costumes are exceedingly trying, but Miss Cawston made a bride of much beauty and charm. The wedding gown of white satin was most elaborately embroidered in seed pearls, and the wedding veil, fashioned into a most becoming cap, and extending almost to the edge of the wedding gown was also beautifully embroidered in pearls. The wedding bouquet of orchids was from the magnificent Correll orchid conservatory at Menlo Park.

The bride's attendants were such pretty girls that they might well have illustrated Tennyson's famous line, "A rosebud garden of girls." The beautiful group of girls comprised Miss Esther Bradner, Miss Florence Henshaw, Miss Eleanor Tay, Miss Ida Henshaw, Miss Anne Spring. They were lovely in gowns of pink taffeta—the lace bodices of which were embroidered in gold—and the girdles were in lovely pastel shades—matching the shades of the rose wreaths worn in their hair. Each girl was a most fascinating study as she moved up the aisle of the church—carrying a shepherdess crook—which was also a study in varying pastel shades. One of the most picturesque of the wedding attendants was dear little Dorothy Cawston, who was the daintiest of flower girls, in a French frock over pink, elaborately embroidered. She was as pretty and sweet as the pink roses she carried.

At the home of the Tyler Henshaws, the color scheme for their daughter's reception was all in pink. The young people stood under a canopy of Dorothy Perkins roses—that rose with its wonderful great pink bunches which has been so popular this year.

The dining room was a very wonderful study in pink, the color scheme worked out in pink sweet peas—of which there were garlands outlining the room, and picturesque baskets, where they could be artistically arranged.

At the bride's table were the wedding party and the bride's grandfather, Colonel Harrington of Oregon, who had come to Oakland for his granddaughter's wedding. The bride wore a pearl brooch, which her grandfather had given his bride, on her wedding day over forty years ago.

Mrs. Tyler Henshaw, the bride's mother, made a most charming hostess, and she is a most attractive brunette, who looks like the elder sister of her daughter. Mrs. Henshaw made a most attractive picture in a most striking gown of blue brocade elaborately embroidered in gold, and in the pale pink shades characteristic of Parisian gowns.

At the Henshaw home were only the relatives and the most intimate family friends of both the bride and groom. But it made a representative gathering, as the family connections are large.

The wedding presents were many and very costly, and they will make her new home both beautiful and attractive.

Mr. and Mrs. Fillmore have gone south on their wedding journey, and they will enjoy a motor trip in the southern part of the state. When they return they will spend some weeks at the Tyler Henshaw home, while their new home is being built for them.

One hears that it is to be a most artistic bungalow, in Spanish style, with a delightful patio, and it is to be in the picturesque Crocker Highlands district, in Mandana boulevard. Many good wishes have gone to Mrs. Fillmore, one of the loveliest brides of the year—a young girl who will develop into one of the attractive young matrons of the immediate future.

ENGAGEMENT NEWS NOT GREAT SURPRISE.

The announcement of the engagement of Miss Ernestine McNear and George Nickol did not develop the surprise the young people expected—there was only surprise that it was announced this week. The young people have altogether too many relatives to hope to keep the good news secret. The young couple were accompanied by the McNears to the Port Costa house party. Dame Rumor has been very busy with her news of an engagement, and for once, the good dame has been right.

Miss Ernestine McNear came out two seasons ago—the McNears giving an elaborate reception for her at the Claremont Country Club. She was

blue velvet gown with white fox fur. Miss McNear has been away from Oakland a great deal. She was educated at the Horton School, at the Gamble School in Santa Barbara, and later she went to "Farmington,"—the New England school to which so many prominent New Yorkers send their girls.

Miss McNear spent a year in a Paris school, and she has been abroad a great deal, spending much time in London with her cousins, the Rickards. The Nickols are prominent people across the bay, with a lovely home on Laguna street, and a fine country place at Menlo. George Nickol is a graduate of an eastern university, and a young business man of much promise.

Mrs. George McNear was formerly Miss Etta Tucker, and all of the "Tucker girls" were charming, not because they were very pretty, but also because they were, as young girls, very well bred.

The young girls of the later generation are all very pretty indeed, among them Mrs. Bernard Miller, who is the most stunning. She is very tall, with most charming coloring, and she is very popular indeed with the young matrons across the bay, and of the Burlingame set. Among Miss McNear's cousins are Miss Leslie Miller, Miss Elise Detrick, and Mrs. John Jerome (Albertine Detrick). Her sister, Miss Elinor McNear has just returned from New York, having graduated this year from the Spence School there.

Miss Leslie Miller, her cousin, has much musical ability, and when school days are over, she will no doubt go on with her musical studies. There will no doubt be many complimentary affairs for this most attractive young bride-elect, for she has many prominent relatives to make the days of her engagement very happy ones indeed.

MISS CUNNINGHAM INTERESTING VISITOR.

Among the interesting visitors in Oakland this summer is Miss Chester Cunningham, who is visiting her

near families of Oakland, with many old friends who are glad to extend a welcome to her charming young granddaughter.

JOY OVER RECOVERY OF MRS. CHICKERING.

All the many friends of the William G. Henshaw family hail with the deepest joy, the good news that Mrs. Harry Chickering (Alla Henshaw), is now far along on the road to recovery. Mrs. Chickering has been very desperately ill, and there were many anxious hours for her family—hours in which Doctor Porter fought desperately for her life.

hours of preparation for the Cawston-Fillmore wedding, and at three o'clock there seemed little hope, and the wedding was to have been postponed.

Before night the crisis came—bringing joyful news to all the friends of the Henshaws—and special gladness to the young bride. And now so many good wishes are being showered on Mrs. Chickering that they surely must help her to a very speedy and entire recovery.

PICTURES IN THE MEDDLER.

Miss Olive Wheeler is one of the most feted brides-elect of society. Quite as many entertainments are planned for her on this side of the bay as in San Francisco, where the Charles Stetson Wheelers have made their home for several years. Mrs. Louis Montague gave a luncheon for her in Berkeley this week, and Mrs. Nance and Miss Ruth Valentine have been hostesses in her honor. Miss Wheeler's marriage to Lieutenant Curtis Hopkin Nance will take place soon after the young officer's arrival from Manila in July.

Miss Helen Neal is the granddaughter of Mrs. Charles Neal of Alameda, and has been prominent at society affairs of the season. She is keenly interested in settlement work, and was one of the group of society girls who acted as ushers at the con-

MISS MARIAN CREELY, AN ATTRACTIVE MEMBER OF THE YOUNGER SET.—Webster Photo.

grandmother, Mrs. George E. Whitney. Miss Cunningham is the daughter of Mr. and Mrs. Seymour Cunningham, the latter formerly Miss Stephanie Whitney, the third daughter of Mrs. and the late Senator George E. Whitney.

The Cunninghams have a beautiful home in Connecticut, and they are not often on this coast. Miss Chester Cunningham is a very charming girl, very tall and graceful, looking much as her mother used to in the days before her marriage. She is just out of school and she is greatly enjoying her visit to her grandmother. Miss Cunningham's aunts are Miss Violet and Miss Anita Whit-

cert for the music school of the Oakland Social Settlement.

Miss Marian Creely is one of the younger girls of society who has not yet made her formal debut. She was a student at Miss Head's School last term, and was prominent in the gayeties of the graduation week.

Mrs. Peter Harrison Luttrell is frequently a hostess to her Oakland friends at her hospitable home in Sacramento street, San Francisco. She is considered one of the clever bridge players of society, and is a member of several of the smart clubs. With Dr. Luttrell she will soon leave on a trip to Yosemite.

GLASSCOCK'S AFFAIR.

What would we do without our

Hotel Oakland? Political, civic and social affairs crowd its corridors from day to day with kaleidoscopic pictures. Among those who frequently entertain there is Mrs. A. H. Glasscock, whose home is at the hotel.

She entertained delightfully last week at an informal dinner, and her guests were Mr. and Mrs. Alfred Kummer, Mr. and Mrs. J. R. Scupham, Mr. and Mrs. H. Morton, and Mr. and Mrs. C. W. Kinsey. Mrs. Glasscock also entertained at an informal tea in honor of her nieces, who were visiting her from Visalia. She returned with them to Visalia, to spend the recent week and holidays.

Mrs. Louis Montague was one of the delightful hostesses of the week, entertaining at a very charming luncheon in honor of the three popular engaged girls, the Misses Wheeler.

The Louis Montagues have a beautiful home on Pacific avenue with an exceedingly fine outlook on the bay and Golden Gate. They have rented their home there, and for the past year they have been living at North Berkeley near the Thousand Oaks. They are very enthusiastic about the views there, saying there is no finer

have motored in many lands, and so they are competent judges.

Mrs. Montague's luncheon for the Wheeler girls was beautifully planned and was one of the important Berkeley dates of the week.

MANY WILL VISIT CONTINENT THIS SUMMER.

Many well known people will be on the continent in these summer months. The Schillings are motoring in Germany, and in Germany also is Mrs. C. C. Clay. She spent some time in Southern Europe, and enjoyed an interesting motor trip through Algiers. Among the well known Oakland people who will motor abroad this summer are the Schillings and their guest, Miss Simpson, the E. A. Herons, who have with them their niece, Miss Parker, the George Greenwoods, the Misses Cunningham, the Mrs. Eastbrook, Miss Emily Smith, Mrs. Thomas Watson Cushing, Miss Carmen Ghirardelli, Mrs. Ghirardelli, Miss Elva Ghirardelli.

The F. M. Smiths have been re-

The Smiths have decided to spend some time in the East this summer, and their home at Shelter Island on Long Island is to be opened. Miss Sperry is to close Arbor Villa and to take the children across the continent to their parents at Shelter Island.

Mr. and Mrs. Warren Harrold are planning to spend the summer in Oakland, and they have leased for a year the home of Mrs. Edwin C. Morrison on Vernon street. During Mrs. Morrison's absence in Europe, it has been occupied by Mr. and Mrs. Philip Gordon. They have taken the large Ward residence on Pacific avenue in San Francisco.

Mrs. E. C. Morrison and Miss Charlotte Morrison are still in Paris where they have been detained by Mrs. Morrison's illness. But they hope to arrive in Oakland early in August.

Mrs. C. W. Everett and her daughters are to spend the vacation weeks this year at Carmel-by-the-Sea, and they will be joined there by the Misses Ingram in the early part of July.

Mr. and Mrs. Rudolph Schilling are to spend the summer months in the beautiful country home of the Schillings at Woodside, and they will en-

Teague (Marguerite Butters), are at St. Helena, and they will remain there during Mr. Teague's absence in the east. Mrs. Marie Metcalf is building a new home on Russian Hill, across the bay, which she expects to occupy late in the season.

Mr. and Mrs. Alexander Pantages have taken Alta Vista, the former home of the Butters family, and for the past four years occupied by the Edison Adams. Mrs. Pantages is one of the most beautiful of the younger matrons, and she is also one of the most gifted. She plays the violin beautifully, and all her friends know that she would make a very great success on the concert stage.

Mr. and Mrs. John Gallois (Eliza McMullin), who are spending the summer at Woodside, have taken one of the new homes that the Livermores have built on Russian Hill, and they are coming to town to occupy their new home in September. It has a large ball room, and the young people will no doubt entertain extensively this coming winter.

Mrs. Gallois spent her girlhood days on this side of the bay, and she belongs to that set which includes such charming young people as Eliza

SLIT SKIRT MOST RIDICULOUS 'GUILTY,' IS VERDICT SO SEM MAKES PARIS THINK

These are some of the cartoons that have caused Paris society women to wince and Parisian modistes to fill the air with the noise of their protests.

PARIS, June 6.—Sacre nom de pomme de terre! Bleu du Cochon! It is to fight! This man Sem must be suppressed!

That's the ultimatum of the French modistes. Every time the cartoonist has tickled the risibilities of the world he also has tickled the purses of the French dressmakers—and they're more than angry.

It's all very well to cartoon French politics or modern dances—but when Sem began to cartoon French fashions they were laughed at—and business fell off in the houses of Paquin, Marcie and the rest of the great designers. They protested. More virulent cartoons were sent. Sem's penner. Dada sniggered the more and now fair Parisiennes are almost afraid to wear even a slit skirt.

"I'll make Paris women almost modest before I'm through," says Sem.

"We'll see that he's suppressed before he's through," say the modistes. They are now casting about for a means of proper suppression. Sem has cartooned the women of Paris in their new clothes, giving them a most undignified touch. One cartoon, of a certain well-known society woman, created a furore—and he narrowly escaped a duel. Another won

him a threatened caning—but he waved his fists and bade the would-be caner to come on. The latter didn't like the fuss and declined. "I'll do my work my own way," said Sem, "and think I am benefiting the city."

His cartoons are being printed all over the world as the most remarkable satires since Tennyson's.

Mrs. Evarts Convicted of Extortion

SAN FRANCISCO, June 6.—After being out less than three minutes the jury in the case of Mrs. Lillian May Evarts, accused of extortion, returned a verdict of guilty in Judge Cabanis' court yesterday. The date of sentence was set for June 9.

As the jury filed into the room, Mrs. Evarts, who was sitting with her attorney, J. C. Sims, on one side of the court, began to cry. When the verdict was read she burst into hysterical sobs.

On the opposite side of the room sat Mrs. Virginia E. Holland, who was responsible for the prisoner's arrest.

Almost simultaneously with Mrs. Evarts' conviction, the jury returned a verdict of not guilty in the case of Harry F. Davis, member of the 1915 class of the Hastings College of Law at the University of California.

It was a quiet wedding, only the bride's mother and a few intimate friends being present. Joseph Huxley attended the groom, who is secretary of the California Foundrymen's Association. The bride was attended by Miss Vera L. Herrington, with Miss Alice O'Connor for flower girl. There were present Harry O'Connor, Mr. and Mrs. Edward T. Perry, Miss Bessie Bowen and Mr. and Mrs. Robert Thedy. As soon as the ceremony was over the happy couple left for Carmel-by-the-Sea, where the honeymoon will be spent.

The Mind for Reducing

Copyright, By LILLIAN RUSSELL.

(By Lillian Russell)

WHEN it is finally brought home to a woman that she is abnormally fat, she either resents herself or she hasn't interest enough in life to really care. Too often a devoted husband will say: "Well, dear, you suit me." And this seems to be the excuse for lack of exercise, over-feeding and laziness. Until at last the day arrives when that same devoted husband will say: "You are a frightfully fat, why in the world did you let yourself get into such a condition?" It is then a woman real-

LILLIAN RUSSELL

reducing in a violent manner, hating herself and every one else during the process.

There are few women who have the strength of mind and fortitude to change their habits of eating and living without becoming nervous wrecks. Everything we do is controlled by mind. A woman has a mind to reduce her flesh by self-denial and new and difficult exercises, for the reason that her appearance is not as it should be and she wants to at least be normal.

Men rarely have a mind to reduce their flesh until their very lives and belongings are in danger. It is wonderful that so many men go on overloading with flesh and still have faith in their powers of charming intelligent women.

There are many ways of reducing flesh which do not necessitate great discomfort. Of course, the desire to lose flesh must be strong enough to overcome the desire for fattening foods. That is the first and most important condition of mind. It is not necessary to adhere to a starvation diet. That is one of the great mistakes in the attempt to reduce. The quality of foods eaten and the quantity is of far more importance. A little food four or five times a day, of a nourishing, but not fattening, quality, will reduce flesh and aid digestion, which result alone improves the nature and complexion of the skin.

Some women imagine that two meals a day, leaving out luncheon or breakfast, will reduce them. This is a mistake. No one should go without breakfast. After twelve hours of fasting, whether asleep or awake, the stomach requires food to start the machinery working. A light luncheon is a far better thing than a heavy one. But if you will notice, the woman who prides herself upon going without luncheon eats a large amount of food at dinner, and generally includes all the table decorations in her effort to appease her appetite.

The general tendency of the majority of people is to overfeed. The healthiest people are small eaters. Remember, with a desire to lose flesh must come a mind to do it, and every one can do as they have a mind to do.

MRS. M. T.—You did not give me your name or address, so I cannot send you the formula for skin food and bleach. I shall be glad to do so, however, if you will send me a stamped, addressed envelope.

Z. A.—Nothing is better than vaseline for increasing the growth of the eyebrows, and I would advise you to continue the use of it. I am sorry I cannot give you a permanent dye for your eyebrows and lashes. The vaseline will gradually darken them.

R. W.—The peroxide and ammonia will not injure the skin. If the hair is heavy I would by all means have it removed by the electric needle. I do not advise a cleansing cream for fattening the arms. A skin food or cocoa butter should be used.

H. W.—If your hair is dry, try rubbing olive oil or vaseline into the roots at night before retiring. If you are careful in applying the oil your hair will not look greasy and disagreeable.

Lillian Russell

entertaining several house parties during the season.

VISITING OAKLAND. Mrs. Beriah Brown Jr. of Seattle is the guest of her aunt, Mrs. E. J. Calley, and later will visit other relatives and friends in Oakland. Mrs. Brown was formerly Miss Priscilla Calley, a favorite in the younger set of Oakland society, and many entertainments are planned in her honor during her visit.

AT HOTEL OAKLAND. Captain and Mrs. W. D. Hatch of Mare Island are spending a few days at the Hotel Oakland, where they are being entertained by Mrs. W. D. Hatch, one of the charming hostesses of the hotel. They frequently entertain at her home in Vallejo.

PLAN HOME WEDDING. The wedding of Miss Anna Kidder and Professor Stuma Einarsson of the astronomical department of the University of California, has been set for June 15, at the home of the bride's mother, Mrs. Anna Kidder, in Berkeley. It will be a very intimate affair, with only a few of the bride's closest friends present. There will be several attendants whose names are not yet announced. In honor of Miss Kidder, the wedding of Delta Delta Society of the university, to which she belongs, are entertaining at a series of informal affairs in the weeks before the marriage.

AT CAMP CURRY. Mr. and Mrs. Amos Evans with their daughter, Miss Edna Evans, will leave Sunday for a two weeks outing at Camp Curry.

OFFERS \$500,000 FOR A FAMOUS PAINTING. ROME, June 6.—Henry C. Frick is said to have made an offer of \$500,000, which he is said to be prepared to increase to even \$600,000, for the famous picture in Rome. Prince Alfonso Doria-Pamphili, the owner, has refused to consider the offer.

BOY DIES ATTENDING BROTHERS' FUNERAL. CONNELLSVILLE, Pa., June 6.—While Mr. and Mrs. Michael Peters were driving from their home to the funeral of their son Anthony, ten years old, Michael, twin brother of the dead boy, died suddenly in his mother's arms. The cause of Michael's death is a mystery, as he had not been ill.

PERSONALS. Mrs. H. V. TREKSTANT has returned home from a visit with her daughter, Mrs. J. J. Gemmill of Woodland.

MR. AND MRS. CHARLES CADMAN motored to Stockton for the week-end.

MISS SKEWETTS COOKE, president of the National Nurses' Association, has returned from the state meeting in Sacramento.

MR. WALTER SAMPOFF, who has been the guest of friends in Sacramento, has gone to Stockton for a few days' visit.

LEWIS WILKES has gone to Visalia, his former home, to renew old friendships.

MR. T. A. BUELL is the guest of Mrs. Bueell at her home in Visalia.

W. W. WRIGHT is in Visalia.

JOHN LOOK left for Berkeley during the week to look after business interests.

OAKLAND WOMAN GETS HALF OF BURKE ESTATE

SAN JOSE, June 6.—Oliver B. Martin and Edwin S. Tucker, executors, both of San Francisco, yesterday applied for the probate of the will of Mary A. Burke, who died May 30.

Mrs. Burke was the widow of the late Frank Burke, whose stock ranch in this county was noted all over the world as the most remarkable nature preserve over \$100,000.

By the will executed June 2, 1913, Mrs. Burke left her estate to her daughter, Edith Davis, aged 40, residing in Oakland.

At a pretty home ceremony this afternoon, Miss Frances Calkins became the bride of John Case Jr. at the residence of her aunt, Minnie Bunker, in Channing way, Berkeley. Only relatives and a few intimate friends were present, but the affair was charming in all its appointments. The house was decorated with quantities of the graceful white bride gladioli and greens and the bridal attendants were gowned in white with touches of green in their costumes, and carried white flowers. They were Miss Lena Calkins, sister of the bride, and Miss Elizabeth Case of Chico, sister of the groom. Lloyd Costar of the University of Illinois, was best man, and Herbert Stolz of Stanford was groomsmen.

The ceremony was performed at 1.30 o'clock by Rev. Raymond Brooks of the First Congregational Church of Berkeley. The bride wore a gown of soft white satin trimmed with rare old lace, and her veil was fashioned into a becoming tulle top, from which it fell the length of the train.

Following an informal reception the young couple departed for the residence of the bride's mother, where they will spend several months touring Southern California. Later they will establish their home in Chico. Mrs. Case is a niece of her aunt, Minnie Bunker, who has been planning to take place at Arbor Villa, but Mr. Smith's business interests detained him in the East, and the plans were changed. She is a daughter of the late Mr. and Mrs. John Case of Chico. He graduated from the University of Illinois last year.

ENGAGEMENT ANNOUNCED. The engagement of Miss Ethel Hamilton and Henry Kohler was announced this afternoon at a card party given by Mrs. W. S. Hamilton in her daughter's honor. The affair took place at the family residence in Garfield avenue, where sixteen guests were entertained. The announcement was made at tea following the card game, when the betrothal cards were found concealed in the salad.

Miss Hamilton is a very attractive girl who is one of the prominent members of the Amphion Club. She is a niece of Mr. Kohler, who is engaged in business in Oakland where the young couple will live after their marriage in August.

Assisting Mrs. Hamilton this afternoon were Mrs. Ruth Barnes, among the guests were Mrs. Elsie Reece, Mrs. Pappandre, Miss Gladys Haight, Miss Ethel Kinneer, Miss Ruth Nicholas, Miss Minnie Claudius, Miss Bertha Bernhardt, Miss Helen Engle, Miss Edna Smith and Miss Gladys Fara.

WEDDING AT HOTEL OAKLAND. The wedding of Miss Alice Hill of Berkeley and Walter Ernst of Fresno will take place at the Hotel Oakland.

The Ford reception at which the engagement of Miss Ernestine McNear and George Nickel was announced, was a very brilliant affair Thursday afternoon at the Alameda county home, where the bride, Miss McNear, was one of the beautiful girls of society was radiantly lovely, receiving the good wishes of her friends. There are no plans for the wedding, but it will take place within the next few months. Among guests from Oakland at the reception were Mrs. George W. McNear, Mrs. Philip Bowles, Mrs. Hiram Johnson Jr., Mrs. John Jerome Alexander, Mrs. Eldonette Dietrich Jr., Mrs. John J. Valentine, Mrs. J. R. Whoon, Mrs. John Hutton, Mrs. William Hinkley Taylor, Miss Margaret Bromwell, Mrs. Stewart Hawkins, and Mrs. John Dempster McKee. Among the many others were Mrs. Malcolm Whitman, Mrs. Joseph Tobin, Mrs. Fred Kohl, Mrs. C. O. Miller, Mrs. H. M. A. Miller, Mrs. Diswell Hewitt, Mrs. E. J. Dyer of Berkeley, Mrs. Louis Montagna, Mrs. Chas. Johnston Wheeler, Mrs. Andrew L. Stone, Mrs. Clement Tobin, Mrs. William Thobe, Mrs. Chapin Tubbs, and Mrs. Phoebe Hearst.

OPEN COUNTRY HOME. Mr. and Mrs. Arthur H. Brown left this morning for their country place in the Santa Cruz mountains where they will spend the greater part of the summer.

THE MEDDLER.

THE MEDDLER

(Con. From Preceding Page)

sy Creed, Mrs. Warren Harrold, Harriet Stone, Helen Hinkley, Barbara Brownell, and Lilla and Phyllis Lovell.

Colonel and Miss Glassford have arrived from the Philippines, and are at the Fairmont across the bay. Mrs. Glassford was formerly Miss Eleanor Phelps of this city, the only daughter of Admiral Phelps. She always entertains for her young girl friends, and they are always glad when the fortunes of the navy bring her to California. Mr. and Mrs. Neville Castle (Mrs. Kate Henry), are at Coronado, having gone south on their wedding trip. On their return they will reside in a handsome home on Green street, which is being prepared for them. One hears that Mr. Castle's wedding gifts to his bride were very gorgeous indeed—a necklace, rings, bracelet, and hair ornaments—all of diamonds.

Mr. H. C. Taft has gone to Europe for the summer, and he crossed the Atlantic with Captain and Mrs. Minor Goodall. Mrs. Taft and her daughter

will spend most of the summer with the Max Tafts at Tahoe.

ENGLISH SOCIETY AND GARDENING. Once again the Garden! But it includes so many chapters that the tale bids fair never to be told. One hears that English society has taken to gardening with unalloyed enthusiasm, though indeed, English women have always lived very much in the outdoors. One hears that some of the young matrons have lovely garden tools of silver, and that garden tools are much appreciated as gifts.

One hears a great deal of the coming visit of Mrs. Philip Martineau, who has planned many beautiful English gardens, she is coming under the patronage of President and Mrs. Wilson, to lecture and give practical lessons in gardening.

Mrs. Martineau advocates personal supervision, and one's own work in a garden—and to the joy of every one she is coming to California, and will be here in the heart of winter. Already Burlingame is ready to welcome her, and she will no doubt be entertained by women's club on our side of the bay. We have not, of course, the big grounds of the great country homes of England, nor the formal gardens, but we are hoping that while Mrs. Martineau may help us with good advice, she may find much to praise in the lovely gardens on the hill slopes of Berkeley, Claremont and Piedmont.

WHAT WHIST LAWS DECREE. At the auction bridge clubs these days one hears many references to Law 52—the law formulated by the Whist Club of New York. The law reads:

"A declaration legitimately made cannot be changed after the next player pass, declare, or double."

The English law reads:

"A declaration once made cannot be altered." Now all this is in the way of making women really "good sports" in playing bridge—and willing to be penalized for misdeeds. That a

man should be willing to pay for disastrous mistakes.

At a recent bridge gathering one really good player announced—"A Royal—as a Heart." The other three

were not an honest declaration. The woman who made the announcement gave her partner more information than she had any right to. She told her she had two perfectly good suits—and she might choose either royals or diamonds. In England she would have been penalized and rightly so—bridge players are planning to adopt very much the same line of conduct in New York.

Good ethical standards are just as essential in card playing as in any other walk of life—and people who depart therefrom should be properly disciplined.

ALAMEDA COUNTY'S PART IN 1915 AFFAIRS. In San Francisco preparations are being pushed rapidly forward for the opening of the Exposition next February, and that means, of course, that social activities, on a big scale, and of absorbing interest, will come prominently to the foreground, from this time until the opening of the Exposition.

Alameda county will begin preparations immediately, because being one of the largest counties in the state, and one of the most prominent, it must lead the way. California has a

well earned reputation for hospitality to sustain, and it is "Our California" which will be on trial. Up and down the state in the next few months will ring the chorus, "I love you California!"—and that love must find a concrete, tangible expression. And so, under Mrs. Posey's splendid leadership, big things are planned for Alameda county, and preparations are to be launched forthwith.

With one of the finest leaders in the state at the head of affairs, the county will forge forward, and Alameda county, in achievement, and in generous entertainment will lead the way. There are busy days to come, days full of planning—of social activities—for our county will be an

positions of modern times.

THE MEDDLER.

Those who abhor sticky, greasy, shiny, streaked complexions should religiously avoid creams, powders and rouges during the heated days. There's no need for them, anyway, since the virtues of mercurized wax have become known. No evidence that you've been using the wax. As it is applied at bedtime and washed off in the morning, the complexion never looks like a make-up. Mercurized wax gradually takes off a bad complexion, instead of adding anything to make it worse. It has none of the disadvantages of cosmetics, and accomplishes much more in keeping the complexion beautifully white, satiny and youthful. Just get an ounce of it at your druggist's and see what a few days' treatment will do. Use it like cold cream.

Another effective summer treatment: best, washing to clear wrinkles and blemishes. Use powdered essence in the morning. Its use (as a face bath) leaves no trace.

A standard proportion of gluten, starch, etc., is essential to bread-making success.

SPERRY FLOUR is absolutely of uniform strength in these times—wonderful elements.

mean that a player is dishonest—it means that she is careless, and she

MRS. EELESTELLS OF MEDIUM BUNGO

Bank Account of Sol Alexander Attached by Alleged Victim Keyes.

WESTMINSTER, Md., June 6.—Sol Alexander is under arrest at a hotel here charged with fraudulently obtaining \$2000 from Mrs. Mary T. Eeles of Long Beach.

An attachment has been issued against the bank account of Alexander and his wife by Robert H. Keyes, who is said to have accompanied Alexander here from Nebraska. Alexander is said to have obtained a large sum of money from Keyes, ostensibly for investment.

Mrs. Eeles told Federal officers that she was induced by Thomas McCullough, with whom Alexander is said to have been associated, to mortgage her property and turn the money over to him. At the time, she said, he posed as a medium, who had received a message from her dead daughter, directing her to give McCullough \$2000.

After a trip to Chicago with Mrs. Eeles he disappeared. Alexander, according to Mrs. Eeles, posed as a government officer. She alleges that she paid him \$750 to search for McCullough and that later she turned over \$2000 to him.

Planning for the Stork's Arrival. Among those things which all women should know of, and many of them do, is a splendid and a splendidly aided them through the period of expectancy. Its chief purpose is to render the tendons, ligaments and muscles so pliant that nature's expansion may be accomplished without the intense strain so often characteristic of the period of expectancy.

At any rate it is reasonable to believe that since "Mother's Friend" has been a companion to motherhood for more than half a century no more timely advice could be given the inexperienced mother than to suggest its daily use during expectancy.

Ask at any drug store for "Mother's Friend," a penetrating, external liquid of great help and value. And write to Bradford Regulator Co., 309 Lamar Bldg., Atlanta, Ga., for their book of useful mothers. It contains many suggestions that are of interest to all women.

HISTORIC JAPANESE CRUISERS VISIT BAY OF SAN FRANCISCO

DIVORCE SUIT AND DIVA'S AT CLASH

Rebirth Engagement; Husband Has Many Witnesses.

CHICAGO, June 6.—If Madame Schumann-Heink, who is suing her husband, William Rapp Jr., for divorce, is to attend the Wagner festival in Bayreuth, Germany, June 15, as she earnestly desires, she must leave her case in the hands of her attorneys and hurry away for the defense has only begun and today was devoted to reading depositions of New York witnesses.

Baseball Gambling Case to Be Pushed

SAN FRANCISCO, June 6.—A test case is to be made of the baseball gambling alleged to exist in all of the cities of the Pacific Coast League and according to an announcement made today, the arrest of George Schumann yesterday will be followed by a prosecution through to the highest state court. Schumann was charged with making a book on the ball game and released on \$100 bail. He appeared this morning before Police Judge Deasy and was represented by Attorney Harry Michaels.

Caruso Ends Woman's Broken Promise Suit

NEW YORK, June 6.—The suit for \$100,000 for alleged breach of promise brought in April by Miss Mildred McFerrin against Enrico Caruso, opera singer, has been settled out of court. It was announced yesterday by the young woman's lawyers. Letters alleged to have been written by Caruso have been returned to him, the attorney said. Caruso is in Europe.

President's Chauffeur Is Fined for Speeding

WASHINGTON, June 6.—One of President Wilson's chauffeurs was fined \$10 today in a county court on the outskirts of the capital for speeding with a White House party a few days ago. He pleaded guilty and paid the fine. The President has ordered the White House chauffeurs to observe all local speed laws.

June Marriages Are Numerous as Ever

June weddings are going to be popular in spite of inclement weather. There were 20 marriage licenses issued today in the county clerk's office. The average for the month is higher than for several years preceding and the records for the month threaten to break all records in Alameda county.

TO WRITE OF WONDERS PROF. GILSON TO TRAVEL

PROF. J. C. GILSON, who will write for The Tribune.

Studies of Distant Scenes and Peoples Will Appear in The Tribune

The famous landmarks, cities and wonder places of Arizona, noted throughout the world, will be subjects of a series of special articles to be printed during the summer months by THE TRIBUNE, these to be from the clever pen of Professor J. C. Gilson, principal of Longfellow school, who, as a writer of scientific and sociological topics, is already well known to the readers of this newspaper.

Mr. Gilson has been commissioned as special correspondent for THE TRIBUNE to visit these wonder spots, recording his observations and researches. Among the interesting places he will visit are the Salt River valley, Phoenix, the Roosevelt dam, one of the most remarkable engineering works of the century; the Arizona ostrich farms, Prescott, the petrified forest, the painted desert, the ancient cliff dwellings of the old Indians, Coon Butte, the meteoric mountain, the Indian reservations, the Colorado Grand Canyon, and other points of interest.

Mr. Gilson will describe in full the wonderful scenery and scientific facts regarding these places, his impressions of the people of these lands, whom he will interview and study, and his impressions of the region. The articles, which will be of an instructive as well as entertaining nature, will be printed as soon as possible after Mr. Gilson has visited the places on his itinerary.

EUGENE STACHLER CLUB MEETS APPROVES AUDITORIUM BONDS

At the regular weekly meeting of the Eugene Stachler Improvement Club, held last night at their rooms, the following speakers spoke in behalf of the auditorium bonds:

President Eugene Stachler, W. H. Lee, William B. Josephs, John E. Harlock, Al Williams, T. J. Holliday, J. T. Crumney, Charles Tevlin, Arthur Schramm, C. E. Chisholm, M. Quinn, W. H. Millan, J. R. Chisholm and Thomas H. McDonald.

Whereas, The Eugene Stachler Improvement Club of the city of Oakland, priding itself in always being for the welfare and betterment of the whole city of Oakland, and feeling at this particular time that the completion of this magnificent building would, without question, benefit the entire city, do hereby

Resolve, That the Eugene Stachler Improvement Club heartily endorses the approval of the bonds, and further that the members of this club, individually and collectively, hereby pledge themselves to use all honorable means to accomplish the carrying of said bonds.

C. E. CHISHOLM, Secretary. W. H. LEE, Treasurer.

MILITANTS BURN CHURCH

SUFFRAGISTS RUE DALTON EXTEND FIGHT

Constitutional Campaign for Votes Is Urged, Annoying Cabinet.

LONDON, June 6.—The campaign of the arson squads of the militant suffragettes was continued today when the women set fire to and destroyed a fine mansion near High Wycombe in Buckinghamshire, about thirty miles from London.

The mansion was filled with valuable furniture and objects of art. The usual suffragette literature was found about the grounds.

Breadall Church, a historic edifice near Derby, was destroyed in the early morning and during the day an amateur bomb was found in Duddhoe Castle, near Dundee. The fuse of the bomb had been extinguished by the wind.

SYLVIA PANKHURST AGAIN. Sylvia Pankhurst, borne to the platform on an invalid chair, made another appearance last night at a suffrage meeting in Nottingham and repeated her threat that she would be on the steps of the House of Commons without food or water until Premier Asquith consented to receive a deputation of her followers.

While the militant suffragettes are pursuing a campaign which in the opinion of most people only tends to defer the attainment of their wishes, the non-militant section has organized and is carrying on a constitutional political program.

The National Union of Women's Suffrage Societies, whose executive committee embraces a large number of influential persons, including Mrs. Harry Sawett, Lady Frances Balfour, the Countess of Aberdeen, Lady Brasser, Lord Courtney and Lord Lytton, has issued a report showing that it is spending funds freely at bye-elections in support of labor party candidates and against the official Liberal Unionist.

Mr. Gilson lives at 1055 Bella Vista avenue.

Mr. Gilson's articles on mechanics and other topics of a scientific nature, which have long been considered as of great educational value, have recently been followed by several sociological articles which show a keen insight on the part of the author into the minds of men as well as into the abstruse facts and laws of mechanics and the devious workings of nature.

His sociological works have attracted quite as much attention as his scientific writings. In the present series he will be able to give his readers a full and complete account of his travels and his impressions of the people of these lands, whom he will interview and study, and his impressions of the region.

Mr. Gilson will describe in full the wonderful scenery and scientific facts regarding these places, his impressions of the people of these lands, whom he will interview and study, and his impressions of the region.

SURVIVORS OF BIG BATTLE WILL MEET AFTER FIFTY YEARS

PETERSBURG, Va., June 6.—Survivors of the battle of the Crater, which took place on the outskirts of Petersburg July 30, 1864, will be invited to participate in the celebration of the fiftieth anniversary of the engagement to be held here July 30. The celebration will be under the auspices of A. F. Hill camp, Sons of Confederate Veterans, and union and Confederate veterans from all over the country are expected to attend.

President Wilson, Secretary Bryan, Oscar Underwood, majority leader in the house and Speaker Champ Clark will be invited to deliver the principal addresses.

A banquet to the survivors will be a feature of the program, when incidents of the engagement will be recounted by men who participated in the conflict, which was the most notable in the Virginia campaign, as it delayed the surrender of the Confederate troops for nearly a year.

HALT TRUST BILLS

But One Administration Measure Reported Out by the Senate Committee.

WASHINGTON, June 6.—The Senate Interstate commerce committee today voted to report out only the trade commission measure of the trust bills. The action was construed by many as an indication of limitation of the administration's program at the present session of Congress.

There was no record vote. In a general discussion some senators opposed the motion and others declared themselves opposed even to the bill at the present time. Chairman Newlands said the committee later might take up supplemental legislation and issued this statement:

"The committee determined today to segregate the trade commission from the supplemental legislation and authorized me to present an amendment in the nature of a substitute for my original bill for a trade commission."

The committee concluded to name the trade commission the federal trade commission instead of the interstate trade commission in order to clearly distinguish it from the interstate commerce commission.

FEARS GROUNDSLESS, CLAIM. "The fear expressed that this bill will inaugurate a wholesale inquisition for the 350,000 corporations of the country is groundless. This power is substantially the same as is now possessed by the bureau of corporations and certainly the powers of that bureau have not been exercised in such a way as to cause the honest business of the country."

"The committee will continue its consideration of supplemental legislation regarding interlocking directorates, holding companies, railway securities, etc., and its action may be in the line of amendments to the trade commission bill, or of separate legislation."

Some administration senators declared the committee's action did not form shadow a curtailment of the trust program at this season. Those inclined to the view that it may be pointed out that the committee's action came after conference with some of the members with the president and emphasized the pressure for an adjournment before the fall campaign.

THREAT SENATE ACTION. The three bills which comprise the administration's anti-trust program today attracted the action of the Senate. These measures were before that body after having been passed by the House yesterday by overwhelming majorities.

These measures are the Covington interstate trade commission bill; the Clayton omnibus anti-trust bill; and the Ravenna capitalization bill. It was expected that the Senate would today refer these measures for committee action.

The Senate committee on interstate commerce was expected to vote today on a pending motion by Senator Pomerehne. This motion is that the committee report immediately the trade commission bill, and that other phases of proposed trust legislation be postponed for the further action of the committee. Senator Pomerehne explained that his motion does not mean a curtailment of the anti-trust program, but is designed to bring before the Senate for early consideration the only piece of legislation on which the committee has agreed.

Action on the trust bills in the House came unexpectedly. The three measures had been agreed to in "committee of the whole" after weeks of speech-making, consideration of the Rayburn bill, as amended by the committee, being completed late yesterday afternoon. When the trade commission bill came before the House for a final vote, Progress Leader Murdock moved that it be sent back to the interstate commerce committee.

The Murdock bill as a substitute. This was rejected 161 to 13, and the pending bill was passed without a roll call. The votes on the other two measures were taken in rapid succession.

LONESOME DEMOCRAT. Representative White of Ohio was the only Democrat to vote against the Clayton bill, and all the Progressives voted for it except Representative Chandler of New York. Forty-three Republicans and sixteen Progressives joined the majority.

Republicans, Anderson, Barton, Burke, South Dakota, Campbell, Cary, Curran, Curry, Davis, Dillon, Hale, French, Gardner, Wade, Green (Iowa), Harrell for his money when the two were out hunting. Later he pleaded not guilty in the Superior Court.

THRONING IS MOVED TO CHEERS

Mayor Rolph and Exposition Officials Greet Warriors

Bay Cities Arrange Fetes for Mikado's Officers

SAN FRANCISCO, June 6.—With the flower of the Japanese colony waving flags and shouting "Banzai" in lusty fashion, the two imperial cruisers Asama and Azuma steamed through the Golden Gate shortly before 10 o'clock this morning and docked amidst the cheers of the assembled multitude. As Vice-Admiral T. Kuroki with his personal aide, Commander Konaki and Lieutenant K. Arima, stepped down the companion way, they were greeted by the Japanese consul-general and the foremost Japanese officials of the city as well as Mayor Rolph and representatives of the Panama-Pacific Exposition Company.

As soon as the admiral reached the dock he was joined by Detectives Bakulish and Riehl of the police department, detailed by Acting Chief Shea to act as his personal body guard. The pier at which the officers and cadets of the two Japanese cruisers disembarked was well polished and everything possible was done to show courtesy to the visitors.

OAKLAND REPRESENTED. Long before the two cruisers had passed over the bar the representatives of the various Japanese organizations were on their way to greet the visitors.

Prominent among those who came as a reception committee were members of the Japanese Association of Oakland. Today will be spent by the officers of the ships and the cadets in sight-seeing. Tomorrow the regular program begins with athletic sports on St. Ignace grounds. A reception will also be given tomorrow to Yasutaro Numano, consul-general of Japan, and the program for the week includes a trip to Mt. Tamalpais and an entertainment in Oakland by the Japanese Association including luncheon tendered to the officers there by the Oakland Commercial Club.

On Monday there will be a reception at the Nippon Club here and on Tuesday Dr. Charles F. Aked of the First Congregational church, will present copies of the Bible to every man on board the ship. The officers will be tendered a dinner by the chamber of commerce on June 10 and a luncheon by the Commercial Club on June 11. The entertainment on the part of the Exposition officials will occur on June 10 and include a luncheon and a tour of the fair grounds. A visit to Sacramento will be made on June 12, and the officers of the ships will endeavor to give the same courtesies to their entertainers on June 13 when an at home on board the Asama. The squadron will then leave for Vancouver, Victoria and Tacoma.

VETERANS OF WAR. The Asama is a first class cruiser of 9,200 tons and the Azuma a first class cruiser of 9,325 tons. Both played an important part in the Russo-Japanese war. The Asama is captained by T. Hirago. With Captain Yasuiro, now minister of the navy in charge, she sank two Russian cruisers off the Korean port of Chemulpo during the war. The Asama is under the command of Captain K. Sato.

The athletic sports of Japan will be revived tomorrow at the athletic field of St. Ignace College, where the Japanese Association of America will hold an athletic carnival. Prominent Japanese of both sides of the bay have arranged the beginning of the carnival. American games as well as those of Japan will be seen, and the colors of the two nations will fly above the field.

MAYOR STRIKES FOR BACK SALARY; WINS. MONTREAL, June 6.—His worship, Metairie Martin, recently elected mayor of Montreal, struck yesterday and refused to attend a meeting of the board of control until he received \$395 due, he says, as his salary for the two weeks during which he was kept from taking office by troubles over recounting the ballots cast at the last city election.

The board of control promised the mayor that he would receive his full salary of \$20,000 for the two-year term, and later the committee decided to pay the mayor the \$395 he demanded.

The mayor thereupon called off his "strikes."

Flaughen, Hawley, Helgeson, Johnson (Washington), Kelley (Michigan), Kennedy (Iowa), Kent (Nebraska), LaFollette, Leonard, McKenna, McLaughlin, Mapes, Mondell, Morgan (Idaho), Nease (West Virginia), Porter, Roberts (Nevada), Scott, Smead, Green, Smith (Idaho), J. M. C. Smith (Michigan), Stafford, Sutherland, Towler, Ware and Woods—43.

Progressives, Bell (California), Bryan, Copley, Falconer, Fitzgerald, Hulings Kelly (Pa.), Lindbergh, Macdonald, Murdock, J. I. Nolan (California), Ruppel, Temple, Thomson (Illinois), Walters, Woodruff—35.

The eight Republicans and four Democrats who voted against the Rayburn bill were:

Republicans, Cranton (Michigan), Dunn, Fairchild, Gillett, Moore, Parker, Payne, French, Gardner, Wade, Green (Iowa), Harrell for his money when the two were out hunting. Later he pleaded not guilty in the Superior Court.

Republicans, Anderson, Barton, Burke, South Dakota, Campbell, Cary, Curran, Curry, Davis, Dillon, Hale, French, Gardner, Wade, Green (Iowa), Harrell for his money when the two were out hunting. Later he pleaded not guilty in the Superior Court.

AMERICAN YACHTS ARE STRIVING TO DEFEND THE CUP

Vanitie, Resolute and Defiance Will Race During Coming Week Course.

NEW YORK, June 6.—With the passing of the first few tacking up tests of the three yachts striving for the honor of defending the America's Cup, the yachtsmen and crews are preparing for the summer series of races which will be held in the Sound and Long Island Sound. The yachtsmen are confident that they will be able to defend the cup against the challenge of the new yachts.

There will follow a week devoted to repairs and changes in the yachts, to be succeeded by two weeks more of racing. All of these events will be held in the Sound and Long Island Sound. The yachtsmen are confident that they will be able to defend the cup against the challenge of the new yachts.

BUSHER TURNS LAUGH ON SUTOR

A good story is told about Harry Sutor, the ex-Beaver sportsman, whom the fans will probably remember as Sutor, who had never seen Hans Wagner, was explaining how he would pitch to the Flying Dutchman.

"I'd from two slow curves on the outside corner," he remarked. "He'd probably foul one. Then I'd throw two high outside, waiting for the pitcher to get into a corner and I'd cross him with a fast one."

OLYMPIC MEET SETS NEW RECORDS

The new records were established in the open swimming meet at the Olympic Club last night. The distances in which the records were set were 200, 400, and 800 yards.

The yachtsmen are confident that they will be able to defend the cup against the challenge of the new yachts. The yachtsmen are confident that they will be able to defend the cup against the challenge of the new yachts.

WHITNEY HORSE WINS IN ENGLAND

MANCHESTER, Eng., June 6.—Harry P. Whitney's "Harmonium" won today the Bedford Borough handicap of \$450 against a field of fourteen runners. Augur was second and Maritima third. The distance was 9 furlongs.

"SIR TOM" IS HAPPY OVER YACHT

LONDON, June 6.—In response to an invitation for his opinion of the Shamrock IV on her showing in Thursday's sail-stretching trip, Sir Thomas Lipton said last night: "The Shamrock IV came up to my fullest expectations during her first voyage. She will do still better and I have every confidence in her success. The four leaves will do the trick."

DIAMOND FLASHES

By L. B. GROSS.

Clinton Prough, the big sweet potato, who was secured by the Oaks from the White Sox, and who led the Southern league for the last three years, appears to have struck his expected form.

Prough had a rather rough time getting started in this climate, but last week he lost a hard-fought game to the Tigers, letting the latter club down with three hits, while his teammates piled up eight bingles, but could not score.

The Oaks played the game as it should be played, in the first inning, and as a result two runs crossed the plate on two hits. Rocky Middleton, the first baseman, drove a home run, and Kaylor beat out an infield hit and Middleton advanced to second. Then Zachary laid down a pretty sacrifice and Rocky and Ted both advanced a base. Gus Hettling came across with a home run to the right garden, scoring Middleton and Kaylor.

The most sensational stop of the game was executed by Ernie Johnson in the sixth frame. Zachary, cap blew off berth if the first leg is to windward, and the wind came in from the north, with the wind clear if the course is to leeward, is the supreme test of the sailing master and many a race has been won or lost through success or failure at the outset.

Howard Elmke, the sensational young twirler on Dillon's staff, was called to the fore for the Southern today, but if the rain continues it will be some time before the fans will get a peep at the marvel.

Shortstop Moore of the Angels was laid up yesterday in a severe attack of pleurisy. Boss Dillon luckily had John Johnson to fill the gap, and Johnson filled in at short in fine style.

Honus Mitze, the Oaks' head little catcher, tells a story on how he and Harry Meek, now with the Angels, once decided which should take a job as catcher with a certain ball club. Meek was equally as handy with the cue as he was with a bat and ball, and came out ahead in the contest.

Mitze and Meek were both trying out with the Cardinals in the Southern league last year. Another fellow had pitched off the first string job, and as only two catches were to be carried, it was a matter of who would get the last one.

Meek was hanging around their hotel one night when Mitze came in. "I'll just play you 100 points at billiards to see which one of us stays," said Honus. "You're on," replied Meek.

Mitze got away to a good lead, had 50 points on Meek's 45 and Harry was about ready to pack his gear and beat out of town. Meek missed an easy shot and left the ivorys bunched. Meek ran the necessary 14 points, and so it was Mitze who left in quest of another job.

Baltimore and Pittsburgh in the Federal League yesterday played a 14 to 3 game which was won by Baltimore, and in which a total of thirty hits were registered. Six triples and two doubles were among the thirty bingles doubled over by the two teams. Baltimore players connected for 15 safeties and Pittsburgh for 12. Barker, Leclaire and Berry was the battery for Baltimore.

Colonel A. H. Havens has presented the Oakland baseball club with a well preserved photograph of the team which represented this city along with 1893. The picture is a large one and permits of time fans to recognize the features of the team. The picture is a large one and permits of time fans to recognize the features of the team.

Back in Danville, Illinois, whence came Ted Taylor, the attendance at the ball game has suddenly increased to an extent which has ended the talk of dropping the club from the league. The city council drafted an ordinance for bidding free lunches in the saloons, whereupon the saloonmen retaliated by abolishing the practice of "rummy" abolished in all the cigar stores. Having no other diversion, the fans now attend the games.

Pitcher Hank Chaillette is in bad again. It will be remembered that Denver purchased his release from Venice, but instead of reporting he went to Fort Worth, where he pitched for that team. In the meantime he was awarded to Denver and Fort Worth notified not to use him. However, he concluded it did not want him and he remained with Fort Worth until the other day when he jumped the team just when clipping of players made his services most essential.

We note that Walter Nagle, former Coast league pitcher and ex-manager of the San Jose Bears, is now secretary of the San Jose Chamber of Commerce. He is a regular "nature man" when it comes to imitating the calls of the feathered songsters.

YACHTS COMPETE IN LARCHMONT DAY

RYE, N. Y., June 6.—Larchmont day for the cup class yachts Vanitie and Resolute opened today with the fourth race between the two yachts. One of the yachts is so far ahead of the other that it is almost certain to win.

He Violates the Rule for Brothers

This is Monte Attell, brother of Abe. Usually a brother of a champion doesn't amount to much, but Monte has upset tradition in this respect, for he has a following all his own.

MONTE ATTELL GAINED HIS FAME FROM 42-ROUND BATTLE

Chap Who Boxes Fitzsimmons for West Oakland Club Is a Marvel.

(By THE TIMEKEEPER.)

In Monte Attell, Willie Fitzsimmons, who has been making such a record in this locality lately, is meeting one of the old-timers in the ring, and one of the gamest men the ring has ever known. Monte, like his brother Abe, is clever, and Willie will have to extend himself to the utmost to win at the West Oakland Club's show next Tuesday night. If he does win it will put him in the class of the best featherweights in the country.

When an interested fan looks into the record book for the history of Monte Attell's ring career he will find that the son of the famous name, was born in San Francisco on the 23rd of July, 1889. It is very often the case that the success of a youngster in the ring will induce his brother to get into the game, and so it was with Monte Attell. Following in his brother's footsteps he very soon became one of the foremost in his class, and he has remained so. Sometimes giving, and sometimes taking, but he is always fought to the last ditch.

Although born in San Francisco, Monte did most of his boxing in the East, but the fans will all remember his battle with Frankie Conley at the Vernon arena on that memorable day when Ray Richmond.

The battle was for the title and Tom McCarney's belt that was offered with it, and it was on Washington's birthday.

Attell hammered like a madman at Conley's almost impenetrable defense, and the end of the 32nd round had found aggressiveness gave him a shot, but his great point. But Monte was tired from his own efforts, but Conley was as fresh as a daisy, and he was waiting for an opportunity to strike.

In the thirty-third round the little Hebrew received a blow under the heart and from that time on he was an up-hill fight, but Monte stuck gamely to the end, and his left eye ended the fight, his mouth badly swollen and bleeding, he was laid out for a few minutes, but he got up and after five seconds' rest he regained his feet. Monte rolled over on his back and lay there for two minutes before he got up.

Monte Attell was greater in defeat than in victory. Conley was on the long end, his battle was just as tough as the one which Nelson put up, and those who saw it will always hold a high regard for the game little fighters who ever pulled out a shove.

The present argument used by Jack Kearns in favor of Billy Murray is about the most foolish piece of work ever attempted by a manager or promoter to get his protégé in bad. Letters to all the newspapers in the country, claiming the middleweight championship for "fighting" Billy Murray on a return match with the former. Now that is the first time anyone has ever based a claim to a championship on a return match.

Today Kearns is writing the western people that the New York papers regard Murray as champion, but seems to forget that the New York papers regard Murray as champion, but seems to forget that the New York papers regard Murray as champion.

The Chip-Murray match which Jimmy Coffey has been planning for the Fourth of July has been hanging for several days on the weight question, and Coffey says that if the men do not come to some agreement today he will start negotiations for a bout between Joe Azavedo and Charley White for that date.

In their previous meeting, White got the best of the argument, but Azavedo claims that he will be able to get the Chicago box in 20 rounds. Azavedo is slow to start, but can take an unlimited amount of punishment, and the outcome in 20 rounds would be uncertain.

The agreement of the London promoter to post \$500 in New York before Ritchie could put a different aspect on the Ritchie-Walsh match is now scheduled for July in London and the champion will leave Chicago for New York at once.

Willie is now on his way to sail for the other side on the Aquitania next Wednesday with his brothers, Henry and Ed. They will act as his managers. Eugene Cort will referee.

The probable main event for the next Wheeler's Club show is a fifteen round bout between Joe Azavedo and Joe Mandor. The Southern Idol Rohan is pitted to put these boys together in case the judge.

Tom Nickola who boxes one of the next Tuesday night is training at the Yosemite Club on Fifth and Union streets. Tom recently spent a vacation in Harbin Springs, and is looking fine for his coming bout with Al Rogers, who is now on the other side on the Aquitania next Wednesday with his brothers, Henry and Ed. They will act as his managers. Eugene Cort will referee.

Faddy Norman, representing Johnnie Mario of New York, writes that he is contemplating a trip to the West with local promoters. Johnnie is anxious to meet any one of them in these parts at 125 to 150 pounds and Mario has tests in the East, including Leach, Crown, Fatty Baldwin, Abe Attell, Lew Powell, and Jack Britton.

Moran will be remembered by the local fans as a brilliant roadrunner in the West when the latter fought Sam Berger.

Get rid of the Torment of Rheumatism. Remember how easy and active you were before you had rheumatism, backache, swollen, aching joints and stiff, painful muscles? Want to feel that way again? JOE HEAVY-HITTER SOME KANAKA!

The West Oakland Club has uncovered a Hawaiian sensation for their card next Tuesday evening. What his real name is we can't tell, because it cannot be set up without damage to the linotype machine. He calls himself Joe Heavyhitter and has a record of winning sixteen fights in Honolulu all by the knockout route. Joe has been matched with Paul Cobb in a four-round fight and has bought twenty-five tickets for his friends among local Hawaiians. The party started Tuesday morning at 10 o'clock, and they would need an auto truck to convey them to the pavilion, as they intended coming with wheelchairs and other Hawaiian accessories.

Joe Heavyhitter looks like his name. One can readily imagine how he knocked out his opponent to conquer. He is some Kanaka! Eddie Baker is to act as the club's referee.

EIGHT MEN PRIMED FOR WORLD MARK IN QUARTER

Gloomy Weather Threatens to Mar Conditions at Big Meet.

CHICAGO, June 6.—Records were expected to fall today, weather permitting at the fourteenth annual outdoor meet of the Intercollegiate Athletic Association. The eight men who qualified yesterday for the quarter mile all proved their ability to run the 4-1/2 mile in less than fifty seconds, and Ira N. Davenport's record of 35 4-5 is one of those menaced.

In spite of heavy rains in the last two days, both track and field were pronounced this morning in good condition, but lowered clouds provoked anxiety at the part of the athletic committee. "Gentle showers with possible showers," was the best the United States Weather Bureau could offer in the way of prediction. The day was ushered in by a hard shower.

Goetz of Illinois, regarded by his university as a sure thing winner in the quarter mile, was the only one to complete under protest. Harry Gill, coach for Illinois represented reported to the committee that Goetz's name had been omitted from the list of entries solely through a clerical error and the committee was indisposed to stand on the technicality.

Trials heats for the quarter mile yesterday did not give any line on the results today as the men did not exert themselves more than was necessary to qualify.

East of Purdue ran an impressive race and Chase of Leland Stanford, who took third place, and Chase of Leland Stanford, who took third place, and Chase of Leland Stanford, who took third place.

Sanders of Illinois, who ran second to Chicago in the first trial, did not appear to be warmed up, and finished in 51 well within himself.

ANGELS HAVE SIGNED ZEB TERRY

Manager Frank Dillon has announced the signing of "Zeb" Terry star Stanford shortstop. Terry is in the south and has been ordered to join the team immediately. Charlie Moore is suffering with pleurisy and Johnson, the regular short fielder, was forced into the game yesterday with a spiked hand. Terry has played four seasons with the Chicago Cubs and is a promising prospect. Several big leaguers besides Walter McPherson were after him.

JIMMY CLABBY ROBBED IN AUSTRALIAN DEBUT

Decision Given to Jeff Smith Precipitates a Riot

SYDNEY, N. S. W., June 6.—Jimmy Clabby, the Indiana mid-dleweight, was given the worst of an unpopular decision here to-night in a twenty-round boxing match with Jeff Smith, a Philadelphia fighter, who has been in Australia for several years. So little did the crowd like the referee's judgment that the decision brought on a riot. The police had difficulty in controlling the audience and the referee was hissed and booed. This was Clabby's first fight since coming here from San Francisco, and he made a favorable impression. The opinion generally was expressed by sport writers and experts at boxing who attended the fight that

Clabby was robbed. The referee's decision was given to Jeff Smith, a Philadelphia fighter, who has been in Australia for several years. SAM CRAWFORD IS STILL LEADING AMERICAN SLUGGER

Hummel Tops National; Kauf Leads Feds; McCormick the Southern.

CHICAGO, June 6.—John Hummel of Brooklyn leads the batters of the National League this week with an average of .441 for the 14 games in which he has played. Next to him came Dalton, Brooklyn, .386; G. Burns, New York, .382; Byrne, Philadelphia, .358; Cather, St. Louis, .348; J. Wagner, Pittsburgh, .328; Cravath, Philadelphia, .326; Clarke, Cincinnati, .321. New York with .271 and Brooklyn with .267 are club leaders. Dalton of Brooklyn and L. Mages of St. Louis, with 14 each, lead in stolen bases. Sam Crawford of Detroit continues to top the American Leaguers with .344. The next nine are Oldring, Philadelphia, .338; Coleskie, Detroit, .333; C. Walker, St. Louis, .331; Baker, Philadelphia, .329; Cobb, Detroit, .324; Bush, Philadelphia, .318; Mihan, Washington, .317; Jackson, Oakland, .314; Hartzell, New York, .308. Philadelphia is ahead in club batting with .364 and Detroit next with .347. Mihan of Washington and Maisei of Portland lead in stolen bases with 17 apiece.

Team of Indianapolis leads the Federals in batting with an average of .415 and also is ahead in stolen bases with 15. Indianapolis is the best batting team with .282.

Patterson men are doing a large percentage of the best hitting in the American Association. Joe Lake of Minneapolis is real leader with .406, though Titus' .390 average, made before an accident put him out of the game, keeps him on top. St. Paul with .373 leads in club batting. Wertzler of Kansas City leads in stolen bases with sixteen.

Battling leadership in the southern is held by McCormick of Chattanooga with .372. Callahan of Nashville with twenty-two stolen bases leads base runners. Chattanooga with 255 tops the clubs in batting.

Stumps of Topeka is doing the best batting of the Western with .473. Next to him are Lejeune of Sioux City with .460; Shaw, Des Moines, .404; Mullen, Lincoln, .390; Koerner, Topeka, .381; Ewald, Des Moines, .378; Congleton, Omaha, .377; Jordan, Lincoln, .370; Kautz, Sioux City, .367; Butcher, Denver, .362. With .305 Sioux City is club leader in Denver is next with .292. Base stealing and home runs go to G. Watson of St. Joseph with 21.

Walsh of Rochester leads the International with .522. Derrick, Pick of Toronto and Getz of Newark with 13 each are tied for steals. Chicago is leading in batting leadership is held by Providence with .260.

MURRAY AND HAHN WIN AGAIN

NEW YORK, June 6.—In the first round of the Slocum Hollow County club tennis tournament the California players, Lindley Murray and Herbert Hahn of Los Angeles, defeated the local players, Howard Plummer and...

Murray and Hahn were at their best in doubles. In their rallies they moved like a machine. They beat Plummer and Howard Plummer 6-2, 6-2.

RIS, Jan. 1.—A new morgue is being built in full accordance with modern scientific methods. The new building is on the corner of Madison and Washington streets, and will be of massive building of many rooms to enable lawyers and magistrates to work and to house a museum of crime. It will stand by the Pont Neuf, and far from its old predecessor.

Insulted.—The new legal will, we are aware that the old morgue, but we are sure of the future of the new building. It will be the center of the new building, and the old building will be the center of the new building.

KILLS ELEVEN MINERS

LEEDS, England, June 6.—Eleven coal miners were killed and a number of others injured today by an explosion of gas in the Silkhstone colliery at Wharfedale.

GARFIELD HIKE CLUB PLANS OUTING

of the women's Melrose Playground was held on Thursday. The making of women was dressed by Miss Winifred Van Ha general supervisor of girls in the Recreation department, who delivered a talk on adult recreation. A program of music and folk-dancing followed. Social meetings of the club are held on the first and third Thursdays of each month. The officers of the Melrose organization are: President, Mrs. Wessley, treasurer, Mrs. Bramble, secretary, Mrs. Keck.

THE MASTER MIND

MACDONOUGH

The final exhibition of the thrilling photo drama, "The Drug Terror," will be presented at the Macdonough Theatre this afternoon and evening. The picture is founded on fact and is sponsored by Mrs. W. K. Vanderbilt in the nation-wide campaign to stamp out the terrible drug habit. The picture shows how women, men and children, rich and poor, become victims of cocaine and become wrecks of humanity.

It is not the intention in the pictures to appeal to sensationalists but to show matters as they really exist.

MACK-RAMBEAU ENGAGEMENT.

At the Macdonough theatre next week, beginning Monday night, June 8, will be presented the Macdonough Theatre production of "The Road to Happiness," starring Willard Mack and Marjorie Rambeau, fresh from their triumphant season at the Alcazar Theatre in San Francisco. The picture is a photographic exposure of conditions that exist in every large city. Mary Brennan, the leading character in Mack's play, becomes the employer of William Steadman, a wealthy man, and she has absolute faith in his honor. She is warned against him, however by Tom Hughes, a young newspaper reporter who loves her, but she does not heed him. One day through a clever ruse Steadman gets Mary in his room in order to give her some dictation. He tells her there he insults her and a big scene transpires in which she slaps him and then into which she slaps him in the public press. This big scene will be effectively handled especially by Marjorie Rambeau in the role of Mary Brennan, the greatest part this brilliant

young actress has essayed and Mack himself in the part of the reporter. Annie Mack Berlin, the well known character actress, Eleanor Haber, Kerian Cripps, Charles Compton, Ralph Bell and David W. Butler are in the supporting company. The production will be the same as that recently seen in San Francisco. For their second week at the Macdonough, beginning Monday, June 13, Mack and Miss Rambeau will be seen in Mack's other new play, "The Master Mind."

WILLIAM HODGE COMING.

William Hodge, in "The Road to Happiness," will be seen at the Macdonough Theatre for three days, commencing Wednesday, June 24, direct from a run of twenty-two weeks in Chicago—the longest and most successful engagement of any play produced this season in the United States.

"OMAR," BIG SUCCESS.

"Omar, the Tentmaker," the New York success, in which Guy Bates Post, will come to the Macdonough theatre, the week of June 25, is a Persian play, based on the life, times and adventures of Omar Khayyam. Omar appears first as a young student in the rose scented garden of long ago. For months he has listened to the teachings of the Holy Imam, but with the mind of a great man centuries ahead of his time, he has seen through the fallacies of dogmatism and given more thought to the Imam's beautiful daughter than to his teachings.

ORPHEUM.

Two names brilliant in theatrical circles head the bill at the Orpheum this week. They are Miss Bessie Wynn, known as "Lady Dainty," and Robert T. Haines, the American actor. Miss Wynn is one of the most attractive actresses on the stage today, possessed of a subtle magnetism and a personality of unusual type. She creates at once the impression of an operatic diva, plus the grace, histrionic and pan-

tomine skill rarely found in conjunction. She is considered one of the best dressed women in vaudeville, her costume always a revelation and the height of good taste. Robert T. Haines first went into vaudeville with "The Coward" as the vehicle, and will be remembered by Orpheum goers as handling the character superbly. This engagement he is bringing a fine little comedy-drama entitled "The Man in the Dark," by William J. Hurlbut. The character has to do with the suave, bland and mysterious person with a quixotic touch always interesting. He philosophizes without preaching and is funny without being flippant. He holds the suspense of the "Man in the Dark" artfully until the skit unfolds to the interested audience. He carries a splendid support, Esther Van Eytinge, in the feminine role especially pleasing.

One of the best features of the bill is the sketch, "In Dreamland," portrayed by Bob Matthews, "Dopey" fame, and Al Shavne, Yiddish, a most want of the East Side. The two fall asleep and are transported to Egypt where mummies swathed in ancient costumes are where sand is gold dust and the atmosphere is full of the perfume of Araby. The sketch is exceedingly funny, and when the Egyptian scene makes her voluminous appearance in all her finery, and unwashes the mummies, who do a dance act, the interest of the audience is held by the rapid and unlooked-for changes. The act is full of scenery, quick changes and interest.

The Kramers make a decidedly graceful and graceful exhibition this week, in which athletic skill and feminine beauty are pitted against each other. The feats are well balanced and gracefully and skillfully put on. The beautiful Spanish dancer, "Oterita," considered one of the best dancers in her native country, and who has received for three years consecutive the government order of merit, comes this week in her exceedingly graceful work of portraying the charms of the women of her land. In Madrid she is commonly referred to as the legitimate successor of the famous Carmenita. She is assisted by Senor Matias Turron, a handsome young Spaniard.

Hornea Wright and Rene Dietrich, who have been delighting the audiences of the Twelfth street house for the past week with their splendid voices and ballads and operatic selections, will be held over for this week. Henriette De Serre and her company of fifteen French models, will again appear in reproductions of famous works of art, elaborately staged. Lillian Shaw, the song impersonator, who has been delighting her audiences during the past week in her Heddish and German dialect stunts, will be held over for the coming week. The usual exclusive motion pictures will be run for the week.

Geo. Spaulding at the Columbia.

COLUMBIA

"The Cupid Express," Dillon and King's musical comedy flier, will leave the Columbia Theatre station this afternoon, bound for Georgia. The made up of the latest stage equipment, train, with ample facilities for the entertainment of its passengers, is expected to break all speed records during its trip to the land of make-believe.

Enjoying the luxuries to be had in the observation and buffet car, Mike and Ike are discovered surrounded by their crew of jolly entertainers. Such is the condition of affairs when the curtain rises upon the opening scene of Dillon and King's latest gloom dispeller. The popular fun makers have arranged a most pretentious and unique offering for the amusement of Columbia regulars.

In "The Cupid Express" most of the action takes place upon a transcontinental train bound for Atlanta, Georgia. The locale of the piece allows for pre-tentious scenic effects and novel features. The second scene, a Southern plantation, promises to be most realistic. The plot is of the true Dillon and King variety, which allows for the usual amount of merry making. The comedy scenes in which the skit abounds are evenly distributed among the various members of the company. Dillon and King will have the support of the following players in their new presentation: Ruby Lane, James Dillon, Vilma Stech, Jack Wise, Madeline Mathews, George Spaulding, Vera Vaughn and the vivacious Ginger Girls. In a musical way "The Cupid Express" promises to emulate any of its predecessors. The feature of the program is

undoubtedly "My City Oakland," a lively song hit from the pen of Fred A. Campbell, prominent clubman and candidate for county assessor. Campbell's latest song promises to prove as popular as the one sung at the Columbia some weeks ago. The following selections will also be heard: "Cock and Egg," "Down Georgia Way," "My Rose of Honolulu," "A Girl Just Made to Love," and "Make That Engine Stop at Louisville." The Trio De Luxe will be heard in several song specialties.

PANTAGES

A spectacular production in four scenes of "The Soul Kiss" is the headliner at the Pantages Theatre for the current week, staged and arranged by George H. Ford, with the music of Maurice Levi.

A cast of 20 is used in the vaudeville production, with elaborate scenery and setting and gorgeous costumes. There are several new song and dance numbers in the act.

An odd number is the moving picture drama, "What Women Want," with Mrs. Elinor Pankhurst, the militant English suffragette, in the leading role. This is the only authorized picture in which the militant leader has ever posed before the camera, and shows her in many characteristic positions. The play itself is a political drama and deals with the question of women's rights, so pressing in England.

OAKLAND PHOTO

"The Master Mind," the feature of the day, Wednesday program, is a brilliantly absorbing and thrillingly interesting photo drama, a distinct departure from the present day crock plays. No more vivid photo play has ever been conceived than this Lasky feature in which Edmund Breese, the brilliant dramatic star makes his initial appearance in motion pictures. "The Master Mind" is a play that mirrors many of the most sensational events of the underworld. Its chief characters include Richard Allen (the master mind), a master criminal, a rickshaw detective, a United States marshal and several dozen characters of the underworld.

In point of thrills, the film goes its stage parent several better. Every device known to a resourceful director has been utilized to contribute to the atmosphere of mystery in which "The Master Mind" chooses to live. Secret doors leading to underground vaults, innocent appearing walls that hide the unexpected, a network of wires to be operated only by the hand of the master—we have them all and used in the best of manner.

Like most accomplished actors, Mr. Breese takes to pictures quite as grace-

ward acting is given by Fred Montague, while Mabel Van Buren is well cast as Lucine, alias "Three Arm Fanny."

Richard Allen, kidnapped when a boy, and his subsequent apprenticeship for the life of a thief, are first shown. The story then jumps some thirty years and presents The Master Mind at the zenith of his power. Presently he meets his brother Harry whom he has not seen since their childhood days, and from this point on there is scarcely a break in the succession of exciting quick moving scenes. Harry shoots a man and is executed, whereas "The Master Mind" swears vengeance on the district attorney. To keep the latter in a continual state of unrest the criminal promises to advise him of his approaching end by sending, at significant intervals, the four aces from a pack of cards. The complications of the plot, through which "The Master Mind" traps his enemy and then forgives him for the sake of the woman they both love, are all that the most ardent lover of the melodrama need ask.

IDORA PARK.

No more dramatic story was ever told than that contained in Genesis, and the International Bible Students' Association has been the first to realize this and to make use of it in the form of a great photo-drama. This wonderful motion picture, which required months of labor on the part of a corps of artists and Biblical scholars, is now being presented at the Idora park theater, and by special arrangement with a number of Oakland merchants, complimentary tickets are being given away.

Pastor Russell, who prepared the great Biblical photo play, has harmonized science and religion. The pictures tell a connected story of the creation of the earth, of its early development, of the creation of Adam and Eve, their life in Eden and after the Fall, and of the wonderful events before the dawn of sec-

DO COLETON

MUCH interest and a good deal of amusement is evinced by prominent families all around the bay in the good-natured rivalry apparent in the building of the new homes on the Peninsula. In the center of this rivalry are Mrs. Frederick Carolan, Mrs. Templeton Crocker and Mrs. Frederick Kohl.

Mrs. Carolan has spent many months in study and she knows definitely what she wants in the line of this magnificent new home. It is to be called Carolands, and the grounds are to include 500 acres in the hills above Burlingame. Ground has been broken and the plans have arrived and those who have seen them declare them to be most magnificent. They represent a great

It is all planned on a magnificent scale and some fine French details taken from ruined historic buildings have been brought here, and there are wonderful ceilings, and doors, and panels, and fine old carvings, all ready for this new home. The estate has been laid out with just as much care as the house by Monsieur du Chesne, the Frenchman who has done such wonderful things abroad. Thousands of California wild flowers and a great forest of native trees is being planted on the 500 acres which will make Carolands look up as an estate of great importance not only in California but in America.

Monsieur du Chesne is the French architect who remodeled the great historic house "Elorhelm" in England, for the Duchess of Marlborough, and he also remodeled their magnificent French home for the former Countess de Castellane (Anna Gould).

Mrs. Carolan has studied for years abroad and she is able to plan a home which will be magnificent, and at the same time artistic.

The Templeton Crockers are spending all their time in planning for the grand new home which is to replace "Inlands." Last year they gave many orders abroad for tapestries and house furnishings and this summer they hastened over the seas to see how the work was coming on. They have spent so much time in planning this new home that Mrs. Crocker knows all about each room and has placed special orders for its furnishing.

The Crockers traveled through Italy until they found exactly what they wanted in architectural design, and they have decided on the Italian Renaissance style, and one great feature of the estate will be the superb sunken gardens, extensively terraced. On this large estate, also trees native of California and wild flowers will be planted to add to nature's magnificent design in the picturesque hills of Burlingame.

The Frederick Kohls have also been abroad to study designs for their new home, and Mrs. Kohl found what she wanted in England. She loved the quiet beauty, the serenity, the lovely artistic effects in evidence in the large English homes and so she has chosen an Elizabethan for her new home in the foothills of Burlingame. The Tudor design will be specially appropriate, and Mrs. Kohl, who is very cultured, can be expected to develop a home in the new nat. will challenge comparison with many on the coast. She is a very stunning woman, of naturally artistic temperament. She has a magnificent voice and she sings well enough to be heard in grand opera. Her new home will have the artistic fitness that belongs to its owner who is a real artist.

New Place," the Crocker home, looms up as a very beautiful estate. It derived its name quite naturally. While it was being built the children of the family always spoke of going "over to the new place." Every one referred to it as "the new place," and when the family moved in they did not change the name.

There is a "New Place" at Stratford-on-Avon, but the Crocker home was not named for that. The drawing rooms in the Crocker mansion are lovely, they are all in empire style, with lovely Louis furniture, and the fine artistic color effects in pastel shades and pale blues and pinks. The Crockers are in France a great deal, with the Prince and Princess Poniatowski, who have a beautiful home in Paris and an exceedingly picturesque country place at Cannes, one of the noted watering places on the French Riviera.

Meantime, our own county is gradually coming to the foreground and taking the lead in the number of beautiful homes which break the skyline from our magnificent hill communities. We will have much in the way of sturdy homes to show visitors next year.

One of these, of course, Mrs. Hearst's new home, the Hacienda, remodeled by the famous French architect, is now under way. The new home of the Piedmont

hills—looking from the road like a magnificent medieval castle. One of the finest swimming tanks in the country is part of the Hacienda, and the great dining-room reminds one of baronial days. Magnificent ranges of purple shaded hills mark the skyline of the Hacienda, and the great estate includes several hundred acres.

Mrs. Hearst is probably the most generous hostess in California, for visitors are made specially welcome at the Hacienda, and at every week-end house parties are almost the invariable rule.

Stretching all along the range of our hills are beautiful homes, all of which will be the centers of increased activities next spring. "Arbor Villa," the home of the Smiths, grows more beautiful each year, as Father Time

graciously The violet bordered walks are beautiful, and lilac cottage and the many arbors add to its picturesqueness. Of course, the great Italian home of the John Springs looms up on the hills of North Berkeley, and its artistic furnishings are already the subject of much comment. Its gardens are lovely and no big rock effects of North Berkeley, especially those in the

months of the exposition "Wildwood," the home of the Frank C. Havens, is as every one knows, unique in its splendid architectural design—a scheme that is correct to the smallest detail.

What makes the real charm of the gardens around these many homes is the fact that the owners have allowed nature to determine the scheme. The trees and shrubs are

At Claremont, too, are "The Pines," the artistic home of the Bowles, and their aim has been to develop one of the finest gardens on the coast—gardens remarkable not so much for any one thing, but for representing plants from every known section of the globe. They all reach an unusual degree of development, and some of the finest gardens in the world will surround, in time, the Bowles home at Claremont.

In Piedmont one finds "Highlands," being built on the high plateau on the world below, and carrying off the palm for hospitable entertainment for the last thirty-five years. Mrs. Requa has friends all over the world, and she is planning

the room adjoining the restaurant. In fact, all the hotels have the magic slogan, "Dancing," this year, and that in the heart of New York, in the midst of its sweltering summer heat.

One wonders if our hotels are going to plan anything for the young people and for the older people as well this summer. It is a fact that more people than ever are to remain in town this year. All those interested in exposition work will have to remain in town, and there is a large social contingent which always remains at home. It is quite as a social leader asked the other day, "Where can you get better country life than in Piedmont, Claremont, Berkeley, Burlingame and Marin?"

And the automobile has changed many things in the matter of summer living. People motor away for the week-end, or else they take one

long motor trip, by the many homes around the bay remain open for the most part all summer. There is a summer school at Berkeley, with an enrollment of many hundreds, mostly strangers.

There are many other reasons to indicate that we might develop a summer social season with while.

At the summer resort, and in private homes, bridge in the long summer afternoons is reliving its old sway. And alas for those who will not try to play a scientific game! Dark days are before them. One often hears a matron with a satisfied sigh say, "I had such poor cards, such bad luck!" No longer will that be an excuse for her poor score. If she has low cards, she has a good chance with no'los—only she must play them with skill.

And, so there is more trouble ahead for the woman who trusts only to luck for Florence Irwin, the well-known bridge expert, bests a recent article with the following fateful announcement.

"Scientific players are objectionable and more to the scoring of honors. They say it is like giving a man money and then paying him for having it. If a player holds all the high cards of his suit, the mere fact that he holds them is a tremendous advantage to him. Why, then, should he be given an extra score on the honor column? And Miss Irwin adds:

Every card hand holds intrinsic possibilities. To obtain the highest form of auction every hand should be played by the person whose cards warrant it. He should be made to bid as high as possible, and then buckle down and work hard to pull off his bid, the result being sometimes success and sometimes defeat.

But the moment a player bids to his honors alone, knowing that he cannot score in points, but that his honors will wipe out his losses, he makes a violent assault on the real beauty of the game. It is poor auction to play his bad hand when there is another hand at the table which is capable of winning by sheer force of skill. The intrinsic possibilities of the card combinations are butchered and distorted."

So, with no honor score and with titles to face, the would-be auction bridge player must learn to put up a scientific game. She must study the game, as she would study anything else, in order to be expert and not to be a dead-weight at the table at which she happens to find herself.

ARTIST WINS HONOR IN NEW YORK.

Once again Miss Mary Helen Carlisle, who was so extensively entertained in California, has scored well in the world of art. Miss Carlisle's canvas won the McMillan landscape prize at the exhibition of the Association of Women Painters and Sculptors at the Knoedler galleries in New York. Miss Carlisle painted flowers specially well, and the picture which won the prize represented a big poppy field in the blaze of high noon.

Miss Carlisle painted lovely corners in well-known gardens of California. One beautiful picture represented a scene in Mrs. William Crocker's garden, and she did some beautiful sketches of lovely spots in the garden of Mrs. Will Tevis.

Miss Carlisle spent much time at the Hacienda and she painted there quite wonderful miniatures of Mrs. Hearst's three little grandsons. But it was in painting that she excels. Her pictures of California meadow fields and poppy fields aroused great interest in London. King George and Queen Mary were both much pleased with the pictures and both expressed a desire to visit our land of beautiful wild flowers.

NEW AND CLEVER WORD-PICTURES.

Word pictures today are exceedingly clever—some of them much more deftly done than those that come from noted cartoonists. For instance, a bright woman writes from New York:

"Women look as though they were dressed on the remnants of the sewing baskets. There is nothing definite about any gown. There is no well defined line. Every woman seems to be her own dressmaker and to have chosen from the left-overs the pieces which go together in some jumble of color harmony. She has dressed herself as a child dresses a doll."

Nevertheless the lovely studies some of our leading women make are worthy of comment.

At the Fillmore-Cawston wedding this week one saw many attractive pictures. Among the handsome gowns were those worn by Mrs. Edward Hall, Mrs. Lorraine Langstroth, Mrs. Hiram Hall, Miss Cleo Posey, Miss Elsie Posey, Mrs. Frank C. Havens, Mrs. P. E. Bowles, Mrs. Frank K. Mott, Mrs. Wickham Havens, Mrs. H. C. Capwell, Miss Dorothy Capwell, Miss Phyllis Capwell, Miss Margaret Moore.

At the many teas of the month lovely gowns were in evidence—not a bit like "the doll's costumes" described in the picture. Among the original and most effective costumes of the month were those worn by Mrs. Warren S. Palmer, Mrs. Joseph R. Knowland, Miss Eleanor Knowland, Mrs. Oscar Long, Mrs. Frederick Morse, Miss Lilla Lovell, Miss Phyllis Lovell, Mrs. Frank Proctor, Mrs. William

Makes Wrinkles Go "As if by Magic"

Want to banish every wrinkle—from face, neck, hands—easily, quickly, comfortably? Try the famous "Oriental Cream." Nothing else so nearly meets every requirement. Why? Because it is correct in principle and really, truly assists Nature. Possessing remarkable astringent and tonic properties, it both tightens the skin—thus naturally smoothing out the lines—and improves capillary circulation and nerve tone—tending to strengthen and tone up, and bring about a healthy condition. Yet, it is so gentle, so soothing, it won't harm your skin in the least. And it's so easy to get the inexpensive ingredients at your drugist's, and so easy to mix them.

Just dissolve 1 oz. powdered aloe in 1/2 pint witch hazel—that's all! Rub the cream and aze are affected, even the deepest. You are perfectly astonished and delighted with the results. It's a real skin beauty that's been used for years from your age!

Dr. T. Felix Bouraud's Oriental Cream OR MAGICAL BEAUTIFIER

Remove Tan, Freckles, Redness, Blemishes, and every blemish on face, neck, hands, and body. It is the best of all skin preparations. As Druggists and Dealers send you a sample.

Dr. T. Felix Bouraud, 111, 113, 115, 117, 119, 121, 123, 125, 127, 129, 131, 133, 135, 137, 139, 141, 143, 145, 147, 149, 151, 153, 155, 157, 159, 161, 163, 165, 167, 169, 171, 173, 175, 177, 179, 181, 183, (a.) Gipsy Life	Schumann	wounded man. The two men do kind of rival clings. When they meet in a duel using the
		Arabella as suitor.

Society

Mr. and Mrs. William Jurgens gave a dinner a few evenings ago in honor of Lewis Shackelford, a prominent lawyer of Juneau, Alaska, who is visiting San Francisco. After dinner there was an informal dance. Among the guests were Mrs. Thorn, Mrs. Ray Woolley of San Francisco, Miss Jule Myer and Harry Pulsifer.

* * *

IN CLAREMONT PARK.

Mr. and Mrs. Harry Merrill have taken possession of an attractive new home in Claremont Park, where they will entertain very informally tomorrow evening for Miss Helen Button, the fiancée of Daniel Kirk, who will be one of the June brides.

* * *

CHURCH WEDDING.

A pretty wedding was celebrated Tuesday evening, June 2, at Sacred Heart Church, Fortieth and G streets. The contracting parties were Miss Anna Donovan and P. A. Donovan, both of Oakland.

The bride was gowned in white chiffon over liberty satin, trimmed with Irish lace and carried a bouquet of lilies of the valley and roses. Her cousin, Miss Anita Cavanaugh, of East Oakland, was maid of honor, and T. Ragan of San Francisco acted as best man. After the ceremony a wedding supper for eighty guests was served at the home of the bride's sister, Mrs. Frank Schoop. The young couple, who are beginning a honeymoon in Southern California, will make their home in Oakland.

* * *

WEDDING DANCE.

Members of the Edison Club gave a jolly dance for seventy guests Friday evening at Mowbray Hall, Piedmont. The hall was prettily decorated with pink and white sweet peas and the color scheme was carried out in pink shaded lights. The patronesses were, Mrs. G. H. Perkins, Mrs. Dixon and Mrs. M. F. Quinn.

* * *

QUILT WEDDING.

A quiet wedding of last week was that of Miss Beryl Hamilton and Leonard Buck, which took place Wednesday morning.

Mrs. Lillian Hamilton, in Fourth street. Only relatives were present at the ceremony, which was performed by Rev. R. H. Hodgkins of Berkeley. The young

nice Moore, Miss Alfreda Nelson, Miss Mildred Perrier, Miss Ida Uello, Miss Gladys Maclean, Miss Desaline Desoto, Miss Kathryn Mason, Miss Kathryn O'Malley, Miss Edith Peck, Miss Cecelia Florio, Miss W. McDonald, Paul Klnr, Alward Madden, Chester Hamilton, Howard Spaulding, James O'Malley, Adolph Cavanaugh, Dominik Armanino, Paul Jordon, Gus Koch, Walter Kerrigan, Paul Bray, George Isola, Gilbert Hickman and Harold Squires.

* * *

WEDDING IN MAYFIELD.

Miss Verna Hyatt of Alameda became the bride of J. C. Schaefer, Jr., of Mayfield at a pretty wedding last Wednesday at the home of the groom's parents in Mayfield. The marriage ceremony was performed by Rev. Mr. Lapley of the Presbyterian church of Berkeley, who had known the bride since childhood.

The bridal party was led by little Edna Hain and Marjorie Matheson, niece and cousin of the bride, as flower girls. The wedding march was played by Miss Laurel Anderson. The bridesmaid was Miss Ethel Matheson and Elmer Schaefer, brother of the groom, was best man. The bride, who is a daughter of Mrs. Anne Hyatt of Alameda, wore a gown of white silk with lace, and a veil. Following the ceremony a wedding supper was served, and later the young couple departed on their wedding journey. Their future home will be in San Jose, where the groom is connected with the Southern Pacific.

PERSONALS

MRS. JOHIE ENGLISH has been the guest of Miss Lillian Rodeno of Vallejo during the past week.

MR. AND MRS. HENRY A. PERRY and LOUIS PERRY were guests of Santa Cruz relatives the first of the week.

MR. AND MRS. GEORGE HUDSON motored down to Santa Cruz Tuesday.

J. J. ELLIOTT, a stockholder in South Valby Mines Co. went to Yerrington last week on an inspection of his properties.

MRS. EMIL HERNIMAN is the guest of friends in Sacramento.

MRS. DALE WINTHROP and son went to Stockton on Wednesday for a short visit.

MR. AND MRS. D. BAILEY, JR., and children are in Fresno, where Mr. Bailey is attending to business interests.

MR. AND MRS. FORTIE HICKLE left on Monday for Humboldt, where they will visit with friends and relatives.

MR. AND MRS. P. C. OTTEWILL were early week visitors in Vallejo.

MISS EMMA BARNHART and sister, at the request of Mr. and Mrs. C. Q. Winnet of Los

Souvenir of Wlenawski. Weasche
Miss Marguerite Bailey.

4. (a) Liebesfreund. Kreidler
(b) Paqueline. Tarnfield
(c) Spanish Dance. Rehfeld
Miss Miriam Walthe.

5. (a) Ava Maria. Schubert
(b) The Bee. Schubert
(c) Zigeunerweisen. Saraseta
Mr. Allen.

At the piano were Mrs. Rose Leaves-
Allen and Mrs. E. F. Wethe.

RECITAL BY THE KRUGER CLUB.

An excellent recital was given by the
Kruger Club under the artistic direction
of Georg Kruger in his studio, Kohler &
Chase Building. The recital was attend-
ed by a fashionable audience which was
enthusiastic in its applause of the young
students who showed careful training
and did excellent work. The program was
opened by Chester Butler with a Sonata
of Hayden in D, which he played with
clearness and good shading. Miss Anna
Lieb gave a fine rendition of the first
movement of Beethoven's Sonata Op. 22
in B-flat major. Miss Helen Auer played
with feeling and expression the Elegie by
Nollet. Miss Alleen Sorensen showed
much style and good quality of tone in
Liszt's "The Two Skylarks." Bonita
Kinsley interpreted poetically the melo-
dious "Lurline" by Seeling. Miss Lenore
Chohne followed with three numbers: the
Shadow Dance by McDowell, the Fan-
tasia Czomok by Paderewski and the
A-flat major ballade by Chopin which
she interpreted with skill and a good deal
of temperament. Mr Kruger closed the
evening with a short lecture on Wagner-
Liszt's spinning book and played also
the Tarantelle by Liszt in his inimitable
artistic way, which has won him so many
admirers.

TO CONTINUE OPERA RECITALS.

Miss Margaret Kemble has announced
that she will continue next season the
opera recitals that have been such a de-
lightful feature of the past two or three
winters in San Francisco. Miss Kemble
is already preparing for the lectures of
next winter, and several of the new
operas that have been sensations of the
year in Paris and Berlin will be pre-
sented. If it were not for these clever
interpretations, it might be several years
before the latest works of modern com-
posers were presented in California.

Miss Kemble's recitals are given with
real sympathy and fine intelligence as
well as an accomplished art, and those
who are interested in modern music may

1. Theme. Miss Helen Dahl
Gollwitzer's Cake Walk. Debussy
Mrs. Ada Dykes

2. Solveig's Song. Grieg
Polonaise. Chopin
Miss Alice Sanford

3. Duet, Second Rhapsody. Liszt
Miss Sanford and Mrs Dykes

THE MANSFELD CLUB.

The Mansfeld Club under the direction
of its teacher Hugo Mansfeld, gave its
last piano recital of the 1914 winter and
spring season at Century Club Hall, cor-
ner of Franklin and Sutter streets, last
Wednesday night. It made the twenty-
fifth recital in the history of this inter-
esting and useful society. A large audi-
ence of music lovers was in attendance
to greet the four performers on the pro-
gram: Miss Lorraine Ewing, Miss Alice
Dupas, Miss Bernice Levy and Miss
Stella Howell, and to enjoy their ren-
dition of thirteen musical numbers, calling
as they did for a display of fine tech-
nique, a warmth of interpretation and at
times boldness of execution. The mem-
bers of the club always show a fine mem-
orization of their pieces and are easy and
without intricate fingering of the keys that
at once afford pleasure as a study.

Miss Ewing with her four numbers, dis-
played shades of sympathy and feeling,
and a rare execution that charmed her
audience.

Miss Dupas knows her composer and
can interpret with much skill. Miss
Levy evinced a proficiency that stamps
her as an artist. Miss Howell, the
president of the club, adds to fine execu-
tion and interpretation at once full of
thought and feeling.

The program was as follows:

1. Sixty Spring. Mason
Huntington Woodman

2. Melodie chant du voyageur Paderewski
Rondo brilliant, E flat. Weber
Miss Lorraine Ewing

3. En Automne, op. 35 No. 4. Debussy
Cortège. Debussy
Etude en forme de Valse, op. 52
No. 6. Saint-Saens

4. Scherzo, E major, op 54. Chopin
Rorance, E flat. Rubinstein
Valse de Concert. Moszkowski
Miss Bernice Levy

5. The Swan. Saint-Saens
Parole. Brahms
Rigoletto Paraphrase. Verdi-Liszt
Miss Stella Howell

TO GIVE CONCERT.

The Choral section of the Women's
Improvement Club will give a concert on
the evening of June 18, when the follow-
ing will sing:

(a) "The Bird Song". Miss Elizabeth Geddie
(b) "The Bird Song". Miss Elizabeth Geddie

(a) "The Bird Song". Miss Elizabeth Geddie
(b) "The Bird Song". Miss Elizabeth Geddie

Miss Ethel E. Lucas, Mrs. C. H. Wolford

**FIGHT DEADLY DUEL
ON WAY FROM CHURCH**

"NORTHAMPTON, Pa., June 8.—As the
result of a feud here Alexander Shum-
bula, lies in an Allegheny hospital in a
critical condition from a wound in the
lung inflicted by the steel point of an
umbrella. Nicholas Krastichuk was
wounded man. The two men are both
of rival cliques. When they met at
the church on the way to a duel using an
umbrella as a weapon."

VIEWS AND REVIEWS WHAT OF WORLD IS DOING

THE VOCATIONAL SCHOOL AND ITS FATE

Oakland's Experiment Watched With Interest by Experts

OAKLAND'S new venture, the first vocational school in the bay region operated publicly, will begin next term, and will, it is predicted by educators, follow out a long course of usefulness. With experts in charge, with the example of the best that is found in the vocational schools of the west, it

has embarked on a venture with considerable interest. Its success will add another to the many now noted in Eastern states; its failure, if it fails, will perhaps point out mistakes that others will not follow.

There is no doubt that the city of today is for vocational training. An interesting bulletin on the subject, interesting in that it deals with operative factors, was recently issued by the Pittsburgh Educational League. It stated that in a long and successful operation of such a school, one of the interesting things that has been noted is that the student starting as an apprentice. Here they are:

"Remember that the object of work is production. Your foreman measures you by the quality and quantity of your work. Social position does not enter. In the shop you are not a 'high school boy,' you are an apprentice. Wear clothes accordingly. If you get the mistaken idea that any work given you is beneath the dignity of a high school boy, just remember you are an apprentice and get 100 per cent busy."

"It is your business to get along smoothly with the workman and foreman, and theirs to get along with you."

"Do not expect any personal attention from the superintendent. He will probably ignore you entirely, but he knows whether or not you are making good, and in most cases, his idea of you depends upon your ability to please your foreman. Don't be a licker and don't continually bother your foreman for higher wages."

"Never try to conceal defective work. Take your full measure of blame, and do not make the same mistake twice."

"Watch in a quiet way, what things are being done around you, and don't be afraid to ask sensible questions. A good rule is to think over a question twice before asking. A reputation for having 'horse sense' means that you are making good."

WILL SHOW STUDENT.

"Foremen and workmen will take pleasure in showing you if you show interest and genuine appreciation of little attentions. If they tell you something you already know, don't spoil their pleasure by telling them you already know it, but let it be impressed upon your mind all the details, for the conversation may lead to something which is entirely new to you."

"The fool act of one co-op hurts every co-op. See that your actions in and out of the shop do not bring discredit on the co-op course."

Representatives of the United States Bureau of Education and other workers who have observed the work say that the spirit of these directions is carried out everywhere in the Fitchburg plan. Vocational training of the Fitchburg type is an opportunity for worth while work, not an easy way of dodging the grind of academic studies.

Dr. P. P. Claxton, United States Commissioner of Education, in dealing with the vocational school, said in such work only too often to hinder a student's progress. He declared that statements in which he is declared to have advocated vocational instruction, he nevertheless urges a form of work in the summer months. His views are as follows:

CLAXTON'S VIEWS.

"The schools should provide some kind of instruction for the children through which is now, in most cities, through wasteful vacation. He declares that the school should take, at most, 50 hours a year out of 510 waking hours, assuming ten hours of sleep for children every night; the average child spends about 600 hours in school and the remaining 450 waking hours out of school, Dr. Claxton suggests that summer work last not longer than 12 or 14 weeks, from 8 or 6 o'clock to 11 or 12 o'clock in the forenoon.

According to Dr. Claxton, the school of the future both in summer and winter, will give less time to intensive school study of the ordinary type, probably about three hours, and four or five hours to productive work, supervised by the school, done in shops, outdoor gardens or in the home.

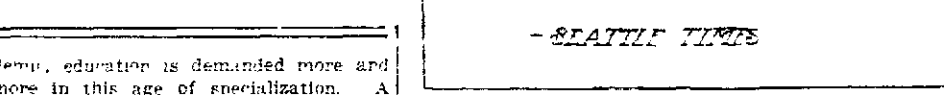

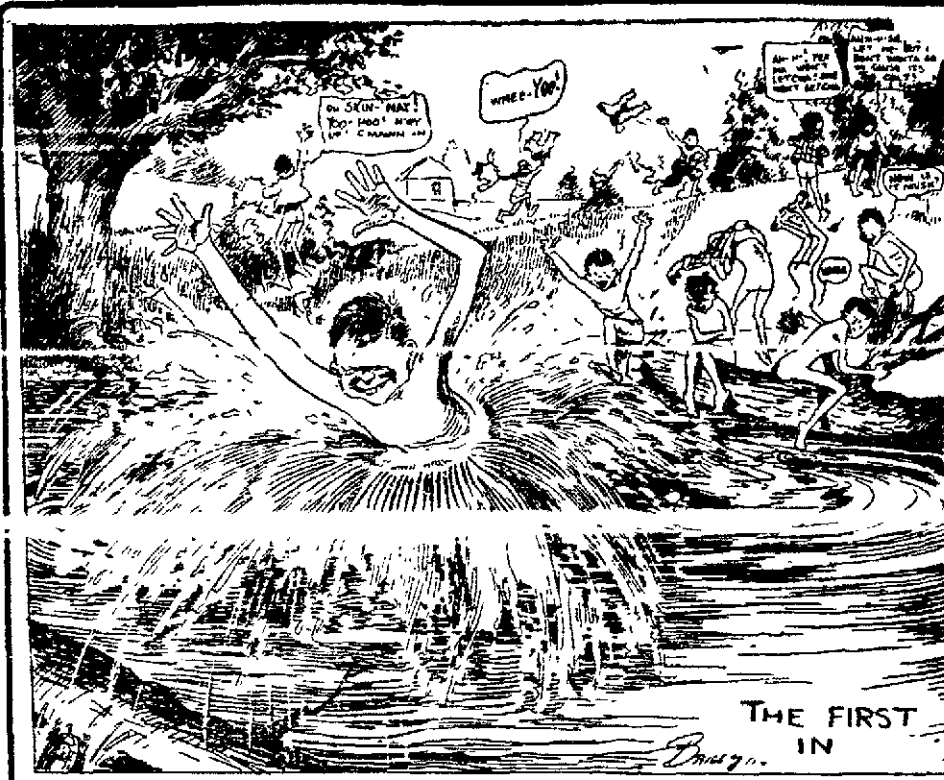

With this kind of an organization, he declares, "it will be easy for children to do ordinary school work three hours a day, six days in the week, through eleven calendar months in the year and at the same time contribute largely to their own support by well-directed productive educational work either at home or in the school, thus making it possible for the great majority of children to remain in school throughout the high school period."

"The cost of adding the three months of school would be comparatively little. There would be no cost for fuel, the cost of attendance would be less and the additional cost for teachers would not be in proportion to the number of days added. What ever may be the terms of the contract, teachers would be employed by the year. Comparatively few of the teachers would be vacation months in any year."

\$300 to the annual salary of city school teachers would require a total less than \$10,000,000, or about 3 per cent of the total annual cost of the schools. For most teachers the additional months would not be a hardship, especially if the school days were shortened. Certainly this is true where the teachers could be relieved of a large part of the vacation months by report making and examination work, with which they are now burdened."

where already were schools are, it is true, but in all portions of the United States. Vocational or ac-

TRAIN YOUR EYEBROWS

SAYS
LILLIAN
RUSSELL

GOAX YOUR EYELASHES.

Rubbing Eyes is a Pernicious Habit.

Use Tweezers to Pull out Hairs between Eyebrows

Bathe Eyes in Boric Acid Solution.

Put Vaseline on Cotton on end of Orange Wood Stick and apply to Lids.

[Copyright: 1914: By Lillian Russell.]

KNOW of no other beauty assets that bring forth the whole hearted admiration that perfectly arched eyebrows and thick long, curling eyelashes do. Do you? Haven't you often envied the fortunate possessors of those enviable adjuncts? I suppose, like a good many other women, you have made the mistake of assuming

that one had to be especially favored by fortune in order to possess lovely eyebrows and eyelashes.

To be sure, some women are fortunate enough to be born with these happy endowments. But the majority of women are not. But, thank heaven for general despair among our sex. Industry plus patience will result happily for your eyebrows and eyelashes. If you are willing to give them attention and care every day, it won't be long before you will be one of the envied, instead of one of the envious.

A beautiful eyebrow is gently arched, delicately but darkly traced, and ends just before it reaches the nose. The hairs lie smooth and glossy. There are little eyebrow brushes for sale in the shops with which the brows should be gently brushed every time you make the toilet of your face. A small, fine tooth brush answers the purpose very well. This frequent brushing will promote their gloss and train them into shape. Equal parts of glycerin and rosewater, if rubbed on just before the brushing is done, will make the eyebrows more glossy and brilliant.

Eyebrows That Meet.

Nothing detracts from the beauty of the face like eyebrows that meet in a bridge across the nose. It gives the appearance of a constant scowl. I have a friend to whom nature gave heavy, black eyebrows that meet over the bridge of the nose. They gave her a positively sinister appearance. By means of the electric needle she had a number of hairs removed, thus separating the brows. The whole character of her face was changed and improved.

If you can't afford the electrolysis treatment, you can remove the hairs yourself with tweezers. Pluck the hairs out by clenching the tweezers right next the skin and giving a strong, sudden pull. Remove only a few hairs at a time. Under no consideration attempt to remove all the hairs on the bridge of the nose at one time. It would be too painful an operation to stand, and, besides, an ugly, scarred effect would result. After

you have removed the hairs with the tweezers apply ammonia to the denuded spot. Then before you go to bed rub a little cold cream onto it.

Staring, ill shaped eyebrows with coarse, bristling hairs can be straightened into the way they should go by running the brush, dipped in a thick gum tragacanth lotion, across them at night. Let the gum dry on and wash off in the morning with warm water. A month or two of this treatment will reduce quite unruly brows to subjection and coarse hairs will drop out. Be careful always, in rubbing or brushing the eyebrows, to rub and brush with the lay of the hair.

If your eyebrows are too straight, you can train a gentle arch into them by massaging up toward the scalp, using vaseline for the treatment. If the line of the eyebrow is uneven and ugly, the hairs which grow out of line can be removed with tweezers in the same manner as that suggested for removing the hairs over the bridge of the nose.

Tonic and Massage Treatments.

I have used for years the following French tonic for eyebrows, and certainly can answer for its efficacy: One ounce of yellow vaseline and eight drops each of oils of lavender and rosemary. After washing the face smooth the eyebrows carefully with an eyebrow brush upon which a drop of the tonic has been placed. For scatty, thin, and uneven eyebrows the above tonic is recommended to be used for massage treatment. Apply a little to the finger tips and rub fingers along the line of brows. Be careful to keep in the line of the brows, as the vaseline will grow hairs and, of course, you want only a fine, thin line.

If your eyebrows are so blonde and invisible that the face is given a peculiar appearance, or that you are made conspicuous, I see no harm in resorting to the use of an eyebrow pencil for temporary purposes. But remember if you are a blonde you must tint your brows a light brown—not with a black pencil. The black must be used only when the hair is black or

dark brown. I do not approve of dyes and stains for the eyebrows. The eyebrows are in too close proximity to the eyes to use dyes and stains without risk to the eyes. A burnt clove is a substitute that may be used for an eyebrow pencil.

One thing you may overlook, perhaps, is the importance of keeping the eyebrows free from dandruff. You can't work any improvement in your brows until you have rid yourself of this condition. We are all rather apt to think that when we wash our face sufficient attention is given to the cleanliness of the eyebrows. But this is not so. The presence of dandruff proves this statement. For dandruff, whether we want to believe it or not, is the result of lack of cleanliness. If you are troubled with dandruff, twice a week scrub your eyebrows with soap and warm water and rinse them in warm salty water. When they are dry rub in a little glycerin. In a short time you will be rewarded by the disappearance of the dandruff.

Thin Lashes Make Inflamed Eye.

Now for your eyelashes. If your lashes are thin and straggly, or do not grow properly, your eyes will become inflamed, for your eyelashes are protection for your eyes. You cannot have a luxurious fringe of eye-

lashes if you don't keep your eyes and eyelids in a healthy condition. If the eyes are weak and strained, the lashes are generally irregular, with tiny bald spots here and there. So first thing you must do to acquire the desirable fringe is to keep your eyes as free from strain as possible. Just before you retire at night and again in the morning bathe the eyes in boric acid solution. Use an eye cup for this.

For inflamed lids and short, scant lashes yellow vaseline is one of the best applications. Melt a little of the vaseline, dip the point of an unsharpened stick around which a tiny wad of cotton is wrapped into this, and rub gently along the roots. Apply the vaseline at night, and allow it to relieve any soreness slowly. Be careful that not the slightest particle of the vaseline enters the eye, as oil irritates it.

Lashes Rubbed Out.

The growth of the eyelashes is greatly promoted by clipping them at regular intervals for a few months. As the task requires a firm, confident touch, it is easiest done by another. Yet, if necessary, you can do it yourself. Only the tips should be clipped, and the work done with a pair of curved scissors.

Rubbing the eyes is a pernicious habit. Almost in-

variably when you rub them you remove an eyelash. Bathe the eyes in the morning, first thing when you arise, instead of rubbing them, to get rid of that crusty substance in the corner of your eyes.

Sometimes the eyelashes by growing inward act as a foreign body and keep up a constant irritation of the eye. This can easily be detected by pulling down the lower lid and looking at the lashes to see the state in which they are growing. They should be in a regular line, evenly distributed, turning outward and downward with a gentle curve on the lower lid and outward and upward on the upper lid. The longer and silkier and thicker they are the better. If the line is not straight and the direction of a lash here and there is faulty, try to straighten them by means of small tweezers. If there are hairs that sweep the eyeball every time the lids cover the eyes in winking, these should be pulled out at once.

Styes are due to the irritation of the hair follicle out of which an eyelash springs. They should be opened as soon as pus is formed for they will not get well as long as pus remains. For inflammation of the follicles and soreness add to yellow vaseline fifteen grains of precipitated sulphur. In applying this ointment it is well to warm it a little, as it will not then be so sticky.

LILLIAN RUSSELL'S ANSWERS TO INQUIRIES BY BEAUTY SEEKERS.

MRS. G. N.: Here is the formula for Hungarian water: One ounce oil of rosemary, four drams oil of lavender, sixty drops oil of petit grain, eight drams tincture of yolk, one pint of orange flower water, and three pints rectified spirits of wine. This must be made up by a chemist, as it must be filtered and digested. It is used as a tonic for toning up the skin and also for closing the pores. Add one tablespoonful to a tumbler of cold water and sponge or dash it on the face.

BLONDE: You must be very careful when shampooing blonde hair. Be sure to use a good shampoo and be sure you get it all out of the hair. Nothing ruins the hair more quickly than soap if it is allowed

takes all the color and life out of it. Do not put peroxide in the rinsing water. It will bleach the hair. The juice of half a lemon in the last rinsing water will help to keep the hair light. It will not bleach the hair. If you must use something to lighten the water add a pinch of borax. This is cleansing and will not harm the hair. The best way of rinsing the hair is with a strong bath spray. If you will send me a stamped, addressed envelope I shall send you the formula for a shampoo for blonde hair.

MARY ANN: Hair that is split at the ends will not grow. First of all, the ends must be clipped or singed. Don't try to singe your hair yourself. It is better to have it done by an expert. Massage with

for an excellent one: One and one-half drams sulphate of quinine, two drams tincture cantharides, two ounces of alcohol, one-half ounce of glycerin, twelve drops of oil of anise, eight ounces of witch hazel. Apply this once every night for two weeks, then wash the hair in suds made from green soap. Omit treatment for four days, and then return to the tonic for another two weeks. Keep this up until your hair becomes glossy and full of life and ceases to fall out.

S. C.: Kerosene is considered good for the hair and scalp, but it is so greasy and leaves such an unpleasant odor it is altogether undesirable to use for this purpose. Instead I would advise you to use a good hair tonic and massage your scalp. I think this

If you will send me a stamped, addressed envelope I shall send you a formula for hair tonic which will remove dandruff and increase the growth of the hair. It will stop falling hair and give the hair new life and luster.

B. L. H.: The girl who is too fat is nearly always fond of sweets and dainties. Exercise and diet are the two chief lines along which she must work in order to reduce her superfluous flesh. If you notice a tendency to superfluous flesh begin early to keep it down. Look first to your diet. It is not only the things you eat, but it is often the amount you eat that helps to produce this unfortunate condition. Such foods as cakes, pastries, ice cream, and rich, greasy meats are productive of superfluous flesh.

It is much easier to prevent this condition than it is to cure it. By dieting I do not mean starving oneself. This is detrimental to one's health. The basis of diet for obesity consists of lean meat and dry food, but no strict diet should be taken without the personal observation of a physician. If you will send me a stamped, addressed envelope I shall send you a dietary and exercises for reducing flesh.

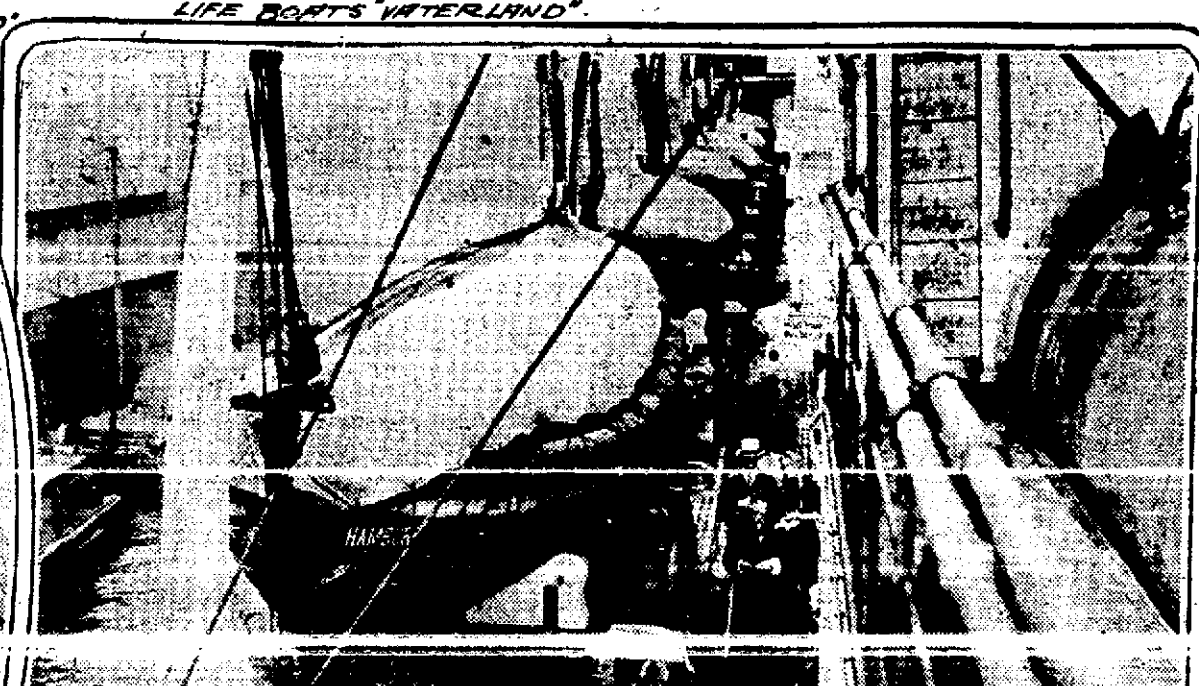

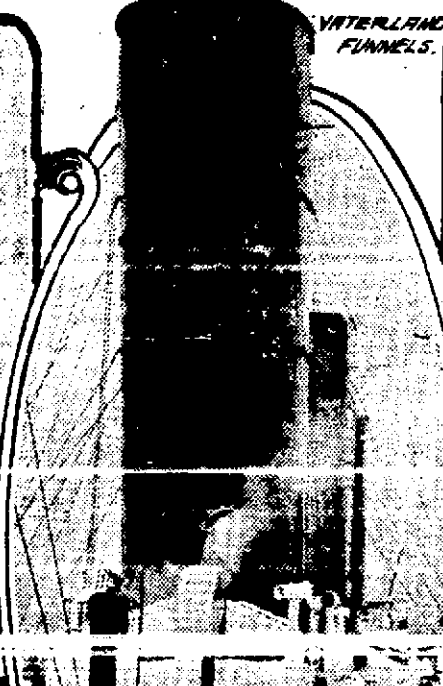

E. W.: Twice a week is too often to shampoo the hair. No wonder your hair is falling. Don't shampoo the hair more than twice a month, and every three weeks is plenty. For oily hair one should not shampoo it often than every two weeks. If you will send me

for the hair and shampoo.

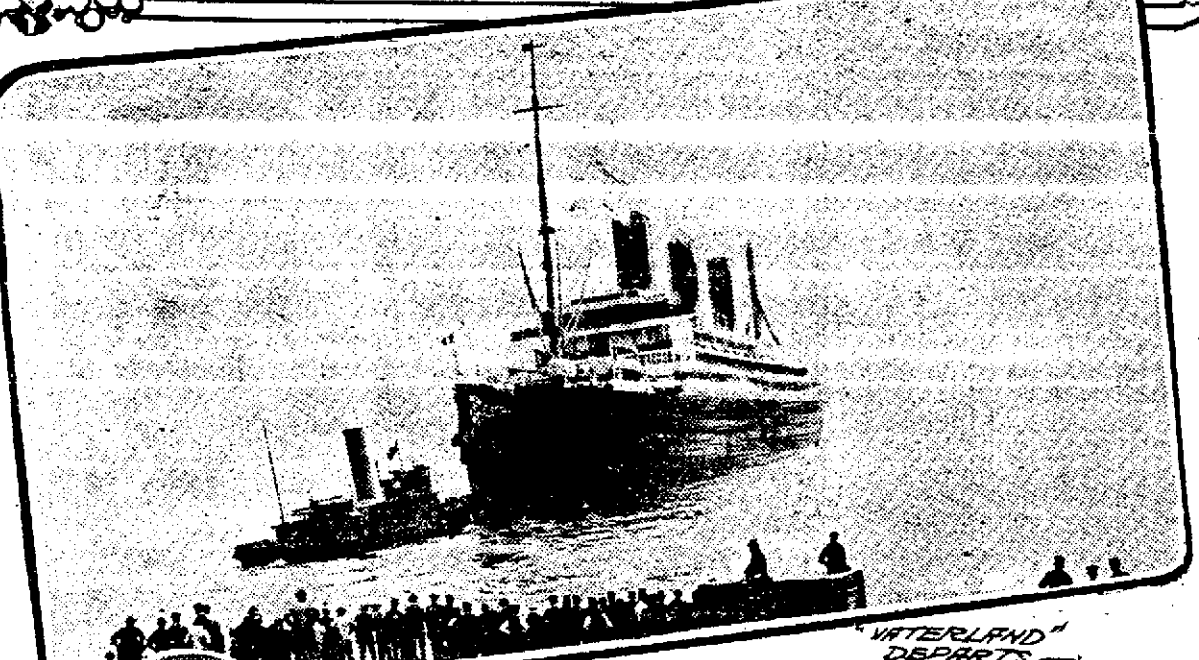

TRAILING NEWS EVENTS WITH THE CAMERA MAN

SIGISMUND FRANKISH

VANITIE

VANITIE

VANITIE

WHAT THE PICTURES MEAN TO THE WORLD

"THE movie" man and the newspaper photographer usually reach the big news event together now. In the tryouts of the big yacht Vanitie, bidder for the cup, a perfect battery of cameras greeted the ship's appearance. She was launched before a hundred lenses that told her story to the world. The crew of the Vanitie, on whom so much depended in the cup racing plans of her owners, were also taken—for on them depended the success of the whole affair.

When Sigismund Frankish, noted Hungarian editor, arrived in America on a visit, he, also, fell prey to the ubiquitous camera men who pick the world news up with their lenses. The noted editor, who has fought duels, has fought to make Hungary free as the United States, and has been the bosom friend of royalty, had a new experience when he stepped forth to look into the leveled cameras of half a hundred picture men.

Georgiana Bishop, leader in the women's championship golf matches at Orange, says the camera ordeal was terrible. Snap! snap! All down the field they picked her up. When she had Marion Hollins in a sufferer a whole flock of photographers. Suarez, Naon and Naon, Jr., two A. F. C. mediators, with the son of one of them were leaving Clifton House, Niagara, after having avoided one onslaught of the camera men. Snap! They were in the toll—on the plates, rather. That's how the pictures go all over the world. Special correspondents and photographers follow the flag—and anything else of news value; and they usually get what they're after, too.

MAN WATCHES DOCTOR CUT OFF BOTH LEGS

DENVER, June 6.—"Go to it, doc! Saw 'em off way up above those bum knees! That's it! Good boy, doc! Say, but that's some neat job."

Those were the words of William Dunn as he sat in the operating chair at the county hospital and smilingly watched the amputation of his two worthless legs. The pain was reduced somewhat by the use of drugs. Dunn had been a sufferer from locomotor ataxia for twelve years.

CUT OUT BREAKFAST AS ROAD TO HEALTH

NORWICH, Conn., June 6.—Mr. and Mrs. Charles Courtney Haskell have just been celebrating the twentieth anniversary of their adoption of a "no breakfast" rule.

Fifty rolls, fragrant coffee, crisp bacon and eggs and delicately browned griddle cakes may have tempted them to break the rule, but they declare they have never yielded.

Twenty years ago Mr. Haskell was fifty-four years old and an invalid, hopeless of regaining health, he says. After eight years of "doctoring" he met a certain Dr. Dewey of Meadville, Pa., who advised him to omit the early morning meal. Mrs. Haskell had suffered from asthma for fifteen years. Both resolved to cut out breakfast.

"Now, for twenty years," says Mr. Haskell, "We have followed this plan of natural, hygienic, scientific, divine living, without the break of a single day; and whereas I was an old, worn-out man twenty years ago, today, at the age of seventy-four, I am in the enjoyment of permanent, perfect health, doing better and more effective work than ever before."

Mr. Haskell says he persuaded William T. Dewey to adopt the no-breakfast rule. During the most severe winter weather Mr. Haskell goes about generally carrying his hat, baring his head to the wind and storms, and seeming to enjoy it and grow rugged by it.

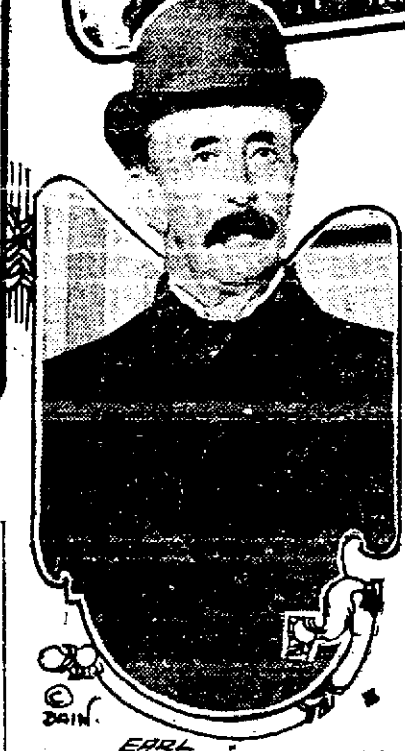

Mr. Haskell was at one time a wealthy book man. He published James G. Blaine's life when Blaine was running for the presidency, and was said to have lost heavily when interest in Blaine slumped.

CREW OF VANITIE

MOTHER ONE YEAR OLD.
BEAVER DAM, Wis., June 6.—A Jersey cow only 1 year and 3 days old, and the property of Guy Chinn, is the mother of a calf which weighs 43 pounds.

VILLAGE DESTROYED BY FIRE.
NADRAU, Wis., June 6.—This town was more than half destroyed by fire that originated in a chicken incubator at the Exchange Hotel. Two hotels, the postoffice and several residences were destroyed. Guests of the hotels fled in their night clothes.

EARL GREY OF VANITIE

Original Bloomer Girl Tells of Her Daring

"Now that 'tango bloomers' are actually being accepted and worn by almost every up-to-date woman, I am reminded very strongly of my experience years ago when I first appeared in bloomers," said Mrs. Mary Cisco of Lodi, N. J.

"I have been called, whether rightly or wrongly, the original bloomer girl. Perhaps that is true so far as New York and vicinity is concerned, but I wouldn't want to claim all the credit for the audacity of those earlier days. And surely there must have been others who had a fancy for what was then termed emancipated dress.

REGULAR TROUSERS.

"I didn't wear regular bloomers, but modified the daring costume by making a short skirt, probably three inches or so below the knee, and what I termed bloomers were really short trousers, falling about to the bottom of my skirt. At first I wore them for convenience, as I had to do considerable of the farm work. I had resolved never to marry, as I thought there was certain work laid out for me that I could do best alone. But late in life I married Mr. John Cisco, nephew of John Cisco of New York, a former banker. We have lived happily, and he is very anxious that I should wear the bright and pretty things all women admire, even though my hair is silvery white.

"After adopting the bloomer costume in my younger days and finding it so comfortable and suitable, I have continued its use. I have used it when I rode my ponies, and, owing to the fact that I have studied fashions and tried to have everything up to date, my neighbors dubbed me 'the bloomer girl.'

BACK OF MARY BLOOMER.

"Of course, you know, or maybe you do not, that the bloomer costume takes its name from Mary Bloomer, its inventor, or so-called inventor. Yet its prototype is back of that, for the European peasant women wore similar costumes when at work in the fields long before Mrs. Bloomer was born, and the Englishwomen now wear them when at work in the mines. Not one of them ever heard of Mrs. Bloomer, I imagine. So neither Mrs. Bloomer nor I can claim any originality, though maybe we might be commended for our courage; I will use the expressive slang of the day and call it what it was—just plain nerve. Courage would not have carried me through. Nerve did.

"Would I do it again? Hardly. Would I allow a daughter of mine to do anything as daring and as certain to attract sensational attention? No, I think not; but I have no children, so I need not worry about that.

"They go all over this question of costume every generation. Fashionable women would laugh at my everyday costume, which, as you see, is a modified bloomer suit," and Mrs. Cisco archly displayed enough of her bloomer suit to prove her contention. "But if what I wear is any funnier than some of the split skirts and strange draperies which one may see on Fifth avenue any afternoon, then they are entitled to laugh. But I believe my costume is better, and of an almost feminine grace. Ruana's population has been estimated at 1½ millions."

The pygmies are compact and strong in build, very muscular, with round heads and short, curly hair. Big, intelligent eyes gaze out of good humored faces. Their clothing consists of an apron of gray, woolly, beaten bark, which is obtained from the sap tree, fastened round the loins with a belt of grass cord. Their place of residence changes according to their whim or hunting conditions.

ST. LOUIS, Mo., June 6.—Louis Walther, who lives south of the city, has a cat which hatched out six Plymouth Rock chickens and then refused to deliver them to the mother hen. According to Walther, the hen became jealous of the cat's affection for the chicks, and killed them in the interest of the chicks. Walther, who is manager of a fireworks factory, is promptly showing the strange families to his friends.

Wetmore Heiress Finds Society No Bar to Serious Work

NEW YORK, June 6.—"Give up society for my work? No, indeed," said Miss Anne Wetmore, daughter of former United States Senator George Peabody Wetmore, and heiress to the Wetmore millions.

"I am at my office every day for several hours answering inquiries from all parts of the country and appear to my committee to assist in legislative reform," explained Miss Wetmore, who, with other well-known women of society, and in her position as chairman of the woman's department of the National Civic Federation, has inaugurated a country-wide campaign for prison reform.

To keep more closely in touch with the other members of her committee here, Miss Wetmore has decided to make her home in New York. She has taken apartments at the Hotel Belmont.

Like her co-worker in this big national reform movement, Miss Anne Morgan, sister of J. Pierpont Morgan, Miss Wetmore has a fascinating, direct manner of speaking and speaking to the point.

CAREFULLY PLANNED.

Her campaign has been carefully mapped out and she is proceeding in co-operation with her committee along broad, practical lines to bring about the proposed legislation and to bring to bear the necessary pressure on the lawmakers of the country to enforce much needed reform in prison conditions in all parts of the country.

"While I personally have been interested in the question for some time, this new movement, however, being carried on by the women's department of the National Civic Federation is less than four months old," said Miss Wetmore.

quarters of the committee, 165 West Fort street, N. Y.

"But in this short space of time we have accomplished quite a bit," said the leader of this big reform movement. "Of course, one of the first things we want to accomplish is to interest the public-spirited women of the country in the work of the committee. To do this we are very glad to have this opportunity to speak before a big representative body of women from all sections of the country."

"It is not quite the same as the work done by this committee in Chicago next month. We are very glad to have this opportunity to speak before a big representative body of women from all sections of the country."

"It is not quite the same as the work done by this committee in Chicago next month. We are very glad to have this opportunity to speak before a big representative body of women from all sections of the country."

own particular state and city where it is pointed out that prison improvements are badly needed can be more easily reached," said Miss Wetmore, SUGGESTED BY CONGRESSMEN.

"It was at the suggestion of several members of Congress that we finally decided to take up this work," explained Miss Wetmore. "In this day of specialization I believe that women taking up work like this, for instance, can accomplish results where men, owing to lack of time to go into the detail connected with a special piece of work, would not be able to get the same results."

"Crying abuses in many prisons and reformatories in the country, which had been called to the attention of members of Congress, are now receiving our special attention," said Miss Wetmore.

"These matters were brought to our notice largely through the rather startling conditions which a special committee appointed by the women's department of the National Civic Federation to investigate the Washington prison brought out about four years ago," said Miss Wetmore.

Miss Wetmore was chairman of this committee, although she modestly shied the credit due to her extraordinary ability in bringing about one of the quickest reforms for which Congress has ever gone on record.

"The conditions we found in the jail of our national capital were a national disgrace," said Miss Wetmore. "Most of the cells were only four by two or three prisoners to a cell. There was no ventilation from the outside and no place where the prisoners could exercise."

"The prisoners were fed in their cells from tin dishes, and only tin spoons were used. For the food there could not eat with a spoon they used tin fingers. There were no modern sanitary arrangements in the prison. Men were allowed to smoke old pipes and the atmosphere was stifling. Negro and white women were placed in the same cells."

INTERESTED WICKERHAM.

We interested George Wickerham, then a member of President Taft's cabinet, in the matter. At our request he made a personal inspection of the jail, with the result that the matter was laid before Congress and an appropriation of \$40,000 obtained to make the necessary improvements. All these evils have been remedied, and in addition there is a library, with daily papers and room for the prisoners, and a dining room.

"Many conditions similar to those that existed in the Washington jail now exist in the various jails and prisons throughout the country, and to remedy," said Miss Wetmore.

"One of the crying needs in many of our penal institutions is the separation of the prisoner from the lawless element."

tion of the young from the old offenders. There is no doubt but that the present non-separation leads to increasing crime among the young."

"Recently some members of our committee, after interviewing Governor Perrier of Rhode Island, made an investigation into the reform schools and prisons of the state. He expressed himself as delighted with our report, and in connection with the new insane asylum about to be erected there some of the suggestions we are assured, will be included in the changed plans of the architect's drawings."

"One of these, for instance, is the changed plan for the housing of the attendants. Through our suggestions, these quarters will be changed so as to better facilitate the work, we believe, of the institution," explained Miss Wetmore.

"I recently made an inspection of the county jail in Worcester, Mass., said the leader of this big reform movement. "I found the jail of the antediluvian type, which is so commonly found throughout the country. I presume, for the reason that no one has given any special attention to getting a different kind of housing for our prisoners."

JOINT COMMITTEE APPOINTED.

"I found this jail spotlessly clean, and the warden was doing the very best he could with the conditions. Steps have been taken to bring about a change there by altering this character of building."

"As a result of a prison conference held here recently between members of our committee and heads of various prison reform movements in the country, a joint committee on prison reform in this state was appointed. This committee will soon render a detailed report of conditions in the jails, prisons and reformatories of the state. When once we are able to get comprehensive and accurate reports of actual prison conditions, prepared by experts, then we are enabled to go to the proper authorities to seek remedies."

"So you see we are going about this work in a quiet, painstaking manner," said Miss Wetmore. "There is nothing spectacular or sensational about it. Sometimes we are confronted with situations that are rather appalling, but you know if there weren't such conditions there would be no use for us to pursue our work, would there?"

"One of the bills we have been asked to support is now pending before Congress," said Miss Wetmore. "This bill provides for the privilege of prisoners to receive letters with-

"No, I am not tired of society, not a bit of it," explained Miss Wetmore. "That is not the reason I am interested in this work. I am doing it simply because I am interested in it. I became interested in this sort of work nearly fourteen years ago, when my family lived in Washington. I was a member of the committee on the reform school in Washington, and this interest led me into other work of a similar character."

"I am fond of society. I really have a very nice time. I have a great many friends here, and you can see that my social engagements do not interfere with my work, especially dinner parties and similar pleasures that come after a day's work is done."

Miss Wetmore affects the smart, modish, tailor-made style of dressing for her work and reserves the frills of the fashionable woman of society for the drawing-room and opera.

Miss Wetmore is one of the most popular members of the Newport set, and the beautiful Wetmore cottage there is one of the centers of social activity through the fashionable season.

While devoting a large part of her time to one of the serious problems of the day, Miss Wetmore delights in the popular amusements of the smart set, and is a good dancer, a clever tennis player, is expert at a game of golf and is fond of riding and driving.

In fact, Miss Wetmore, who has taken upon her shoulders responsibility for one of the great reforms of the day, is a splendid example of the modern all-around intellectual, athletic and social type of young woman, who at the same time possesses a rare executive ability to a degree.

Among well-known women of society who are associated with Miss Wetmore in this work and who are members of her committee are: Miss Anne Morgan, Mrs. August Belmont, Mrs. Rogers Bacon, Mrs. Gilbert Montague, Mrs. Francis Higginson Cabot, Miss Elizabeth Marbury, Mrs. Francis McNeill Bacon and Mrs. William Rand.

the air from the vibration. It was the same with the shooting matches with bow and arrow, in which the trunk of a banana tree was used for the butt. Great strength is required to bend the bow correctly, and to drop it to its fullest extent long years of practice are necessary.

"Ruana is doubtless, with the exception of Urundi, the last sultanate or 'kingdom' in Central Africa, which is governed today, as in centuries gone by, a prince clothed with absolute and illimitable powers. There is only one ruler, and no rival sultans are allowed. The people hold him in the greatest awe and reverence. It is extremely rare for anyone to venture to thwart his will, for the sultan is the owner of the land and all the stock, oxen, calves, goats, pigs, etc."

them, but the sultan retains the power of demanding at his pleasure the return of his property from his subjects. The population is divided into three classes, the Watutsi, the Wahutu and the Batwa. The latter arrived very early in the country, with an almost ideal physique. Heights of from five feet, eleven and a half inches to seven feet two and a half inches are of quite common occurrence. They are of perfect proportion of their bodies is in no wise detracted from.

erfully built, the waist is at all times extraordinarily slender. The hands are elegant and delicate in form, the wrists

WORLD'S HIGHEST JUMPERS

Inquiry at the offices of the National Geographic Society, in Washington, as to what race of people possesses the world's highest jumpers, has revealed the fact that this distinction goes to the Watutsi, natives of German East Africa, whose athletes "clear the bar" at the remarkable height of eight feet and five inches. This exceeds the world's record by one foot and eleven and three-eighths inches. The society's report is based on the observations of the Duke Adolphus Frederick of Mecklenburg, who spent two years in the German province and who regards Ruana, the home of the Watutsi, a race of giants, and of the Batwa, pygmies of the forests, the most interesting country in Central Africa. The duke describes the wonderful jumping of the Watutsi as follows:

A line, which could be raised or lowered at will, was stretched between two slender trees standing on an incline. The athletes had to jump over this line from a small termite heap a foot in height. Despite these unfavorable conditions, exhibitions were given which would place all European efforts in the shade. The best jumpers—stouter, but splendid figures, with an almost Indian profile—attained the incredible height of eight feet and five inches, and the young boys made the relatively low jump of a wonderful performance of five feet.

A number of young Watutsi exhibited their remarkable skill in javelin throwing. Taking a run of ten steps, bending

hurled their javelins up to almost prodigious heights, and with such impetus that two of the spear shafts broke in

of an almost feminine grace. Ruana's population has been estimated at 1½ millions."

The pygmies are compact and strong in build, very muscular, with round heads and short, curly hair. Big, intelligent eyes gaze out of good humored faces. Their clothing consists of an apron of gray, woolly, beaten bark, which is obtained from the sap tree, fastened round the loins with a belt of grass cord. Their place of residence changes according to their whim or hunting conditions.

ST. LOUIS, Mo., June 6.—Louis Walther, who lives south of the city, has a cat which hatched out six Plymouth Rock chickens and then refused to deliver them to the mother hen. According to Walther, the hen became jealous of the cat's affection for the chicks, and killed them in the interest of the chicks. Walther, who is manager of a fireworks factory, is promptly showing the strange families to his friends.

\$15,000,000 Set of Books

Uncle Sam has a \$15,000,000 set of books just off the press. The last volume of the Thirteenth Census is emerging. The eleven volumes and the abstract that contain the results of the ten-year survey of the nation are complete, after four years spent in their compilation. They have cost the nation \$15,000,000—more money than was ever before spent for such a set of books since the world began. They are the result of four years of work on the part of all the experts that could be grouped about the task of their compilation.

These books have been created for the purpose of making available facts that would not otherwise be known. These facts are intended to show just what is happening in the nation. They show, for instance, that the tendency of the population to drift from the country to the town is stronger than ever before. They show that the proportion of women earning their living is increasing, that the percentage of foreign born is greater than ever before, the shift in the relative importance of industries; they show illiteracy, land values, crop production, increasing tenancy.

There is no other agency that gathers this information nor that could gather it. There is no other way in which Congress could know of the basic tendencies of the times than by taking a census. Here are set down pure facts, new facts, basic facts. It rarely happens that large amounts of previously unknown facts are given the public at any one time. The census alone performs such a service. Its taking marks milestones in the development of the information of a nation.

CAT HATCHES CHICKS; HEN ADOPTS KITTENS

ST. LOUIS, Mo., June 6.—Louis Walther, who lives south of the city, has a cat which hatched out six Plymouth Rock chickens and then refused to deliver them to the mother hen. According to Walther, the hen became jealous of the cat's affection for the chicks, and killed them in the interest of the chicks. Walther, who is manager of a fireworks factory, is promptly showing the strange families to his friends.

GOSSIP FROM SAN FRANCISCO WEEKLIES

Just a Few About the Golfers

Jack Neville, the California champion, receives \$200 a month from the Hearst Service for his golf stories, I'm told.

Paul Carroll, the latter, uses the most keenly lefted cleft in California today. He gets wonderful distances.

The Anti-Saloon League maintains a private detective in the vicinity of the Claremont Golf and Country Club, to see that the Liquor Ordinance is observed.

Harry Davis, the North California Golf Champion, is right on the edge of his game at the present time. His iron work has steadied and in his present form would have no difficulty in beating Jack Neville again.

It cost Harry Topping \$305 for his trip to the British and French championships. Only a golfing enthusiast of means can indulge in the luxury of foreign golf. Topping was gone exactly five weeks.

Here is a queer situation. According to the Chicago sporting writers, Champion "Willie" Ritchie, became stale through a neglect of his training. He spent from 8 to 10 hours a day on the Glenwood golfing course. He worked in the gym at night and rubbed through his training for Charlie White in the last five days of his preparation taking off 54 lbs.

The Presidio Golf Club has now a membership of exactly 199 members. The charter calls for 200. At the June meeting of the council this will be changed to a limit of 200. Under the present administration, the Presidio Club has come on in great shape. The holding of the championship there this spring afforded Presidio some considerable prestige.

I saw Secretary Owen of the California Golf Association yesterday. He tells me that the golfing feature of the next year—1915—will be the World's Open Tournament for Women. Entries are assured from the leaders in Great Britain, France, Canada and Australia, as well as our own National and State champions. The tourney will be held at Ingleside—The Wasp.

Pantalettes Like Grandma Wore

The greatest interest is still taken in the aftermath discussion of the wedding of Miss Lurline Matson and Mr. Roth, for the bridesmaids at that wedding, as one guest said, "put over" costumes the like of which have not been seen in many a decade. In this era of eccentricities it is difficult to pick the jaded interest of those accustomed to all sorts of oddities, but the appearance of lace pantalettes certainly accomplished the result. For some time we have been hearing that the styles of great-grandmothers were to be repeated around the ankles, but it took a demonstration at a wedding to give impetus to the notion that we could do it today. Nothing could have been more quaint and attractive than the styles in which the gowns of these girls were made, and so cunningly did the little billowy bits of lace around the ankles look that it is generally agreed that there will be a great many dancing rocks this season that will be made with pantalettes.

The Roths have taken a home on Russian Hill, which they will occupy after their return from their honeymoon, and their young friends are looking forward to a jocular good time under their hospitable roof. The Gallios and the Sam Hopkins have taken adjoining houses on the very tip-top of the hill. Mrs. Gallios, since her return from foreign honeymooning has been giving a series of luncheons in their home which they have based down on the peninsula, and when she comes to town in October will undoubtedly add to the season's gaieties by taking up her hostess duties here in town.—News Letter.

This Engagement Soon to Be Announced

From Santa Barbara comes the news of an engagement, soon to be made public I believe. It concerns one of the best known and most popular young maidens of the mission town and a man many years her senior, who has been closely identified with the Montecito contingent for some time. He owns a home there and has been more or less successful in composing music which has found favor with many of the large publishing houses. The young lady is the only daughter of a retired naval officer and a most ambitious mother, who for years saved her pennies in order that her cherished offspring might some day have the advantages of European travel and a presentation at the Court of St. James. Two or three years ago this was accomplished, and the young lady and her mother were presented to their majesties by Ambassador Whitehead Reid, and of course since then Santa Barbara has been scarcely big enough to hold them. The girl has had numerous suitors, but rumor says that she has positively given her heart and hand to the dreamer who writes music.—The Wasp.

Baron Van Eck and Miss Tillman

Many old residents of San Francisco were interested by the announcement of an engagement in the Frederick Tillman Jr. family and the Dr. William Augustus Grant family. Both families have been well known in this city for a great many years. Baron J. C. Van Panthe Van Eck, of the Netherlands, to whom Miss Tillman has become engaged, has resided some time in this city. He is interested in the oil business. The Tillmans, who are wealthy people, are noted for their liberal hospitality, and the reception at which the engagement of Miss Agnes was announced was an elaborate affair. Miss Tillman was a prominent member of the Greenway before the retirement of Mr. Greenway from social leadership. She belongs to the exclusive Gervay Club. Many of the prominent people of society have already said their congratulations to them.

Eck's charming and power stance. The wedding will take place in June.—The Wasp.

Playing Golf When Hubby Is Hard Hit

The other day on the golf links at Santa Cruz I heard a woman remark: "Mrs. So and So is not playing golf now because they say that her husband has been very hard hit in business." Mrs. Fred McNear and Mrs. Malcolm Whitman, who went down with a group of golf enthusiasts for the tournament were standing nearby doing sums in arithmetic with a little golf pencil, and when I asked what business had to do with golf, my attention was called to this little tableau. Later I had to flatten myself out before the prodigy of my stupidity, for the tableaux suggested nothing to me. But a charitably inclined person took me in tow, and carefully explained that the two dashing young women were undoubtedly not trying to figure out how far above the dollar limit the school tax ought to be, nor were they computing the cost to the city of moving the

unfortunate hospital to Florence Court with that rich but not gaudy golf pencil. By all the laws of chance and coincidence and coincidence, they were doing nothing but adding up their gains and losses at golf. Even my clever friend could not tell me which one was in debt to the other by the expression of their faces, for neither of the young matrons is so uneducated to public gaze that she wears her feelings on her countenance. It would not be a matter of concern to either of them from the financial standpoint whether they win or lose, but from the standpoint of sport it is of much moment to come out the winner, and incidentally one cannot play society golf these days and win out without pocketing substantial financial byproducts of the game. Every one in the smart set now gambles on golf, so I am assured, and it is not only in the tournaments that money is put up on the game, but every practice game has a money purse on the side. Mrs. Malcolm Whitman now plays very good golf, and while her winnings have not caused the Crocker millions to overflow the banks, they would make the weekly budget of a shop girl show fantastic signs of inflation. One hears fantastic tales of the amount that Mrs. Walter Martin has won during the year at golf. The other day at a tea I heard a woman say that Mrs. Martin had won enough on golf this year to pay for her wardrobe. Of course, it is impossible to reduce that statement to exact figures, but a professional investigator might start with the fact that Mrs. Martin's mother, Mrs. Henry T. Scott, bought a gown for \$300 the other day at a local shop, and the disappearance of the gown in transit made public the value of it. Mrs. Martin has her mother's good taste and penchant for expensive clothes, so she would have to win a very great deal at golf to dress herself for the year. One of her intimate friends scouted the idea that her winnings had been anything like the amounts credited to her, although she admitted that "Mary is ahead of the game, and if she would only add practice to her natural talent for golf, might really win considerable amounts."—News Letter.

High Stakes and Scandals

The younger women here play bridge for money just as the older set does, but apparently they do not go in for such high stakes here as in New York and abroad, for the scandals that are the inevitable result of high stakes are very infrequent here, while elsewhere they are of daily occurrence. A group at the luncheon table were commenting on this fact at the Burlingame Club several Sundays ago, and Mrs. Whitehead Reid mentioned that "Anne's advantage" this season at bridge had been so large that she had not touched one penny of her dress allowance. The only daughter of the former ambassador to England does not, of course, have to depend on her skill at bridge to dress the part which she plays in life as the wife of Honorable John Ward. The Wards move in the most exclusive set in London, and even now, when an apparent blight has fallen on Americans and their absence from parties given by the most notable aristocrats is commented on, the Honorable and Mrs. John Ward are always among those present. Mrs. Ward has a very winning personality, and in superlative degree that thing which Barrie says every woman knows is the thing which counts above all—"charm." To her friends out here it was a great surprise to know that she had arrived at that state of efficiency at bridge which puts her in the class of experts in a country where the game is not lightly played. It must not be inferred that charm and bridge expertise are incompatible, and it must not be supposed that it is impossible to hold on to a winning personality and become a consistent winner at bridge. The reason her friends out here are so surprised is that they have never fancied that she had the sort of "card sense" that would make it possible for her to win the sort of clothes which she must needs wear in her position. Only those who know what it costs a woman like Mrs. Ward for a wardrobe for the season have any idea of the amount of money, money that soars into the thousands, it takes to dress the part, and the average bridge player is not more impressed with her luck than the expert who knows that no amount of luck can be spread over a whole season and make up for lack of skill, is impressed with her skill.—News Letter.

She Smokes; Does Milady

Cigarette smoking among women is getting a stronger hold every day. Of course, the Burlingame set smokes every where and all the time. In the past women used to hide themselves in their moters and puff, conceal themselves in dark corners of club house verandas. They now come right out in the open and light up at a polo game, a golf tournament, or anywhere in town at night. Everyone has a gold cigarette case

one so much as raises an eyebrow at the sight of a pretty woman blowing rings.—The Wasp.

Millionaire Cellist Is a Visitor

I noticed Allen Hancock of Los Angeles about three last week. He is the son of the late Madame Hancock, afterwards Mrs. Erskine Ross, and inherited from his mother an estate valued at twelve millions, consisting largely of oil properties. It is on Hancock's property that the famous La Brea asphalt pits with their treasures of prehistoric animal skeletons are located. The work of taking out these priceless relics of the infant world is being done by scientists of the Los Angeles Academy of Sciences, to which Hancock has generously presented all the remains that have been found. He is an unusual millionaire, is Allen Hancock. Music is his passion, and he not only maintains a trio for his own delectation, but also plays 'cello in the Los Angeles Symphony Orchestra. Think of a man worth a dozen millions playing in a symphony orchestra! It is

early riser, and practices on his beloved 'cello for an hour every morning before breakfast. Speaking of musicians, we have had a distinguished composer in our midst in the person of Raoul Laparra of Paris. Laparra is the author of a grand opera called "La Jota," which has been sung with success in Milan, at the Opera Comique of Paris, in Boston and at Covent Garden, London. He is also the author of a sonata for violin and piano, which he rendered at one of the concerts of the Los Angeles Symphony this season. Sigmund Beel, the concert master of that organization, playing the violin. Laparra has won the prix de Rome twice. The first award was a four-years' scholarship in Rome; the second a three-year traveling scholarship. He is engaged on another opera which will deal with the Spanish conquistadores of Western America, and he worked steadily on it during the many months he spent recently in Los Angeles. Needless to say, it will be a work of special interest to Californians. As for Laparra's personality, I have the word of Sigmund Beel, who is up from Los Angeles for a rest, that he is as modest as he is able.—Town Talk.

Maude Fay's Triumph

Of Maude Fay's success on the operatic stage many reports have come to her old home, but always through channels that left room for scepticism. And there has been more or less scepticism. As with prophets so with opera singers, so with everybody that succeeds, the folk at home are the last to be convinced. Well, it is time for Maude Fay to be acclaimed at home, for San Francisco to be proud of this distinguished native daughter, who went abroad to study and whose art receives the applause of the world's most critical audiences. I have been reading of Maude Fay in London's great weekly, The Illustrated News. She made her appearance at Covent Garden last month, and this is what the News critic said of her: "In Lohengrin the great success of the revival fell to Miss Maude Fay, who, if we are not mistaken, is an American singer. She has been heard at Covent Garden this season already, and her Sieglinde was a very charming impersonation; but it was left for the very familiar role of Elsa to display to the greatest advantage the natural beauty of her singing, her gifts as an actress, and the consummate ease with which she can control and direct her voice. A newcomer, Mme. Matynauer, was hardly less successful as Ortrud; indeed, there was considerable discussion in the house as to which was the most effective singer, though all were agreed that it was a glowing pleasure to listen to both." The music director of this performance was the great Nikisch.—Town Talk.

Some Astonishing Political Pathology

It is the national American habit to spend its time investigating our neighbors with more or less edifying or instructive results. Thus we learn that a battalion chief of the San Francisco fire department is suffering from "fatty accumulation of the heart," whatever that may be, and by way of further pathological information we are told that this public figure of Kitter. We have heard of a man's heart being broken by polioemetic emotion, but this is the first time we ever heard of a broken kidney. Probably the affection is mostly political, easily cured by a salary. Once we venture to invade this mysterious domain of political pathology, physicians are in vain, and we get our healing prescription out of Wonderland: "They soothed him with muffins, they soothed him with buns, they soothed him with mustard and cream, they soothed him with jam and judicious advice, and gave him conundrums to guess."—News Letter.

Laurence Irving and Our Alice

San Franciscans are particularly interested in Laurence Irving, who was drowned with his wife in the Empress of Ireland disaster, because he was once engaged to marry Alice Neilson, the pretty prima donna whose career started at the Tivoli. When the fair Alice made her first London hit in "The Fortune Teller," Irving succumbed to her charms and used to attend every performance. They were engaged, but the romance went no further. Later on he was engaged for a short time to Ethel Barrymore. Laurence was the second son of the great Sir Henry, H. B. Irving, who is still living, being the elder brother. Laurence was educated for the diplomatic service, but the footlights drew him and he made his first appearance as King Lear in a production of "A Midsummer Night's Dream," made by F. M. Benson, who

repertoire. He was a very good actor, and wrote a number of successful plays, as well.—Town Talk.

Interests in Mix-up at Big Exposition

There's a "Poppy" down at the Exposition. A lot of Men lost their tempers, and in the general Mix-Up the Field Sergeant who went over the Battle Ground last night find that the M. S. Crocker Company of this City has voluntarily thrown up its valuable and much sought-after Pictorial Concession.

Henry Crocker is mad clear through. So is Director of Concessions Frank Burt and the Exposition General Board. Incidentally the upheaval is the Talk of Harbor View.

The M. S. Crocker firm had worked three months on the Concession, for which it paid some \$30,000, and always under some irritation because of the unreasonable Rules of the Exposition Departmental Chiefs. The Crocker firm claims that the Exposition is so "over-systematized" that the place cannot be visited

without the aid of a derrick. Having reached the point where he wished to alight, Miss Newhall attempted the ordeal of wriggling back to the rear platform. When she got in front of the fat woman, that gentle creature, being anxious to avenge herself on somebody for the discomfort of hanging to a strap and being jostled around on a hot day, reached over and pulled out the young lady very wisely made the best of an awkward situation and continued on her way without even a glance at the female roughneck who had ruthlessly robbed her of a fine plume. Women are nearly always conspicuously impolite to one another in the cars. Six will spread themselves out over a whole side of the car and allow a feeble little woman to hang by a strap, although she may be almost ready to faint with exhaustion. When some aggressive female bounces in and says brusquely, "Please move up there," the seated beauties wriggle an inch or so and look daggers at the newcomer. They pay no attention at all to the conductor when he admonishes them to make room for somebody else.—The Wasp.

And This Near a Big City

A crazy half-breed Indian amused himself by sitting in the bed of Alameda Creek and shooting at automobile parties crossing the bridge near Niles. The local constable Frank Rose had gone to the ball game, and his deputy, retired from the field precipitantly when a soft-nosed bullet slipped through the top of his hat. It was clearly a case for the master mind, and so they hastily summoned the constable himself, leaving three men on bases. It was a case for a strategic flank movement rather than a frontal attack, and by so making a detour the wily constable gained a point of vantage on a high bank above the spot where the peevish varmint was entrenched. He never said a word, and without attracting the attention of the other man he sprang upon his shoulders and bore him to the ground. After a desperate struggle, Rose gained the mastery and wrested the loaded and cocked weapon from the Indian. All this within 30 miles of a big city.—News Letter.

Miss Alice and "the Blatherskite"

Friends of Miss Alice Hager have been telling of a funny incident as one of the popular "movies" the other night, where, among other pictures, appeared one of a young woman holding one of the blue ribbon prize winners at the recent San Francisco Exposition. The picture showed a young woman, looking as pleased and proud of her prize winning dog as only a dog fancier can look, was flashed on the screen long enough for a little group of friends who were present to realize that the camera had caught Miss Alice Hager in the act of displaying her pet. The picture stayed on the screen long enough for a woman in the other part of the house, the sort of brogue that never wears off and cannot be naturalized, the picture stayed on long enough for this woman to find her voice and at the top of her lungs to shout out, "Holy Saints, if that ain't Miss Alice, and that blatherskite of a dog." Of course, the house enjoyed it uproariously. I hope that the woman was a former maid in the household, for it does not auger well for her loyalty if she is now employed there and profaned the sacred person of the dog with a term like "blatherskite." However, Miss Alice should remember that the woman was laboring under great emotional strain, having just seen the heroine swallowed by a man-eating tiger, and, of course, did not expect that the next film would, as it were, be all in the family, and so very naturally she was moved into some sort of expostulation, and probably would be the first to offer to apologize to the dog for her unseemly conduct and language.—News Letter.

The Return of Mrs. Bowditch Morton

Mrs. Bowditch Morton, whose return from New York has been heralded, is one of the most remarkable women in local society. As Blanche Smith, she was one of the belles of the city 20 years ago. She has lived much in Paris and has the air and manner of a Parisian and much of the style in dressing that is designated as chic in the French woman. Part of the fortune left her by her father is a large estate near Merced. Between season she fits to Paris for her shopping, spends a few weeks in New York for the opera and theaters and then returns to the ranch. Harvesting has brought her back from New York this week. Her son, "Bowie," is one of the young elites who will have a fortune to bestow upon a girl when he marries, but the San Francisco debutantes haven't yet gotten upon his trail, as, like his mother, he is interested in other things beside the mere frivol of society.

Carnegie's Nieces Arrive in America

The Shinyo Mary brought two nieces of Andrew Carnegie to San Francisco last Thursday. They were Miss E. Stone Fleming and Miss A. U. Collard of Pittsburgh. They are in mourning for their mothers, and have been traveling very quietly during the last eight months. They managed to keep their identity hidden from the newspapers until they reached this city and were recognized at the Palace by Watt Brown of the Examiner, who never forgets a face. The two women spent some time in Manila, and the Shinyo Mary brought me a story about their stay in that city. It is a story which has been whispered in Manila, but may become public, as I believe that there is the possibility of a court marriage. It seems that two army officers stationed in Manila saw the two nieces of Carnegie in the hotel dining room and admired them. There had been no introduction of any sort; in fact, the two women were quite unaware that the two officers existed until the officers, perhaps as a result of having dined too well, telephoned to the women's apartment in the hotel and invited them there "for a good time." Infructed by this unwarranted intrusion the nieces of Carnegie

pointed apartment here always, where she lives whenever she is in San Francisco.—The Wasp.

The Gentle Sex--Not Always

One day recently, Miss Marian Newhall found it necessary to use one of the chariots of the United Railroads instead of the fine Remouine in which the ladies of her family are generally seen when visiting the downtown district. The street car was crowded, and, as usual, the conductor was admonishing the passengers near him to "Please go inside; plenty of room forward." Not so easily done as said, for the usual complement of fat people hedged the aisle and, with out flinging them in the ribs to move the obstructionists a little to right or left, it was impossible to elbow one's way forward.

Miss Newhall tried to follow the conductor's advice and pushed ahead as energetically as any fashionable and polite lady could, without violating the rules of street-car decorum. She managed to reach a forward strap, after wriggling

hardly moved by a derrick. Having reached the point where she wished to alight, Miss Newhall attempted the ordeal of wriggling back to the rear platform. When she got in front of the fat woman, that gentle creature, being anxious to avenge herself on somebody for the discomfort of hanging to a strap and being jostled around on a hot day, reached over and pulled out the young lady very wisely made the best of an awkward situation and continued on her way without even a glance at the female roughneck who had ruthlessly robbed her of a fine plume. Women are nearly always conspicuously impolite to one another in the cars. Six will spread themselves out over a whole side of the car and allow a feeble little woman to hang by a strap, although she may be almost ready to faint with exhaustion. When some aggressive female bounces in and says brusquely, "Please move up there," the seated beauties wriggle an inch or so and look daggers at the newcomer. They pay no attention at all to the conductor when he admonishes them to make room for somebody else.—The Wasp.

Remarrying After 20 Years--a Romance

Remarrying after 20 years' separation is a decidedly unusual proceeding. The other day, in the newspapers' account of marriage licenses issued, the names of Henry J. Coon and Julia B. Coon appeared. The Coons were married in this city 25 years ago and a daughter was born to them. The little girl was named Dorothée. After a few years, the young parents separated and thereby caused much surprise, as their romance had been a genuine love match, and divorces were not then as much an everyday affair as now. Mrs. Coon went abroad and remained there for years. The generation in which the young couple had moved as "members of the younger set" has become the older set, and now, after all those years, they have been reunited. Mr. Coon is a brother of Dr. W. F. McNutt and uncle of those fashionable matrons, Mrs. Mamie McNutt Potter and Mrs. David Brown of Colorado. Mr. Coon's wife was Miss Julia Bray, daughter of the late Watson Bray, who was prominent in the grain business in the days of the old "Grain King" Friedlander, William Drexler and other big plunders, long since retired by the Grim Reaper or Father Time from the company of active brokers and operators. Mrs. Coon's sister is Mrs. Alfred Cohen, mother of Mrs. Gerritt Livingston Lanning and Mrs. Owen (Ethel Brant).—The Wasp.

Definition of Politics Is Radical

The best definition of politics that I have recently seen is given by Hulanicki of the Contra Costan. "We note from the Sacramento Union that the old guard of reactionary political badlands went to get back into the saddle again." Sacramento is not alone in this. All over the country the other

are hampered. Some places they are worse than that but they are at least that way.—News Letter.

Poetic Home Industry Booms

I suppose no world's fair can be properly opened without some sort of ceremonial ode fitted to the occasion. In fact, I am in receipt of this stirring appeal, issued by the world's fair management:

California, home of literary grace and vigor from early days, has now a theme worthy all inspiration. There are poets in the very thought of the wedding of two mighty oceans, and lyric beauty to the utmost in the unparalleled, almost year long festival that is to commemorate the event. Home of dead and gone Bret Harte and Joaquin Miller, there are surely living singers in California, whose souls may early weave into fitting utterance this grand new story.

"Wine is to be the John G. Whittier or Harriet Monroe of the Panama-Pacific International Exposition?"

But most of them have harnessed Pegasus to a cart. There was our pet poet, George Sterling, who has gone to New York to whistle his songs—even he who kept the faith so pure of old, has been guilty of Chamber of Commerce poetry made to order in celebration of a festive occasion where boosters were gathered together to eat, drink and be merry. The fact is, the occasional poet is damned. Poetry is no longer a thing.

However, let us not despair while we have with us Miss Agnes B. Bollinger, who has already given us a taste of her quality in her notable invocation entitled "Come on to San Francisco," as for instance "Come on to San Francisco—You have a date—

In nineteen fifteen—So don't be late—Come right now—And bring along a Pal—To celebrate the opening—Of the Panama Canal—Don't stop to write—Or telephone—Come right in—And make yourself at home—And when you arrive—You won't have to wait—For we'll be holding open—The Golden Gate"

Like the great poets, Miss Bollinger writes in the language of the people. There is a swing to her song that suggests an occasion to be opened with a corkscrew, and so with the chorus: "I'll be there—I'll be there—You'll be where? You'll be where? At the Fair—At the Fair—At the San Francisco Fair—I'll be there—I'll be there—You'll be where? You'll be where? At the Fair—At the Fair—At the San Francisco Fair."

It might be the twin of "Hail, hail, the chief has come; what the hail do we care, what the hail do we care?" There is a fine, free bacchanalian atmosphere about the stuff that makes us giddy as with the fumes of a new wine. Indeed, the muse is alive and kicking in California. Fresno and the whole San Joaquin Valley is alive with poets and poetesses. If you are looking for a fine article of real estate, apply to Miss Rosa Cox, the sweet singer of Lindsay in the San Joaquin. Her ode to Spring in the valley may be presented in part: "The farms with their wealth of alfalfa, Of barley and wheat shoulders high; Where beauties of mountain and meadow Are rivaled by beauties of sky. Away in the west winds the red sun, The colors of rainbow are spilled, O'er a valley of exquisite beauty The thoughts of the great world are stilled.

The red shafts to purple of twilight, The owl sounds his word of the night, And the pumping plants down at the ranches Each twinkles a friendly light, I whisper a prayer of thanksgiving, That I have been given to see A glimpse of that land of great promise, An Eden for you and for me." Miss Cox handles the long metre blank with the facility of a Shakespeare, but I would like to hear what she has to say about the cows and chickens. The alfalfa and the barley and the pumps are very well, but more attention should be given to the livestock interests.—News Letter.

Daddy to Rescue and Trip to Paris

A few days ago, that delightful divorcee, Mrs. Max Cook Greenfield, satisfied herself that she had not forgotten to pack her toothbrush; then she tightened the bow around her Teddie-my-child's neck, and departed for Paris. Not long before that her father, Bob Cook, had promised to stand treat for the trip. Prior to that Mrs. Greenfield had in an offhand way, plighted her heart and hand to Charlie Kenyon, the playwright. For two strenuous years previously Kenyon waged a desperate campaign for this very heart and hand.

Apparently the engagement is still in full force and effect, but the love scenes have been adjourned sine die. Kenyon has not the least idea when the lady will again be in San Francisco. Perhaps she will not return in time to remember his existence. There was a rumor another time that she had accepted him merely to keep him quiet. Then she had her doubts whether or not keeping Charlie Kenyon quiet would solve the problem of life's happiness. He still cherishes the notion that such solution would be best and most realistic for all concerned. Daddy Cook, though, became convinced that the daughter needed a change of air and a few hints from the Rue de la Paix. Some of Mrs. Greenfield's friends think that Kenyon's two years of wooing have come to naught. He has never been able to get across the wire fence that keeps her heart so tender.—The Wasp.

Some of Mrs. Greenfield's friends think that Kenyon's two years of wooing have come to naught. He has never been able to get across the wire fence that keeps her heart so tender.—The Wasp.

Polk's Hour of Triumph

It would take an Elia Whittier who could describe the heart throb of beautiful poems that descended upon the flag-raising of the new Hobart Building. The casual observer of the ceremonies could never have guessed that from the ramparts of the steel structure Architect Polk and Mayor Ralph had fought the Battle of the Soffits and hung up such other's goats for the gaze of the multitude. Polk's famous signature now adorns a wall in the Museum of Ancient History at the Park, and will probably be exhibited in the Peace Palace in 1915.

Within a few weeks he had performed the star spangled banner act for the New Municipal Railway and the new City Hall. He did not dare to sully his reputation by appearing in the same role at a private enterprise. So he sent another

negotiator and chief-assistant flag raiser for all purposes. And what more fitting than that he send his secretary, Edward Rainey, who recently threatened to punch Polk's face out of its classic proportions for his remarks against Polk.

Some newspaper statements to the effect that Polk had swallowed humble pie and bent the knee of groveling obedience to the Board of Works were wrong about Polk. We saw him at the Hobart Building plaster versus concrete for the Soffits. Willis hated and plastered them despite the ultimatum of the Board of Works to concrete them or stop work on the building. Willis isn't a big man, but he acts as if he weighed 10 tons when he thinks he's right—and he usually is right on architecture. The Hobart Building is a big ad for him on account of the way it has shot up.—The Wasp.

He Was Hungry Was the Governor

It was a minute or two after the hour at which the office of the Pacific Gas and Electric Company is opened for business. The telephone bell rang. One of the clerks answered. Over the wire came the complaint that the speaker had no gas in his house.

"The gas has been shut off," he said, "and I want some right away. I haven't had breakfast yet."

"I'll attend to it right away," said the clerk. "Name and address, please?" "Johnson."

"Oh, I'm Governor Johnson."

"Oh," said the clerk, who has the reputation of a wag, "Governor Johnson and no breakfast? Well, I'll attend to it right away. I realize that a man must eat."

And the singular part of the story is that the Governor enjoyed the joke and flattered the wire with his laughter. It is refreshing to know that although the anxieties of political office have been a torment to Governor Johnson's soul, and that as a consequence he is irritable at times, there is still a smile in his heart that rises occasionally to his lips.—Town Talk.

McNab on Politics and Next Legislature

"The next Legislature," says Gavin McNab, "will be overwhelmingly Republican. From what I hear from all parts of the State the voters are determined to clean out the freaks who frightened the State into insolvency. At a time when crops are exceptionally good and all other conditions make for prosperity we are suffering from hard times artificially brought about by the men who insisted on repealing every law of nature and

lives except the hours of going to bed and eating. They even passed laws regulating what we should eat. The consequence is that American capital has been scared out of California. The only capital which can be induced to invest in California today is European capital, and we get some of that because Europe has never heard of the last Legislature. That is a fortunate thing for the State, but it has shocked the freak legislators, and they would try to bring themselves to the notice of Europe if they had another chance. But the people are tired and disgusted, and I look for a reaction. As far as Democratic politics are concerned, it seems to be agreed among Democrats that they will keep hands off and allow the Federal job-holders to conduct the campaign and pay the bills. When the campaign is over, the Democrats will call President Wilson's attention to the result." I inferred from McNab's words that the result would be very disappointing to the President.—Town Talk.

Daddy to Rescue and Trip to Paris

A few days ago, that delightful divorcee, Mrs. Max Cook Greenfield, satisfied herself that she had not forgotten to pack her toothbrush; then she tightened the bow around her Teddie-my-child's neck, and departed for Paris. Not long before that her father, Bob Cook, had promised to stand treat for the trip. Prior to that Mrs. Greenfield had in an offhand way, plighted her heart and hand to Charlie Kenyon, the playwright. For two strenuous years previously Kenyon waged a desperate campaign for this very heart and hand.

Apparently the engagement is still in full force and effect, but the love scenes have been adjourned sine die. Kenyon has not the least idea when the lady will again be in San Francisco. Perhaps she will not return in time to remember his existence. There was a rumor another time that she had accepted him merely to keep him quiet. Then she had her doubts whether or not keeping Charlie Kenyon quiet would solve the problem of life's happiness. He still cherishes the notion that such solution would be best and most realistic for all concerned. Daddy Cook, though, became convinced that the daughter needed a change of air and a few hints from the Rue de la Paix. Some of Mrs. Greenfield's friends think that Kenyon's two years of wooing have come to naught. He has never been able to get across the wire fence that keeps her heart so tender.—The Wasp.

GREAT WARS With MODERN WEAPONS

The RUSSO-JAPANESE WAR

"Great Wars with Modern Weapons." The next article will deal with the causes, bravery, strategy, misery, and results of the recent Balkan war.

THE war between Russia and Japan emphasized the value of the old and tried rules of strategy, and of those other indispensables of all success—foresight, courage, and perseverance. To these qualities and to their wariness in deliberation, coupled with their thoroughly organized action at due time, the Japanese largely owe the complete and sweeping victory they won. A belittled and underestimated force at the outset, bitterly despised by its gigantic enemy, Japan stands today one of the great powers of the world.

There was much to be gained of advantage to military science as the result of this titanic conflict. Some of the lessons learned were:

That battleships and heavily armored cruisers alone will win command of the sea, and that without command of the sea a greater power is at the mercy of an inferior one.

That torpedo boats were craft of immense possibilities, capable of even greater development; but that their powers of offense against a battleship

could be nullified, and indeed were counter-attacks, and indeed were counter-attacks, and indeed were counter-attacks.

That the use of the searchlight on the battlefield had opened new possibilities in warfare, enabling armies and fleets to guard against night attacks, thus eliminating the element of surprise.

That the use of the searchlight on the battlefield had opened new possibilities in warfare, enabling armies and fleets to guard against night attacks, thus eliminating the element of surprise.

which a series of blows at the Russian squadron at Port Arthur which caused it to reel back into the harbor, having lost two battleships, the Tsarevitch and the Retvisan, and one cruiser, the Pallada. This was a torpedo attack. The next morning Togo renewed his attack and the battleship Poltava and three cruisers, the Novik, Askold, and Diana, were injured. In the meantime the Japanese

crusaders had no difficulty in landing on the attack of the Korietz and of the Variag which had come to its assistance. They were both sunk.

Japanese Hammer Port Arthur.

Thus in this dramatic fashion the war opened. Japan poured her troops into Korea and Russia awoke to the bigness of the task which lay before her. In the midst of a blinding snowstorm on Feb. 13, another torpedo attack was made on Port Arthur, with the result that the cruiser Boyarin was torpedoed. Alexieff, who had been commander in chief in Manchuria, was replaced by Kuropatkin, and Starck, who had lost the best part of his fleet on the terrible night of Feb. 8, by Makaroff.

At the gates of Port Arthur the Japanese continued to hammer. Two unsuccessful attempts were made to seal up the port. Then by a piece of clever strategy the Russian fleet, or what remained of it, was decoyed out of Port Arthur and then driven back over a field thickly sown with mines. The Russian fleet, the Petropavlovsk, struck one of these mines and sank. Among the drowned

Liautung peninsula, was the objective of the second Japanese army, and a landing was made at the place on May 4. Four days later the railway was cut at Pulanien, and a Cossack raid, made round the right of Kuroki's army, was beaten back.

Kuropatkin Takes Command.

The Japanese sustained their first reverse when one of their most battleships, the Hatsuse, was sunk by a mine off Port Arthur. This did not cause them to lose their grip on the fortress. With the second Japanese army Oku moved on to Kinchau, while a third army landed at Takushan. Oku opened his attack on Kinchau on May 27. Nanshan was stormed and the Russians were driven back by the loss of seventy-eight guns. A corps under Stackelberg, which had been sent by Kuropatkin to go to the relief of Port Arthur, was met at Telissu and driven back to Kaiping with the loss of 7,000 men and sixteen guns.

At this point Kuropatkin took command in person and after a series of engagements Oku drove the Russians from their entrenched positions on to Tashihchiao. Soon after the Japanese general occupied Newchwang. Meanwhile attacks by land and sea were being made on Port Arthur itself and the investment was daily growing closer. On July 31 the investment of the fortress was begun. On Aug. 19 the remains of the fleet in the harbor made a sortie and were dispersed by Togo. An action of殊死戦 between Kuroki and the Vladivostok fleet resulted in

to peremptory orders from St. Petersburg assumed the offensive on Oct. 9. Then followed the slaughter on the banks of the Shano which lasted for five days and resulted in Kuropatkin being driven back over the Shano in headlong rout.

Only a Handful, and All Wounded.

Many picturesque incidents of the battle of the Shano have been told, but none seems to equal in pathos the following episode: When the battle was at its height a wounded Russian officer and a handful of wounded men reported themselves to the general in command. He stormed at them, asking how they dared leave their regiment at such a time. "Where is your regiment?" he asked. "Here, sir," answered the officer, pointing to the little band, which was all that was left.

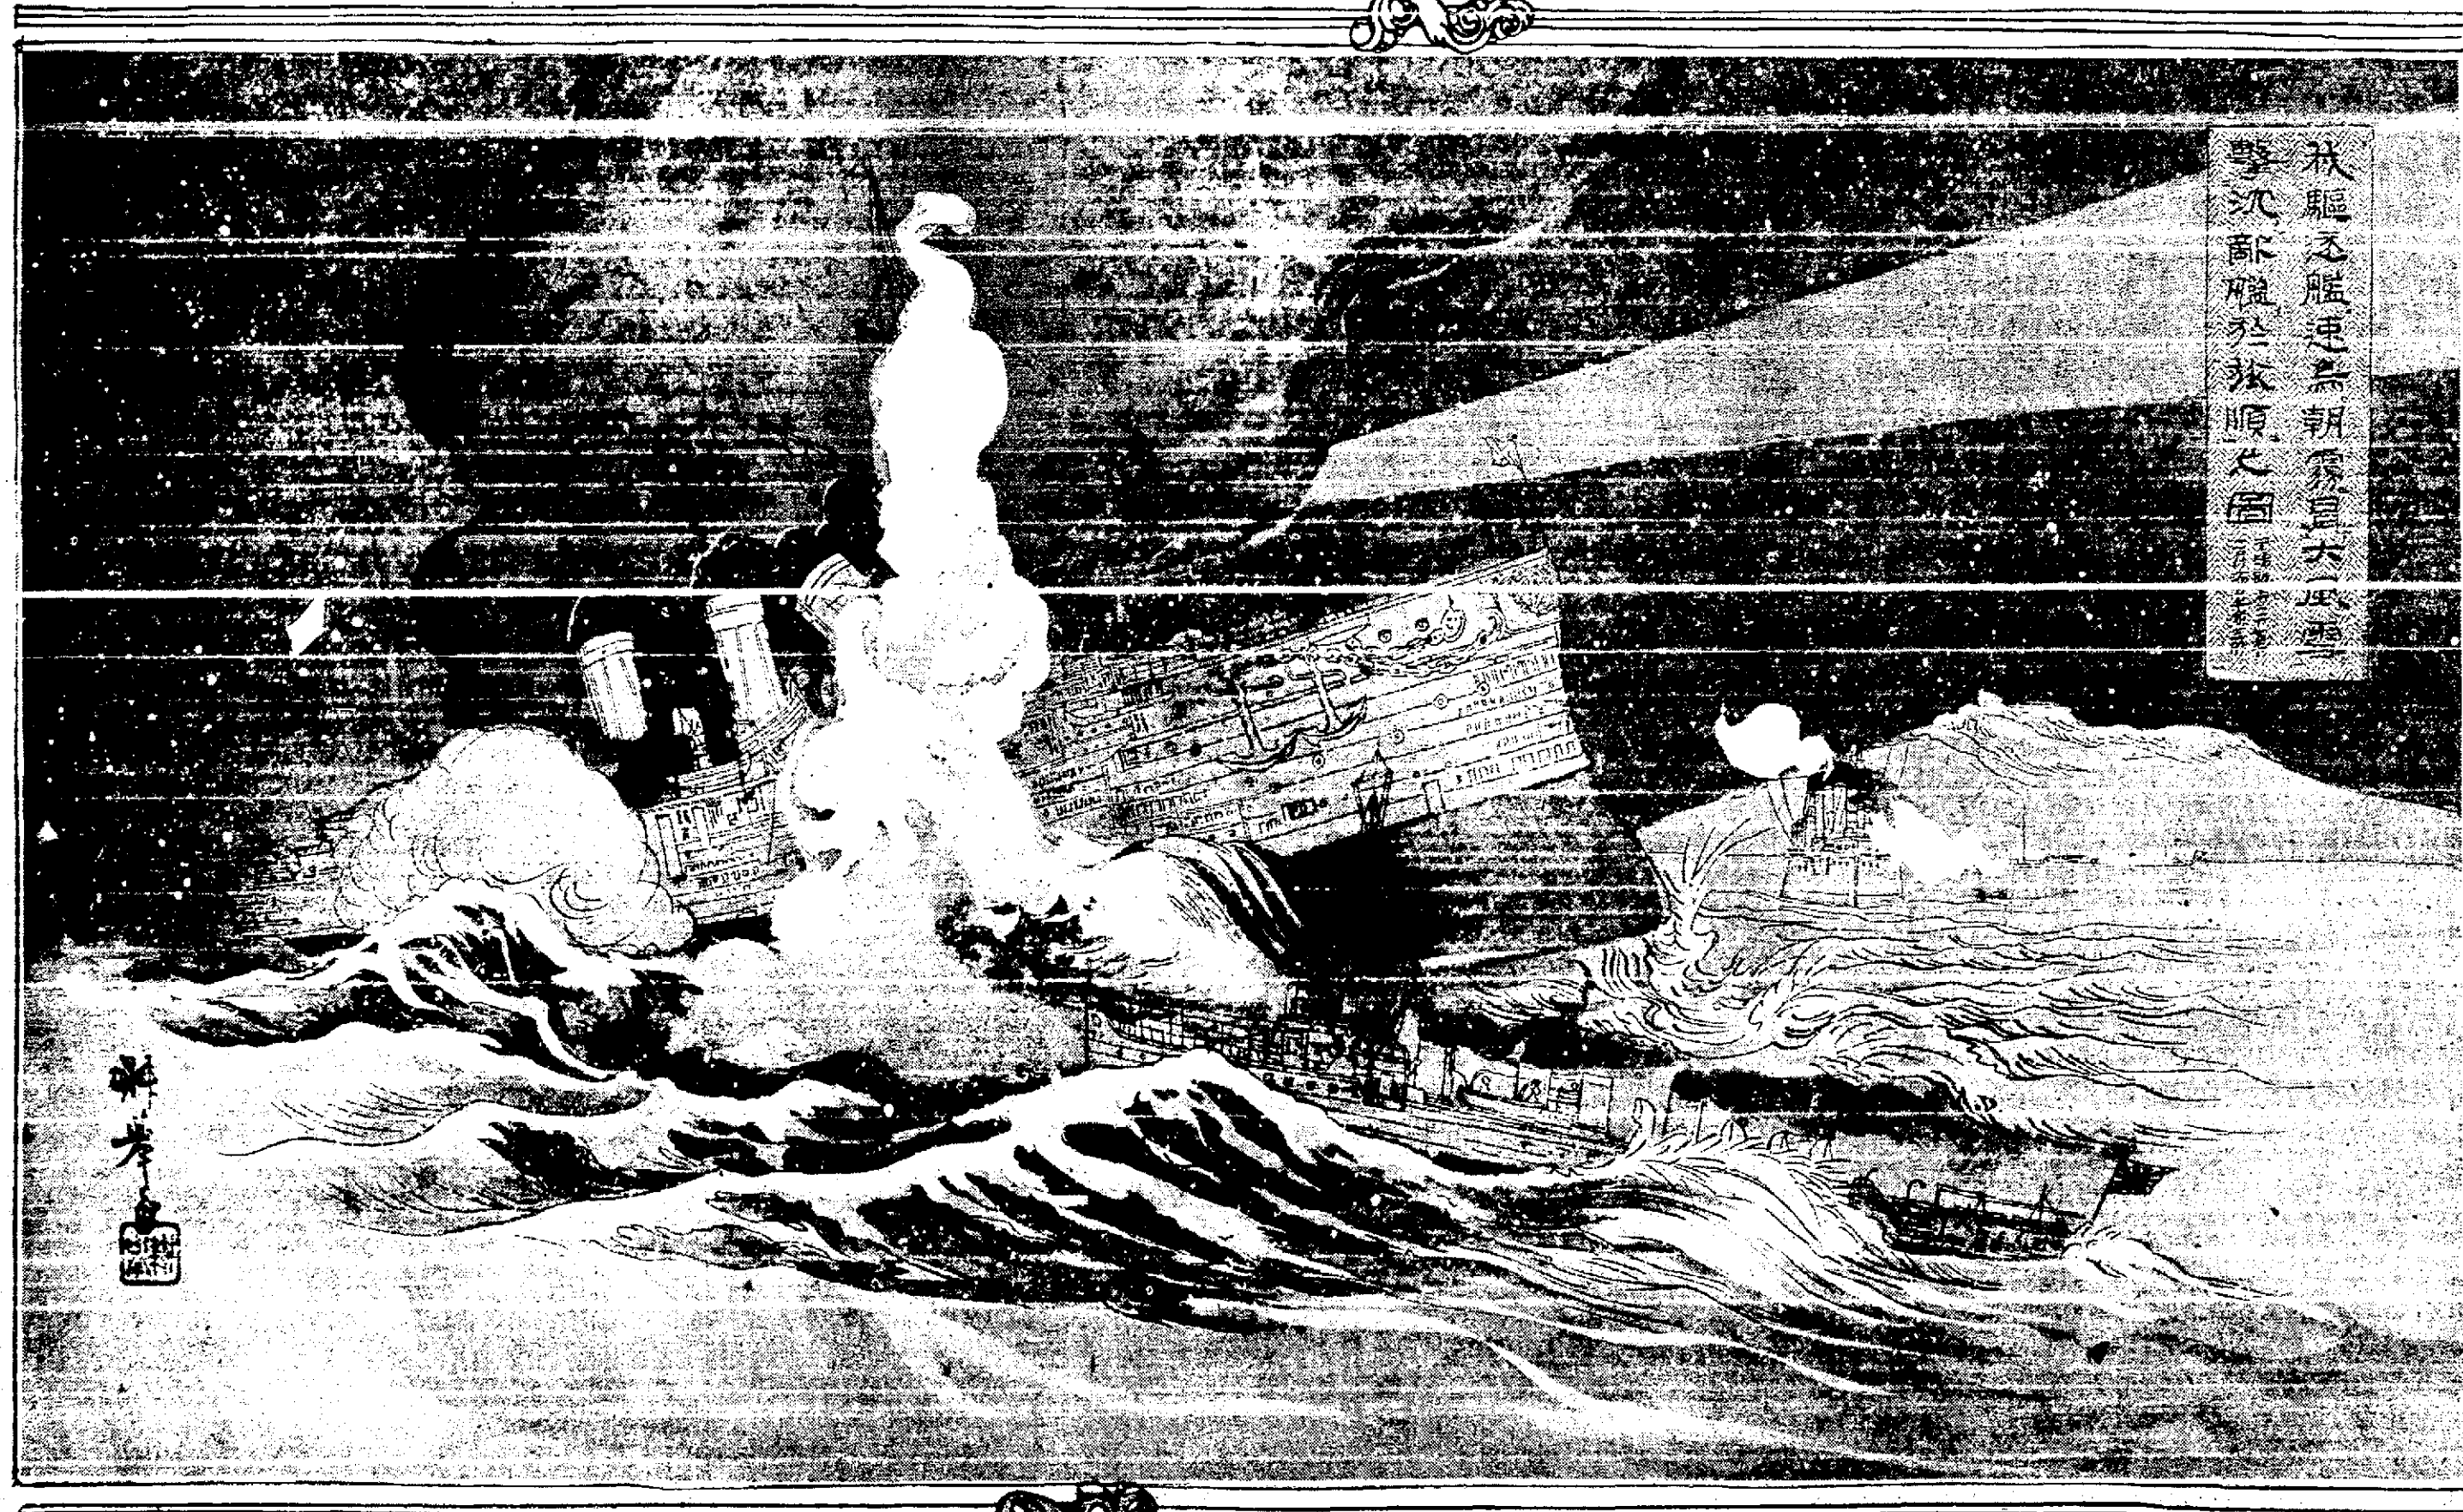

This battle put a stop to any further attempts at relieving Port Arthur from the north and the siege was pressed on relentlessly. The investing army drew its iron grip more tightly. Port after fort was taken by storm, often with great loss of life, until in the last days of 1904 Ehrlungshan and Sungshooshan were captured. On the first day of 1905 Stoessel acknowledged himself beaten and Nozi received the surrender of the port with enormous stores and 40,000 prisoners of war, together with the shattered remains of Russia's eastern fleet.

There was a lull in the fighting for nearly a month, during which Nozi was able to send reinforcements to the Japanese army in front of Mukden. Fighting began again with an

sky's Baltic fleet. At length the ships were assembled and on Oct. 20, started for the east. On the night of the 21st they were passing down the North sea when they sailed into the midst of some trawlers of the Haul fishing fleet. For some reason the Russians took these for Japanese torpedo destroyers and opened fire. One trawler was sunk, others were injured, two men were killed, and others were wounded. On the urgent representations of the British government a commission of inquiry was subsequently held in Paris and the Russian government had to pay a handsome indemnity. Meantime the fleet went on its way slowly, lingering at Madagascar a long time.

At length Rojestvensky's fleet sailed and after another delay off the coast of Annam it entered the straits between Corea and Japan and was promptly attacked by the ever watchful Togo off the island of Tashima. In the first attack on May 27 four of the Russian ships were sunk, while others were damaged. Next day the fight was continued and four Russian ships surrendered and one cruiser escaped. The total result was six battleships, one coast defense ship, five cruisers, two special service ships and three destroyers were sunk; two battleships, two coast defense ships, and one destroyer captured. Eight thousand prisoners were taken, including Rojestvensky himself.

The last stage of the war was reached when a Japanese fleet made a descent on the island of Sakhalin. After some desultory fighting the governor and his garrison of

ONE AFTER ANOTHER THE RUSSIAN SHIPS WENT DOWN

squadron had been greatly overestimated.

That "team work" in armies, as exemplified in the Japanese movement was a matter of primary importance: this was proven by the perfect cooperation between the three Japanese armies operating scores of miles apart.

That even the most massive forts built by modern engineering skill were helpless against mining, sapping, and engineering skill and the use of dynamite.

That even redoubts, surrounded by

months. In October, 1903, the Russians withdrew from the southwest of Mukden as promised, but ignored other promises of withdrawal. In the same month of October Russia reoccupied Mukden. Protests were again made, notes were exchanged between the two countries, and so matters went on until Feb. 6, 1904. Then Japan broke off negotiations.

The first shot of the struggle was fired at Chemulpo, the port of Seoul, in Corea. A Japanese squadron conveying transports was fired on by the Russian gunboat, Korietz, Feb. 8, 1904. At midnight on the same day Togo

was Admiral Makaroff.

The Japanese army in the meantime was streaming across the Yellow sea in transports to gather on the banks of the Yalu under Kuroki for the invasion of Manchuria. The crossing was made near Wiju toward the end of April and all Europe was surprised to hear that an army of yellow men had made a frontal attack upon a strongly entrenched European force and had sent it flying, capturing twenty-eight guns. Port Arthur was blocked for battleships and cruisers two days afterwards. Pitsewo, on the north of the

the loss of the Russian cruiser Rurik. On Aug. 19 a general attack on Port Arthur by land and sea was begun which failed to reach its objective, although the lines of investment were drawn nearer.

On Aug. 25 the series of operations began which led up to the battles of Liaoyang. After frightful carnage in a ten days' battle Kuropatkin was beaten back and Oku occupied Liaoyang on Sept. 4. The Russian general, however, managed to extricate his beaten army and to retreat to Mukden. Here he rallied his beaten regiments, and in response

attack on the Japanese left wing at Heikontal on the Hunbo, and on Feb. 23 began the last of the great land battles of the war, which lasted nearly a fortnight. The line of battle extended for scores of miles and the numbers engaged made it one of the most gigantic combats in history. In the end the Russians suffered a complete defeat and their beaten legions were driven out of Mukden with frightful losses of men and material. Soon after Kuropatkin resigned his command and was succeeded by Linievitch.

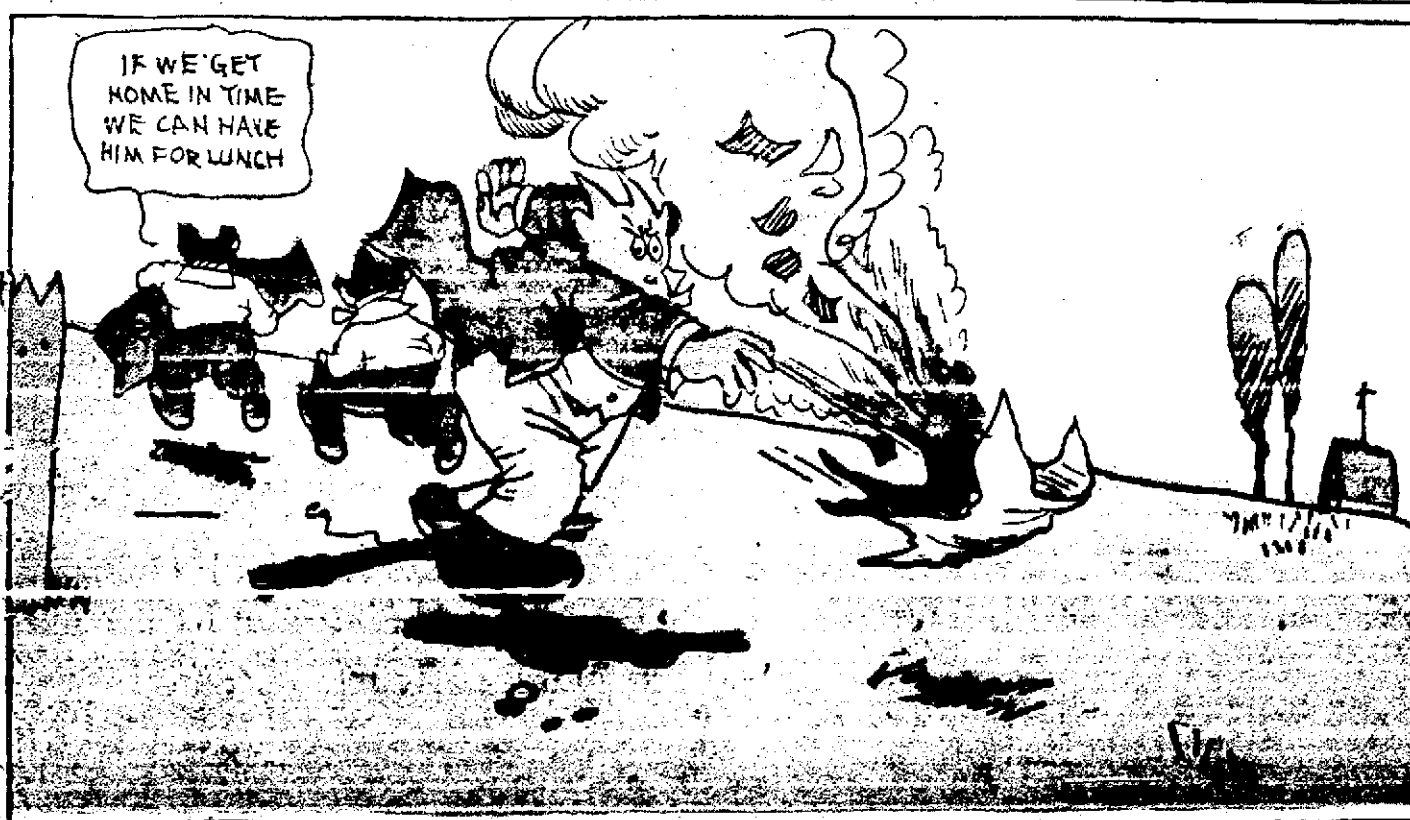

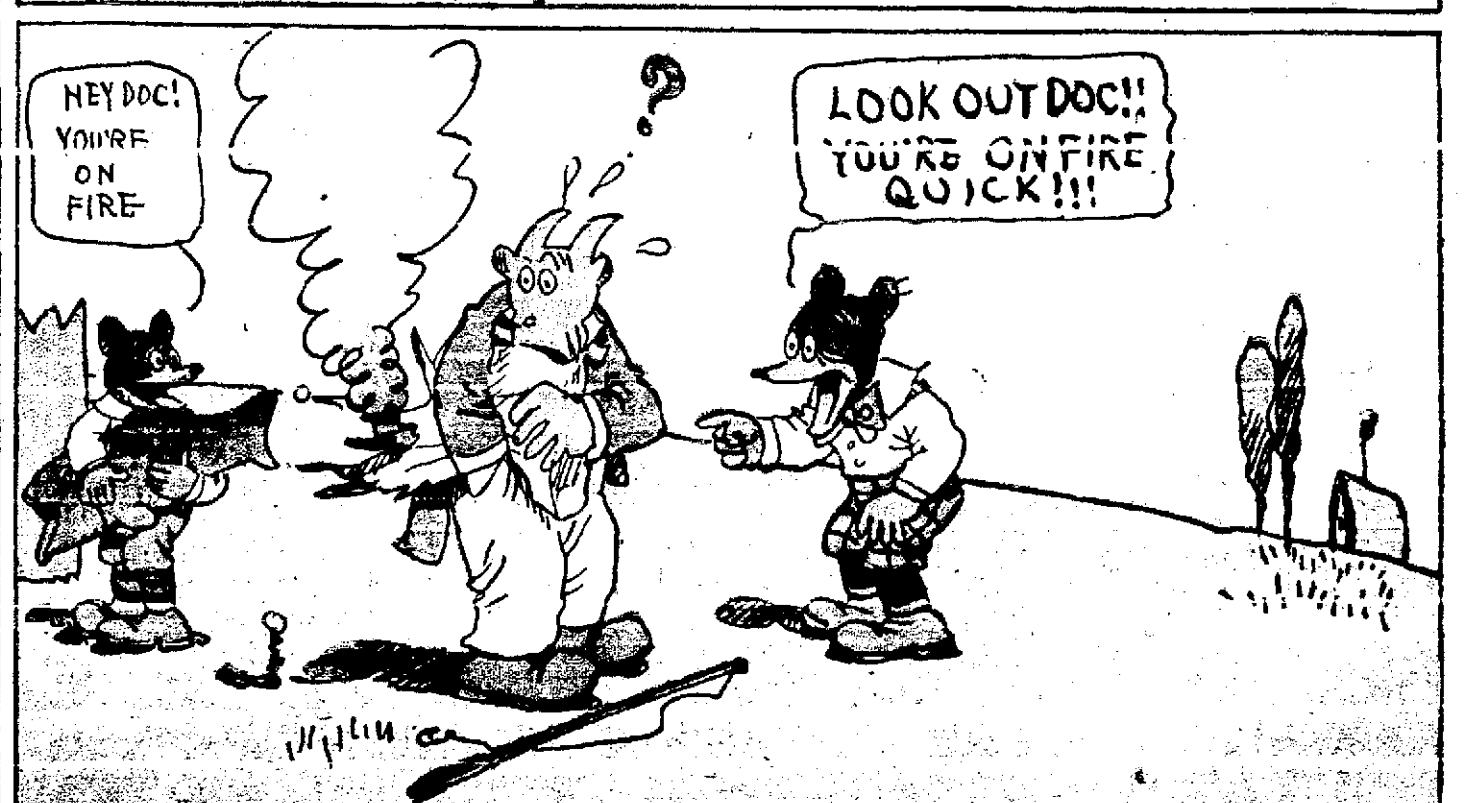

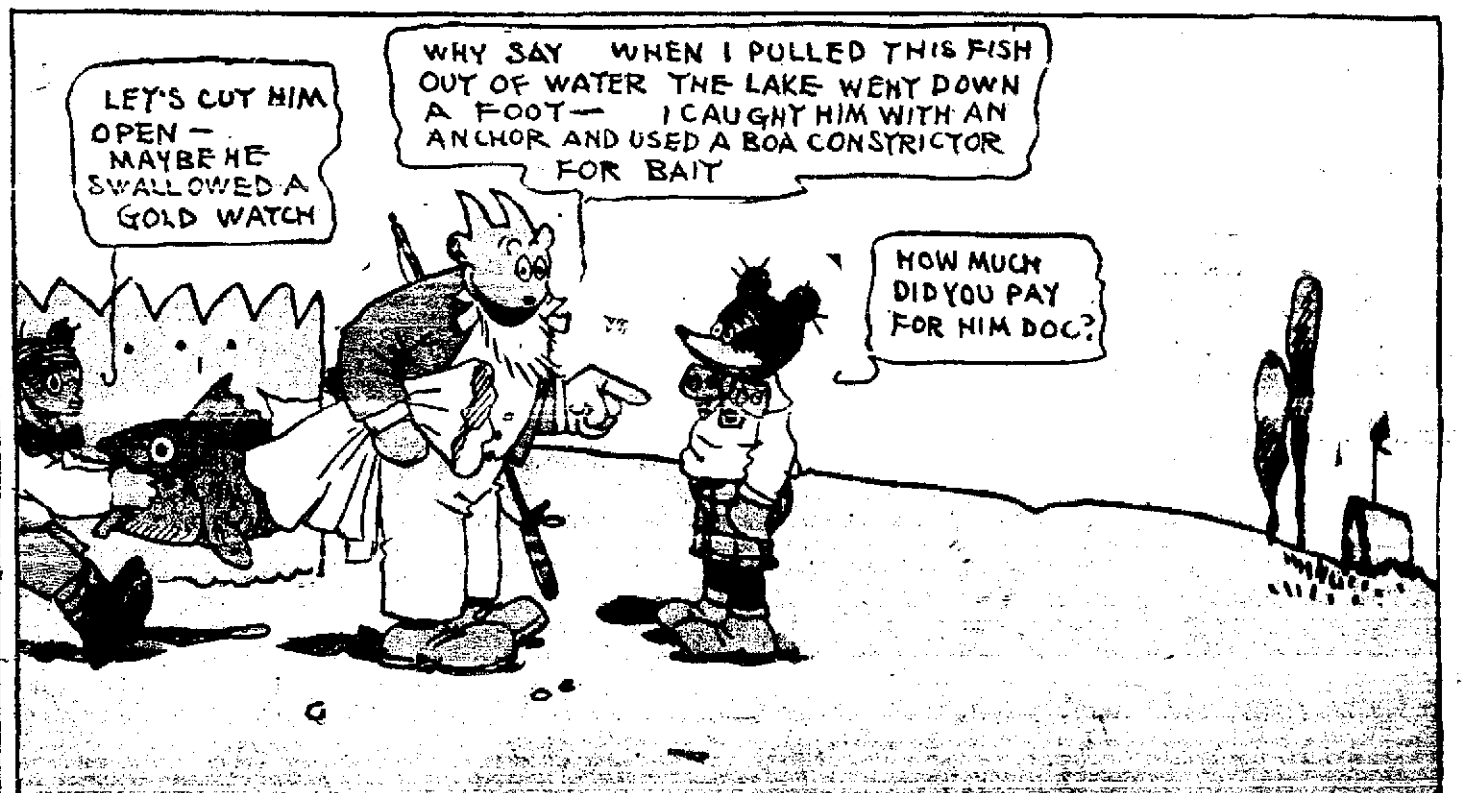

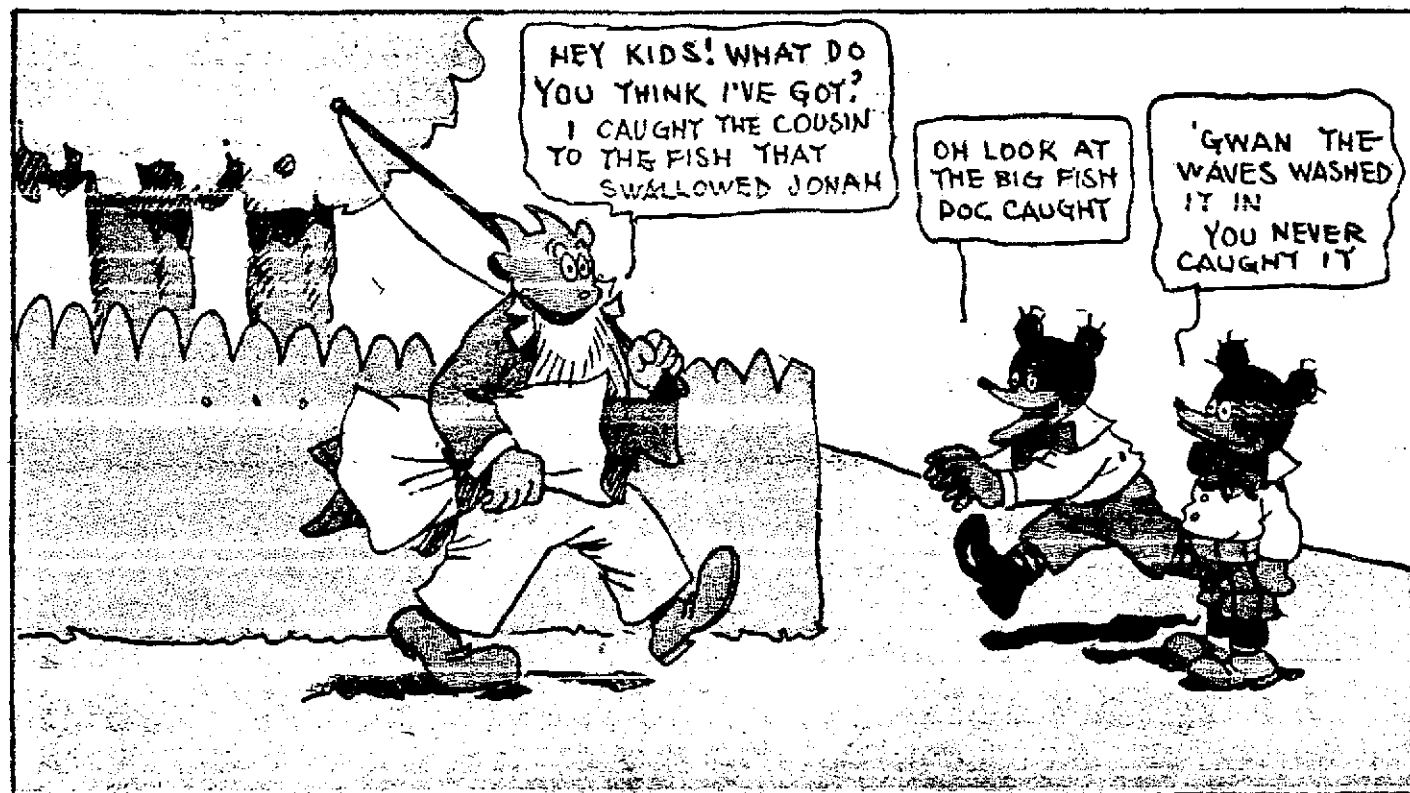

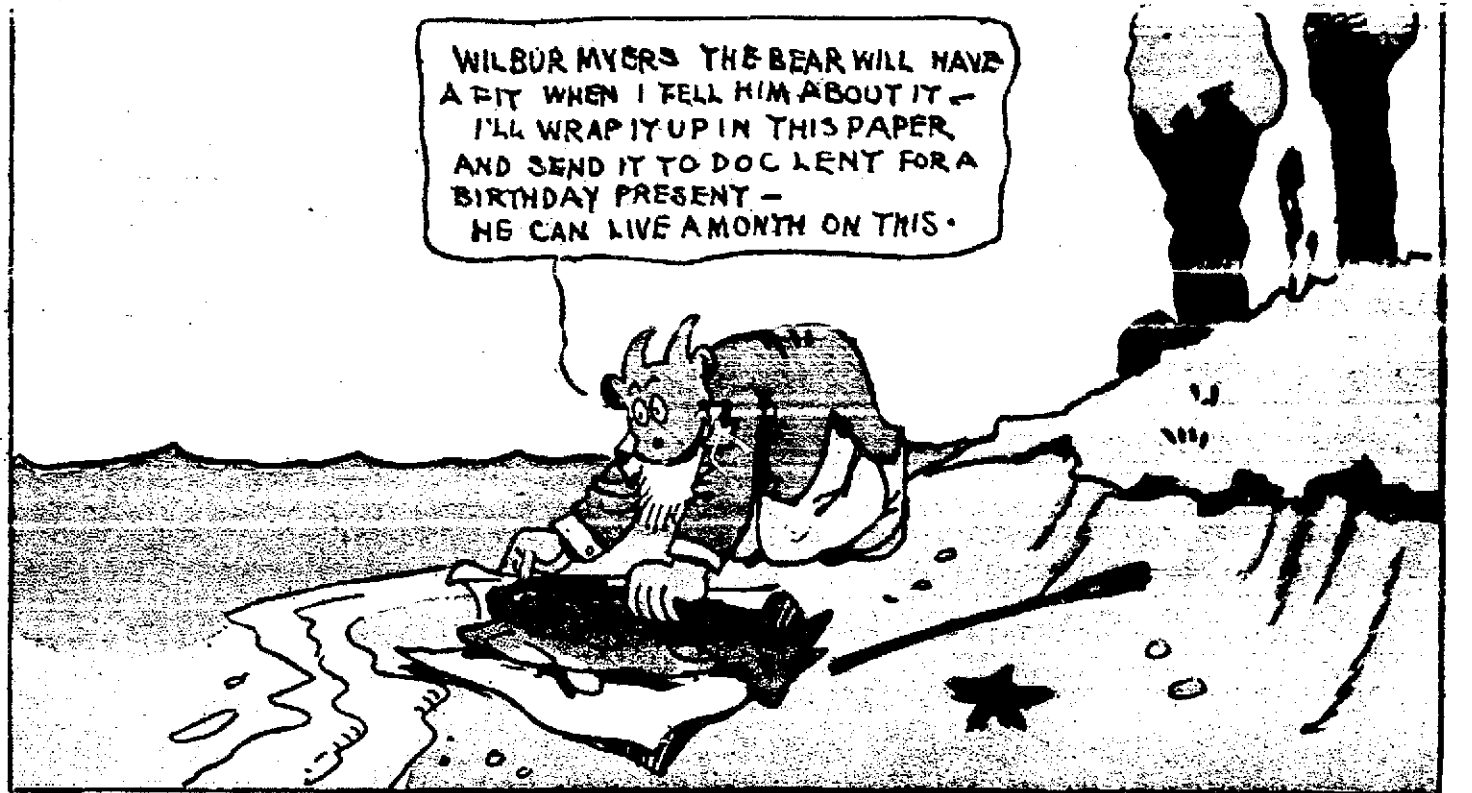

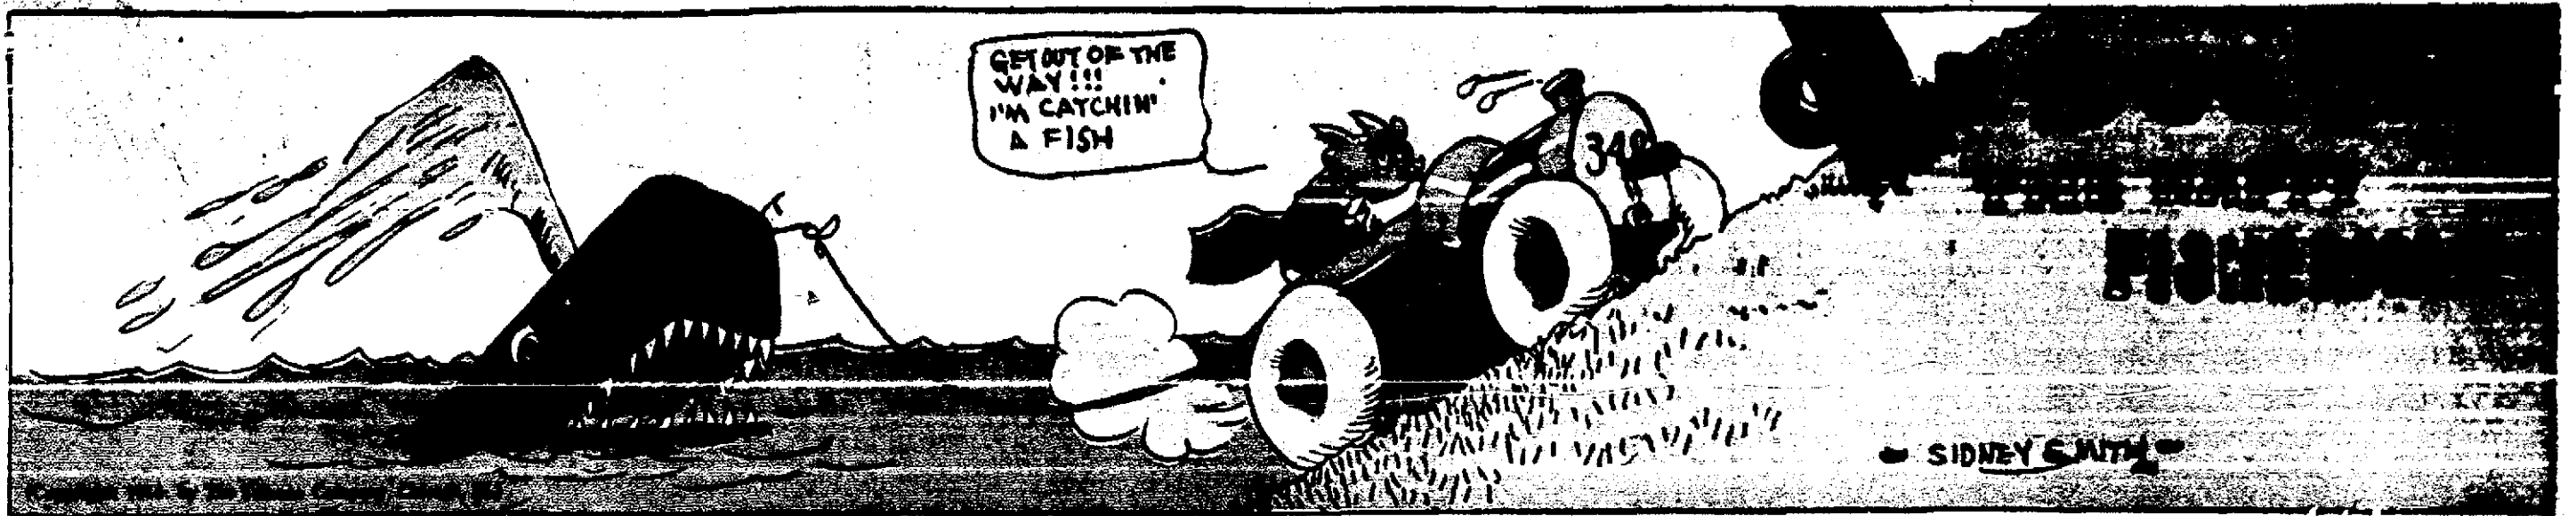

The last hope of Russia lay in Rojestven-

3,200 men surrendered to the Japanese.

In the terms of peace Russia recognized the preponderating interests of Japan in Corea from political, military, and economic points of view. Stipulation was made for the simultaneous evacuation of Manchuria by Russian and Japanese troops. The rights acquired by Russia in accordance with the lease over Port Arthur and Delny and the adjacent territories and waters passed in their entirety to Japan, and the Manchurian railway was divided between Russia and Japan at the station of Kuanchantsu.

THEFT OF \$10,000 CHARGED '3 STRIKES' ON OAKS LEADER

OAKLANDER TAKEN TO PRISON

Morris P. Isaacs Said to Be Short in Accounts
Was Formerly Auditor of Big Investment Company

After being held under surveillance for nearly two months and watched by private detectives wherever he went, Morris P. Isaacs was finally taken into custody at his home 5711 Oak Grove avenue, this city, yesterday afternoon, and is charged at the City Prison in San Francisco with felony embezzlement.

Isaacs was formerly auditor for the Bellevue Investment Company which operates the Hotel Bellevue in San Francisco, and is alleged to have defrauded \$10,000 of the assets of the corporation. Not only is Isaacs charged with stealing his employer's funds for a period of three years, but his accusers say that he deliberately tried to cast suspicion upon subordinate employees of the Bellevue Hotel while he was fattening his purse at their expense.

The charges against Isaacs were originally made public in April, when he was suspended from his position following a discovery of his alleged embezzlement by H. W. Wells, manager of the fashionable hotel, who learned that there was something wrong soon after he took charge last November. Isaacs was not immediately arrested because his alleged stealings were protected by a heavy bond and the surety company desired first to finish the expediting of the hotel books.

SHORTAGE IS \$10,000.

This was completed last night and shows a shortage amounting to \$10,000. At noon today Wells appeared before Police Judge Sullivan in San Francisco and swore to a warrant charging Isaacs with embezzlement. The specific amount in the accusation is \$10,000. Later in the afternoon the detectives who have been watching Isaacs took him into custody at his home in this city.

Isaacs has a wife and two children. He has been for a number of years the trusted employee of the Barron estate, which controls the Bellevue Investment Company and the Bellevue Hotel. Since the opening of the hotel he has been its auditor, being responsible only to the corporation and not to the hotel manager. It is claimed that since the opening of the new building at Geary and Taylor streets, Isaacs has been pilfering from the funds. He did not have direct access to the cash drawer, but he controlled the books and according to the allegations of his employers he falsified his bank balance reports to the estate and when it seemed likely that his stealings would be discovered, he is accused of having forged the checks of the cashiers under him in order to throw suspicion on them. It is for raising one of these cash-

EAST OAKLAND VOTERS HEAR BOND ARGUMENT

'Complete Auditorium!' Plea of the Speakers

East Oakland last night heard the why and wherefore of the bond issue, when, before a large audience in Odd Fellow's hall, Eleventh avenue and East Twelfth street, William Layman, Dr. G. B. N. Clow and other speakers were heard, urging the people to rally to the support of the project to complete the great building, and impressing on the people of the district east of the lake the imperative necessity of rallying at the polls on June 12 in support of the project.

The meeting, which was open for the discussion of the bond proposition, was arranged by a number of prominent men and commercial organization members of the district, and was one of a number being planned throughout this and the annexed district.

W. J. Layman, speaking from the standpoint of a business man, outlined the need of the auditorium as a house for the conventions coming to Oakland and as a drawing card to bring more.

"Every visitor we bring into this city," he declared, "means more money spent here."

Ex-Councilman Aiken presented resolution favoring recall of the city administration, which was withdrawn by himself after a spirited debate in the hall.

An informal argument took place, in which H. Knapp, the chairman; A. Miller, T. S. Norling, George Doody and others joined. Aiken, seeing that a majority for his resolution was doubtful, withdrew. The consensus of opinion as expressed was for the bonds.

"I can remember" and so can you, when this Brooklyn district was nothing. Now ships are seen in the ordinary and factories along its banks. This is but the beginning. There will be more. The city is coming into its own. We want new blood here—and new money—and it is just

SOCIETY GIRL TO HUNT MISS PAINTER IS DIANA

MISS PAULINE PAINTER.

WILL FORSAKE TEAS

Game to Be Stalked in Far North on Most Perilous Trip.

With knapsack and rifle, "parks" or sleeping-bag for a bed, and furs and buckskins instead of the fashionable attire of social life in the bay cities, Miss Pauline Painter, Alameda society girl, will forsake Teas teas and social activities to hearken to the call of the wild. She will traverse the mountains of the Klondike, shooting big game in the fashion a modern Diana, or "Teddy" Roosevelt, should. She will make one of the most dangerous trips in the far north, and will visit many places probably never before seen by a white woman.

Miss Painter will make the trip with Mr. and Mrs. Webster Norcross, the latter her aunt, whom she will meet in Seattle. They will travel north with her relatives and with A. Dalton Harrison and Henry Landsberger, both noted as traversers of the globe. Her program includes a fishing trip on the Upper Ramparts, the McMillan, Stuart and Beaver rivers, and in the famous Alaska salmon-fishing grounds.

Mr. and Mrs. Norcross, who are heading the expedition into the far north, are both famous slingers. In their company the first stop will be for a hunting trip, during which the mountain sheep and caribou will be stalked, and fishing trips will follow. Miss Painter, with Dr. and Mrs. Bliss (Janet Painter) are now in Alameda. The latter will go to Santa Cruz for the summer months and will leave Thursday, Miss Pauline going north the same day.

Showers Predicted Through Bay Region

SAN FRANCISCO, June 6.—Although no heavy rain is expected in the bay cities tomorrow, the weather bureau gives mention of a general showery condition. The downpour today blanketed the entire coast as far south as San Luis Obispo. The rain went into the interior valleys for the most part, but did not cross the Tehachapi mountains. It is believed that Los Angeles will receive its share tomorrow, and the forecast of the local weather bureau is for showers throughout the entire state, including Sacramento and San Joaquin valleys.

POISONER IS ATTEMPT TO BLOCK BOND

Woman Who Confessed to Sending Candy to Be Prosecuted
Conceals Identity of Family to Prevent Disgrace

Intervention Petition Is Before Railroad Commission

RICHMOND, June 6.—"I will go back willingly if you will promise me that I will not be kept in Los Angeles at all, for I cannot face my daughters or my husband. They are innocent parties and why bring them in?" cried Mrs. Georgia Burke Simmons this afternoon previous to her departure for San Diego in company with Chief of Detectives Joseph Myers and Police Matron Simpson of that city. The woman is now en route south to face the charge to be prosecuted.

Mrs. Simmons made a full confession willingly at noon today to Chief of Police James P. Arnold and Police Matron Nettie White of this city and the two Southern officers in the woman's room in the local city prison.

"This man (pointing to Arnold) is the only person that has been kind to me in weeks. I believe what he says is best. I am willing to tell you the truth—the whole truth," said Mrs. Simmons, who is a woman of a highly nervous temperament and who showed in many ways in her conversation that the kindness which had been extended to her by the local chief had warmed her heart to him.

WOMEN TOLD, SHE SAYS.

"When Mrs. Daggs, her daughters and their friends circulated so many lies about me that I could no longer live happily in my home city, it stirred up my French and I determined to get revenge. I've been accused of questionable conduct with Daggs—he is the president of the bank and the principal merchant at Windsor—and many people seemed to side in with her. I was going to sue her husband, for slander, but my husband, who is a railway man, and Daggs persuaded me that to go into court would only be creating further scandal."

"I could not get the thing out of my mind and one day while in a terrible rage, I think it was either May 13 or 14, I bought the candy and filled many pieces of it with powdered mercury tablets."

Detective Myers, who worked up the case personally, told a remarkable story before a boarded the train for the south with his prisoner.

"I first heard of the case about ten days ago, when Nick Harris, who conducts a private detective agency in Los Angeles, came to my office. He said he had found a woman of employment by Mrs. Simmons had come to his office in Los Angeles with a story of a number of people in Windsor having endeavored, as a practical joke, to cause Mrs. Walcott of Windsor to become jealous of her husband by sending a box of candy to one of the Daggs girls in San Diego, with Walcott's name on the cover of the package and that as the joke was about to cause trouble between Walcott and his wife that the people who had put up the joke wanted to recover the candy and

(Continued on Page 18, Col. 7)

AGED WOMAN DIES

Mrs. A. E. Bennett Dead as a Result of Being Struck by Skidding Auto.

Struck by a skidding automobile at Twenty-first street and Telegraph avenue this afternoon, Mrs. A. E. Bennett, 75 years of age, of 548 Twenty-second street, sustained injuries which resulted in her death at the Oakland receiving hospital ten minutes after she was placed on the operating table. Dr. E. E. Dowdle found that the patient had sustained a fractured skull and broken ribs, one of which penetrated the victim's lung.

The automobile was driven by Edwin Heady of 459 Orchard street. With him in the machine was J. F. Laughley. Mrs. Bennett was crossing the street and although she apparently saw the automobile, did not reckon upon its skidding into her as it passed by. She was knocked down and rendered unconscious by the fall.

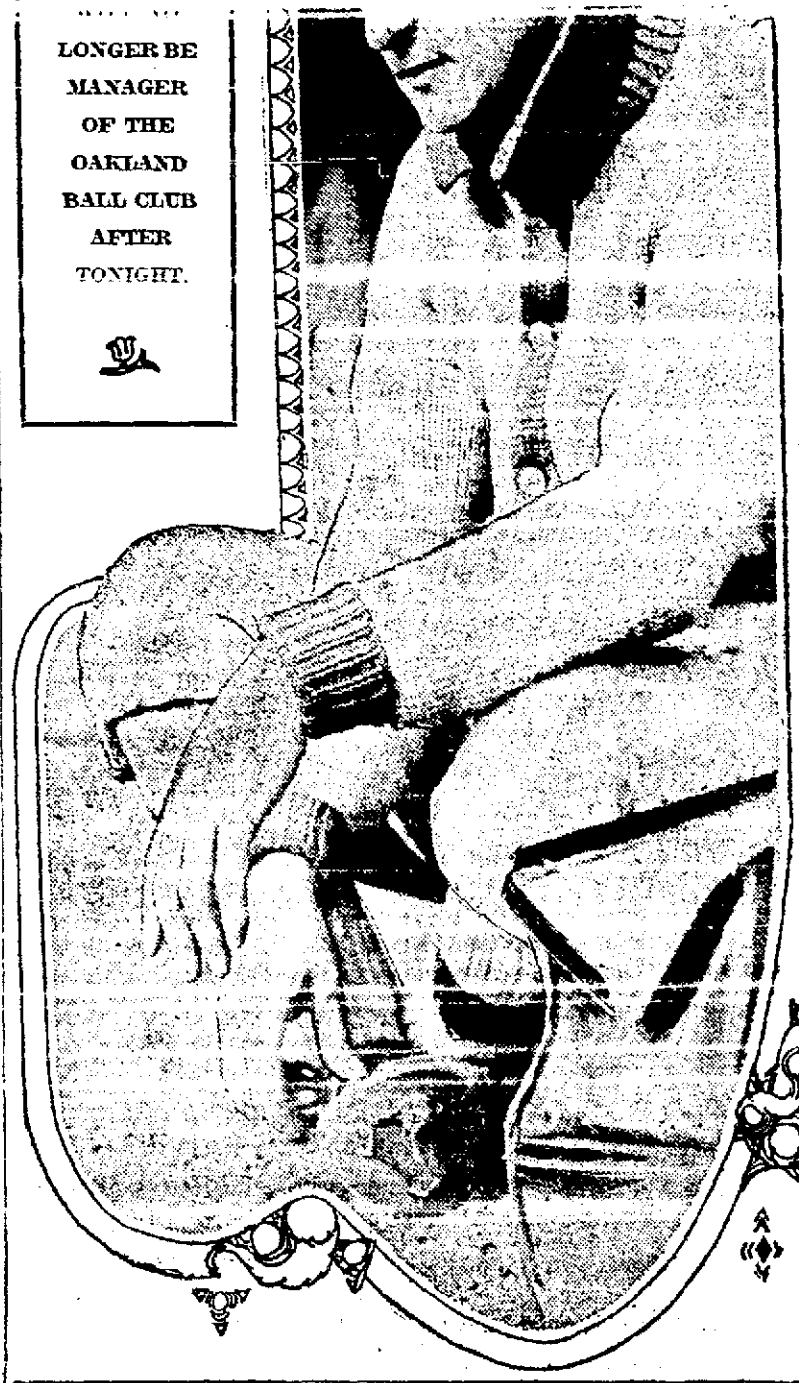

Upon learning of the accident her husband hastened to the hospital, where he was informed that his wife had died a few moments before his arrival. He was prostrated at the news. Bennett is in the mill business.

Churches, if Rented, Taxable, Is Decision

SACRAMENTO, June 6.—District opinion from Attorney General U. S. Webb, that churches are not exempt from taxation if they are rented for concerts and lectures.

DIAMOND BOSS TO STEP DOWN

ARTHUR DEVLIN, WHO, RUMOR SAYS, LONGER BE MANAGER OF THE OAKLAND BALL CLUB AFTER TONIGHT.

DEATH IS MYSTERY HUERTA INSISTENT

Suicide or Murder? Is Problem Facing Police of San Francisco.

SAN FRANCISCO, June 6.—Her hands tied in front of her and her body weighted with a flat-iron, Mrs. Louisa Currie, 68 years old, wife of William Currie, retired, of 458 Joost avenue, was found drowned in a bathtub in her home late this afternoon. Although a certain air of mystery surrounds the discovery of the corpse by Currie, who is an invalid, and who had been out of the house for several hours, the police are inclined to think the case one of suicide. Nevertheless, Detectives McQuade and Annear are conducting a rigid investigation and later developments may show that the woman was murdered.

"Only three payments of interest were made on the certificates and since the affairs of Smith have been taken in charge by the trustees there have been no further payments. The holders of these certificates, who in that, inasmuch as the United Prop-

TEMPEST IN TEAPOT

Sleepy Hollow Sleeps On Despite Facts That "Free-Speechers" Appear.

TARRYTOWN, alias Sleepy Hollow, N. Y., June 6.—If John D. Rockefeller's oily and declining years are in any danger of being disturbed by the free-speech movement in Tarrytown, it is not the slightest indication of its today. The seven-legged disturbers, ten men and one woman, were hailed before Judge Moorhouse, the village cadi, and their cases postponed until June 12.

Primed to encounter the detonations of anarchy bombs and the crack of pistols, THE TRIBUNE correspondent went to Tarrytown today to see the "desperadoes" before the court. They may have been desperadoes, but they didn't look it. Only one full-grown, full-sized man was in the party. He was a Cornell man, the only man of Saxon blood among those arrested because they had too much to say. The others, except for Arthur Caron, their leader, and "Becky" Edleson, the woman, could barely speak English. All told, they were as inoffensive a crowd as you could see, rather dull, rather subdued. Certainly they did not look like a menace to even a peanut store.

TEMPEST IN TEAPOT.

The simple truth is that the whole affair looked like a tempest in a teapot. The only conceivable reason why the free-speechers should have been arrested was that their oratory might wake up the town. Ordinarily it looks as though it might at any moment collectively lie down to slumber. Washington Irving made no mistake when he dubbed the region "Sleepy Hollow."

Even when the ten men and the woman, the men handcuffed two and two, rolled slowly up to the little courthouse in three automobiles which brought them from White Plains jail, the town hardly turned a hair. One boy with a bicycle was mildly interested. The rest of the town slept soundly. When the prisoners were led through the courthouse to a little square brick coop in the rear, which is dignified by the name of jail, a great silence descended on the hill street. Far across

Final Toll Is Taken Of Empress' Victims

MONTREAL, June 6.—Final official figures on the first-class passengers on the lost Empress of Ireland were announced tonight, showing that the total was 87, and of this number 28 were saved. 27 bodies have been identified, 22 are missing, and one identification is doubtful.

Of the 718 persons in the third class, 140 were saved, 578 were lost.

According to the official figures, the number of the crew has been definitely fixed at 418, of whom 341 were saved and 77 lost. Second-class figures are not yet spoken of.

DEVLIN TO RETIRE AS MANAGED

Tyler Christian Is Slated as New Baseball Pilot
Big League Idol Will Go East Tonight, Is Rumor

(By BILLY FITZ)

MANAGER ARTHUR DEVLIN and the owners of the Oakland Coast League Baseball Club have come to a parting of the ways.

According to a well-defined rumor, Manager Devlin will not accompany the team tomorrow when it leaves for Portland. Instead, it is reported that he has asked for and obtained a leave of absence and will leave tonight for his home in Washington, D. C.

In this event it is believed that Tyler Christian will temporarily succeed to the management of the Oaks. No official confirmation of the story is possible at this time, but there is every reason to accept it as bona fide.

Whether Devlin will ever return will depend largely upon conditions that develop during his absence.

WILL STIR LEAGUE.

Personal differences between Manager Devlin and the players over the conduct of the team, both on and off the diamond, and belief on the part of the players that they were not being directed to the best advantage, precipitated a crisis which left the owners of the Oakland Club with no alternative but to step in and heal the breach by heroic methods.

This, it is understood, has been done.

If Tyler Christian becomes the manager of the Oaks tomorrow, the local club will have established the unusual record of having had five managers in four seasons.

Harry Wolverton, now manager of the Sacramento Club, guided the Oaks in 1911 and then went to the New York Americans, leaving his successor in Bud Sharpe, who won the pennant in 1912, but finished the season in such poor health that he was compelled to retire from the game.

ON THE TOBOGGAN.

Two men who had been prominent in directing the club when Bud Sharpe was unable to be on the field towards the closing weeks of 1912 were mentioned as his successor for 1913. They were Tyler Christian and Harry Mize. The choice finally devolved upon the latter. Wolverton overtook the club in 1912 and from a pennant-winner it became a hopeless all-ender. Though it was pretty well established that hard luck rather than lack of ability was responsible for Mize's showing, the owners of the club deemed it wise to go East in search of a major league manager who would be able to gain major league affiliations for Oakland, and at the same time reconstruct the Oaks into a winning club, or at least a contender.

Arthur Devlin, field captain on two world's championship teams and for eight years associated with the New York Giants under McGraw, was the

State License Income From Autos Increase

SACRAMENTO, June 6.—The revenue of the state motor vehicle department for licenses for the period from August 10, 1913 till May 31, 1914, amounted to \$1,159,850, as compared with \$853,100 in during the year ending June, 1913, when the motor vehicle department was under the supervision of Secretary of State Jordan, according to figures of the state engineer. The autos registered number 185,104 and motorcycles 20,427.

TEAR UP LITERATURE And Land in Prison

Although Governor McCall has said that Babson are members of the I. W. W., they decided that sabotage was justified under certain circumstances, when those circumstances included fired fire. They had been hired to distribute a quantity of handbills and circulars from house to house, and they walked yesterday until weariness came upon them. Then they stopped in a vacant lot and tore up all the remaining advertising literature in their possession and called it a day's work. Their employers did not regard it in the same light, and a war

Mrs. Georgia Burke Simmons, who will reach Los Angeles today in the custody of officers, following her confession at Richmond that she mailed poisoned candy to a San Diego woman in a fit of rage.

CLOCK STOPS AT ELEVEN; EXPERTS WONDERING WHY

J. B. Lanter, of 400 Broadway, Oakland, daytime; and of Alameda at night, where he is a prominent member of the Elks, has a clock in his office which he is closely guarding. It is a mysterious clock which has puzzled a dozen experts who have sought to diagnose its peculiarities.

Every time during the twenty-four hours that the hands point to the hour of eleven, the clock stops. The owner winds it twice each day, once when he enters the office in the morning and again before noon. In the morning the hands point to eleven o'clock, where they stopped the night previous. An hour before noon the hands again linger at eleven. Other- wise the clock keeps perfect time and never balks.

"I bought it at a second hand store a long time ago," explained Lanter. "I believe that it once belonged to an Elks lodge room and its odd habit there. Anyway, some of the members here had threatened to take possession of it so I intend to keep a close watch. The clock is all right with the exception of its propensity of becoming silent at the hour of eleven."

Experts have examined the timepiece, but failed to discover what makes it stop at eleven o'clock with such regularity.

AUTO HITS TRAIN Four Dead, One Injured When Machine and Engine Collide.

CHILLICOTHE Mo., June 6.—Four were killed and two dangerously injured at a grade crossing near Lin- nus this afternoon. The dead: ALBERT THOMAS, 38, Wheeling, Mo. MRS. man who seemed to present the best qualifications for the job. He was brought here last September and as- sumed charge of the team a few weeks before the season closed. Devilin created a decidedly favor- able impression last fall and again this spring at Livermore. He ap- peared to be an earnest, capable man- ager, a disciplinarian and a man who understood baseball and was bent upon making his players understand it.

There was every reason to believe that if given half a chance, Devilin would make good. MAJOR LEAGUERS FEW. The first disappointment came when Devilin failed to get any ex- ception of Kearney, a southpaw, who was loaned him by Pittsburgh on op- tion only. The owners of the club were responsible for the acquisition of such talent as Quinlan, Middleton, Jake Ceder, Arbogast, Darenkamp and Cather Roberts, who jumped to the Federals. Devilin tied the tinware to Second Baseman Bill Lead for in- subordination and to "Buck" O'Brien for being too independent, to Daddy Robber for being too slow, and pre- tended to the sale of such as Mike, an- which was far enough until it de- veloped that the new boss was not successful in filling up the gaps with the expected major league talent.

Baseball experts who studied the Oaks at Pleasanton this spring went away convinced that the club would show its rivals a lot of new wrinkles on the bases and a lot of the stuff that is termed "inside baseball." This belief was predicated on the fact that the club had several men who were fast, of foot, intelligent, and had been playing for McGraw so long, they would be able to teach the Oaks many of the base running tricks and tricks with which the Giants clinched three world's flags.

above all the wrapper with Walcott's name upon it. DEFUNCT EMPLOYED. "I sent an operator to San Diego, where he met Mrs. Dagg and talked to her about the candy. Mrs. Dagg told the operator that she and her daughters had eaten only a few pieces of the candy because it had a bitter taste and that it had made one of the girls ill. The operator secured some of the wrapper and half dozen of the candy, and Mrs. Dagg kept the other half. Harris' de- tective analyzed Mrs. Dagg to have candy analyzed, which she did. Har- ris also had the candy analyzed and then he became suspicious.

"Harris told Mrs. Simmons that he was meeting with success and asked her to come to his office again on a certain day and that in return he would give her a com- plete report. She refused to say from where she was talking. Har- ris then arranged with the telephone company to watch for a long dis- tance call from a Mrs. Georgia Johnson, the name that Mrs. Sim- mons used in her operations with Harris. When she phoned again from Richmond yesterday, we found out that she was here and wired Chief of Police Arnold who made the capture.

CLAREMONT CLUB IS VICTORIOUS

Local Golfers Take Second Half of Home and Home Tourney.

The Claremont golfers won the second half of the home and home tourney with 14 matches to their opponents. The first half of the tourney was played on Friday, June 5, and the second half on Saturday, June 6. The Claremont team, led by a lead of six, while the local men came back on their home links with a lead of eight, taking the match with a lead of two matches.

Mexican Refugee to Address Factory Men

John J. Allen, former deputy Ameri- can consul at Monterrey, Mexico, who arrived in Oakland this week after escaping with his wife from the city, where they had hidden for four days in expectation of death at the hands of Federal troops, will address the Manufacturers' Committee of the Chamber of Commerce on trade con- ditions in Mexico and Central America at the regular weekly luncheon next Wednesday noon in the Hotel Cas- land. Allen has also been invited to relate his personal experiences of the internecine war at the Chamber of Commerce smoker to be held on Wednesday evening.

SLEEPY HOLLOW STILL SLEEPING

Such Thing as Trial of Disturb- ers Has No Effect on Serenity.

(Continued From Page 17)

lazily swept off the stoop. Then she was up. Then, after a moment's pause, she came down. After a while Judge Moorehouse came leisurely upon. Then came Alexander Berkman, Upton Sinclair, social reformer, Leon Abbott, advanced Socialist and three women who recently were arrested in a worthy revolution in New York. One of them joked in the solic- itude of Helen of Troy, remarking the more pious name of Harris. They prob- ably were Helen of Troy, because she was so different. This Helen wasn't tall, statuesque, spirited. Not so you'd notice it. She didn't even have red hair. It was dark brown. She was garbed in a dark gown, with particularly noisy perfume and her chief charms were a wide mouth, husky voice and freckles which stung the kindness of her cheeks. No goddess, not even a fury, just a girl, saucer, apparently unthink- ing, pert.

With the arrival of the free-speechers yet at liberty the neighborhood of the courthouse stretched in its sleep. Soon a few village celebrities of leisure ar- rived, a few reporters from New York papers and a few photographic persons along and at one time fully fifty persons of the village started. Then the hearing started after Fred Weeks, the district attorney, suddenly appeared. There wasn't anything remarkable state- ment about that court. Judge Moorehouse couldn't have been any in a box of a room about 12 by 12. Anyhow, he wasn't that kind of a judge.

He should worry. The effect of the petition of Knabbe, Derrick and Esenberger may be to open before the commission all the plans of the refinancing com- mittee, headed by James K. Moffitt of San Francisco, which has in hand the rehabilitation of the Smith-Tevis- Hanford properties. On a previous occasion when the United Properties Company was before the commission, Chairman Esleman declared that the relationships of the companies formed one of the most complicated corpora- tion tangles he had ever seen. The application of this petition and the application of the traction company may start an exhaustive study of these relationships.

for the prisoners and the crowd adjourned to the back yard. There, in a little brick coop about 15 feet square, the ten men were confined. Backy Edelson had a structure which looked suspiciously like a chicken house alongside. The only guard visible was a bull terrier pup, and he was muzzled.

DINNER HOUR IN HOLLAND. This was about the dinner hour. That fact was apparently borne in on the con- fined ones by their stomachic barom- eters and with one accord their voices were raised in the strains of "Hallelujah, I'm a Bum." sung to the air of "The Swallow and the Dove." It was deeply af- fecting. When it was followed by a dirge, "You'll Get It in the Sky When You Die." the measure of iniquity was full.

When Alexander Berkman, his friends and Helen of Troy were departing from the scene of action there came the one glow of trouble if the prisoners were not given a posthumous had not emanated in any way from him. Sheffield's re- marks brought objections from Appel, a person of patently Jewish persuasion, who volunteered, though ungraciously, to attend to the prisoners' needs.

Only one note of warfare marked the scene. That came when Lawyer Sheffield drew to a question of privilege to declare that threats by one Max Ap- pel of trouble if the prisoners were not given a posthumous had not emanated in any way from him. Sheffield's re- marks brought objections from Appel, a person of patently Jewish persuasion, who volunteered, though ungraciously, to attend to the prisoners' needs.

Beaten by Thugs

COLUMBUS, Ohio, June 6.—Two men were near death here tonight as a result of a sensational robbery late today at the home of George and Fred Schwick, retired farmers, eight miles east of here. Five men entered the Schwick home and beat both men into an almost unconscious condition. The men are said to have been taken to a hospital.

UNCLE SAM MUST
PACIFY ELEMENTSHuerta Insists That Political
Peace Be Brought About
in Mexico.

(Continued From Page 17)

forth that Huerta will never retire in favor of Carranza. The declaration that peace shall be assured by political means which will guarantee for the nation maintenance of law and order is taken as eliminating the Constitutionalists, who are recognized only as bandits by the government.

Huerta is ready to retire under the terms of any agreement which shall be reached in the Niagara Falls conference, but should General Carranza refuse to recognize the provisional government decided upon here, then it would rest with the United States to support this government.

The statement of Senor Rabasa declared:

"The expression 'political pacification' used by the delegation does not mean that General Huerta demands the material pacification of the country, nor the dispersal of the army, but the cessation of the lawless revolutions which have been the cause of the lawlessness; but that peace will be assured by political means which will guarantee for the nation maintenance of law and order. The object is to bring about a constitutional government. The object in view is peace. The condition is that that object shall be achieved. If an agreement ensues that end the condition is as well fulfilled by it as by any other means."

The "A B C" mediators have no other responsibility than to conduct negotiations here toward a peaceful agreement, it is said. After the settlement is made how it will be another matter and the United States would be morally bound to support any plan of government that might be agreed upon, the delegates assert.

ACTION MAY BE NEAR.

It is for this reason, it is believed, that no haste has been manifested in Washington to accept terms insofar as they have progressed. The position of the Constitutionalists is still the key to the situation. After a week of merely marking time, the American delegates held a conference with the mediators today. It was only one of the mediators' duration, however, and nothing of any importance is believed to have been accomplished.

The dispatches from Washington stating that Carranza was willing to be represented in the conferences here and that the entire question of Constitutional participation might be settled within 48 hours, aroused the greatest interest in the city. Ambassador Naon was greatly pleased with the news and immediately called the dispatch to Ambassador La Gama. Justice Lamar and Frederick W. Lehmann also clearly showed their pleasure at the statements. Judge Douglas, all regarding the news from Washington as very encouraging.

Although there was a decided strain during the week while word was being awaited from Washington and the Constitutionalists, those connected with the peace parties appeared more optimistic tonight. Another conference between the mediators and the Americans had been set for Monday at 11 o'clock. It was hoped that a reply from General Carranza, accepting the terms under which he may come into the conferences, might be received. The mediators are confident of an early settlement once the two Mexican factions are brought together and the plan for peace is under discussion.

WARSHIPS DISPATCHED.

WASHINGTON, June 2.—Serious action in the Mexican situation was awaited today as the result of the move of Huerta's gunboats toward Tampico. Information reached the navy department at 12:30 a. m. Their mission was ostensibly to head off ammunition ships now headed for the port from the United States.

Seat on Waterwagon

VERA CRUZ, Mexico, June 2.—Dictator Huerta is on the waterwagon for the first time in 35 years. He is telling friends his wife persuaded him "it was best to keep his head clear."

This interesting sight on the provisional president of Mexico, who has been exploiting the people in Mexico, came in a letter received here today from Huerta by Judge J. G. Williams. After telling how he had decided to go to the temperance

The Mines of
NEVADA

have produced one billion two hundred fifty million dollars in gold and silver during the last five years, and are now producing \$80,000,000 per day. Do you believe all the great treasure vaults of Nevada have been discovered and delivered? No, indeed, they have not. To those familiar with the facts such an idea is preposterous. Nevada will produce greater wealth during the coming ten years than in any similar period of its history, and the profits of the future will be greater than those of the past because of better transportation facilities, lower treatment costs and more scientific methods. It is a great old state and the opportunities for making money in Nevada are better now than ever before.

Where the Millions Are Made!

Since the discovery of Tonopah twelve years ago PROFITS OF MORE THAN ONE HUNDRED MILLION DOLLARS have been made in the Nevada mines. And this investment has often returned an independent fortune, and there are other such opportunities here. For the information of our clients we have

NEVADA MINING NEWS

which contains complete information of all the mines of the state at the time. We know Nevada from one end to the other and have our own personal representatives in all important camps. The Nevada Mining News is written by experts and contains the latest news of the Nevada mining industry. It is a must for all who are interested in Nevada mining. We will upon request mail this publication to you free of charge. Write for it today and we will send you an information card about our

ranks at his wife's solicitations. Huerta

wrote Williams: "She thinks I'm the worst of it. Lemon juice is my favorite drink now."

Williams also read the text of a telegram which Huerta sent to General Pancho Villa to reply to one from the redoubtable rebel leader, threatening him with death. The dictator's message was of Spartan brevity and read merely:

"The world is looking toward us. Whatever you do, try to be civilized."

TO HOLD ELECTION.

Elaborate preparations are being made at Mexico City for the constitutional election of July 5, at which the republic will once again go through the motions of electing a president. Huerta has ordered a house-to-house canvass to warn all citizens of a voting age that they must register their choice at the polls, or suffer imprisonment. In addition, he has hit upon the novel scheme of having all letters postmarked with the significant warning:

"To Voters—You must comply with the law on July 5."

Letters arriving here from federal cities all show this mark in black letters.

Messages from the capital city say that Huerta still insists that the official denials that Huerta has sent word to General Carranza challenging him to submit the issue of their respective political creeds to the Mexican people July 5, and will, in effect, "After the election we will in unite to drive the Yankees out, no matter who is chosen constitutional president."

reloz and Zaragoza sailed from Puerto Mexico toward Tampico with the evident intention of preventing the line of Antilla from landing arms for the Constitutionalists. Navy officials here are puzzled on the account they shall continue if this is actually the mission of the Huerta "navy."

Whether the mission was understood, gave no hint on their course of action should an actual clash occur, such as the gunboats firing on the Antilla.

CARRANZA'S WISHES.

WASHINGTON, June 2.—Only on his own terms will General Carranza, leader in the Mexican Constitutionalists, negotiate in the Niagara Falls mediation conferences. This information was transmitted today to Secretary of State Bryan. Carranza will send word to the "A-B-C" mediators early next week that he has named a representative to confer with them. He will state in his communication that he has always been willing to confer on all international questions affecting Mexico. He will reiterate his former declaration that the internal affairs of Mexico are that republic's own concern, that he represents an overwhelming majority of the Mexican people, and that he and those he represents are the persons who are to decide on any new plan of government—not the mediators or the United States.

Secretary Bryan admitted tonight that he has been informed of the tenor of the proposed Carranza reply. It is believed that President Wilson endorses the major portion of it. The administration, it is declared in high official circles, is now satisfied that the Constitutionalists are certain to triumph if forced to the final test of arms.

THINK WILSON AGREES.

Officials who should know, say that President Wilson is in sympathy with Carranza's insistence that he should not be required to agree to a cessation of hostilities against Huerta, no matter the dictator is admittedly at the last ditch.

While the president and Secretary Bryan would greatly regret any breaking off at the present time of the mediation conferences, they take the position that if Huerta does so he will be the only loser. They hold that Carranza is about to triumph anyhow, and that, if a break comes, there will be no necessity of the United States resorting to its armed forces to eliminate Huerta and the cause he represents. They are convinced, high officials said, that if Huerta's delegates raise unreasonable obstacles to the details of mediation in an effort to line the mediators up against Carranza, the mediators themselves will justify the United States in recognizing Carranza as the head of the de facto

of the "A-B-C" mediators to participate in the Niagara Falls conference, he will reiterate the answers made by him to previous invitations, according to statements tonight by persons in his confidence. He will refuse to participate in the conference, they say, if he is required to become a party to the armistice between the United States and General Huerta. He will also refuse, they say, to sanction any plan whereby the mediation proceedings shall deal with the internal affairs of Mexico and will insist that the negotiations refer solely to the Tampico incident.

In the latest note of the mediators to Carranza it was not specifically stated that the Constitutionalists would be "required to join the armistice," but this inference is arrived at by the Constitutional leaders in interpreting the note.

General Carranza and his advisors left for Saitillo this afternoon to establish the provisional government. They will spend the night at Parras, the home of the Madero family, reaching Saitillo tomorrow afternoon. A monster demonstration in Carranza's honor has been arranged by the citizens of Saitillo.

REPLY IS EXPECTED.

Carranza's reply is expected to be made early next week. The departure of the "first chief" from Torreon made it impossible for him to hold his scheduled conference with General Francisco Villa. Carranza's representatives early in the week arranged the conference, and Villa intended to come here tomorrow, it is said.

High Constitutional officials declared tonight that in spite of the appointment of General Pancho Villa as commander-in-chief of the eastern military zone, Villa will be in supreme command of all the rebel troops in the coming campaign. This Carranza subordinate to him. This concession was made, they said, to avoid any chance of friction.

They asserted Carranza agreed to the arrangement with the understanding that he will come into supreme command as soon as the enemy is driven from the zone. This will give him the power to appoint subordinate military commanders in the zone.

At Saitillo tonight Carranza announced the arrival of General Francisco Villa, commander-in-chief of the eastern military division. He was accompanied by his staff and Colonel Gregorio Orena, until recently Huertalista governor of Lower California.

NO PEACE FOR CARRANZA.

TORREON, Mexico, June 2.—When General Venustiano Carranza replied from Saitillo to the latest invitation

Elevator Men Have
Pretty "Swell" Jobs
at National Capitol

WASHINGTON, June 2.—Finding that he was expected to work only five hours a day, an Oregon man recently appointed as an elevator conductor in the Senate wing of the Capitol Building has made an attempt to get appointed through his Congressman on the House side as well.

If he succeeds in landing the additional job, he will work ten hours a day, and draw \$300 a month, which is not bad, considering that he is taught the work of running the elevators, and paid in full while he is being instructed.

When Congress adjourns, if he is successful in landing the additional place, he will get \$200 a month for nothing at all until December 1, when the two houses will reconvene. Whether he lands the extra place or not, he is drawing \$100 a month for five hours a day work, and will not have to work at all during the recess, which will continue to draw that hundred a month.

That is the pay, and those are the hours, of all the elevator men in the Capitol and in both office buildings. No union made a kick about the men standing on their feet so long, and yet the hours cut down. The principle is the same as that under which the doorkeepers get \$1440 a year for sitting at the many doors of the galleries from 11 a. m. to 6 p. m. (or earlier if the Senate adjourns earlier). These men get whatever vacations the lawmakers decide upon without any reductions in pay.

of the "A-B-C" mediators to participate in the Niagara Falls conference, he will reiterate the answers made by him to previous invitations, according to statements tonight by persons in his confidence. He will refuse to participate in the conference, they say, if he is required to become a party to the armistice between the United States and General Huerta. He will also refuse, they say, to sanction any plan whereby the mediation proceedings shall deal with the internal affairs of Mexico and will insist that the negotiations refer solely to the Tampico incident.

Walks to His Death
In Front of Machine

SAN FRANCISCO, June 2.—Apparently hurrying home for supper with his thoughts bent on his destination an unidentified man walked directly in front of a motorcycle at Ninth and Bryant streets early tonight and was almost instantly killed. A person of strong physique and weighing in the neighborhood of 250 pounds, the man fell heavily when the speeding machine struck him, bowled him over and threw the driver, Fred Febrere, a chauffeur of 711 Belvedere street, over the handle bars and almost on top of his victim. Although injured himself, Febrere endeavored to arouse his victim and an ambulance was summoned. The man, however, was dead on reaching the central emergency hospital, his skull having been fractured. Febrere received a severe injury to his right side and after treatment was taken to the southern police station and charged with manslaughter.

The man killed was about 50 and weighed about 250 pounds. He had a gray mustache, gray hair and a gray suit of clothes. Up to a late hour tonight he had not been identified.

Cupid Is Barred by
Denver School Edict

DENVER, Col., June 2.—Cupid is positively barred from the Denver public schools.

Any woman teacher who marries during her term of employment will be automatically discharged.

This announcement, made today by the city school board, has aroused women's organizations to a high pitch of indignation. They declare it is a direct discrimination against women and demand that, if the rule is made permanent, a role barring men from marrying while employed as teachers be passed also. Threats of combining the vote of the women to recall the offending members of the board were openly made tonight, and indignation meetings will be held by the score next week.

"In a suffrage state women should have just as much right to marry as men," said Mrs. Honora McPherson, former county superintendent of schools. "The rule is a step backward seventy-five years. In my opinion, a woman is a much better teacher who has had the experience of marriage."

Noted Firm Fails;
London Surprised

LONDON, June 2.—Financial circles of England were deeply stirred tonight over today's announced failure of the once-powerful house of Chaplin, Milne, Grenfell & Co. with liabilities of \$1,250,000. Extensive operations in securities of the Grand Trunk railway, estimated at nearly \$25,000,000, are said to have been the cause of the failure.

Financiers tonight declared the result of the failure might have been even farther reaching had it not occurred on Saturday, a half-holiday. General prophesy that Monday may see many "aftermathes" of today's crash. Earl Grey, father of Grenfell's wife, and even the king himself, are said to have been interested in the Chaplin-Milne-Grenfell Company.

Victim of Collision
Succumbs to Wounds

Injured in a collision with a street car at Forty-fifth avenue and Ignacio street Friday night, Chris Jackson, a teamster residing at 1609 Forty-first avenue, died last evening as a result of a fracture of the skull. Peter Oxtward, the seven-year-old son of Peter Oxtward, a bartender living at 1428 Fortieth avenue, who sustained serious injuries, may recover.

It is said to be wealthy. With his wife and two daughters he occupied a mansion in the fashionable Westlake section. According to his physicians he has but a slight chance to live.

REALTY DEAL IS
SHOOTING CAUSE

Men Exchange Blows; One
Uses Pistol on Other and
Himself.

LOS ANGELES, June 2.—Shot during a quarrel over a real estate transaction by C. P. Devoy, who then committed suicide, President George E. Platt of the Los Angeles Creamery Company tonight lies near death at a hospital.

The shooting occurred today while the men were driving to their offices in Platt's automobile. After an exchange of blows, Devoy hurled Platt into the street and shot him in the back as he fled. He then shot himself through the head, dying instantly.

According to the story Platt told the police when he regained consciousness for a brief period, the subject of the quarrel was a money matter connected with a realty deal which Devoy, who was about 60 years of age, had an attractive home in Hollywood. His wife is in a serious condition at a hospital as the result of shock.

Platt is said to be wealthy. With his wife and two daughters he occupied a mansion in the fashionable Westlake section. According to his physicians he has but a slight chance to live.

Pappas Discontinues
Suit Against Eggers

SAN FRANCISCO, June 2.—At the request of the plaintiff, Federal Judge Van Fleet today dismissed the \$10,000 damage suit brought by John Pappas against Martin Eggers, sheriff of San Francisco. According to Pappas, he was falsely accused of aiding in the escape of a prisoner and suffered imprisonment. The man who succeeded in getting away from the county jail, and thereby caused Pappas' trouble, was John Antone, and when Pappas was unable to locate him and use him as a witness he decided to have the action dismissed. The suit was brought December 13, 1912.

Force Kelly's Army
To Quit Fort Wayne

FORT WAYNE, Ind., June 2.—Sullen and resentful over their arrest and detention over night in the Fort Wayne police station 515 members, who constitute the bedraggled remnant of Colonel Kelly's army of the unemployed, were marched under police escort across the east city limits today, and warned to keep going.

ALLEGES DURESS
IN DIVORCE SUIT

Earl Lambert Charges Bride
and Her Attorney With
Force and Threats.

SAN FRANCISCO, June 2.—Earl Lambert, in a suit for an annulment of his marriage to Miss Abbie Johnson, declares that he was forced into wedlock by threats and fraud perpetrated by the bride and her attorney. The ceremony took place in San Rafael August 7, 1913, and today Lambert, through Attorney George Egan, began his suit for the quashing of the contract. He says that Miss Johnson and her attorney, "made and used force, threats and fraud to obtain plaintiff's consent to the said marriage. Plaintiff did not voluntarily enter into said marriage contract and since the marriage the parties have never lived together as man and wife."

Attorney Egan asserted today that as he had not been able to find Mrs. Abbie Lambert, the defendant, he would not give any further information regarding the dramatic circumstances leading up to the alleged tormented nuptials.

PLAN ALUMNI GROWERS' BODY

Big Convention at Davis State Farm Starts Move for Society.

DAVIS, Cal., June 5. — Tentative organization of the agricultural alumni association, which likely will be developed all over the United States, has been perfected at the California fruit growers' convention, which came to a close this afternoon at the State Farm.

The organization has a membership roll of seventy-two. Dean H. E. Van Norman, of the farm school, has been

named a trustee to the agricultural colleges in the state to interest them in becoming members.

In charge of the work is an executive committee as follows: George H. Wellford, Sacramento; H. H. Ainsworth, Mountain View; H. H. Clark, Saratoga; R. S. Baile, Santa Paula, and E. J. Whitney.

The committee appointed by the Grape Growers' Association to take up the question of the proposed prohibition amendment has completed its work and the following resolutions have been adopted by the grape men:

"The passage of this amendment would wreck the wine grape vineyards. It would bankrupt vineyardists, who, for half a century, have been engaged to enter viticulture.

"It would cripple the raisin industry. It would seriously damage the table grape industry. It would throw thousands of workers out of employment.

"The loss of export trade in wine would in ten years amount to over \$10,000,000, more than enough to pay every farm mortgage in California.

"The wine grape growers would be deprived of their means of livelihood without compensation. Thousands of laborers in this and related industries would be thrown out of work on account of the amendment to our producers."

"FRANK B. McKEVITT, Sacramento.

"W. C. ALLEN, Lockport." Connected with the department of agriculture, discussed the possibility of rice culture in California this morning.

Horticultural commissioners at the convention made an inspection trip around Yolo county in autos as the guests of the Yolo county board of trade.

LOCKPORT, N. Y., Sends on an Innocent Youth With Gentle, Trusting Ways.

SAN FRANCISCO, June 5. — "Gee, but it's great to meet a pal from your home town," sang Fritz Waldbauer, of Lockport, New York, as he stepped from a Santa Fe boat at the ferry building at 11:30 last night. At midnight he had changed his tune and his feelings could thus be given melodious interpretation by the song, "I'm Trying So Hard To Forget You."

All of which shows what a short half hour can bring forth. In that time just \$480 and the police are looking for another resident of Lockport and a friend of the latter who systematically went to work to get Waldbauer's bank roll.

When Fritz reached the ferry building he met an old time resident of Lockport, whose name he cannot now recall. The man invited him to see the town and they visited several drink emporiums before they wound up in Henry Bogel's saloon, 239 Embarcadero where they had four rounds in succession. On leaving there they met another man and with his aid Waldbauer says his "friend from home" pushed him into a doorway and searched him. They obtained \$480 in currency which he had wrapped in a pig's bladder and a purse containing \$8. The Harbor police have a description of both men.

REDDING WILL TURN OVER ITS UTILITIES

REDDING, June 5. — In order to escape litigation with the water and telephone companies, the city trustees have decided not to go further with the ordinance reducing rates to be charged by the two corporations.

As the best way out, the city trustees decided to take steps toward placing the regulation of all public utilities with the state railroad commission. With that end in view the city attorney was requested to prepare a petition asking the city trustees to call a special election. Such a petition is in circulation today.

The trustees will meet next Wednesday evening to set the date for the special election in the event the proper petition is presented.

V. D. Johnson, general manager of the Northern California Power Company, who was before the board a week ago, said while he was here that his company would welcome placing the fixing of rates with the railroad commission.

BIG BASE PLACED FOR GREAT MONUMENT

SANTA ROSA, June 5. — The forty-ton block of granite which has been skidded for nearly a mile to the historic plaza at Sonoma has been placed in position on the concrete foundation on the exact spot where the original Bear Flag was first flung to the breeze in 1846.

Open this solid granite state's Bear Flag monument will rest the stately figure of the pioneer holding aloft the Bear Flag, fashioned in bronze, towering at least twenty feet. Director-General M. E. Cummings, with his committees, is working hard

WHITE OAKS TO SEEK PRIZE ELKS WILL VISIT DENVER

COMMITTEE ELKS' DRILL TEAM PICNIC: (LEFT TO RIGHT) GEO. HARRIS OSCAR WHITNEY, CLARENCE HEAD, OTTO RITTLER AND WILLIAM SWALLOW (CHAIRMAN).

Resplendent in new uniforms, the crack White Oaks drill team, representing Oakland lodge of Elks, will travel to Denver July 10 in an effort

to win the first prize at Los Angeles, and the second prize at Portland. They are eager to maintain their reputation and to bring another handsome trophy back to the clubrooms on Fourteenth street.

Funds to defray the expenses of the trip will be raised through the medium of a picnic and carnival at usual Elk program of fun and merriment. The picnic will be arranged by the following committee:

George Harris, Oscar Whitney, Clarence Head, Otto Rittler and William Swallow, chairman.

MUST WAIT FIFTY YEARS FOR LEGACY

Heiress Will Be 67 Years Old Before Obtaining Her \$40,000.

SAN DIEGO, June 5. — Miss Lucretia Dupree, 17 years old, daughter of Frank B. Dupree, 1427 Fern street, San Diego, is bequeathed property in Greeley, Col., valued at \$40,000 and \$10,000 in cash by her grandfather, Louise Dupree, according to a copy of the will which has been filed in the Superior Court here.

Miss Dupree's father is made executor, and under the terms of the will she cannot have control of the property for fifty years.

Miss Dupree, therefore, will be 67 years of age when she will be able to command her property entirely. Her share of the property owned by her grandfather consists mostly of business real estate in Greeley.

Louise Dupree for years was one of the best known residents of Greeley. In the early days she invested her savings in real estate. Several years ago he took up his residence in San Diego. He died August 13, 1913.

It is stipulated in the will that Miss Lucretia shall be educated; that after she reaches her majority or is married her father shall turn over to her all earnings from the property, or else wait until after the fifty-year period, when he shall turn over to her all earnings and a clear deed to the property.

The \$10,000 in cash is subjected to identically the same provisions.

HOLD COAL OUTCROPPINGS CLAIMS FOR PATENT

SEATTLE, Wash., June 5. — The coal claims in the Neenah coal field in the Fairbanks, Alaska district, filed upon by John L. Long, Cora N. Hamilton, Sidney D. Charles and W. E. Clark, were held for cancellation in a decision received here yesterday from the interior department at Washington, D. C.

The decision was written by Andrew A. Jones, first assistant secretary of the interior, and states that the mere discovery of coal outcroppings, staking, recording of notice and applying for patent acquires no right to locate or enter for patent. The claims are held for patent "because no mine has been opened or improvements made as required by law."

The claims in question consisted of coal outcroppings so situated that the coal could easily be removed.

FIFTH EARL OF CASTLE STUART PASSES AWAY

LONDON, June 5. — The fifth Earl of Castle Stuart, male representative of the Royal Stewarts of Scotland, died today at the age of seventy-seven. He left no sons, he is succeeded in the title by Andrew John Stuart, a cousin.

"What's Hurry? Asks Judge; 'Case Old; It Can Wait'"

SAN FRANCISCO, June 5. — Federal Judge Dooling put his foot down with sudden firmness this morning when several attorneys appearing in a bankruptcy case that has been pending in the local courts since October, 1870, attempted to rush him. They wanted an immediate hearing, but his honor, casting back his eyes over years, decided that as forty-three months of June had come around since the action was filed, there was "no sense" in showing undue haste at this late day.

The petition was that of D. G. Gherdell for involuntary bankruptcy and it was placed on record long before the present era of success attended the business of the chocolate manufacturer. Attorneys were present representing several different parties to the action and the court, referred the case to the referee in bankruptcy, saying: "There is no hurry in this matter, gentlemen. It has been coming up before me every week for the past two months, but it has been on the calendar since the early '70's and I see no reason for undue haste."

Washington, D. C. The decision was written by Andrew A. Jones, first assistant secretary of the interior, and states that the mere discovery of coal outcroppings, staking, recording of notice and applying for patent acquires no right to locate or enter for patent. The claims are held for patent "because no mine has been opened or improvements made as required by law."

EYES OF WORLD NOW ON FRANCE

Revolutionary Socialist Chamber of Deputies Holds First Sittings as Legislature.

PARIS, June 5. — The eyes of the civilized world will be on France during the next few months. The revolutionary socialist party has practically gained control of the Chamber of Deputies for the next four years, the first sitting having come last Monday. Of the 136 Socialists in the new legislature, 55 are union men, leaders in the General Federation of Labor, thus promising the workman a better run for his money than in any lawmaking body got together in France since the revolution.

The rule of the Bourgeoisie, or middle class, is dead or dying, and the day of the social reform classes arrived, according to impartial opinion, and this question is on every lip: What will the Socialists and the Labor members of the chamber make of their chance? It is generally conceded

that in France as far as socialism is concerned. They will either make or break their party as a governing factor.

WON ALL THE NEW SEATS.

The new Chamber is composed of 593 members as against 598 in the old. Socialists won the entire five newly created seats. The Radicals and the Radical Socialists held 245 seats as against the revolutionary or "united" Socialists and the Independent Socialists 136, but the Radicals are so split up that as a parliamentary force they will not be as mighty as when it comes time to vote as the next powerful body in the Chamber, the Socialists, who are notoriously the best disciplined organization in the house.

Jean Jaures, editor of the party organ, "L'Humanite," has only to give the sign and his followers lay down and roll over with every outward sign of being only too glad to do it.

So what are the Socialists going to do? The past week was almost entirely taken up with the routine elections necessary in a new legislative body and with seating the members, and little that was really significant took place. Also, though the mandates of the old members expired automatically last Sunday at midnight and the new took their seats with full rights on Monday, the statutes say that the legal length of a parliamentary session cannot be five months and these five months will not be up until June 15; hence the new deputies had to take up where the old left off on a discussion of the budget.

AWAIT DECLARATION OF FAITH.

The coming week will probably see the firing of the first gun. Gaston Doumergue, Prime Minister, will probably make his "declaration of faith" before the new Chamber and an interpellation almost bound to follow. In 1910, when Aristide Briand was Premier, this interpellation lasted some 18 days, some of which was stormy. Now the political situation is infinitely more troubled and there is more hatred between the score of factions in the house. So there is no telling what will happen beyond that the debates will be lively and that at the end the way the deputies vote will show the first time, exactly how they stand, what their convictions are, and what they are determined to have.

BANK STATEMENT FOR WEEK SHOWS CHANGES

NEW YORK, June 5. — The weekly actual bank statement today showed the following changes:

Surplus—Increased \$3,423,700.
Loans—Decreased \$4,093,000.
Specie—Increased \$5,000,000.
Legal reserve—Increased \$208,000.
Deposits—Increased \$10,520,000.
Circulation—Decreased \$84,000.
Surplus reserve—\$52,229,900.

QUINCY MAN WOULD TEST ROAD TAX LAW

QUINCY, June 5. — On behalf of his client, John Schroeder, an employee of the Quincy Lumber Company, Attorney L. H. Hughes Tuesday filed with County Clerk McBeth a complaint in an action by which it is sought to enjoin Assessor P. A. Young and his deputies from collecting the county road poll tax from the plaintiff.

The contention set up by the complaint is that the defendant in the suit has no authority to make the collection, alleging that the supervisors of Plumas county did not, between the first days of January and March of this year, as provided by law, make the necessary levy for a road poll tax. The complaint alleges that about 500 male citizens of the county have already paid the tax and that the

plaintiff is also prosecuting the action on behalf of himself and others to avoid the expense incident to the settlement of many suits. These are taxes collected in the county each year. There is no escape from the \$2 poll tax levied by the state, but the county road poll tax of \$3 is the bone of contention.

The particular provision of the law governing the levying of a road poll tax by a county provides that "the board of supervisors may, annually, at any regular meeting held between the first days of January and March of each year levy on each male person over 21 and under 55 years of age an annual road poll tax of not to exceed \$3."

The complaint claims that this levy must be made annually in order to be effective. On the other hand, the board of supervisors, at a regular meeting held January 9, 1909, enacted an ordinance, which provided

that all citizens of the county subject to the state poll tax must annually pay a road poll tax of \$3. This ordinance has never been repealed, and it was presumed that as long as it remained in force it was unnecessary to each year make the levy.

SHIPBUILDING DURING MAY LESS THAN YEAR AGO

WASHINGTON, June 5. — Shipbuilding during May was not so active as during the same month a year ago. The Department of Commerce announced today that 127 vessels of all types, aggregating 20,052 tons were launched, compared with 189 vessels of 39,913 tons a year ago.

The largest vessels were the William D. Crawford, 6385 tons, built at Lorain, O., and the South American, 2652 tons, built at Ecorse, Mich.

Active preparations are already under way for the International convention of nurses to be held in the city of Los Angeles, 1915. The Alameda County Nurses' association will assist in entertaining the visiting nurses during the convention.

The Chamber of Commerce received information that the proposed round trip rates for the city and county during this event.

KEESLING DECLARES BLUE SKY

SACRAMENTO, June 10.—Due for a vicious, con-

Miss Adelaide Tapley, Miss Ruth Frank, Miss Alvirna Lauenstein and Miss Ruth Eubanks.

Those guests, numbering many of the presidents about the bay, were received by Mrs. Burgess, Mrs. S. J. Ackerman and Mrs. George Plummer.

After the guests were seated, Miss Dorothy Soule, who have just returned from the east, were among the girls who took part in the dancing. In the grand march, Miss Dorothy Soule and Miss Lela Letson acted as accompanist.

Zdenka Buben was still another of the girls who finished piano work and her own charm.

Besides these participants, Mrs. George Ackerman made a decided hit in her dancing.

If It's Wrong I'll
Make It Right

Among the distinguished visitors were S. D. C. Heger, president of the Forum club; Mrs. Frederick Coburn, past president of the Cap and Bells; Mrs. G. W. Harrison, president of the Oakland club; Mrs. George Mullen of the To Kalon; Miss Christine Hart of the Laurel hall; Miss Florence Richmond of the Papyrus; Mrs. Harold Seager of the Corona and several other visiting club women.

MIZPAH'S LUNCHEON.
On Friday of this week the Mizpah club enjoyed its annual luncheon at Isora's. This club, of which Mrs. W. J. Johnson of San Francisco is president, is composed largely of San Francisco members, although several ladies from the east bay side participate in the weekly gatherings on Monday afternoon.

Mrs. G. W. Harrison, president of the Oakland club, has bestowed to the Mizpah club a new rug and is anxious to have ladies with seldom make a mistake.

the club is purely philanthropic and the meetings given in some old-fashioned manner rather than the fashionable environments where they occur. It would be termed "sewing bees" for the women bring back and forth while the fluffers fashion garments for needy women and destitute old people.

The annual luncheon which took place Friday has had for forerunner many others at Idora, this park being particularly popular for that form of entertainment.

RAILWAY MAIL PAY BILL IS HELD UP

Proposed Compensation Measure Threatened With Delay.

WASHINGTON, June 6.—Proposed legislation which would revolutionize the system for compensating the railway mail carriers is today threatened with delay because of differences of opinion in Congress as to the pay to be accorded carriers for space occupied by the mails.

The proposed legislation is being prepared by the joint Congressional committee on railway mail pay. Its presentation to Congress is being delayed by the Interstate Commerce Commission as to the average compensation now received by the railroads from commercial business.

The committee proposes, according to Chairman Jonathan Bourne, today, to abolish the system of compensation based on weight and space and to adopt a system based solely on the space occupied in trains by mail.

In support of the change, it is urged that this would stop the annual expenditure of \$400,000 by the government in weighing the mails for a given period in order to determine the weight of the mail which is to be paid to the railroads for the succeeding four years. It is claimed on behalf of the railroads that they would no longer be required to carry increased weight after the weighing period for approximately four years without compensation.

The committee has adopted as units for pay a sixty-foot car, a thirty-foot car, a fifteen-foot compartment and a seven-foot space for mail bags.

It is agreed on the pay being composed of a terminal charge and a haul charge. At present the railroads are required to deliver the mails for the postoffices at a certain distance from them. The committee's position, according to Mr. Bourne, is that there is no more justice in compelling the railroads to deliver the mail after it reaches the terminals than in compelling them to furnish taxicabs free of cost to take passengers home.

As terminal charges for a round trip, the committee proposes to fix a rate of \$8.50 on sixty-foot cars and as line rates for each mile such a car travels, 21 cents.

The pay would be reduced for the smaller dimensions. The committee claims that under the new system the government would pay for exactly the service it gets, as the authorization of space rests entirely in the discretion of the postmaster-general.

JUDGE WOULD ENACT NEW ROLE OF CUPID

SAN FRANCISCO, June 6.—Superior Judge Troutt is hopeful of effecting a reconciliation between Mrs. Katie Morris and her husband, Edward H. Morris, a dealer in artificial stone. The couple were in court today, whether Morris had been summoned to show cause why he should not pay alimony. His property is said to be valued at \$10,000 and includes a home at 3729 Seventeenth street. He explained that he didn't want to pay alimony.

"I love my wife and I want her to come back to me. I am willing to do anything to her and I think she will be happy once more," Morris said, and further stated that he had made a will disposing of all his estates in favor of his wife. Mrs. Morris had asked for \$100 a month alimony. The court allowed her \$75 until June 17 when it is hoped a reconciliation will be recorded.

JUNIOR REPUBLICS FOR FOUR WESTERN STATES

HEALING, N. Y., June 6.—The annual meeting of the National Association of Junior Republics was held at the George Junior Republic at Freeville today. The secretary reported movements looking to the establishment of Junior Republics, either through private or state action, in Oregon, California, Arkansas and Iowa.

JUDGE GRAHAM HAS BROUGHT PAIR TOGETHER

SAN FRANCISCO, June 6.—Judge Graham used his powers of reconciliation with good effect today when he succeeded in joining the hands of Virginia and Enrico Bosso. The couple agreed to let bygones be bygones for the sake of their child and Mrs. Bosso asked that her suit for divorce be dismissed.

does not play well—not quite up to club ideas. But you must lose. Then you will get your bureau."

Baron Kruff took the hint and is now a constant visitor at the judicial office. He has his bureau and now Austria controls all that happens in the little state she covets so much.

utes, gently rubbing the sore parts. The effects are marvelous. All pain disappears instantly and the feet feel simply delightful. Corns and callouses can be peeled right off. Blisters, itching feet and sweaty smelly feet get immediate relief. Use this treatment a week and your foot troubles will be a thing of the past. California shoe stock or will get it from his wholesale house. A twenty-five cent box is said to be enough to cure the worst feet.

BEAUTIFICATION OF CITY BEGUN CHILDREN PLANTING GERANIUMS

CITY GARDEN SOLDIERS AT WORK IN LAKEVIEW PARK. LEFT TO RIGHT, EDITH AKERLY AND GERTRUDE PARK PLANTING GERANIUMS ALONG BOULEVARD.

CITY GARDEN SOLDIERS AT WORK IN LAKEVIEW PARK. LEFT TO RIGHT, EDITH AKERLY AND GERTRUDE PARK PLANTING GERANIUMS ALONG BOULEVARD.

Enlisting enthusiastically in the movement for the beautification of the city in readiness for 1915, more than eleven hundred children of the Lincoln, Grant and Lakeview schools marched Friday afternoon as Garden City Soldiers and planted 20,000 geraniums along the course of the Highland Drive, where it curves about the shore of Lake Merritt. This was the first public appearance of the young military workers for improvement and the spirit in which they entered upon the work presages the accomplishment of wonderful results in the cleaning and adornment of the city in preparation for the coming of the thousands of visitors to the Panama-Pacific exposition.

Assembling on Harrison street at Grand avenue, the children marched to the entrance to Lakeview Park, where they were divided into companies and began the work of planting the flowers which will transform the sides of the boulevard into a blaze of color. Keen rivalry was shown in the attendance, as a silk American flag had been offered by H. C. Canwell and A. S. Lavenson as a prize for the school showing the highest average.

This trophy was presented by Mayor Frank K. Mott to Howard Hill, commander of the Lakeview school division, as his band was 97 per cent of the school enrollment. Grant school was a close rival with 86 per cent and the Lincoln school had 88 per cent.

Combined school bands from the Lockwood, Piedmont and Washington schools led the march to the park and played while the workers delved in the soil. Adjudges of the contest were Miss Jessie Wood, chairman of the executive committee of the City Garden Soldier army, Mrs. L. C. Grasser, president of the Federated Mothers' club, and Mayor Mott.

Similar flower planting ceremonies will be held in various parts of the city in the near future, the next one probably in the Fourth Avenue Heights district. Trophies for attendance will be offered, and it is expected that every public school pupil will soon be enrolled in the ranks of the army of beautifiers.

AERIAL PARK PLAN Elevated Playgrounds Are Proposed

(By Carlton Ten Eyck.)

NEW YORK, June 6.—There is no more room on New York's East Side now, so somebody has come forward with a scheme to utilize the air spaces. Elevated parks and playgrounds above the streets is the suggestion of those who would give the tenement dwellers more air and recreation. The "Hanging Gardens" of ancient Babylon would be recalled by the East Side streets should the idea be put into execution.

This plan is recommended by Hugh E. McLaughlin, one of the assistant engineers of the Catskill Aqueduct now being built for the greater city. Discussing the project McLaughlin said:

"This plan of elevated parks and playgrounds, especially in the congested districts, would cost only one-fifth as much as real estate areas. The recreation places would run through the center of the street, elevated on steel columns, in the same fashion as the elevated railways are constructed. I would suggest twenty plots to the mile, the dimensions of each plot being 60 by 200 feet. The estimated cost of one mile of such areas would be about \$250,000, while a square real estate block in these districts is generally valued at one million dollars.

The proposition presents the building of elevated areas and playgrounds in the congested portion of the Borough of Manhattan, along First avenue north of Twenty-third street, and also along Second avenue, south of Twenty-third street."

ELEVATED ROADWAYS. At present in Manhattan there are elevated roadway structures along Twenty-third street and on Second avenue north of Twenty-third street, on Third avenue entirely, on Park avenue through Harlem, on Sixth and Eighth avenues in part, and on lower Ninth avenue. As indicated, Second avenue has no elevated structure below Twenty-third street, and First avenue has none above it, so that on those portions of both avenues the ornamental "hanging gardens" could be erected.

The plan obviously offers a wide range to the fancy of the park-maker and to the hopes of the playground enthusiast.

The tennis court and a covered baseball diamond, screened in to prevent the base falling to the street are shown in some of the designs prepared by McLaughlin. The idea is to make the plots only as long as the street block. At street intersections the gaps are bridged by narrow walks. It is the plan of McLaughlin to have the playgrounds on the corners, with ball diamonds and other plots of that kind alternate with parks and recreation plots, where there will be nothing but flowers, grass, benches and a fountain.

Running tracks, gymnasium apparatus and football fields also are planned. They could readily be constructed on the 60x200-foot plots.

Muscle-stands for band concerts, lecture platforms and

ULSTER PLANS NOW LEAK OUT

Provisional Government Has a Full Organization Awaiting Exigency of War.

LONDON, June 6.—The thoroughness with which the "Ulster Provisional Government" was prepared for all the possible eventualities of civil war is just beginning to be realized in this country. Besides the drilling and equipping of a fighting force of 100,000 volunteers—with arms landed on the coast and distributed throughout the province in defiance of the King's proclamation and despite the vigilance of the local authorities—the es-

organization and the formation of ambulance, nursing, signalling, telegraph and postal corps, it now develops that elaborate arrangements have been made for the refueling in England of the women and children living in the expected war areas.

The plans which have been worked out quickly by the Ulster Women at Children Committee, of which Harold Smith, M. P., is the head, include not only the organization camps in the neighborhood of the largest west-coast ports, but the housing of refugees in the case of the evacuation of sympathizers already placed at the committee's disposal. Lady Edward Cecil, who acquired valuable experience in organizing concentration camps during the South African war, has been appointed to supervise the work.

The Duke of Westminster has promised to provide one complete camp, with sleeping and mess tents, hospital, kitchen and full campaigning equipment, in the grounds of Eaton Hall, near Chester, which will be a convenient distributing point for North Wales, Lancashire and Cheshire. Similar camps will be established at or near Fishguard, Holyhead and several other ports.

ZONE BY ZONE.

The committee has mapped the country into zones, along the lines of railway communication, each of which will be in charge of a separate official. The register of persons who have agreed to take refuge in the case of war has been carefully classified as to the number they can accommodate, whether women or children, or both, and whether they will be prepared to receive their "guests" on 12 hours' notice, 24 or 48.

The collection and transportation of the refugees will be undertaken by a special corps of "Provisional Government" officials, the ordinary steamer lines being utilized, it being assumed by the English committee that the British Government will not try to stop the exodus of women and children should this become necessary. Each party will arrive in charge of an agent, with lists of their names and registered numbers, which will be turned over to one of the committee's debarkation officers, who will be stationed at each port, from Fishguard to Liverpool. He will check the list, give a receipt to the Ulster agent and then see that the refugees are promptly dispatched to the nearest reception camps, each party in charge of an English agent. It will be the business of the camp managers not only to provide for the comfort of the visitors, but to arrange for their distribution to their appointed homes with all possible speed so as to provide for the next comers.

PEER AS IMPRESARIO.

Possessed of vast estates and a bankroll of such huge dimensions that he need never worry about the pursuit of the "penny" dollar, Lord H. H. de Vaulden is devoting his talents and time to maintaining the reputation of being the most versatile peer in Great Britain. He has just broken out in a fresh place by establishing a theater of wheels, which is to tour Wales and regale the natives with old Welsh National Theater."

as the Welsh National Theater," as the first theatrical venture, for he has already produced an operatic drama of his own writing, as well as financed several other productions, and taken part in a number of theatricals. But as Lord de Vaulden is shown only scant appreciation of his literary and histrionic abilities, he has decided to educate the Welsh farmers and miners up to a proper understanding of their local and national history.

His touring company is composed entirely of Welsh men and women. They are mostly colliers, gardeners, storekeepers and artisans, who, feeling that the stage is their proper vocation, have no objection to allowing a millionaire peer to pay for their training. A parson's son and an editor's son give the proper touch to the enterprise inaugurated under such aristocratic patronage. The playhouse is a huge wood and iron structure which can be taken to pieces and moved about on horse-drawn and motor wagons, and comfortable tip-up seats replace the chairs and benches used by circus troupes and other touring companies, which have to content themselves with canvas tents. The scenery, which is the finest ever seen on the road in this country, was specially painted by the Haymarket Theater, London. One of the plays in the repertoire is "Furze," an historical drama dealing with the death of the last Welsh prince, Llewellyn, and is from the pen of the noble producer himself.

Money-making is not the purpose of the venture, and his less wealthy friends predict that "Tommy" will drop some thousands in hard cash. Tommy, however, can well afford it, and he plans visiting all the remote villages that theatrical managers who are influenced by purely financial considerations carefully avoid. Lord Howard de Vaulden, who is 24 years of age, owns one of the choicest pieces of real estate in London, which brings him an annual income of something like three million dollars. He also has other big estates, and his wife has a huge fortune of her own. He is an enthusiastic sportsman and swimmer, and is one of the best swordsmen in England.

COMMERCE CHAMBER TO DISCUSS AT LUNCHEON

SAN FRANCISCO, June 6.—"Relation of Business to Legislation" will be the subject of a luncheon to be held at 12:15 in the Red Room of the Palace Hotel next Tuesday. Louis S. Beedy, the well-known attorney, will be the principal speaker. The topic will also be taken up by others who have given the matter special study.

One hundred and twenty-five members of the Rotary club, one of the most active organizations in the city, will attend the luncheon in a body. Most of the Rotarians are members of the Chamber of Commerce, and the

COLONEL J. H. WINDSOR, INVENTOR, PASSES AWAY

Colonel J. H. Windsor, inventor of a process of burning crude oil in locomotives, died here yesterday. He was 64 years old.

LOS ANGELES, June 6.—P. M. Reidy, formerly vice-president of a bank at Klamath Falls, Oregon, was arrested by government agents in Baltimore, according to information received here today, in connection with a clairvoyant swindle in which Mrs. Mary T. Ellis of Long Beach, lost \$20,000.

Reidy is charged with having impersonated a government officer and is alleged to have operated in conjunction with Sol. Alexander, a former private detective, now in custody at the Los Angeles police station. Both men will be brought back to stand trial.

Mrs. Ellis was induced to heed the supposed advice of her dead daughter, alleged to have been received through a purported spiritist medium known as Thomas McCullough. She sent \$27,000 in gold to Reidy, who was charged with having impersonated a government officer and is alleged to have operated in conjunction with Sol. Alexander, a former private detective, now in custody at the Los Angeles police station. Both men will be brought back to stand trial.

These are all exclusive patterns and come in the latest shades of greens, grays, tango, tans, blues, pink, old rose and others. Many are on white grounds and a few have the Persian border.

The designs are most up-to-date—futurist, cubist, small floral effects and figured patterns.

Fine value at 60c A YARD

CLAY at 14TH and 15TH

ROCK RIDGE OUTLAWS DEFEAT BERKELEY TEAM

The Rockridge Outlaws showed themselves to be possessed of a more sterling brand of outlawry than that which characterized the Berkeley Outlaws, whom they defeated by a score of 10 to 5 in a game played last Saturday morning at Rushford Park.

The Rock Ridge boys established a lead in the second inning, and at no time was pitcher Le Plotte in any danger from the assaults of the Berkeley batsmen. The team lined up as follows: Rock Ridge—Ravies 2b, Gaby 3d, Capitelli 1f, Gregory in, Grandison cf, Le Plotte p. Signnami c, Newton rf, Hanson ss.

Berkeley—Hall, Earl, Kenny, Dewar, Archie, Lyle, Rodgers, George. Umpire, Ruckdale.

LUMBER LOAD CRUSHES MAN'S ANKLE IN YARD

SAN FRANCISCO, June 6.—Joseph Batt of 219 Durkin street had his left ankle crushed in the yards of the San Francisco Lumber Company, at the foot of Market street, today. A chain broke and a huge load of lumber fell before Batt could get out of the way. He was treated at the Harbor hospital.

ASSISTANT SECRETARY TO COMMISSION NAMED

WASHINGTON, June 6.—William Kemeys of the District of Columbia, formerly of New Jersey and now stenographer to Speaker Clark, has been appointed assistant secretary of the Philippine Commission. He will leave for Manila July 8.

COATS FOR ALL-AROUND WEAR On Credit

PRINCESS XENIA RULES NICHOLAS

Montenegro's King Slave of Despot Daughter, Who Practically Governs.

CETTINJE, Montenegro, June 6.—Princess Xenia, the elder of King Nicholas' unmarried daughters, is the despair of the foreign legations here on account of her influence over him. Her ideas are despotic and she will not let any improvement be made in the government.

When foreign ministers met the prince he is amenable, but he always tells them he must have a day to think over any new proposal. This means he must talk it over with Princess Xenia. Ten to one at the next meeting he says "no" to their requests.

Xenia, they say, would rule the country splendidly if it were not for "new fangled" ideas imported by Montenegrists who have come back from America. They openly criticize the king and talk of the hated constitution. King and princess both work to prevent emigration to America and to put a stop to the return of those who once go out there.

SISTERS ARE MASTERFUL.

All of Xenia's sisters are masterful. Princess Isidora, the queen of Italy, is more widely known than the others, who are Grand Duchess Nicholas, who are Grand Duchess Joseph of Battenberg and Princess Vera, the youngest and as yet unmarried, Princess Xenia, who is 33, is the seventh of the king's nine children and the handsomest of his daughters.

The king loves a game of poker, as Baron Kruff, an Austrian aristocrat, has just found out. Kruff came here to organize a press bureau, had an audience with the king and was told he could go to work. Next day his majesty summoned him to the streets of Cetinje and asked: "Well, is the press bureau working yet?"

The baron explained that he had not obtained the government's sanction. "I am the government," shouted the king in a real Montenegrin rage. "When I tell you to do a thing you can and must do it."

The baron made matters worse by remarking: "I understood there was a constitution here."

LOSES POKER GAME.

The king's rage grew wilder than ever and he rode off storming and swearing at all Austrians. That afternoon Kruff was summoned by the president of the council and reproved for mentioning the word constitution in the king's presence. "I don't know if you will ever start your press bureau now," he added. "His majesty is so furious that he cannot talk of anything else."

"His majesty loves poker. When he is offended with any power he stops asking that power's minister to play cards. Invite me and some of the other courtiers to play poker at your house. His majesty will hear of it. He will then ask if you lose. We shall say you do. He likes to win, and so will ask you to play poker. You must not mind if he

"Yes, but what has that to do with it?" Then the courtier explained:

"His majesty loves poker. When he is offended with any power he stops asking that power's minister to play cards. Invite me and some of the other courtiers to play poker at your house. His majesty will hear of it. He will then ask if you lose. We shall say you do. He likes to win, and so will ask you to play poker. You must not mind if he

utes, gently rubbing the sore parts. The effects are marvelous. All pain disappears instantly and the feet feel simply delightful. Corns and callouses can be peeled right off. Blisters, itching feet and sweaty smelly feet get immediate relief. Use this treatment a week and your foot troubles will be a thing of the past. California shoe stock or will get it from his wholesale house. A twenty-five cent box is said to be enough to cure the worst feet.

Tells Positive Cure For All Foot Troubles

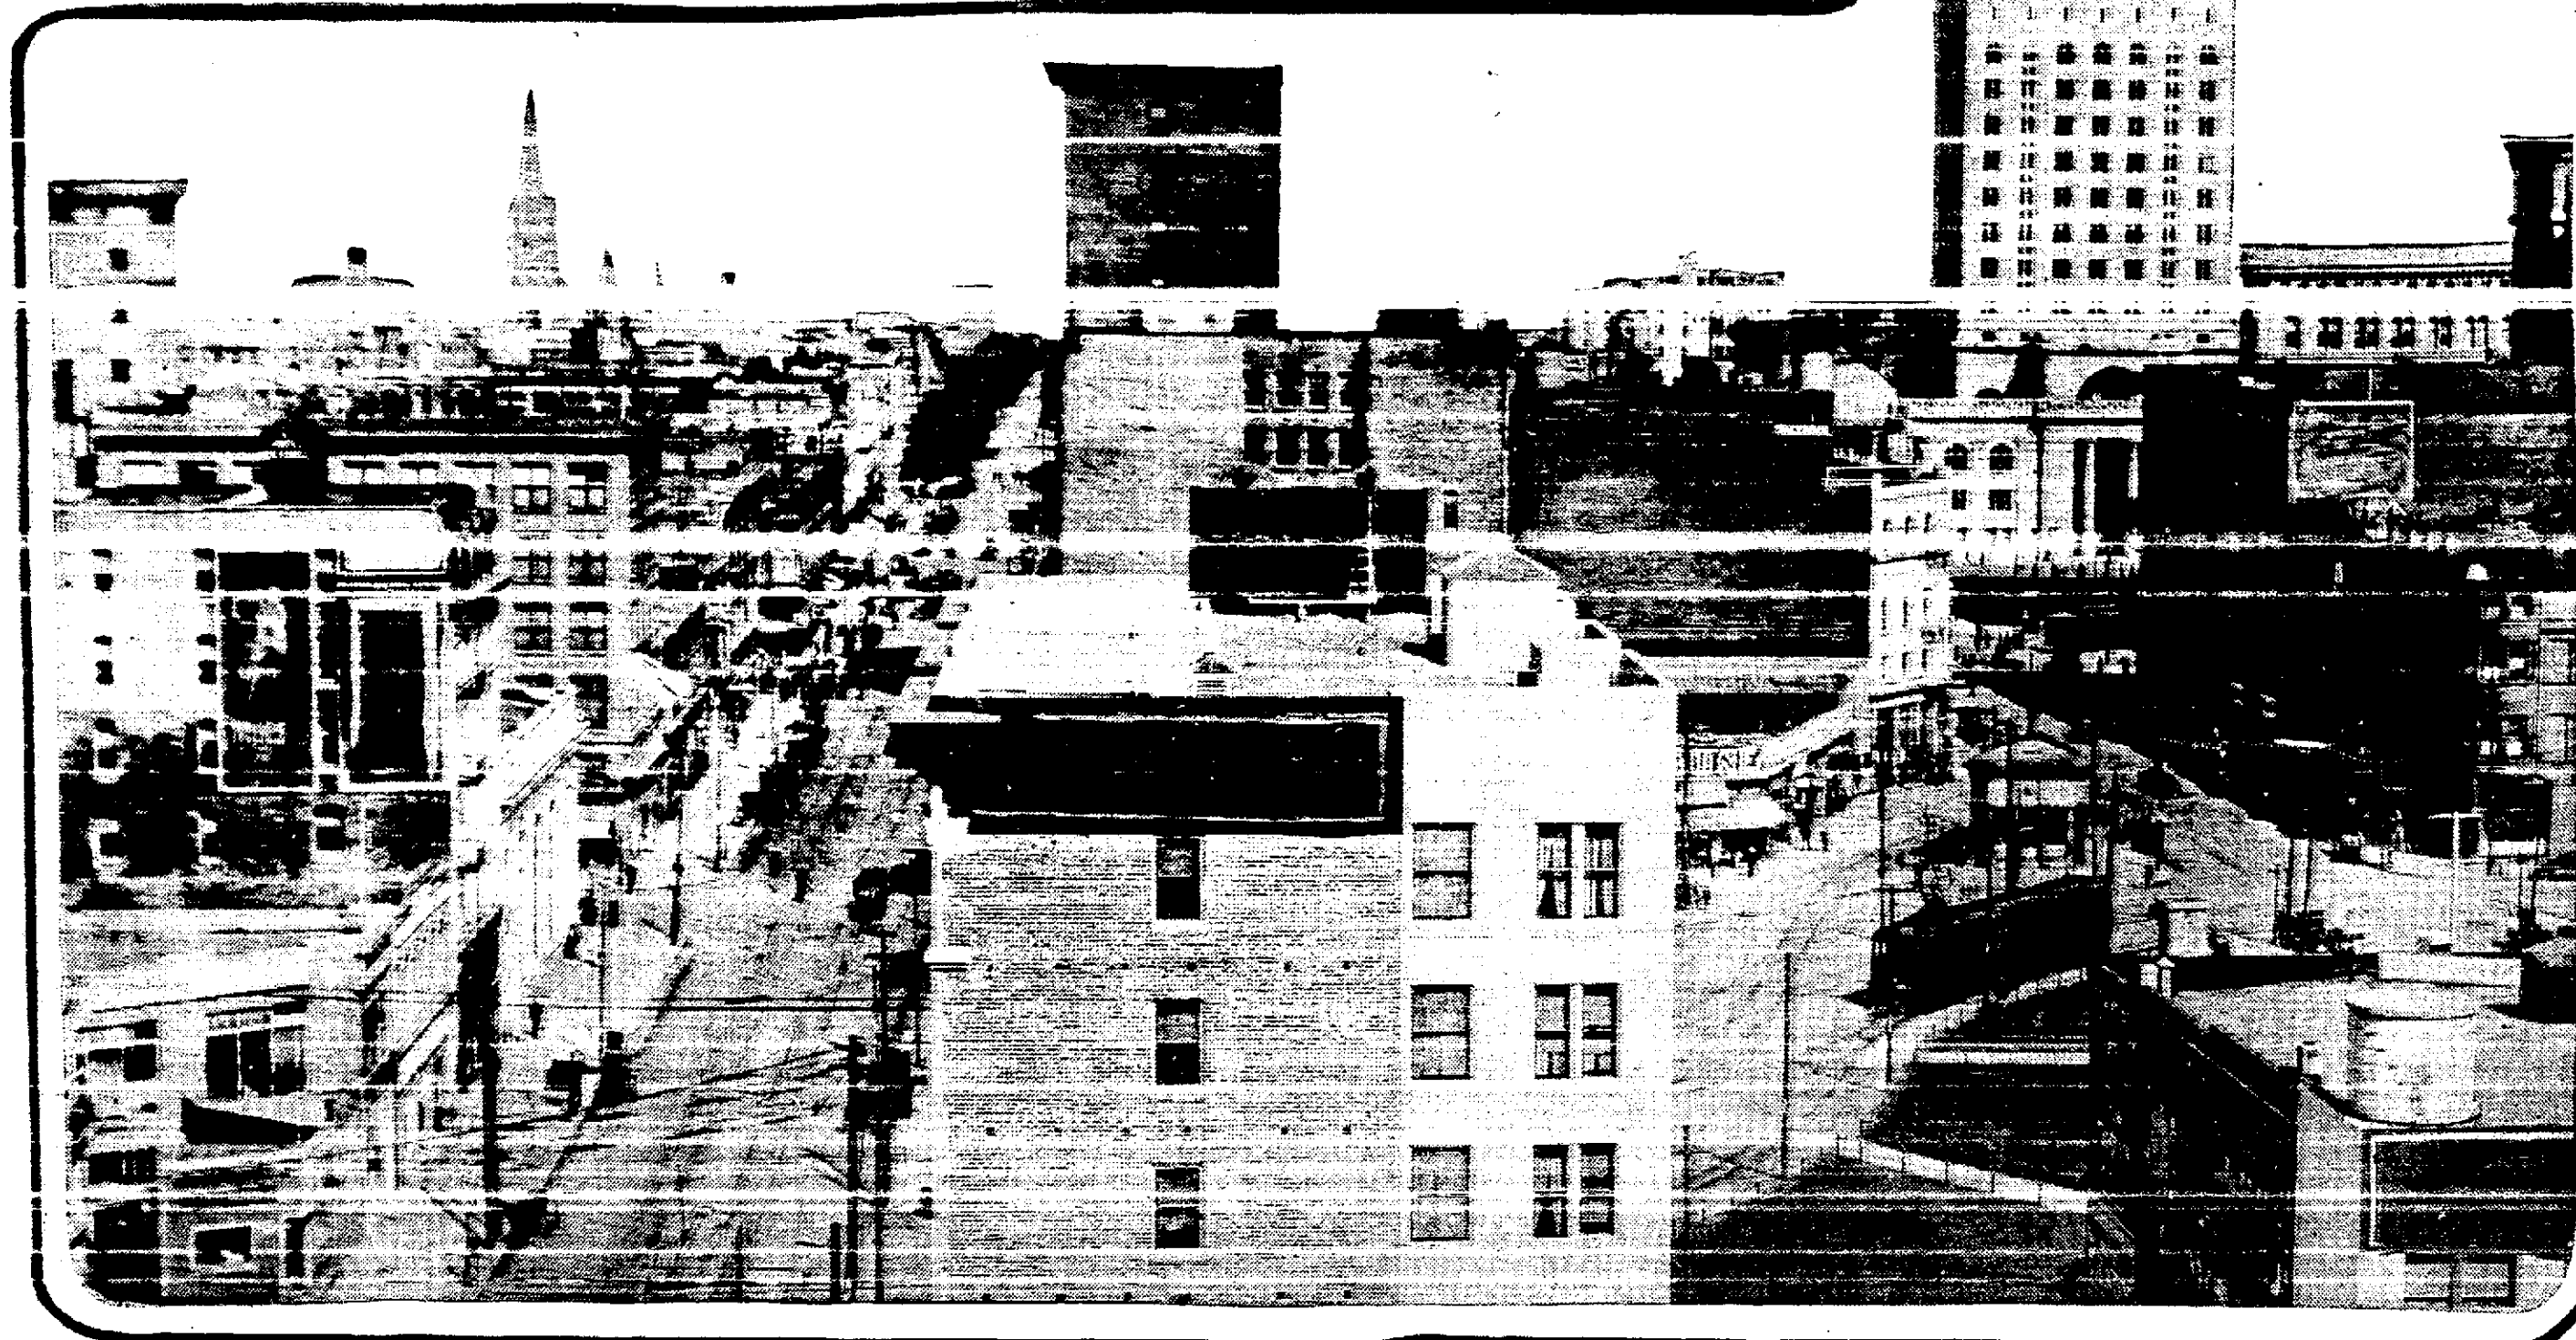

Science has proven that nearly all foot troubles originate from a common cause: that of injured tissues. The following information will be well-acted by thousands of victims of daily foot torture. No matter how many violent medicines you have tried in vain, this treatment, well known to foot doctors, will do the trick. This

compound is a blend of warm water. Soak the feet for a full fifteen min-

Remarkable building development is taking place on the east side of Broadway. The photographs reproduced on the two pages of THE TRIBUNE'S real estate section today were taken from the roof of the Hotel Oakland. The first shows, in the foreground, the new seven-story Myers & White hotel building. On the opposite page appears in foreground the framework of the Coit Investment Company's hotel, at the rear of which the H. W. Bishop Company's new stock playhouse will be erected. The theater entrance will be through the hotel. On the right is the framework of the Y. W. C. A. building. In the background are the tower-like Carlston & Snyder building, 13 stories in height, and on the right the 10-story Thomson building, both on Broadway.

Information by the National Chamber of Commerce shows the num

OTHER NEW INTERESTS.

News that the Palmer Extract Company has purchased a site and let a contract to Pullman for the erection of a three story modern building to house the western plant of this company is another development of this week. This factory will be a branch of the Eastern concern.

The Pullman company is a San Francisco capital in the company which will control the local branch. The site is near the Pullman Company's plant and near to the Southern Pacific Company right of way.

The land was sold to the company by the San Francisco-Oakland Terminal Railway Company of the acre of land at the northeast corner of Macdonald avenue and Twenty-third street. A year ago \$40,000 was received for this piece of property and it has been sold by the company to San Francisco men whose names are not known.

The country and make it the best equipped in the bay region. The second unit will consist of the "main and corner" buildings. The grounds will be beautifully landscaped. The company made overlooking the bay and an 18-foot terrace leading to the beach.

Alameda's building record is keeping well up to the front, there being a total of 1,000,000 square feet of new building. The building department reports that permits were issued for seventeen new buildings at a cost of \$23,301, and twenty-two alterations, at a cost of \$6647.

The old East Shore and Suburban Railway Company many years ago as an inducement to lay the main line of the company on Macdonald instead of Ohio street.

There has been a general brightening of the local realty market and many of the operators who have complained of a quiet season are

market moved in not an extraordinary week. Partial bulletins show that as high as 260 per day have been recorded — rather surprising, considering nearly all week. Consequently provision futures registered gains of from 25c to 45c, pork leading the advance.

Tom Magee's Advice as Broker Sound, but He Lost Commission

SAN FRANCISCO, June 6.—Thomas Magee, the realty broker who met with an untimely death a few days ago, was a thorough student of San Francisco property

subject was often sought after both by local investors and those living elsewhere. One or two people are acquainted with an experience he had several years ago. It illustrated the business and moral caliber of the man. An easterner who had come to San Francisco to live had funds he wished to invest for income purposes. Looking over the city personally, he picked out a couple of pieces of property he thought were just the thing. Magee was then employed as his broker to handle the proposition. The owner insisted on prices Magee thought were too high. The newly-arrived citizen, however, was willing to pay the figure. Magee advised strongly against it notwithstanding the large commission he was certain of by the deal. The prospective purchaser finally took the advice and the transaction fell through. Later on the new citizen saw how far his judgment was wrong and that of Magee correct. He, of course, greatly appreciated a broker of this character. Eventually he had him buy half a dozen income properties for him. He still owns them and has always been more than glad that he met a man like Magee on first coming to live here with a good bank account.

If I mistake not, Mr. Magee, Franklin K. Lane, the Secretary of the Interior, and one or two others carried in an automobile some of the dynamite used in blowing up buildings in 1906 to check the fire from going west of Van Ness avenue. One of the men in the dynamite squad was detained longer than usual under the house at the northeastern corner of Van Ness avenue and Ellis street which he was preparing to blow up. Magee and several others went across the avenue to see why the man was remaining so long in the basement. They found he had been chasing and cornering a big white cat so as to take it to a place of safety before the building was demolished by an explosion.

Spooner Drifted Away From T. R.

I saw John C. Spooner, a former United States Senator from Wisconsin who now has a large law practice in New York, at the Palace Hotel the other night. After Roosevelt became President in succession to McKinley, Spooner was one of the great Sagamores in the Senate upon whom he relied for a time at least for advice. Spooner, Aldrich and Lodge formed a famous little circle in this respect. While, friendly to them, Senator Mark Hanna held aloof from the circle, while Foraker of Ohio, then serving his last term, tried unsuccessfully to break into it as a means of getting into the good graces of Roosevelt and obtaining some of the Ohio patronage away from Hanna, his implacable enemy. Those were the days when Foraker was styled by some people the "original Roosevelt man" because he had already begun to boom him for the 1904 presidential nomination. As the story runs, Spooner was one of the Senators who went to the White House and warned Roosevelt that Foraker was merely trying to use him for his own advantage. Later Spooner drifted apart from Roosevelt, and was friendly to the Taft aspirant in 1912.

Spooner is credited with being paid a fee of \$15,000 to come here for the Union Trust Company of New York in a big Oregon land-grant case now before the United States Court of Appeals. The company has a mortgage of \$20,000,000 on the affected land, being its trustee. He is a gifted speaker as well as a learned lawyer and made a masterly argument in the important litigation.

Spooner was a great admirer of Senator W. O. Bradley of Kentucky, who died the other day. Bradley was the first Republican Governor the Blue Grass State ever had. But he had several defeats before he attained the honor. Once he ran against one of the Democratic idols of the State, the late General S. B. Buckner. In making a tour in that campaign, according to Spooner, Bradley had along with him part of the time as a companion a small, thin man. Traveling one day in a buggy, they stopped at a farm house for night accommodations. Bradley told who he was.

"You're welcome to stay," said the farmer, "but I may as well tell you I'm for General Buckner."

"Well, Buckner will be pleased to hear that," laughingly replied Bradley. "He's traveling with me," and he pointed over to his companion.

"What! That little fellow," was the surprised reply. "I always had a different idea about the general. I'm not so sure I'll vote for him now."

A pleasant night was passed at the farm house. Bradley's companion was vexed for a month at the farmer's disdain over his physical appearance.

Bradley afterwards told General Buckner, who had a fine presence, of the episode and they enjoyed a hearty laugh at the expense of Bradley's companion.

Crockers to Entertain in London

Mr. and Mrs. William H. Crocker have taken a residence in London and will do considerable entertaining for the remainder of the social season, according to advices received this week by several of their San Francisco friends. The Princess Poniatowski of Paris, Mrs. Crocker's sister, has joined them. They are to be her guests in the French

THE KNAVE

Wm. H. Crockers to Give Daughter Ball in London

metropolis after leaving London. Miss Crocker, one of the great heiresses of California, is with her parents and will, so it is said, be given a brilliantly-appointed ball and reception before the London season is ended. The young lady was honored with one of these functions in Paris about two years ago by her aunt, the Princess Poniatowski. From all ac-

Countess of Granard are showing the Crockers every attention and will aid them much in their social efforts in London. Related by marriage to the Crocker family are Mrs. Ward and the Countess of Granard, who are American women and descendants of the house of D. O. Mills. Mrs. C. B. Alexander of New York, a sister of Mr. Crocker, is expected to join the latter and his wife this week with her three pretty daughters. If one is to believe the gossip a person hears, the Princess Poniatowski is very desirous of seeing at least one of these four attractive young ladies marry a French nobleman. But from all reports no engagement of this kind is in prospect for the near future. Mrs. Alexander is credited, however, with wishing an ambitious marriage to a foreigner in her household. Mrs. Crocker was more than pleased when Miss Sperry of Stockton, her sister, became the Princess Poniatowski. That followed the marriage of Clara Huntington to Prince Hatzfeldt and was considered the equal of it as a social conquest. I have heard nothing about Mrs. Crocker's views concerning a husband for her young daughters. She is having her wish more than gratified, however, to see Miss Crocker a pleasing figure in the smart sets of Paris and London as well as of New York and San Francisco.

U. S. Gets Great Engineer

That was a very interesting dispatch the first of the week from Phoenix, Arizona, announcing that the British engineer, Sir William Willcocks, has entered the employment of the United States Reclamation Service as consulting engineer and had arrived there on that business. He is expected here shortly. As the builder of the big Nile dam at Assouan, Willcocks gave Egypt a remarkable system of irrigation. Much has been written about the Assouan dam and what it does for irrigation as well as the improvement of the navigation of the river. More recently he has done some important work in transforming Mesopotamia into what it was in ancient times—namely, one of the great granaries of the world, by the reconstruction of the completely ruined network of canals of the Babylonian era, by the creation of an entirely new system of irrigation there, and by means of a mighty scheme for the regulation of the rivers Tigris and Euphrates. In connection with this latest work of Willcocks, it was last December that his great Hindieh dam was completed. The occasion was celebrated with "much pomp and ceremony by the Turkish government of Baghdad. The dam has had the effect of diverting the waters of the Euphrates into their old channel, past Babylon, by the waters of which the Jews hundreds of years before Christ mourned their captivity, and wept over the remembrance of their distant Zion."

Late Bob Hogan Able Detective

The death of Bob Hogan, the old detective and one of the best San Francisco ever had; recalls his bitter quarrel with Captain Lees in 1894, who was for years the head of the detective bureau. Lees was jealous of the ability of Hogan and had power to sidetrack him by attaching him to the District Attorney's office. They quarreled over the Bowers poisoning case where Dr. Bowers was accused of poisoning his wife. Hogan considered him guilty. Lees did not. Never before had it been known for a detective bureau to be divided against itself. Chief Lees, with twenty men to spring to his aid at the tap of the bell, sat at the trial prompting the defense. Hogan, alone, unaided, sat prompting the prosecution. Bowers was convicted. Lees and Hogan also fought over the Jacobson murder case. Hogan did good work there, a fact displeasing to the captain of detectives. One episode of that case is worth mentioning. Four months after the murder a man by the name of Schmidt was apprehended for the theft of a set of carpenter's tools. In searching Schmidt, the contents of his pockets, in which was an inch-square of lightly-folded newspaper, was placed on Hogan's desk. Hogan noticed that Schmidt was anxiously reaching for the folded newspaper. Surprisingly, Hogan made a duplicate in size and shape and displaced the original, allowing Schmidt to gain possession of the duplicate, which he speedily proceeded to chew and swallow. The original was a newspaper clipping of the holdups, including the Jacobson holdup. Hogan took the view that the same power which leads a criminal back to the scene of his crime compels him to keep a record. The late Robert Pinkerton of New York and his brother, "Billy" Pinkerton, of Chicago, thought highly of Hogan's detective ability and the Chicago detective and author, C. R. Woodbridge, in one of his books has a word of praise for him.

Harriman Admirer of Poniatowski

Prince Poniatowski, who has been extensively interviewed by the New York press during the past week, is not to come to the coast on his present trip to this country from Paris. While in New York he is a guest at the home of Mrs. E. H. Harriman, whose husband had a strong liking for the Polish nobleman. It has been always said that Harriman encouraged the prince to go into the banking business in the French metropolis and went out of his way to get for him a lot of good business from people and concerns of prominence in this country. Poniatowski is still engaged in that business and

report has it that he has made a success of it and enjoys a very good income. One familiar with the facts says Harriman was first attracted with the ability of the prince when the latter called on him as the representative of some Japanese who wished to buy the Pacific Mail's transpacific steamers. He was principally acting for the "Japanese Morgan."

Kaisha, whose steamers then used and still use this port. While Harriman flatly refused to sell, he became from that time on a very good friend and admirer of Poniatowski. It is known to a few that the prince could have had a high connection with some of the Harriman properties in the United States had he so wished.

The prince is a member of the St. Cloud Country Club, near Paris, and is credited with having done much to make it a success. Will Crocker is a member of it and I think Francis Carolan is also on its membership roll. It was the outcome of a conversation held about two years ago among some Franco-American enthusiasts for outdoor sports. The club's house is patterned after American plans, with private diningrooms and every facility desired in a country club. Some of the features and spirit of our own Burlingame Club are to be found there. Skating is provided in frosty weather by flooding some of the club's fields.

Lafferty Had Trouble as "Masher"

Congressman A. W. Lafferty of Oregon has been visiting the city this week. This product of the Oregon political game is remembered by some as an insurgent congressman and one of the first of the La Follette enthusiasts. A lot more people remember him for his susceptibility to feminine charms in view of the various alleged exploits he has had with young women and his pains to deny some of them or explain them. It was about two years ago, I think, that the Oregon visitor used about a fourth of the four pages he had purchased in an official voters' campaign pamphlet to denying, defending and explaining his various exploits with a number of women and girls. It was at this time that he sought to justify his act in sending an invitation to a young Washington girl whom he had never met. He said in part: "Every man of marriageable age has the right to communicate the fact to a young woman similarly situated that he would like the honor of her acquaintance, provided he does it in a respectful manner. The young lady to whom I sent the gallery card in Washington is 20 years of age, and her father has never uttered one word of complaint about it in my presence and he never will."

In the course of his odd and sensational defense, the congressman also used this language: "They called me a 'dirty masher' and said I had been arrested for insulting a married woman on the streets of Portland. They knew that was a lie when they printed it."

Mrs. Turnbull Lives Quietly in Boston

Of Mrs. Lillian Turnbull of Boston, who is suing her husband for divorce, it was said at the time she tried in a Los Angeles suit to get part of "Lucky" Baldwin's estate for her young daughter, whose alleged father was Baldwin, that Boston people knew nothing of her early California life and experience up to that time. The husband she is seeking to divorce is a doctor and has always been represented as enjoying a first-class practice in Boston. For eight years and more they have lived quietly in a luxurious home in Brookline, a fashionable suburb. They were received in very good society from all accounts. How they fared socially after the Baldwin trial with its rattling of family skeletons I do not know. In the trial at Los Angeles the attorneys for Baldwin's heirs were merciless in bringing out the history of Mrs. Turnbull in her younger days as Lillian Ashley. Gavin McNab, one of the attorneys for the heirs, was fortified with a detailed history of her life from her girlhood, when as the daughter of a horseman she became interested in horses and herself rode in a race and took a prize in an eastern meet. It was this history of her life which practically non-suited the case of her daughter in the Los Angeles trial court.

Careful About What They Eat

James Leib, maitre d'hotel of the St. Francis, who has gone to his old home in Europe on a visit, observed recently that people are twenty or thirty times as careful as they used to be about what they eat and the average hotel guest consumes more time than ever in studying out his food combinations. One of the reasons for this condition in his opinion seemed to be that all the doctors that have started writing for the magazines in the last few years have tipped people off to a lot of "bad breaks" in the matter of foods. Like Victor Reiter, manager of the Hotel Oakland and a former maitre d'hotel at the Palace and Fairmont, Leib is emphatic in saying that brevity is the soul of a good menu and that the days of a dozen courses are gone. There is fine art in the menu and as a very general rule he is a wise guest who first consults the maitre d'hotel about his dinner. Leib has much of interest to say about quality and not quantity being the ruling idea in all good eating establishments, or at least in those worth while. He, by the way, is enthusiastic about the mushroom and thinks he is an authority on selecting the article and preparing it. Some people will not eat it until he has given his judgment about it being the genuine article.

Hetty Green's Son May Enter Field

It is the belief here that the recent change in important officials of the Nevada, California and

Railroad at Reno, now means the entrance into it as an owner, along with the Morans of New York, of Colonel E. H. R. Green, a son of Hetty Green, who moved from Texas back to New York a couple of years ago to attend to some of his mother's affairs under her direction. The Morans have long controlled the property, which is a narrow-gauge

line running through the eastern counties of California. According to report, Green money is to be put into the company to extend and improve the line. T. F. Dunnaway has resigned as director, vice-president and general manager. Two Texas men, friends of Green, come into the corporation as new officials. Colonel Charles Hamilton is the new director and vice-president and R. H. Cox the new general manager. Both hail from Waco, Texas. Green has of late years been looking after his mother's railroad investments. He owns a railroad of his own in the Lone Star State. Seven or eight years ago Mrs. Green bought the Texas Midland Railroad for her son, making it a birthday gift for him. The road extends from Paris to Ennis and has always done a thriving business. Green's management of it, together with a number of successful ventures he made in Texas, is what heightened the shrewd woman's opinion of her son's business ability. This caused her to install him in her New York office with increased authority over her investments. The Central Pacific is building a branch from Fernley, one of its Nevada stations, into Northeastern California that will eventually connect with the Southern Pacific lines in Oregon running to Portland. It will in time form part of a new rail route east of the Sierra Nevada mountains all the way from Portland to Mojave and Los Angeles. How this railroad activity will affect the future of the Nevada, California & Oregon line I do not pretend to say. The rumored Green connection with it is, however, of great interest. In the years gone by Hetty Green drove some shrewd bargains in Texas railroads with C. P. Huntington. She and her son perhaps may do the same with his successors in the case of the Reno road.

"Please Pass the Dasheen"

At the Panama-Pacific Exposition the dasheen and the udo, new vegetables, are to be much exploited as exhibits. They will be shown growing and in the commercial form. Both already having a limited cultivation in several localities in the United States. This is also true in California. The dasheen is a substitute for the Irish potato. The udo has been experimented with in this country for about ten years and one California grower has for several years had several acres planted with it. It is a Japanese vegetable, a sort of cross between celery and asparagus, but tastes like neither. It grows in bunches, like celery, and, like celery, has to be bleached by being kept in the dark. It usually is covered with an inverted pickle jar or a length of drain tile with one end cemented up. When it is ready for eating it has to be boiled twice in clean salt water to take out the turpentine flavor, and then it is cooked like asparagus.

Ten Cents, Hotel and Taxi Tip

This is rather a late day for Australians to urge excessive tips in the United States as one of their excuses for not traveling through this country on their journeys between England and Australasia. Yet that impression must be a serious one in the antipodes, for the Oceanic Steamship Company is to explain to the traveling public there that tips can and should be limited to a ten per cent basis. In San Francisco ten cents has become the regular tip to hotel attaches and taxi drivers. Twenty-five cents a day to Pullman porters is also a steady tip now. Commercial travelers from the east tell me they are enforcing this standard of tips as much as possible everywhere by their own tipping. The Washington authorities have from time to time been making a crusade against excessive tips by refusing to allow them in the expense accounts of their employees. This is having a good general effect on the tipping system all over the country, traveling men tell me. It would be well to remind the Australians that a year ago Postmaster-General Burleson issued an order that he would not allow in expense accounts tips for taxi drivers, stenographers and hotel waiters. He sanctions small tips to train porters. The Treasury Department specifies for its traveling representatives a train porter tip of twenty-five cents. It believes in small fees to waiters. The old rule was to approve of \$10 a day for that purpose. It is now ten cents a meal as a tip. Other departments at Washington have taken similar action. The tipping rates which thus receive government sanction are worth noting by Australians as well as everybody else. It must be said of the San Francisco and Oakland hotels that they do not rent out coatroom privileges nor seek in any other way to get any part of the tips generous guests may see fit to give the attaches. Of course some people have paid and continue to give large tips, but that is not the general rule by any means. What is better, it is not expected these days.

Senator Perkins' Tolls Speech

The address of Senator Perkins in the Senate this week on the retention of the free canal toll legislation for American coastwise shipping must have been an exhaustive handling of the important problem, judging by the favorable press accounts sent out from Washington.

Perkins is an experienced steamship man and traffic authority. This is due to his long steamship connection on this coast and the intimate relations he had for years with the movement of freight both

ALAMEDA GIRL MAY DUPLICATE FEATS OF OTHER AMAZONS.

THE KNAVE

TEN CENTS SAN FRANCISCO TIP FOR HOTEL PORTERS AND TAXI MAN

talking about. He was able to bring to the aid of this intimate knowledge his larger and well-rounded views of how the canal and free tolls for vessels in the home, or coastwise, trade will greatly aid in the development of the eastern, southern and western coasts by giving their exchange of products a quick and cheap means of communication.

It is a pleasure to think that after a long and distinguished senatorial career and on the eve of his retirement because of age, Perkins should have added his wise counsel and advice in this matter. California has done splendid work to circumvent the strange appeal of President Wilson and his following in the Democratic party on the free toll proposition. Perkins has ably seconded the commanding position taken in the House by Congressman Knowland. President Wilson may triumph and thereby commit a great blunder. But the stand taken by Perkins and Knowland will always be gratefully remembered. Even should the President's course temporarily prevail, it is fortunate California has these two champions of her large interests. It is well that with Perkins about to retire, Knowland has a splendid chance to succeed him and continue the battle later on in a matter in which he has shown himself so well equipped as a national legislator.

"Beefsteak" Bill Has Side Line

Another expose of the gambling operations of William R. Markt, commonly known as "Beefsteak Bill," who keeps a varied gambling resort just over the line in San Mateo County, was made the other day. He raises game fowls and indulges in chicken fights. Some of his fighting feathered tribe were seized and they made a good dinner at the San Mateo county jail. But from all accounts Bill can stand the loss. He has a lot of them on hand and has made some good sales of fighting roosters in the eastern states and in Mexico. Many a Saturday and Sunday there have been chicken fights in his neighborhood. In addition to getting good prices for his game birds, two of his particularly fine cocks have netted him a considerable sum of money during the past fourteen months. The story is told that Villa, the rebel general and much exploited military leader in Mexico, has a weakness, a very decided weakness, for a chicken fight. Somehow he heard of Bill's breed of fighting stock and paid a good price for three of the cocks through an agent some months ago. This was when he was making Juarez his headquarters and frequently came over the river to El Paso. An army officer just back from the Texas frontier has it that Villa got a consignment of cocks from North Carolina

when he received Bill's roosters. They were pitted against each other and Bill's San Mateo breed won out. The North Carolina birds were left dead in the ring. Villa carried along his California chickens when he advanced south from Juarez. Recently an agent of General Obregon, the rebel chief in the Mazatlan country, who came here to buy war supplies, heard of Bill and his fowls and bought some of the latter for shipment south on a Pacific Mail vessel. This agent was later on accused of spending money in the night life. Whether he bet on any of Bill's chicken fights I do not know. However, it is interesting to observe that apparently Bill and his chickens are better known far away than they are to the San Mateo guardians of the peace.

His Graceful Grace

Mr. and Mrs. Peter Martin have done considerable entertaining for their German guest with a handle to his name, Duke Heinrich Borwin of Mecklenburg-Schwerin, cousin of the German crown prince and related by several marriages of kinfolks to a number of royal families. A clever, gentlemanly chap, his title has made him much lionized. As the duke has been used to this in foreign capitals, the role of a social lion is accepted by him as a matter of course. How a lot of Americans value and pay-homage to a title!

And how gracious is the duke in the courtesy to the ladies of a kiss on the hand!

Not since the young Archduke Francis Joseph of Bavaria was a visitor here several years ago has society seen such a dainty kiss of salutation. This expression of European courtesy then and with this latest visitor of title is a strong attraction for the fair, young women of the socially elect. The young Bavarian duke was a pastmaster with the charming salute and from all accounts the German duke is as equally skilled in all its graciousness. Some of the young matrons had this salute from both dukes and they are said to agree that they are equally as proficient in this courtly fashion.

Adventures Came Easy

It has been many months since we have heard of Captain J. Campbell Besley, the widely traveled Britisher always on the hunt for adventure, who got his first introduction to coast society by playing polo at San Mateo and Coronado a couple of years ago in company with Lord Tweedmouth, Lord Herbert and young Lord Leveson-Gower. This time we hear the gallant captain is in London preparing for an expedition into the wilds of Peru. Whether Roosevelt's trip into the Brazilian wilds and the discovery of a new river has stirred the ambition of Besley is not stated. With his rather delightful nonchalant drawl, the Britisher can tell a strange story of adventure and experiences in Alaska, Mexico and South America. He regaled many at the St. Francis when here about his wonderful

stories and got fighting mad when on one occasion Lord Tweedmouth interrupted with the laughing remark:

"Sporring again, captain?" Besley has a penchant for talking about the duels he has figured in. He said once they would form an entertaining and exciting part of a book of his travels he hoped to write one of these days. The other fellow always got the worst of these revolver engagements. He did make one exception for the sake of variety evidently. Once two bullets from his antagonist made flesh wounds in his arm. But even in that encounter the old fellow was so pumped full of lead that he never got up. The captain was there in the flesh to prove conclusively that none of his duels had put a bad crimp in him. His hearers had to accept this positive fact no matter what their silent views might be as to the fertility and resourcefulness of a quick-witted imagination. His talk was entertaining and did no harm except to his supposed duel antagonists. So let it go at that.

Prowess of Women

People as a rule like to read hunting trips for big game or contemplated expeditions of a similar kind. This is especially true when a woman is in the party. So the experience and luck of Miss Painter of Alameda, who is going to the Klondike country in the Far North with Mrs. Webster Norcross of Seattle and some men relatives and friends this month will be watched and read with much interest. These women will not be the first to go there on such an outing. Half a dozen of them that I can recall or have read or heard about have gone there during the past few years to try their skill with the gun on bear, mountain sheep and the caribou. Mr. and Mrs. Max C. Fleischmann of Cincinnati were here on their way home a few years ago after a big game hunt in both Northern Alaska and in Siberia. They had trophies of the chase to show their success and remind them of their trip. What Fred K. Burnham and his wife did on their Klondike trip with bear and caribou is well known to their many friends here, and the same can be said of the Misses Cartwright and Adams of St. Louis and New Orleans respectively who were up there with their brothers for several months. If I mistake not, Lady Grace Mackenzie of London, who owns much grazing land in Montana and Wyoming and has hunted big game in the Rocky Mountain country, once was in a party that visited Northern British Columbia and the Klondike region and has the best record of a woman hunter in killing their bear and caribou.

Europe in B'lingum

Work has been started on the new country home of the Francis Carolans in the Burlingame region south on the peninsula on a commanding site in a thousand-acre tract of land. Much has been written about the owners' plans for their new home and how they have obtained the advice of capable French

landscape gardeners, architects and interior house decorators to make the house and its surrounding grounds an ideal place. It will be a duplicate in many respects of a French chateau, and grounds, building and its contents will represent, according to general rumor, close to two million dollars. New Place, the country home of the Will Crockers in the same peninsular region, which was completed shortly after the 1906 fire, set a high standard for artistic elegance and luxury. The Carolan home will equal this standard of country mansion and grounds as well as that of the Templeton Crockers now being rapidly built. Uplands is the name of their country home, a pretty designation chosen by his late father, Colonel C. F. Crocker, for another peninsular place when he first went down there to live. The Templeton Crockers aim at duplicating a fine Italian villa. I presume their financial outlay will not be a bit less than that of the Crocker.

Santa Barbara and the Los Angeles region are now the only rivals on the coast to the peninsula district in the matter of homes for the rich. As indicating one phase of the growth of this city, it is interesting to give the opinion of a competent authority that the peninsula district has many fine homes just completed, building or about to be built which represent in the aggregate many hundreds of thousands of dollars. He names twenty new mansions built, building or contemplated.

Troy's Petition Fails

The Election Commission's decision that C. W. Eastin and E. P. E. Troy's referendum petition affecting the proposed passenger station at Third and Townsend streets of the Southern Pacific did not have the required number of legal signatures and is therefore inoperative gives general satisfaction. There is great need for this improvement, especially in view of the 1915 exposition and the great travel it will cause in and out of the city. The railroad proposes to spend a million for the improvement and everybody, except the small following of Eastin and Troy, want the company to go ahead with the work. It intends to do so now and have the depot ready for use next spring. It will mean much for the development of that part of San Francisco besides giving many months' work to some 300 mechanics and laborers. The affair furnishes a glaring abuse of the referendum and calls for a decided change from the present easy and slipshod method of obtaining signatures to a petition. Besides it was a gross reflection on the competency of Mayor Rolph and the Supervisors who drove a hard bargain with the railroad in giving it the necessary franchise and permit. Troy was the main spirit behind the referendum move. The fault with Troy is that he is so much of an idealist and doctrinaire as to be altogether visionary and impracticable. Some people would point to him as a case where "a little learning is a dangerous thing."

THE KNAVE.

POTATO BUGS

LARGE AS BARN

Mammoth Model to Be Feature Concession at Big Exposition.

SAN FRANCISCO, June 6.—Ask any man—not a horticulturist—to name the biggest pest he ever met, and the chances are that he will become personal. He will cite some verminous species, men of the genus homo measuring over six feet from tip to tip. It has been the case with the potato beetle, the Panama-Pacific International Exposition at San Francisco, the biggest exposition of the modern world, where one naturally expects to rub up against world-beating exhibits to produce a kicking, sprawling, man-eating insect pest as big as a barn, a rival to Jonah's whale, and far superior to that back-number monster in the matter of interior upholstery. This pest is a common or garden variety of potato beetle. Its movable legs will form one entrance to the vital interior. It is equipped with electric lights, easy chairs, moving pictures, sanitary plumbing and all modern conveniences for the comfort of such Jonah's as may yield to a desire to see for themselves just how the scourge of the spud patch manages to slow away so many acres of potato vines for breakfast. Its eyes, composed of multiple facets, form the windows, and illustrate how the insects can look in seventeen directions at once, and thus dodge the Paris green man.

The creature is not so fierce as he looks. He lies hors d'combat on his back, curled up like the hunched figure of the poor farmer, the bug's business is looking up—because it is flat on its back and has to. The model is scientifically accurate, and will write and munch and kick, and will be exhibited as one of the thousands of working models in the vast Horticultural Palace. He was selected as the horrible example not only because the potato bug is notoriously a hard working model, but for the reason that historically he is the most significant insect in America, since the discovery of the value of Paris green and other arsenical means of giving garden pests the coup de grace. Thus he marks the beginning of modern economic entomology.

BIG AS A BUNGALOW.

This Jumbo among potato bugs will rival California bungalows in size, it is said. It is striped like a zebra and in its coloration of orange and black it rivals the zebrule blazer. It will be 40 feet in length, 20 feet wide

and 40 feet from the floor to its feebly waving feet. The frame is of gaspipe over which the painted canvas skin is laced. The legs, jaws and antennae are filled with air sacks. Air pressure applied through a spraying hose will produce lifelike motions of the legs, jaws and "whiskers" of the unhappy pest of the spud patch.

Within the model are three rooms at different levels, electrically lighted. The larger, in the body, is to be used as a lecture room and moving picture and stereopticon auditorium. The platform at the thorax end will give access to the chest or prothorax in which will be a rest room with beds in amphitheater form. In the beetle's head will be a passageway and a compartment for the moving picture projector or magic lantern, the screen being between the two larger rooms.

Anyone having doubts as to the pains-taking operation of being devoured by a potato bug may have them set at rest, by entering the interior of the spud vine, through the mouth of the beetle. People by the name of Murphy will be given an especial welcome at this suggestion taking a stroll into the toothed cylinder of a threshing machine need deter no one, for the jaws and "teeth" being made of soft air cushions, the experience of being munched by the insect should be less unpleasant even than that of Jonah when he was taken in by the whale. Besides, Jonah wasn't rewarded by finding in the interior an upholstered lounge room and a moving picture show in the stomach of the unprogressive cetacean of the deep. The bug not being consulted as to his menu, no thought need be given as to whether visitors will be served a la pomme de terre au gratin, French fried, hashed brown or with their jackets on.

This \$50,000,000 exposition contains in its amusement concessions hundreds of unique and marvelous things, but the Broddignagian beetle is not of these. He is not there for vaudeville purposes, but to teach the farmer the needed lesson in the extermination of the beetle and all its relations. This model, 1000 times life size, is installed as an educational exhibit in the Bre-acre Palace of Horticulture, by a Watsonville, California, spray and poisonous emulsion manufacturing company. Surrounded as he is by his sworn enemies and by instruments devised for his torture and sudden death, no wonder he writhes.

IMPORTANT DISPLAYS.

The horticultural department will house the most important display of plants, rare flowers, fruits, nuts and horticultural accessories ever shown, in the largest and most beautiful palace ever erected for the purpose. This great building, now practically completed, is a copy of the Sultan's Palace at Constantinople, with the addition of a central dome 155 feet in diameter and 145 feet high—the largest glass dome in the world. The displays will be largely educational—exhibits of processes, and of new and important creations and improvements of fruits, berries, roses, flowers of all sorts and plants and fruits from forty foreign nations and practically every state and territory of the Union. Many of the displays from England, France, Germany, Ireland, Hawaii, the Philippines, and South America, already have arrived in San Francisco. One of the most remarkable of horticultural and agricultural exhibits made by

process of planting to gardens, groves, clumps, hedges and beds of the rarest and most important and beautiful trees, shrubs, and flowers, secured from all over the world. Most of these, in number upwards of a million specimens, have been growing for from 18 months to two years in the Exposition nurseries. The exposition will be ready months before the opening day, which is February 20, 1915.

BEAUTIFUL AMERICANS SOLACE EXILED DUKE

ROME, June 6.—Grand Duke Dmitri, who has been banished from Russia to remove him from the fascination of an American woman, is enjoying himself in cosmopolitan society in Rome in a way that dispels the idea that he is heartbroken about any particular woman, princess or commoner.

He gave a little dinner this week in the Excelsior for Princess "Dolly" Radzivil and her sister, Gladys Deacon. The table was decorated with the princess' favorite flowers, red roses and carnations. The party was so gay and the Deacon sisters were so beautiful that they focussed the attention and discussion of the whole fashionable throng.

HOT WATER SUPPLANTS HOTHOUSE FORCING

PARIS, June 6.—Hot water as a substitute for hothouses in forcing early fruit is the latest discovery announced by the Royal National Horticultural society of France.

Results have been published of the experiments of M. Bultet, a prominent horticulturist. He treated 100 strawberry plants for six hours a day with hot water during two months and they yielded 722 strawberries, while a similar number of plants kept in a hothouse yielded only 477 strawberries.

This new method of forcing can be applied to other kinds of fruit. It is very much cheaper and gives a greater yield than hothouse forcing.

CLUB SEEKS HUNDRED MEMBERS NEXT YEAR

The Los Angeles Dramatic Club of St. Anthony's Catholic church, East Oakland, has begun a campaign for one hundred members by 1915. There is no initiation fee to pay and dues are nominal.

To open the campaign the Virginia reel, polka, lancers, and schottish, which were quite popular with dancers sixty years ago, will be revived in St. Anthony's hall, East Sixteenth street and Sixteenth avenue on the evening of June 16.

Two hundred bids have been issued and accepted. Guests will be costumed as farmers and milk maids.

STREET SWEEPER HURT BY AUTOMOBILE TRUCK

SAN FRANCISCO, June 6.—Nels Johnson, of 61 Laidlaw street, a street sweeper, was run down by a truck this afternoon by an automobile truck. He was badly bruised about the body and was treated at the Mission Emergency hospital.

CHILD WIFE NOW SEEKS DIVORCE

Mrs. Terence E. Ryan, Formerly Miss Estelle Johnson, Alleges Non-Support.

LOS ANGELES, June 6.—After a little more than a year of married life, and with her week-old baby boy beside her, Mrs. Terence E. Ryan, formerly Miss Estelle Johnson, the beautiful eldest daughter of Mr. and Mrs. Benjamin Johnson, will file papers in a suit for divorce from her husband, a young Chicago broker, now in Los Angeles. The ground is non-support.

Ryan says that he will fight the suit and believes in his ability to convince the court that he has properly supported his wife. The case promises some interesting features.

ELOPE AND MARRY.

It developed that the young people, who had been secretly engaged, were influenced by their decision to marry at that time by their dread of the separation that must come when Miss Johnson re-entered school. They therefore took matters in their own hands, going out to the Church of the Angels, beyond Garvanza, and getting the ceremony over before the bride's parents were aware of their intention.

From the first the marriage was greatly deplored by Mr. and Mrs. Johnson, who had ambitious plans for their daughter's education, extensive foreign travel having been included in arrangements for her future.

However, they forgave the eloping couple and after living here for a short time Mr. Ryan took his bride to Chicago. Mrs. Johnson visited them there some months ago, and it is claimed she found them in such straitened financial circumstances that it was deemed expedient to bring Mrs. Ryan back to Los Angeles where she could be cared for in the home of her parents. At any rate, she accompanied Mrs. Johnson home and has since been with them until her removal to the Los Angeles hospital a fortnight ago.

WEARY OF COTTAGE LOVE.

Mr. Johnson preferred not to discuss the subject when asked concerning it last night, but admitted that he would send a lawyer to the hospital to confer with Mrs. Ryan about filing the divorce papers and that the latter was ready to go forward with the proceedings for a legal separation.

Mrs. Johnson frankly stated that her

Mrs. Johnson. "There is no question whatever that her childish infatuation is over and that she sees life in a different light."

"I still love Estelle, and I believe she loves me," said young Ryan at the Garland apartments last night. "I am a young man, only 24, you know, and must fight this case practically alone against the Johnson family, but I will fight and fight hard for our baby's sake."

"The charge of non-support cannot be upheld in court. Estelle has not lacked support from the day we were married. I believe that she has been induced to start a divorce action against her own true feelings in the matter. Her father demanded of me that I earn \$150 a month. I have tried very hard to get a job that would pay that much, but have been unsuccessful. I will present my entire side of this unfortunate affair when the case comes up in court. I propose to consult an attorney tomorrow."

Ryan says that he will fight the suit and believes in his ability to convince the court that he has properly supported his wife. The case promises some interesting features.

A year ago this spring little Estelle Johnson was a mere school girl in short frocks, preparing to pursue her studies in Washington, D. C., where she was about to go in company with her mother. Indeed all arrangements for the trip had been made, and when April 6, news of her elopement and marriage to young Ryan was read in the morning press, the story proved a sensation that thoroughly agitated local society.

From the first the marriage was greatly deplored by Mr. and Mrs. Johnson, who had ambitious plans for their daughter's education, extensive foreign travel having been included in arrangements for her future.

However, they forgave the eloping couple and after living here for a short time Mr. Ryan took his bride to Chicago. Mrs. Johnson visited them there some months ago, and it is claimed she found them in such straitened financial circumstances that it was deemed expedient to bring Mrs. Ryan back to Los Angeles where she could be cared for in the home of her parents. At any rate, she accompanied Mrs. Johnson home and has since been with them until her removal to the Los Angeles hospital a fortnight ago.

WEARY OF COTTAGE LOVE.

Mr. Johnson preferred not to discuss the subject when asked concerning it last night, but admitted that he would send a lawyer to the hospital to confer with Mrs. Ryan about filing the divorce papers and that the latter was ready to go forward with the proceedings for a legal separation.

Mrs. Johnson frankly stated that her

row. Mrs. Johnson recently told me that she planned that Estelle should study music and French for two years and then enter society."

WEDS WOMAN CHOSEN IN BIG COMPETITION

RACINE, Wis., June 6.—A romance culminated here yesterday when Chris Reimer married Mrs. Amelia Tibbitts of Stevens Point, a bride voted to him by the patrons of a local theater. The bride is a prominent actress and well known in Virginia, Minn. The bride was a charming widow of about thirty-five summers.

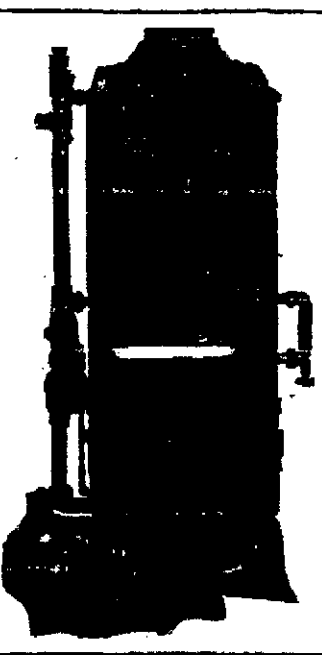

Reimer two weeks ago wrote a Racine paper asking that the editor find him a wife. Maurice Hankinson, theater manager, wired Reimer to come to Racine and that a wife would be provided. The only condition was that Reimer should

proclaim his household needs from the theater stage every night for a week and at the end of the week accept the wife the audience voted him. To this he readily agreed.

Six women entered the contest. Each appeared on the stage each night, and the audience voted. Each candidate was numbered. No. 1, Mrs. Tibbitts, received 1175 votes—300 more than her nearest competitor.

SOUTH AFRICAN FARMERS EN ROUTE FOR AMERICA

CAPE TOWN, Union of South Africa, June 6.—A party of fifty-three farmers, under the leadership of Joannes Adriaan Nesser, member for Potchefstroom, in the parliament of the Union of South Africa, left today for England, on their way to America, where they will investigate agricultural methods.

HOT WATER SERVICE

No waiting for the water to heat if you use an Automatic Gas Water Heater.

Turn on the faucet and the hot water will immediately flow. Turn off the faucet and you turn off the gas as well as the water. Gas is consumed only while the water is flowing.

Auditorium Must Be Completed.

Just a moment, opponents of auditorium completion. Let us discuss the economic phases of this question before final decision. A half million dollars have already been expended. Unless the work is prosecuted to a finish and a revenue-producing structure results, the money will have virtually been thrown away, for the city will have nothing but the useless steel frame now standing. Many who oppose the bond issue for completion have been heard to say they are willing to lose this \$500,000. But that is not half the loss which will be inflicted on the taxpayers.

THIS \$500,000 MUST BE PAID BACK WITH INTEREST, SO THAT IN ADDITION TO THE HALF MILLION ALREADY SPENT, WASTED BY REASON OF NON-COMPLETION, THE TAXPAYERS MUST PAY ANOTHER HALF MILLION AND INTEREST, MAKING A TOTAL OF MORE THAN A MILLION DOLLARS FOR WHICH THE CITY WILL GET NOTHING.

Do you get the idea? Let us repeat it in another form. Half a million has been expended on the steel frame, foundation and the city owes a half million, with interest. The total of the sum spent and the sum to be repaid amounts to more than one million dollars. For this outlay Oakland will have a lot of steel I-beams and a foundation, producing nothing.

BUT BY THE EXPENDITURE OF HALF A MILLION MORE A BUILDING WHICH WILL BENEFIT ALL THE PEOPLE WILL RESULT. IT WILL BE A REVENUE-PRODUCING STRUCTURE AND IN ALL ITS PARTS CAPABLE OF EARNING SUFFICIENT MONEY TO PAY INTEREST ON THE INVESTMENT, TOGETHER WITH AN AMOUNT NECESSARY TO ESTABLISH A SINKING FUND FOR REDEMPTION PURPOSES.

Now which is the best plan for all concerned—to allow the money spent to go to waste and add to that sum half a million more and interest for nothing, or to vote another half million and get something for it? What would be a business man's answer to such a question? WHAT WOULD BE YOUR ANSWER HAD YOU STARTED BUILDING A HOUSE FOR YOUR OWN USE, AND THROUGH ERROR, MISTAKEN JUDGMENT OR OTHER CAUSE YOU ASCERTAINED YOU HAD ONLY PROVIDED HALF ENOUGH MONEY TO CARRY OUT YOUR ORIGINAL INTENTION? WOULD YOU ABANDON WORK AND WASTE THAT ALREADY INVESTED, OR ADOPT A SENSIBLE COURSE AND PROTECT YOUR FIRST OUTLAY BY A SECOND?

That is the financial side of the argument with respect to the building itself. But there is another phase to the money part of the proposition that merits attention also.

Sixteen conventions already secured for Oakland for 1915 will bring not less than 100,000 visitors to this city. Not one will spend less than \$5 each while here, some many times that sum. That means, at the least calculation, \$500,000 added to the channels of trade. The National Educational Association alone will attract 30,000 persons.

BUT IF THIS AUDITORIUM IS NOT COMPLETED THE GREAT CONVENTIONS WILL NOT MEET HERE, FOR THEY ARE OF SUCH MAGNITUDE NO ORDINARY HALL IS LARGE ENOUGH TO ACCOMMODATE THEIR MEMBERSHIP AND THEY WILL GO ELSEWHERE.

There is the financial view tersely and accurately presented. Will Oakland neglect this opportunity? THE TRIBUNE does not believe it will, but that the bonds will carry, provided all those interested in the future greatness and welfare of the city go to the polls and vote.

Shall This Greatness Be Forfeited?

Statistics taken from commercial, industrial and banking reports of Oakland, Berkeley and Alameda, the three principal east bay cities, disclose a wonderful, not to say marvellous growth, an interesting, almost startling municipal development.

Within two years Oakland has become the trade center of half a million people, three-fifths of whom live within the confines of the city. The average increase in population is approximately 15,000 annually, and during the ensuing few years is expected to increase. During the last six years \$45,000,000 has been invested in new buildings, the permits of last year aggregating \$9,000,000. The waterfront has been developed, new structures of imposing proportions are going up all over the business district, new homes are being constructed in various districts in the municipality, business has been good, as is shown by the bank clearings and mercantile agency reports. The clearings for last month were nearly \$15,000,000.

Berkeley has grown during this time also. This year the valuation for taxation purposes is \$2,000,000 more than last year. Like Oakland, Berkeley is advancing by leaps and bounds. Its merchants are prosperous and its business enterprises thriving.

Alameda has a similar condition to report. That busy little city is forging to the front all of the time. Many improvements are contemplated and many are in progress. Notable transactions include the issuance of a \$100,000 building permit to the Alameda Venice and Baths Company for a new bathing and amusement resort and a great seawall at a cost of \$200,000 for the waterfront is being planned.

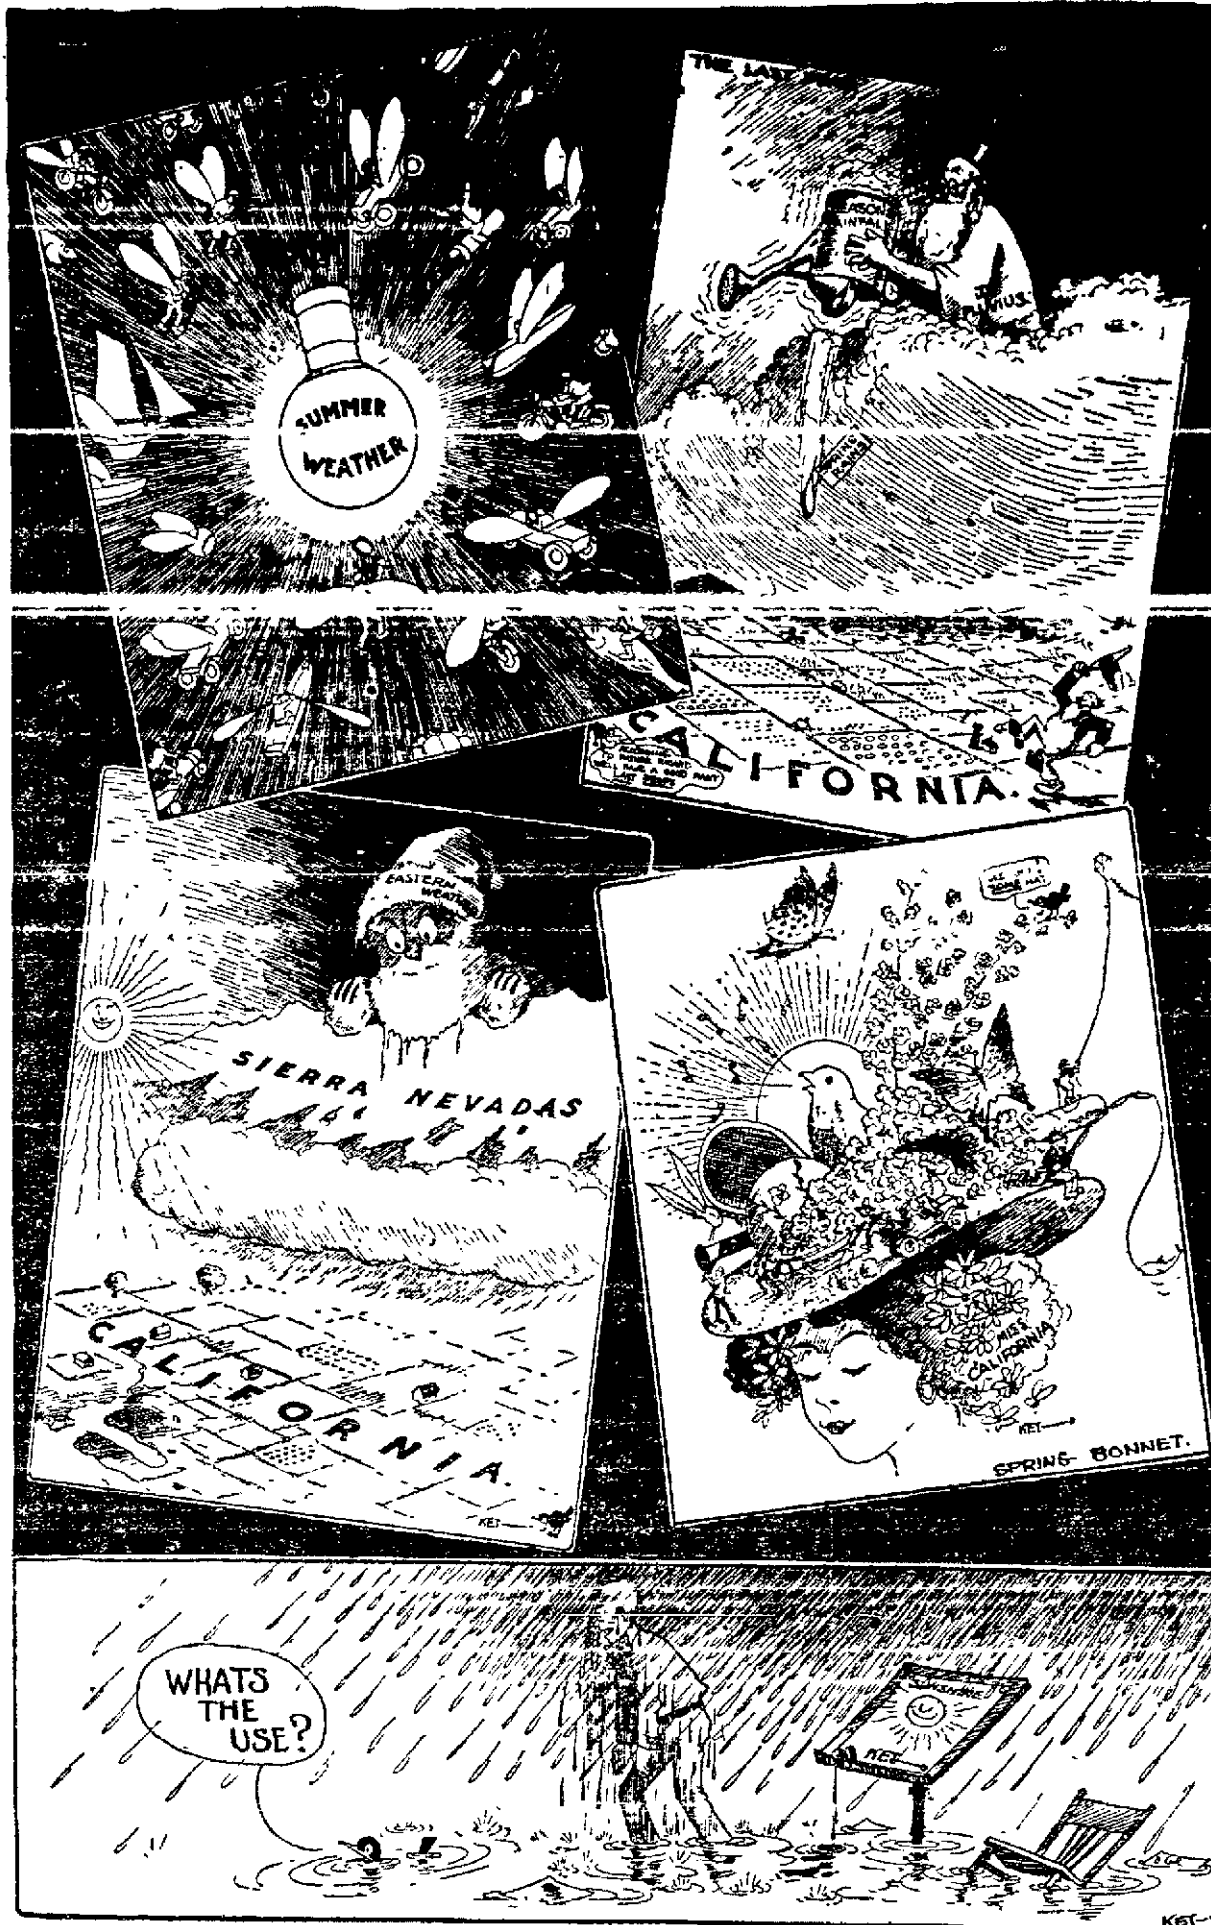

The future of all the bay cities and towns is an assured one. They are located on the continental side of the bay. All traffic, freight and passenger, for this coast must pass through the confines of one or the other. They are the ports from which the product of California must be sent to other lands and other places.

Small wonder that San Francisco desires to add to its prestige and population, its trade and its commerce by annexing all or a part of this magnificent territory and merge their identity in her own.

But this must never be. The east bay cities are prepared to carve out their own destinies as individual municipalities. No proposition looking to union with San Francisco can be entertained. The east bay cities and towns are strong, vigorous and alert, abundantly capable of working out their own plans for the future and will never consent to be swallowed up by a city six miles away, separated by a great body of water. Any attempt on the part of San Francisco to indulge in a bigamous marriage that sort will be met with a unanimous protest on the part of

The greatest need of the nation is more statesmen and less

WHAT'S THE USE?

—BY THE OAKLAND TRIBUNE CARTOONIST.

Perpetuating Name of Great Twirler.

Factoryville, Pa., the birthplace of Christy Matthewson, premier slab artist of the baseball world, and home of his parents has, since its founding in 1810, been a sleepy, somnolent little town, content with the sound of its church bells and the hoarse voice of the hired man summoning the cows from their pastures on the adjacent hills. But it is sleepy no longer, the citizenship being engaged in a great struggle and very much awake.

The people of this quaint village are intensely interested in the career of Christy, for he is the first person born there who has achieved distinction enough to put the town on the map. Previous to his advent the only mention of note the place had received was in the early nineties, when Mike Fernan slept seven years and died without waking up. This snooze on the part of Fernan gave the place transient notoriety only, and as no one else cared to sleep that long, Factoryville soon dropped into the background and remained there until Christy began winning laurels. But during his entire career no one has even named a cigar after him, and the denizens of the borough—who are intensely proud of Christy—have decided that his name shall not go down to posterity unhonored and unsung, so it is proposed to abandon the name which the town has carried for more than a century and name it after him.

But there is a division of judgment. One faction wants to call the place "Matthewson," the other "Christyville." Advocates of the latter title claim there is no distinction in Matthewson—that a man cannot shoot off a gun in the village limits without endangering the life of some member of the family. It is urged that Christyville would be euphonious and distinctive and would insure the young man a monument as enduring as the town itself.

What the outcome will be no man knoweth, but it is noted that sentiment is so evenly divided the editor of the local paper is on the fence taking no sides.

Harking back to the cause of the trouble south of the border, so far as the United States are concerned, what is doing in the matter of compelling Huerta to salute the flag?

"Does the United States want to absorb Mexico, a people 14,000,000 strong, three-quarters of whom have Indian blood in their veins?" pathetically asks the Santa Cruz Sentinel. Why, no, Duncan; whatever put that notion in your head?

Announcement is made by Secretary McAdoo that the re-lease bonds will open August 1st, and there will be plenty of money for moving crops. The attention of the secretary is directed to the fact that California will need a wad of currency, in as much as the yield this year is something astounding.

Because women are not compelled to pay, a Utah court has decided the poll-tax law of that State illegal, holding that it violates the equal rights provision of the constitution. Utah women have the right to vote, hence the action.

The interne at a Minnesota sanitarium having forbidden nurses flirting with patients, sickness at that institution will lose half its charm.

Twenty Years Ago Today

Christopher A. Buckley, the ex-boss of the Democratic party, abandoned his old-time allegiance and joined the Republican ranks, throwing his influence in the Republican primaries in the interest of D. M. Burns. It is generally understood to be a part of Buckley's program of revenge on those who opposed his return to his former position as leader of the Democracy, coupled with a desire to be on the winning side in the coming state election.

Frank Soule Jr. is taking in the sights of Gotham.

Mr. and Mrs. F. M. Smith have gone to Castle Crags.

By the death of Nicholas Noyes, late of Newbury, Mass., Colonel H. E. Noyes of Berkeley becomes one of the heirs of the estate, valued at \$40,000,000. Colonel Noyes is a retired army officer and resides in Peralta Park. He served in the Union army with distinction, and some years ago was placed on the retired list. One of his sons, Arthur, graduated from the state university with the class of '94. Trustee Whiting of Berkeley is, on the whole, entirely satisfied with the result of the recount of the votes of the last election, instituted by his chief opponent, W. H. Kerrison. The recount resulted in a gain of three votes for Whiting. Kerrigan's charges of fraud were not sustained.

The contest of the will of Mrs. Marie Lemon came up informally in court. Mrs. Lemon was formerly Mrs. Foster of Alameda, but was divorced some time before her death. The woman had six husbands in her time, and died with the belief that she was going to have a spirit spouse.

At St. Thomas' church in New York, a wedding ceremony was performed which made Mrs. Emma H. Rutherford, the wife of George Crocker, a member of the San Francisco family. Mrs. Rutherford was Miss Hanchette of San Jose, California. Her father came from California to give her away.

The marriage of Miss Olive May Haskins and R. C. Leavenworth, both of East Oakland, will take place June 20.

POINTED PARAGRAPHS

A poor reputation may be better than none at all.

If you don't want people to like you, criticize what they do.

The mystery of the Mona Lisa smile has at last been solved. The artist caught her expression when she was trying to laugh at one of her husband's jokes.—Chicago News.

Advocates of universal peace are not necessarily opposed to marriage.

Some men are so contrary that even their food doesn't agree with them. As a matter of fact, one woman is as anxious to pay another woman's car fare

If a woman still laughs at her husband's jokes five years after the wedding bells have jingled the divorce lawyers get discouraged.—Chicago News.

Short Sermons for Busy Readers

THE SOCIAL TEACHINGS OF JESUS CHRIST!

"If any man will come after me, let him deny himself and take up his cross and follow me."—Luke 9:23.

Two young men, filled with ambition and a desire for promotion, once asked Christ for responsible positions in His kingdom, which they supposed He was about to set up. One wanted to be secretary of state, possibly, and the other chancellor of the exchequer. Jesus told them that the way to His side was by sacrifice and suffering. "Can you drink of my cup?" he said, and further revealed to them that to enjoy His fellowship means to always share His program.

These two men are quite human. They are dominated by the same motives as those which control the average man the world over today. They were thinking of themselves only, and unconsciously they opposed themselves to the great fundamental principles of Jesus. His system calls for sacrifice, service and love, while their minds were filled with the question of self-aggrandizement.

This idea concerning the conditions of personal fellowship with Christ is brought out again and again in His sayings, but in no instance more strikingly than in these words: "If any man will come after me, let him . . . take up his cross." Whoever would be a follower of Christ must accept the cross.

the word cross. The cross today decorates church spires and stained glass windows. It is worn as an ornament on the person. We speak lightly of "our crosses." But in Jesus' day the cross was an instrument of death. When under Roman rule a man was sentenced to be crucified he was compelled to bear his cross to the place of execution. So to "take up his cross daily" meant to start for the place of execution every day. "I die daily," says St. Paul. "Take up your cross and follow me" said Jesus. Follow Him where? To Golgotha. "For whosoever will save his life shall lose it." If a man saves his life by avoiding the cross he loses it. If he would live he must die.

Now, at first glance, this law of self-sacrifice as applied by Jesus seems unreasonable. But it is not. It is a law which runs throughout nature. Mountains die that valleys may live, and

"In the dark womb where I began,
My mother's life made me a man.
Through all the months of human birth,
I cannot see, nor breathe, nor stir.
But through the death of some of her."

ONENESS OF UNIVERSE.

The oneness of the universe is possible because of this law. The mould dies that the vegetable may live, the vegetable that the animal may live, and the animal that man may live. God completes the circle by causing us to die that knowledge of Him may live, who in turn is ever giving Himself to the objects of His love in creation.

There is no place in God's world for selfish people, therefore such persons are never happy nor contented. "If any man would come after me," says Jesus, including everybody alike in the call for sacrifice. So missionaries and ministers are not called to greater sacrifice than are millionaires and presidents. The mayor and the policeman, the banker and the beggar, the merchant and the laborer, to all the world is the same: "Whosoever he be of you that forsaketh not all that he hath he cannot be my disciple."

SOCIAL TEACHINGS.

The social teachings of Jesus Christ have not as yet been accepted by the mass of humanity, even in the most Christian countries. A few years ago a prominent churchman was reported to have said that the sermon on the mount was ideal only, and altogether impracticable, and that if an effort were made to apply its teachings literally "society would tumble to pieces."

It is not unlikely but that there are still many people who when they pray "Thy kingdom come, thy will be done," are not looking for anything to happen until the millennium, when, of course, Christ's will will be done. By what authority do these people suspend Jesus' laws of social welfare for thousands of years? Surely by nothing that Jesus Himself has said.

UNSELFISH SERVICE.

The trouble lies in human nature. Human nature has never liked the cross. The call for unselfish service, self-sacrifice and divine love have never been popular with the masses. The golden rule in practice is "Do others before they do you." Our industrial system, although based on exchange of services, is not inspired by the spirit of service. Business is still a struggle in which the weaker is pushed to the wall. If there is any real object among business men to serve each other the secret is well kept. Comparatively few laboring men are more interested in the kind of service they are giving than in their pay envelope.

PROSPERITY FOR MASSES.

The present dissatisfaction with things as they are is due to the fact that society is reversing the divine law. The present generation has lost its way. Unprecedented prosperity for the masses has led to luxury. Luxury encourages sensuality, and the sensual cannot "see" God. On the other hand, as machinery has increased the world's wealth, so science and discovery have created a new habit of thought, engendering doubts in many, regarding religious dogmas. This has obscured the personality of God. Many have become lost from God while wandering around contemplating the things He has made. We need a new discovery of Jesus Christ, who is the same yesterday, today and forever. He is the way, the truth and the life. We must get His point of view, take up His cross and follow in His steps. If the average business man should hand his business over to the management of Jesus Christ for thirty days what would happen? If somebody should start a society whose members would pledge themselves to refuse to buy certain articles or to trade with certain men because their prices were too low, how many would join?

It is about time that America ceased to make money and turned its attention to the making of men. The teachings of Jesus, like water above the dam, is the unused power that will work the miracle so much needed in the changing of our social order.

E. J. Bradner

Rev. E. J. Bradner is pastor of Grace Methodist Episcopal church of this city.

SIMPLE LIVING IS JOY

Marcus Aurelius, the subtlest and noblest of the Roman emperors, maintained and proved that even in a palace life may be lived nobly. Caligula, one of the most abominable among the emperors of Rome, at his death declared that "he had lived as simple a life as he could in the high station to which the gods called him." The pathetic avowals of the good man and the bad man contain a clue for gaining the fine art of simple living.

The art of the simple life is the social art that our time most needs. The strenuous life is not the need, for the world since 1775 has lived more strenuously than in any era since the reformation, if not indeed since the fall of Rome. It is a life of more activities and has developed the virtue virtues magnificently, pushing the social life of men and nations to new heights of ethical earnestness and of moral grandeur and achievement. But it has to some extent sacrificed the quieter qualities of spiritual power and peace and possession of our own souls. Candor with itself compels the confession: "Mine own life-yard have I not kept." It requires to be full-orbed with the practice of the simple life.

It is not sincerity. It demands that a man be himself, his best self, his natural self. The poor man should not pretend to be rich and try to hold his

INTERESTING BITS

In each and every town there are men who are unaccountable who claim only reasons on reporters.

It isn't so bad to be tired if you have done something useful in getting that way.

COUNTY W. C. T. U. CLOSES SESSION

Interesting Addresses and Programs Enjoyed by Big Audiences.

The Alameda County Woman's Christian Temperance Union has just closed an interesting institute, with Mrs. Hattie McMath presiding. Mrs. Addie Estes of Stockton was an efficient and all-around leader, equipped to discuss any phase or department of the work.

Eight state officers present and the county superintendents abreast of their subjects, the discussion of the different topics was of interest and each session filled with enthusiasm. The presence of Mrs. St. John of Kansas was considered an inspiration to all.

She sang by request the new campaign song, "We'll Make California Dry," the audience joining in the refrain.

Spurred throughout the program, with piano solos by Mrs. Estes' little niece, a list of memorial service for the late national president, Mrs. M. N. Stevens, of Maine, was conducted by Mrs. Estes. She also gave a pleasing word picture of her visit to Mrs. Stevens' home and that of Hon. Neal Dow, "Father of Prohibition."

Snapshots of the world's and national conventions were given by Madeline Estes, Peet and St. John. Mrs. J. O. Davis spoke of the "The Conducts Symposium."

A symposium conducted by Mrs. E. Musselman, state superintendent of mothers' meetings, subject, "The Relations of My Department to the More for Which We Pray"; and another conducted by Miss Jennie Redfield, state superintendent, subject, "Cooperation with Missionary Societies."

These were full of interest and the women who assisted full of their subject. Miss Ursula Broad gave the audience one of her fine rest drills in physical culture.

Mrs. A. Devo presented the new department of the "Young Campaigners" and the important part it is to play in the present campaign.

The discussion of "The Bible in the Schools," by Mrs. H. J. Hanson and Mrs. S. C. Borland, and "Eugenics," by Mrs. St. John, were enjoyed.

A convincing statement concerning the red light bill, the weakness of the present law, and the need for the new law in other places, brought out Mrs. St. John, who said: "There is not a house of prostitution in Kansas, and women are more safe there than in any other state."

MRS. J. O. DAVIS SPEAKS.
Mrs. J. O. Davis spoke of the law enforcement, Christian citizenship and the official organ.

Miss Lillian Hough discussed the "New Department of State Hospital Work, or the New Psychological Treatment for Soul Sickness."

Mrs. Steele, who spoke of "The Generation" spoke for a closer union of forces and read a poem with fine effect. The session closed with slogan.

"California, California, land of the Golden West.
We are the citizens, the bravest and the best.
We shout for California, prohibition state-wide;
So jump on the water wagon and we'll all take a ride."

**FREIGHT REPORT
BEING AWAITED**

New York Market Is Eager to Know About Commission's Investigation.

NEW YORK, June 6.—News that the interstate commerce commission has prepared its decision in the freight rate cases and expects to make it public within a few days was hailed with joy in Wall street today and caused an advance in stocks of several eastern railroads. The market on the whole had been firm all week and, aided by this brisk advance, a group of twenty-five normal railroad and industrial stocks, at the close today, showed an average gain of 1/2 a point over last week's close.

President Wilson's remarks to newspaper men at Washington that what Wall street calls a general depression in business is only "psychological," was one of the bullish factors in the week's business. Financial circles took it to mean that the President does not intend to drop any of his policies.

The fine crop outlooks and resumption of activity in certain industrial lines, coupled with the report that the rate decision is about to come down, more than balanced the effect of the news from Washington. Business, however, continued very dull.

HIGHWAY BOOSTERS TO HOLD PORTOLA SESSION

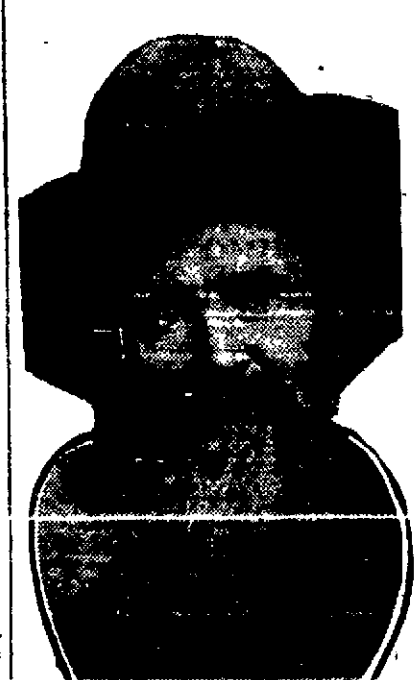

PORTOLA, June 6.—At the convention held in Orville recently by the boosters for a Lincoln Highway through the Feather River Canyon and Breckwith Pass, an invitation to hold the next meeting in Portola was extended by E. I. Lane in behalf of the Portola Chamber of Commerce, and was accepted.

Tuesday evening a committee of the chamber is to be held to formulate definite plans for the receiving and entertaining of the visitors. The convention will be held June 27.

Tentative plans call for a dance to be held during the evening following the convention. Sunday morning a trip to Chillico (Breckwith Pass) will be made. Upon the return to Portola a banquet will be served at the Portola Hotel.

It is hoped that a special train from either Marysville or Sacramento will be run to Portola for the benefit of not only the delegates, but for the scores of excursionists who would welcome an opportunity to make the trip through the Feather River Canyon. Special rates have already been arranged.

Honors J. Miller Like Late Bard

CAPTAIN NEWTON H. CHITTENDEN.

Bard of the mountains, here thy home!
However far o'er earth I roam,
No land so glorious as thine.
Lovers of nature, here your shrine!

Though earthly form has passed away,
His spirit greets me here today:
I feel his warm heart beat in mine.
In memory will ever shine.

Kind, simple-hearted genius rare,
As such I gladly witness bear:
Midst views sublime, flowers and sunshine,
Inspired he sang from source divine.

—Newton H. Chittenden.

Sitting beside the cabin on "The Heights," where he had last greeted the Poet of the Sierras while the great conflagration of 1906 tamed the western sky with flame, Captain Newton H. Chittenden, 75-year-old ethnologist and explorer of the Pacific northwest, yesterday penned this tribute to the late Joaquin Miller.

A pilgrimage of friendship was this visit to the sky-line home of the departed poet, and it was made on foot from the slopes of the North Berkeley hills to the declivities of Diamond canyon. Not unlike the Bard of the Sierras is Captain Chittenden in appearance—flowing silvery beard, keen blue eyes under a broad brow and a mane of snowy hair. The two men met but few times during the years they planned in the west, but they needed no contact to cement the instinctive kinship that existed between them—both lovers of the wilderness, both vikings of the forest, both poets of the wild and sky.

"Joaquin Miller is the only one, excepting near relatives, I have ever traveled miles to see," said Captain Chittenden, as he gazed with reverent eyes upon the panorama of bay and city spread below, "and I was richly rewarded for the effort. Similar interests, habits and pursuits in the wonderlands of the new world had rendered the Poet of the Sierras of deep interest to me. I was so fortunate as to find him at home in his little cottage here a few days after the awful earthquake, and he had overborne and destroyed the metropolis of the Pacific shores we both had known as long and well. Rising from the couch upon which I found him lying, after a cordial greeting, extending his finely formed hand toward the still smoldering ruins of the fallen queen, almost in a whisper he most impressively remarked: 'Better than ever before she will arise from her ashes!'"

"A sympathetic, tender, loving heart, the gift of all true poets and the divine source of their inspiration. This immortal possession was most delightfully manifested by Joaquin Miller during our brief meeting and in the notes he sent me, expressing intense pity for 'those poor savages.' Captain Miller was the Indian whom I had been collecting ethnological material. I esteem it as one of the highest compliments ever bestowed upon me to have been addressed as 'his dear pard' and to have been many times mistaken for him."

Captain Chittenden has been living in Berkeley for several months past and is leaving in a few days for Southern California, where he has a retreat among the mountains. He is engaged in writing "Fifty Years in Western Wilds," an autobiography in which he relates the vicissitudes of his life as a soldier in the civil war and as an explorer and pioneer in the west.

He was the first white man to explore and circumnavigate the Queen Charlotte islands, traveling over 1,500 miles this morning and was also many invaluable collections of Indian, Esquimaux and prehistoric relics, which he has donated to various museums and institutes.

**CLABBY TREATED TABBY
VERY SHABBY, IS CHARGE**

SAN FRANCISCO, June 6.—"Too much Tabby" caused the downfall of Richard Clabby in the saloon of Edward Smith, 738 Howard street, early this morning and was also responsible for the arrest of the bartender, Jack Otson, who was booked for assault with a deadly weapon.

Clabby is a real estate man of 757 Howard street, and according to Otson began abusing the latter's pet cat. He refused to desist, the bartender says, and the two started a wordy war which ended in fistfuffs. Thereupon according to Clabby, Otson pulled the rung from a chair and hit him over the head with it. Otson admitted the assault when taken into custody by the police.

**MOSKOWOOD SUPERVISOR
SAILS WITH BALL TEAM**

One of the party of ten composing the University of California baseball team which set sail Wednesday afternoon for Hawaii on the steamer Lurline was R. F. O'Hara, supervisor and athletic instructor at Moskwood Park. O'Hara has been playing a brilliant game with the college team, being distinguished alike by fast work in the field and ability with the willow. He occupies the right field position. While on the team the team and expects to bring home the bacon in every case. During the absence of O'Hara the post of supervisor of Moskwood Park will be occupied by James Esquitta.

THIS IS 'BABY WEEK' AT HALE'S

joyous event, planned to acquaint Mothers with the service, the merchandise, the assortments and the low prices of Hale's Baby Shop. To make this week a gain occasion for the "little fairies" we have planned a wonderful exhibition of baby's apparel.

WE WANT MOTHERS TO KNOW that the Baby Shop in Hale's Oakland store offers the widest variety of infants' needs of every description, and that prices are the lowest in all Oakland. We call attention to the displays in windows and department in the Basement this week. Don't fail to visit Hale's Baby Shop during "BABY WEEK."

ALAMEDA

TEACHERS TANGO, WHY NOT PUPILS?

**This Question Will Be Asked at
Alameda High; You
See!**

can the school teachers of Alameda frown at the frisky Tango or the festive maxixe. Never more can they consistently gaze with the stern eyes of disapproval on their youthful charges as at a high school dance shoulders wiggle or the mazy steps of the tango sweep over the polished

Alameda's school teachers have been bitten by the tango bug and it's taken even harder than it has with their pupils. The older they are the harder they fall, is the old rule—and it certainly worked out that way with the erstwhile stern preceptors of Alameda's young idea.

THEN THEY TANGOED.

It's all the fault of the teachers' dancing class recorded as dance by

The school board, frowned upon by some parents—but nevertheless busy with the old idea to dance at the youngsters' school. The class was gone off quietly throughout the spring, teachers have met to learn the mazes of the maxixe and the twistings of the tango—and it was only when the final party of the class was given at the Haight school that the truth came out. Then it was learned that the teachers had forgotten their Latin conjugations and their algebraic formulas in the mad dancing. The far more important lesson—dancing as it danced—and had triumphed. All the new dances appeared on the floor—amid applause and wonderment.

HOW ABOUT DISCIPLINE?

The guest list at the party included Superintendent and Mrs. J. C. DuFour, vice-principals, principals and their wives. All declared that, after all, there wasn't anything so terribly sensational in the new dances.

High school students are jubilant that the school board has decided to

They say it means large classes in the schools next year. What the teachers do, they declare, they can do.

Parents and mothers' clubs are debating the question and the opening of next term's social season is looked forward to with apprehension.

COUPLE TO MARRY AT SIMPLE HOME CEREMONY

AT AMERICA, June 5. — With a simple home ceremony at which only the immediate relatives will be present, Miss Melanie Pooch and Laurence S. Cox will

plight their troth Thursday at 8.30 o'clock at the family home on Union street. Rev. Father Doyle of St. Joseph's Catholic church will perform the ceremony, which will be followed by a wedding supper. The couple will be united in matrimony shortly after 10 o'clock on their wedding trip, to return to the bay cities, the bridegroom having changed his business interest from the Hawaiian islands to this country and will be established with his brother in Oakland.

The bride will be gowned in white
Charmeuse, with the regulation veil and
orange blossoms.

The engagement of the couple was an-
nounced from Honolulu, where the bride
spent two years and where the couple
first met. The bridegroom is to arrive
Tuesday next on the Matsonia from the

Both families are prominent in the history of the State, having long been residents of the eastern cities. The father of the bride, the late William Fowcote, was a well known figure in financial circles, having been identified with one of the leading banks in San Francisco for many years. The bride is a cousin of Frank H. Bartlett, member of the city council and one of the young attorneys of the State.

ALAMEDA, June 6 — Miss Victoria Christiansen and Vernon A. Clark were married yesterday afternoon at the Elks

The bride was attended by her sister Miss Dorothy Christensen, and Paul Clark acted as best man. Gus Christensen, brother of the bride, was the officiating minister.

The bride was crowned in the traditional time of green moire with hat of the same coloring, and a corsage bouquet of white orchids. The maid of honor was in champagne green taffeta, with the same colors combined in the chic hat and had a corsage bouquet of the pale lavender orchids.

Following the wedding, the bride and party enjoyed a ceremony breakfast at the Four Seasons. The "newlyweds" will return to Alameda to begin life under most favorable conditions. A beautiful

home has been purchased and handsomely furnished and will be further elaborated with the many gifts, both useful and ornamental, which have been showered upon them. They will be away

for a week or ten days, touring the southern part of the State.

FINAL COMPLIMENT IS

GIVEN BRIDES-ELECT

ALAMEDA, June 6. — Miss Wilhelmina Krumb gave the final function of the many which have been showered upon the Misses Florence and Edythe Fulton who are to be married Tuesday morning.

next at an elaborate home wedding. Miss Krumb entertained yesterday with a "partie" having as her decorations quantities of pink sweet peas and pink carnations, with asparagus fern and other greenery. The centerpiece for the dainty 3 o'clock tea, which was the complement of the afternoon's pleasures, was a gold basket filled to overflowing with the pink blossoms and tied with two shades of tulle the pink and green.

the two maids of honor, Miss Ruth Grimes and Miss Grace Brickwood, with the bridesmaids, Misses Vesta Wonderlich, Ruth Fowler, Eva Kato, Rene Davis, Ernestine Chapman, Mable Sturtevant and Mrs. Thomas H. Benton.

ALAMEDA CANDIDATE FOR PLACE IN ASSEMBLY

Krumb's candidacy is the first to be

announced for Assemblyman from the district. The office is now held by Councilman A. J. Morgenstern, who has not announced whether he will be a candidate to succeed himself. It is rumored that Morgenstern will be a candidate for State Senator.

POLICE ON OUTINGS.
ALAMEDA, June 6.—Policemen Arthur Blunk, Al Huff and Louis Schroeder are now taking their annual vacations. Huff is spending part of the two weeks in the vicinity of Tomales, while, Blunk is taking a trip to Napa county.

CHOWDS TO HEAR GREAT CONCERT

First Recital in City's Auditorium to Be Held Today.

Under the arching girders and trusses that make a giant network against the sky, 10,000 people will gather at 2 o'clock this afternoon on the arena floor of the uncompleted municipal auditorium. The best of the first and second floors will be given in the structure that is to house so many of the communal activities of the citizens in the years to come. Seats have been placed on the concrete floor to accommodate the crowds of auditors and a temporary entrance has been constructed on the Twelfth-street side of the building facing Lake Merritt.

NO. 107.

MOTORISTS WANT YOSEMITE ROADS OPENED

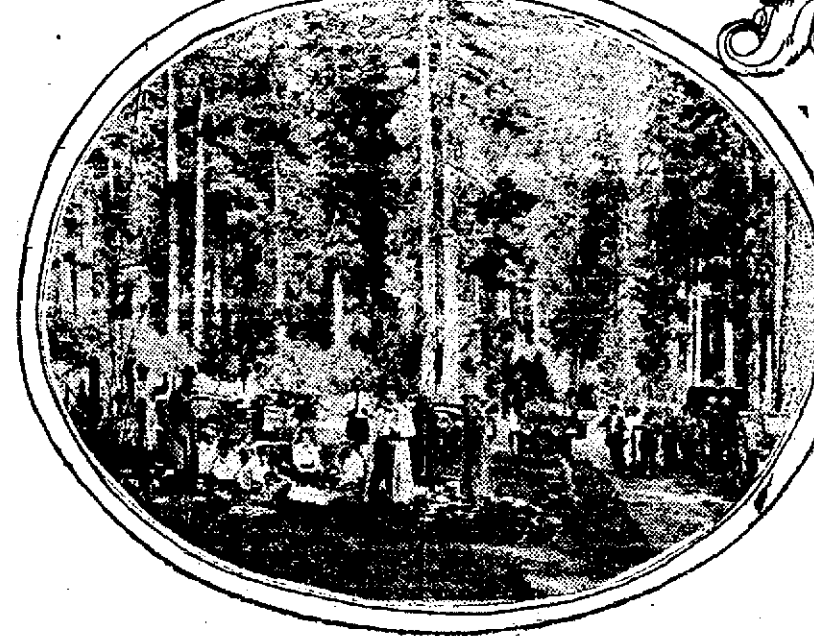

Diagram showing the three roads available for motor car travel into the wonderful Yosemite Valley. All roads are now closed to autos, but the motor car owners of the state are beginning to organize for a fight for their rights that will settle for all time to come the question of allowing cars in the valley. Lower photos show scenes on both the Big Oak Flat and Coulterville road approach to the valley. They are selected from various pictures showing motor car parties at luncheon at Hazel Glen on the Coulterville road, guards stopping party of automobiles at the park entrance and road scenes showing Buick and the National cars en route to the park.

COUNTRY TRIPS LURING MANY PARTIES

Fishing, Hunting and Camping Devotees Make Plans

(By EDMUND CRINNON.)
Summer motor touring has started in earnest for the 1914 season in California. With last Saturday a holiday preceding Sunday, practically every automobile owner and his family and friends took advantage of the double holiday and answered the call of the open.
As yet the shorter trips have the run of the heavy outing travel. Santa Cruz, Monterey, Lake, Napa and Sonoma county resorts all getting their share. Within the next two or three weeks Lake Tahoe and other resorts in the high Sierras will be the mecca for hundreds of local auto parties, as by that time the higher regions will be sufficiently cleared of the heavy winter snows to allow freedom to motor traffic.
Yosemite Valley, the world's wonderland, remains as yet closed to motorists this season due to the masterly inactivity of the authorities in charge, although motor stages are plying a profitable schedule, carrying all who pay toll to the concession holders for the privilege of visiting the valley. It is possible, however, that the Secretary of the Interior will not tolerate this condition much longer and that motorists will be allowed their rights to enter the valley over any of the three available roads under reasonable and safe restrictions this season much earlier than last year, when the valley roads were kept closed to autos until the season was practically over and then only when the right could no longer be denied, one route only—the most inaccessible, impractical and roughest—was opened with the unenvied idea that owing to its poor condition and steep grades an incident would occur so that the hangers-on could again be raised by those inspired. However the autos proved their dependability for mountain work and the enemies of the privately owned gasoline car can no longer contend that motor cars are a menace to travel in the Yosemite roads. So this season motorists are expecting that Secretary Lane will overrule the park police and issue an order sweeping enough in its character that motor car owners will be allowed entry to all Yosemite roads and will, when in the valley, be treated with ordinary courtesy by the military.
The other National Parks and thousands of other ideal spots for camping parties are already luring the motor car travel from the bay cities. Among the earlier of the vacation parties, now out, fishing in the mountain streams is proving the paramount sport in the state and dove shooting season in the state is approaching and preparations for long and successful trips are already in the making. Camping, which is

BIG BEAR VALLEY ROAD HARD DRIVE

One of the hardest climbs in California is that up the Santa Ana Canyon to Big Bear Valley. As the road has just been opened for travel after extensive washouts the trip is much more difficult than in seasons past and at places the roadway is a mass of rock. To make the trip under the best of conditions is a difficult undertaking.
Last week Jacob Beatus drove his 1914 Cadillac to the summit of the 12-mile climb, and when the stop was made and water was put into the radiator only a quart was required to cause an overflow.
This is not the first Cadillac to make this grade without stopping for water, as many owners did the trick last year, and with many it is a common thing. This is without a doubt the hardest climbing test in the state. It is not only a heavy climb, at one place the road crossing over itself seven times, but there is deep sand, rough rocks and deep water to negotiate. There is also the changing altitude to contend with. This change in altitude causes many cars to miss and sputter, requiring carburetor adjustment. Such adjusting has never been necessary with Cadillac.
Another trip that the Cadillac makes without stopping for water is the run to Thousand Pines over the heavy grade

NORTHERN ROUTES OPEN FOR TRAVEL

J. H. Hill of McArthur, Shasta county, agent for the Mitchell car, has been in San Francisco, Hill, in speaking of the roads in this section, says: "The motorist who is planning to travel north can do so at the present time without fear of encountering bad roads."
"The roads are open and are practically in good traveling condition up to the lower entrance at Wawona and leave the park from the northern end, driving into the road which leads into Coulterville and Modesto," says Sergeant.
"In a couple of weeks the roughest of the rough sections will be worn down so that it will be ideal touring into Oregon."

LOZIER SALES STAFF AUGMENTED BY HUTH

Fred Huth, well known on both sides of the bay, is now a member of the Bekins-Speers Motor Company. In the Oakland branch house, having joined the selling staff of Manager Arthur Chisholm this week.
Huth has always been identified with the better class of cars and his choice of the Lozier position is the result of the popularity of the Lozier line, especially so since the new four has made such a hit with motorists.

TRUCKS ARE RAPIDLY REPLACING HORSES

"The number of horses in commercial service has shown a rapid increase during the past year, according to statistics compiled by the National Automobile Chamber of Commerce," says G. H. Morrill of Chandler & Lyon Company, agents for the Motz trucks.
"This decrease in some cases has reached over 14 per cent, as in the instance of the National Automobile Chamber of Commerce, which has shown a number has decreased 8 per cent and in Chicago 5 per cent.
"In New York the decrease in the number of draft horses is very noticeable. Scarcely a week passes that the city factory does not equip trucks which have been purchased to replace horse-drawn vehicles. The severity of the past winter resulted in a heavy mortality among horses in commercial service. Many of those who lost horses replaced them with trucks."
CLARK BUYS LOZIER.
owner of a new Lozier four, having taken delivery of his new machine during the week from the Oakland house of the Bekins-Speers Motor Company.

DRIVES AUTO TO YOSEMITE GATES

R. L. Sargeant of the Plak Rubber Company has just returned from an automobile trip to the Yosemite Valley and reports the roads via Madera and Raymond in an excellent condition.
"For those who are contemplating a trip through the Yosemite this year an ideal trip is to go into the Park from the lower entrance at Wawona and leave the park from the northern end, driving into the road which leads into Coulterville and Modesto," says Sergeant.
"From Oakland to Wawona, via Madera, the speedometer shows a distance of 222 miles, a large portion of which road is in excellent shape.
"From Oakland to Merced roads are in fine shape. Merced to Berenda under construction. Berenda to Madera good and the road to Raymond good. From Raymond to Madera is a steady climb over a very good mountain road for a distance of 32 miles.
"There is a fine hotel and garage at Madera. From Madera to Wawona, a distance of 12 miles, is over a fine mountain road. Three miles before reaching Wawona is the road leading to the famous Mariposa Big Trees, which is now closed to autos.
"The hotel accommodations at Wawona are the very best in the State, and one can stay at Wawona for two and three days and enjoy every minute. From here side trips can be taken to the famous Chilhowee Falls, the Big Trees, Signal Peak and several other points of interest.
"From Wawona to the entrance of the Park a distance of 17 miles is over a very fine mountain road. We are advised by the authorities from the valley that the roads in the valley for the motorist will be open about June 15.
"Fisk tires have been used very successfully on the 90 H. P. cars used on stage lines running from Madera into the valley, and it has been proven that a

CALIFORNIA ROADS PROVE BOULEVARDS

R. F. McKesson, of Salt Lake City, has just reached San Francisco on a trip overland in his new four cylinder Lozier. McKesson is using his Lozier for commercial purposes, traveling for the Sidway Machinery company, and it is his intention to cover all the territory between here and Denver during the coming season, and he expects to average 3000 miles per month.
In speaking of his trip, McKesson says that the performance of the new Lozier "has been remarkable. On his trip from Salt Lake City, under all road conditions, he has averaged 15 2-3 miles to a gallon of gasoline and 750 miles to a gallon of oil. Outside the weight of the car and two passengers, he is carrying 800 pounds of baggage, making the total weight of the car 4900 pounds. One of the interesting happenings of the trip occurred at Sacramento, where in filling the gasoline tank, the garage man left a wrench lying inside the extra casing on the rear of the car. On the arrival in San Francisco they were very much surprised to find the wrench just as it had been left in the casing, the rough roads being unable to dislodge it from its insecure position.
The road conditions from Salt Lake to Los Angeles were of the very worst, according to McKesson, who says the washouts have made this route almost impassable. The California roads, he says, are all boulevards and compare favorably with the average roads in the other states."
OLLIER ON TOUR.
Studebaker Corporation is engaged on a long tour of the United States, visiting Studebaker branches and dealers. He spent the latter half of May in the Midwest, West

CAN BUILD AUTOS TO TUNE OF BAND

Musical Motor Mechanics Are to Tour to Texas This Season.

Thirty-seven departments of a big automobile factory, from the office of the vice-president to the iron foundry, are represented in the 50-piece concert band of the Willy-Overland Co., of Toledo, O., which, on June 18, starts on its second transcontinental tour of the United States. The men who make up this unique musical organization are recruited from widely distributed departments of the plant, but in spite of the dissimilarity of their every-day occupations, there is no lack of team-work in their concert performance.
The toast of President John N. Willys, as whose guests the players will make the trip, is that, if necessary, the band could "build an entire automobile to music," and the list of departments represented would seem to bear out his statement. The manager of the band is vice-president of the Willy-Overland Co., the president and business director is an assistant in the office of the general superintendent, and the players come from paint, machine, trim, blacksmith and drop-forging shops, from accounting, road-test, upholstery, drafting, assembling and various other departments. The youngest member of the band, a youth of 13, is an electrician; the oldest, who has 35 years to his credit, is from the paint department, and a like interesting variety is shown throughout the whole band membership.
The southern trip planned for the players for this summer, is being made in conjunction with the annual convention of the International Association of Rotary clubs, which is to be held in Houston, Texas, during the week of June 22. The band is to accompany the Rotary clubs representing Toledo, Detroit and Cincinnati on a special train. On the way to Houston, stops will be made in Chicago, Kansas City, Wichita and Oklahoma City, with free concerts in downtown parks of each city. At the close of the convention, the 500 delegates who are expected to attend will board special trains, and escorted by the Overland band, will visit several Texas cities including San Antonio, Austin, Waco, Ft. Worth, Dallas and Beaumont. Local Rotary clubs and the band will furnish entertainment in each of these cities, with concerts, banquets and sight-seeing.
On the return journey the band will detour, in order to give concerts in New Orleans, Birmingham, Atlanta, Mobile, Memphis, Lexington and Cincinnati. The auto-making musicians will be away from

YOSEMITE STILL CLOSED TO AUTO

Oakland Autoist Claims That Matter Should Be Investigated.

For the endurance of motorists contending with motor trips to the Yosemite Valley within the near future, H. T. Bitt, of Oakland, has allowed THE TRIBUNE to print the following letter received by him from his friend, Phillips, who is at present marooned 22 miles from the park with his machine, being unable to proceed further on account of the hostile attitude assumed against automobiles by the authorities in the park, who will, unless their hand is forced, keep automobiles out of the Yosemite until long after vacation season is over, as was the case of last season, when, although the order was received from the Secretary of the Interior on the first day of April to open the park, by clever manipulation on the part of the same mysterious forces the order was not carried into effect until the summer season was about over.
"Ranger's Camp, June 2, 1914.
"Mr. H. T. Bitt, Oakland, Cal.
"Dear Sir: You asked to have us write you after we reached Yosemite. We are twenty-two miles from the Park, and can go no further in a machine. Do not attempt this trip under any circumstances in a machine until after the 15th of the month, and not then unless you can get direct information as to whether the autos are allowed in the park. You know or hear of the 15th and give will see you before the 15th and give you some pointers as to the roads. If you come to hear of any parties planning to come to the park, please let me know so there is some mysterious somebody who will not permit the autoist to enter the sacred domain. The Auto Association of the State of California should all get together and make an awful roar. I will tell you about it later.
"Sincerely yours,
"PHILLIPS."
HARRISON HOWE JOINING THE KISSEL KAR STAFF
Harrison G. Howe, one of the best known among the motor car men, has again on both sides of the bay, has again joined the selling organization of the Pacific Kismet Kar Staff, handling Federal trucks and Kismet Kar trucks with the Oakland house of the big company.
The acquisition of Howe gives Manager Ben Hammond of the local house one of the strongest selling organizations

CHAMPION AUTO DRIVERS WILL RACE HERE

1915 Vanderbilt Race in San Francisco to Be Classic

San Francisco will see the greatest automobile racing ever recorded in the history of the motor car next year when the Vanderbilt and Grand Prix races take place, is the opinion of George R. Bental, president of the Simplicity-Mercer racing team, who has just returned from Indianapolis where the big speedway contests were held.

Bental, speaking of these big races next year, said: "It was personally interesting to know just who was contemplating coming to the coast for the big races next year as they would be keen in these races in our territory."

"All the foreign drivers to a man express a desire to race in the Vanderbilt and Grand Prix races. With them it is merely a matter of business and they say that if enough money is hung up in prizes to pay for the trouble and time they will bring their cars over for the February 22nd event, after which they will race them on Decoration Day at Indianapolis."

"This means that the Washington 200-mile contest in San Francisco will be the premier event in San Francisco and the Pacific Coast racing season will be in vogue to draw the celebrated drivers from abroad. And that the speedway contest will be a secondary consideration, at least for one year in the United States."

"The drivers are thoroughly commercial. They build, design, and race their cars for the money that is in it. The honor and glory proposition is a thing of the past with them. They have gained their laurels and are now reaping the fruits of their labors when they race."

"In regards to the recent races at Indianapolis, with the Mercer cars it was the case of the unexpected happening. These cars which raced in the Vanderbilt and won the Grand Prix were in the finest condition and we saw no reason why we should not carry off the honors at the speedway, but you cannot always tell."

"The two cars, that of Briggs, which was running second, and Wishart, who was in fourth place, were running under schedule, hitting an eighty-five mile per hour pace which it was possible for them to carry out through a whole day."

"At the 260th mile Briggs went out and eight miles later Wishart followed. At first it was thought that he had broken down, but the examination it was possible to find that the key which holds the timing gears on the cam-shaft had given way."

"This same thing happened in both years, being the first time that these facts have given trouble. It is just such things that teaches the designer so much by making. It is a certainty that every car that goes out of the factory now, either for racing or for pleasure purposes, will be improved in this particular which the touring, may never be fixed yet, the strengthening will do no harm and will advance the value from an owner's standpoint."

"The Peugeot cars were the only ones that we were afraid of. They had shown a speed of 116 miles on the straightaway and being especially designed and built for the speedway they were the ones we had to watch. There is no question but that they would have made a much better showing had they not had a great deal of tire trouble. Tire trouble practically was the main cause for their defeat. This was not the fault of the cars but merely an unlucky lot in the equipment."

"One of the large Mercer racing cars has been shipped to Sioux City with Wishart to take part in the July 4th races there, and the other will be shipped to Tacoma with Wullen at the wheel to take part in the big races on the fourth of July in that place."

"The factory will have three Mercer cars in the Vanderbilt and Grand Prix races at San Francisco."

"There were 125,000 people at the Indianapolis speedway, who paid from 10 to 50 cents for admission. The poorest seat was 12 cents."

"It was decided to limit the races next year to the 200-mile class to develop the small cars, which is the present accepted European idea."

OVERLAND RACER GETTING PRIZES

The Cobb-Evans Auto Co. distributors of Overland automobiles in Fresno, Cal., racing enthusiasts extraordinary, have recently added new laurels to their position as premier "home-guard" motor speedsters. Their special Overland racing car won second money in the Kern county 100-mile challenge trophy race, second in the special 25-mile event, and fourth in the 50-mile free-for-all at the Kern county Homecoming week celebration. The showing of this entry caused great joy among the loyal Fresnoans who, in the past few years, come to regard auto racing as the greatest of all outdoor sports, and who are especially enthusiastic over a local winner.

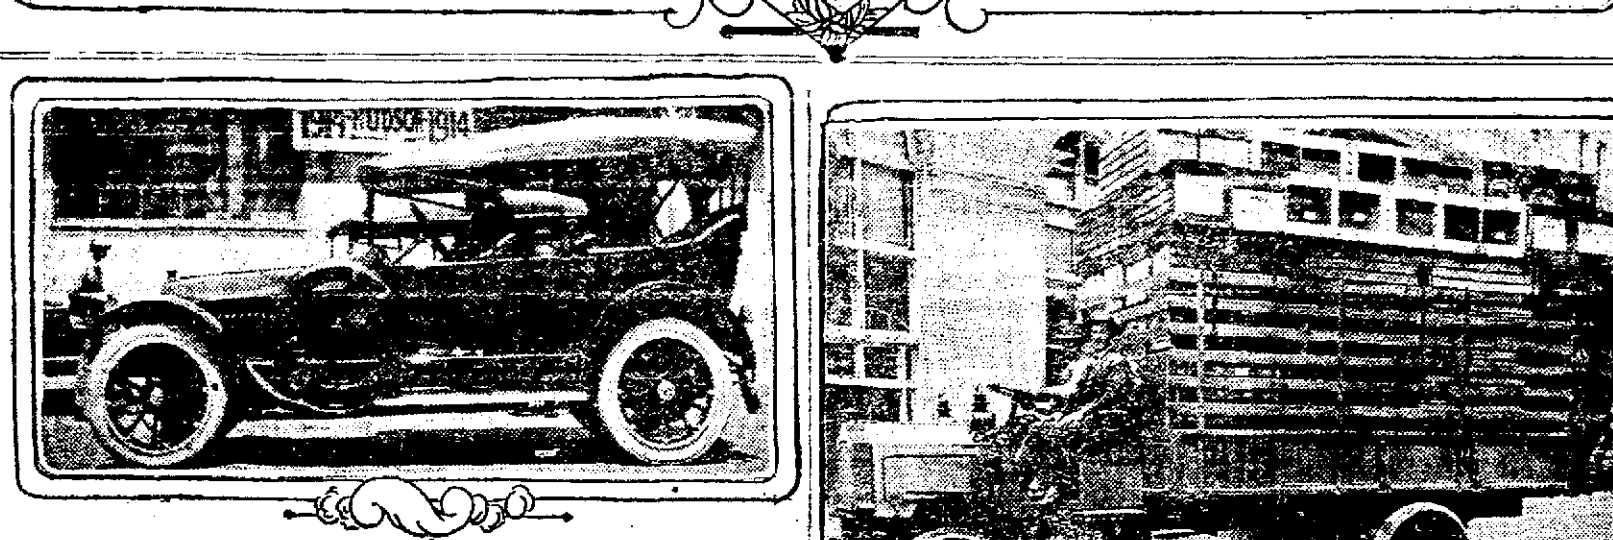

The showing of the Overland in the 50-mile race for all was especially good, as the little pleasure car was pitted against some of the biggest racing cars and drivers in the country. Barney Oldfield won the event, setting a new world's record by finishing the course in 55 minutes, 24.5 seconds. Gordon finished second, Rockwell third and McKeloy fourth in the 50-mile race.

In the 25-mile Kern county 25-mile race, Hansen Erickson drove the Overland to second place in 25 minutes and 21 seconds. Rockwell took this event in 25 minutes, 16.2 seconds, less than 5 seconds ahead of the Overland. McKeloy took second place in the other 25-mile event, in 23 minutes and 10 seconds, less than 7 seconds behind the winner.

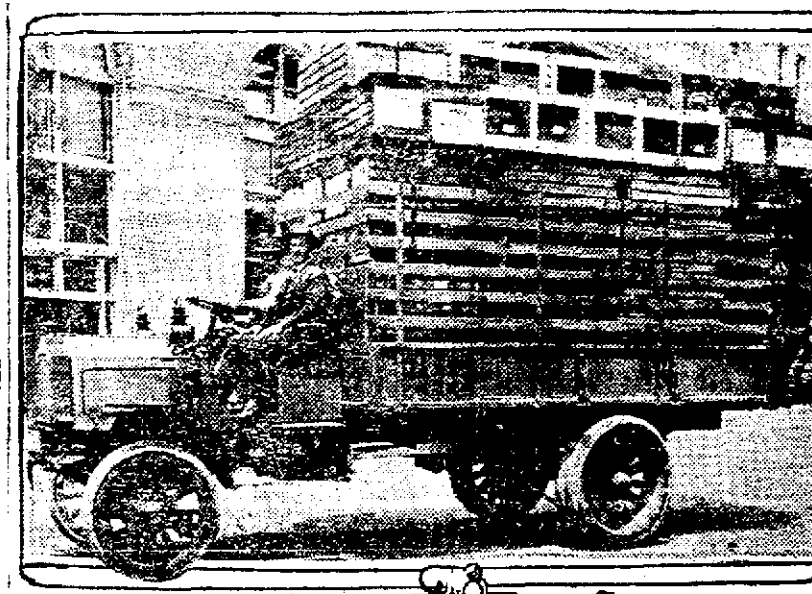

STILL ON THE JOB

An enthusiastic report to Don Lee, Overland California distributor, tells of a 1914 Overland with a remarkable record in southeastern Missouri. This car had been running between Des Moines and St. Louis for some time, making a round trip each day. When the car has run over 215,000 miles it is still in service and in excellent condition. Later the car was sent to a place where it was to be used on some of the trips. The car was a whole Sunday and date of 15 children provided late.

MOTOR FUNERALS MORE DIGNIFIED

The ever-widening adaptability and application of the motor car is being illustrated each day, as new uses are found for it, but perhaps one of the most striking and significant advances made is the adoption of the automobile for the funeral cortege. Now that perfection of mechanical construction has been practically realized, funeral directors are beginning to appreciate the advantages of motor transportation in their line of business, especially because of dignity, comfort and time-saving virtues.

A case in point recently occurred in Baltimore. In that city last month the Cadillac distributor sold ten cars in one order to two funeral directors. Each firm will have a motor hearse and four Cadillac eight-passenger limousines, and by a mutual arrangement each firm can command an equipment of the eight limousines.

With an order of this size involving an expenditure of so many thousands of dollars, it was natural that a very thorough consideration should be given the selection of the car. The Cadillac won out because, as the purchaser phrased it, "It's record for speed and inspired confidence." There were many very practical considerations. It was necessary to have an electric and self-starting equipment that was thoroughly reliable and dependable. A funeral cortege must move with decorum. The outlines must be plain and dignified and the car must, above all, be silent in its operation and movement. Occupants of these cars will ride in comfort—even luxury—protected from inclement weather and, while proceeding with all the dignity the occasion demands, will yet save, in Baltimore, one hour and a half in going to and from the cemetery.

HOW TO GET MILEAGE OUT OF YOUR TIRES

"If there is one thing that every automobilist wants more than any other it is to get more mileage out of his tires," said Wm. R. Knapp, local factory representative of Diamond tires, yesterday.

"Show a man where no car can make his tires take him farther and he will show you that it is his tires. That is one reason why the new edition of 'The Diamond More Mileage' Book is so popular. It has the goods."

"This book is the greatest collection of tire facts ever put between covers since Cyrus rolled into Babylon on chariot wheels. It's such a good book that I don't believe we'll be able to keep enough copies on hand."

"One of its greatest features is the question and answer form in which some of the information is handled out. I don't care how intelligent a man is, if you hand him information in the q-a form he gets it clearer and quicker than any other way."

"How to tell if your chassis wheels are out of alignment; what is meant by overloading; how does quick stopping and starting affect your tire bill; what is the best way for the motorist to determine the proper size, pressure, etc., for his individual car; well, these are just samples of the facts that are crammed into this attractive book. There's nothing in it that you can't learn from it; everything you want to know, and then some."

"We're giving away these books and motorists get them by writing to The Diamond Rubber factories, Akron, Ohio, but they'll have to be brisk."

A half hour race for professionals will be a feature of the June 6 meet of the Progressive Pittsburg Motorcycle Club.

—In the Squeezee structure of

Diamond Squeezee Tires

And in addition you have Diamond Squeezee Surety—against sidewise skid or lengthwise slide—the sure gripping squeeze corrugations which wipe through treacherous road surfaces to a clean road on the pavement.

You can't beat Diamond Quality—why pay more than Diamond Prices?

| Size | Squeezee Tread Prices |
|------------|-----------------------|
| 30 x 3 | \$12.65 |
| 30 x 3 1/2 | 17.00 |

Demand Diamond Tires Best for Automobiles, Bicycles and Motorcycles

MOTORCYCLISTS' SUMMER CAMP. Motorcyclists of Waco and San Angelo, Texas, are planning a summer camp where the riders can live outside instead of spending the hot, sultry nights in the city. They have secured a tract of land on the Brazos river on which they will set up a number of tents. Someone will remain at the camp during the day and prepare the meals, and in the evening the club members will ride out from their work to enjoy a good supper and a night's sleep in the open. In the morning they can ride into the city in less than it takes the average city dweller to reach his place of business on the street cars.

LAKE COUNTY ROADS GOOD. Among the many motorists who returned from the week-end holiday trip into neighboring counties is Eddie Martin of the Howard Automobile Company, who got back Monday from a three-day trip into Lake county in a Buick car. Martin reports the roads in that district as much improved over a season ago, and states that the path through Butts canyon between Napa and Lake counties, via Aetna Springs, has been put in splendid condition. This piece of roadway was formerly a bugbear to motorists who journeyed in the vicinity.

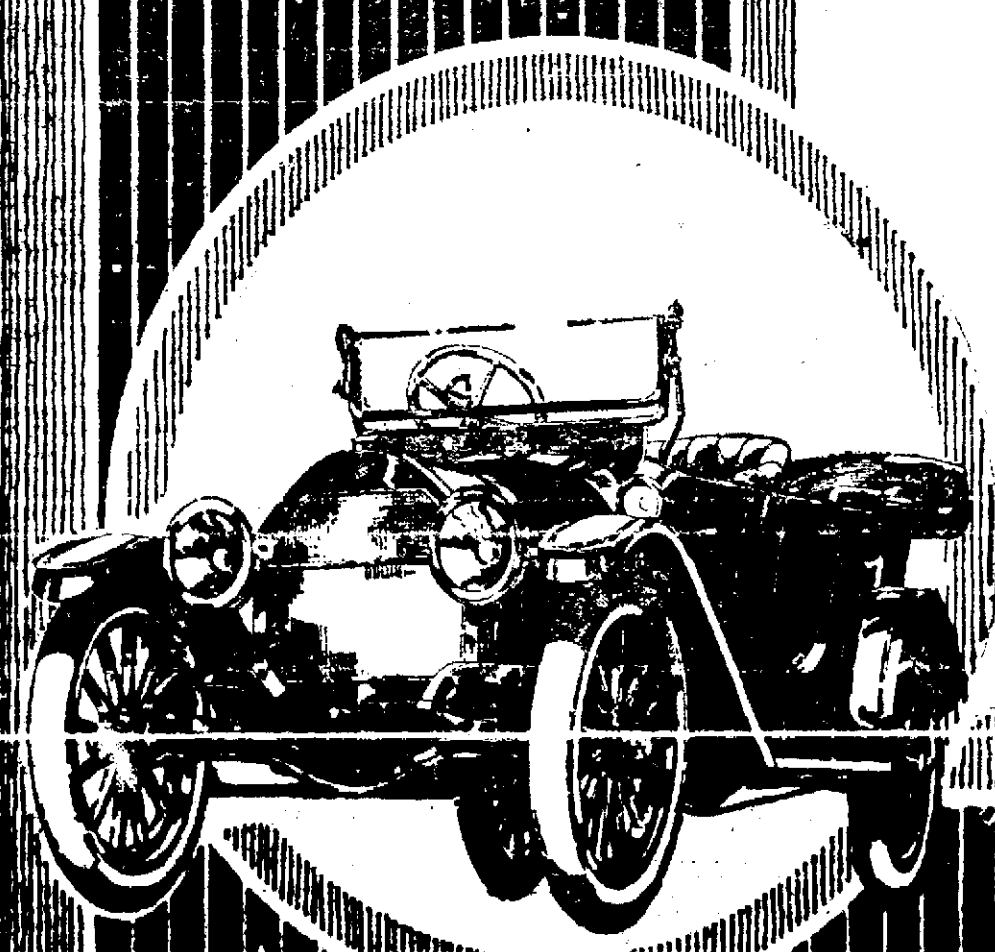

Twenty-five motorcycles have been ordered for the use of the traveling representatives of the International Correspondence Schools, Scranton, Pa.

Overland \$950

Why Pay More?

- Not every \$1200 car has a wheel base measuring 114 inches.
- The \$950 Overland has.
- Not every \$1200 car has 33 inch x 4 inch tires.
- The \$950 Overland has.
- Not every \$1200 car has a full thirty-five horsepower motor.
- The \$950 Overland has.
- Not every \$1200 car has a three-quarter ton rear axle fitted with Hyatt bearings.
- The \$950 Overland has.
- Not every \$1200 car has a complete electric lighting system throughout.
- The \$950 Overland has.
- Not every \$1200 car has the most up-to-date and very best equipment.
- The \$950 Overland has.
- Not every \$1200 car has a chassis as thoroughly, as carefully and as accurately manufactured as any \$5000 chassis.
- The \$950 Overland has.
- Not every \$1200 car has the utmost in conveniences, comfort, luxury and style.
- The \$950 Overland has.
- And these are but a few of the many \$1200 features found in the famous Overland.
- Why pay more than \$950 when the additional expenditure gets you no more car?
- Our dealer will be glad to demonstrate any time.

There are not more than ten real automobile manufacturers in America. Of these ten, Studebaker leads all the rest *in manufacturing the largest proportion of parts used in its cars.*

In laboratory research, in refining processes, in intensive manufacturing, in costly but economical equipment, Studebaker is first.

In addition, Studebaker spreads these quality producing factors over *the largest "Six" volume.*

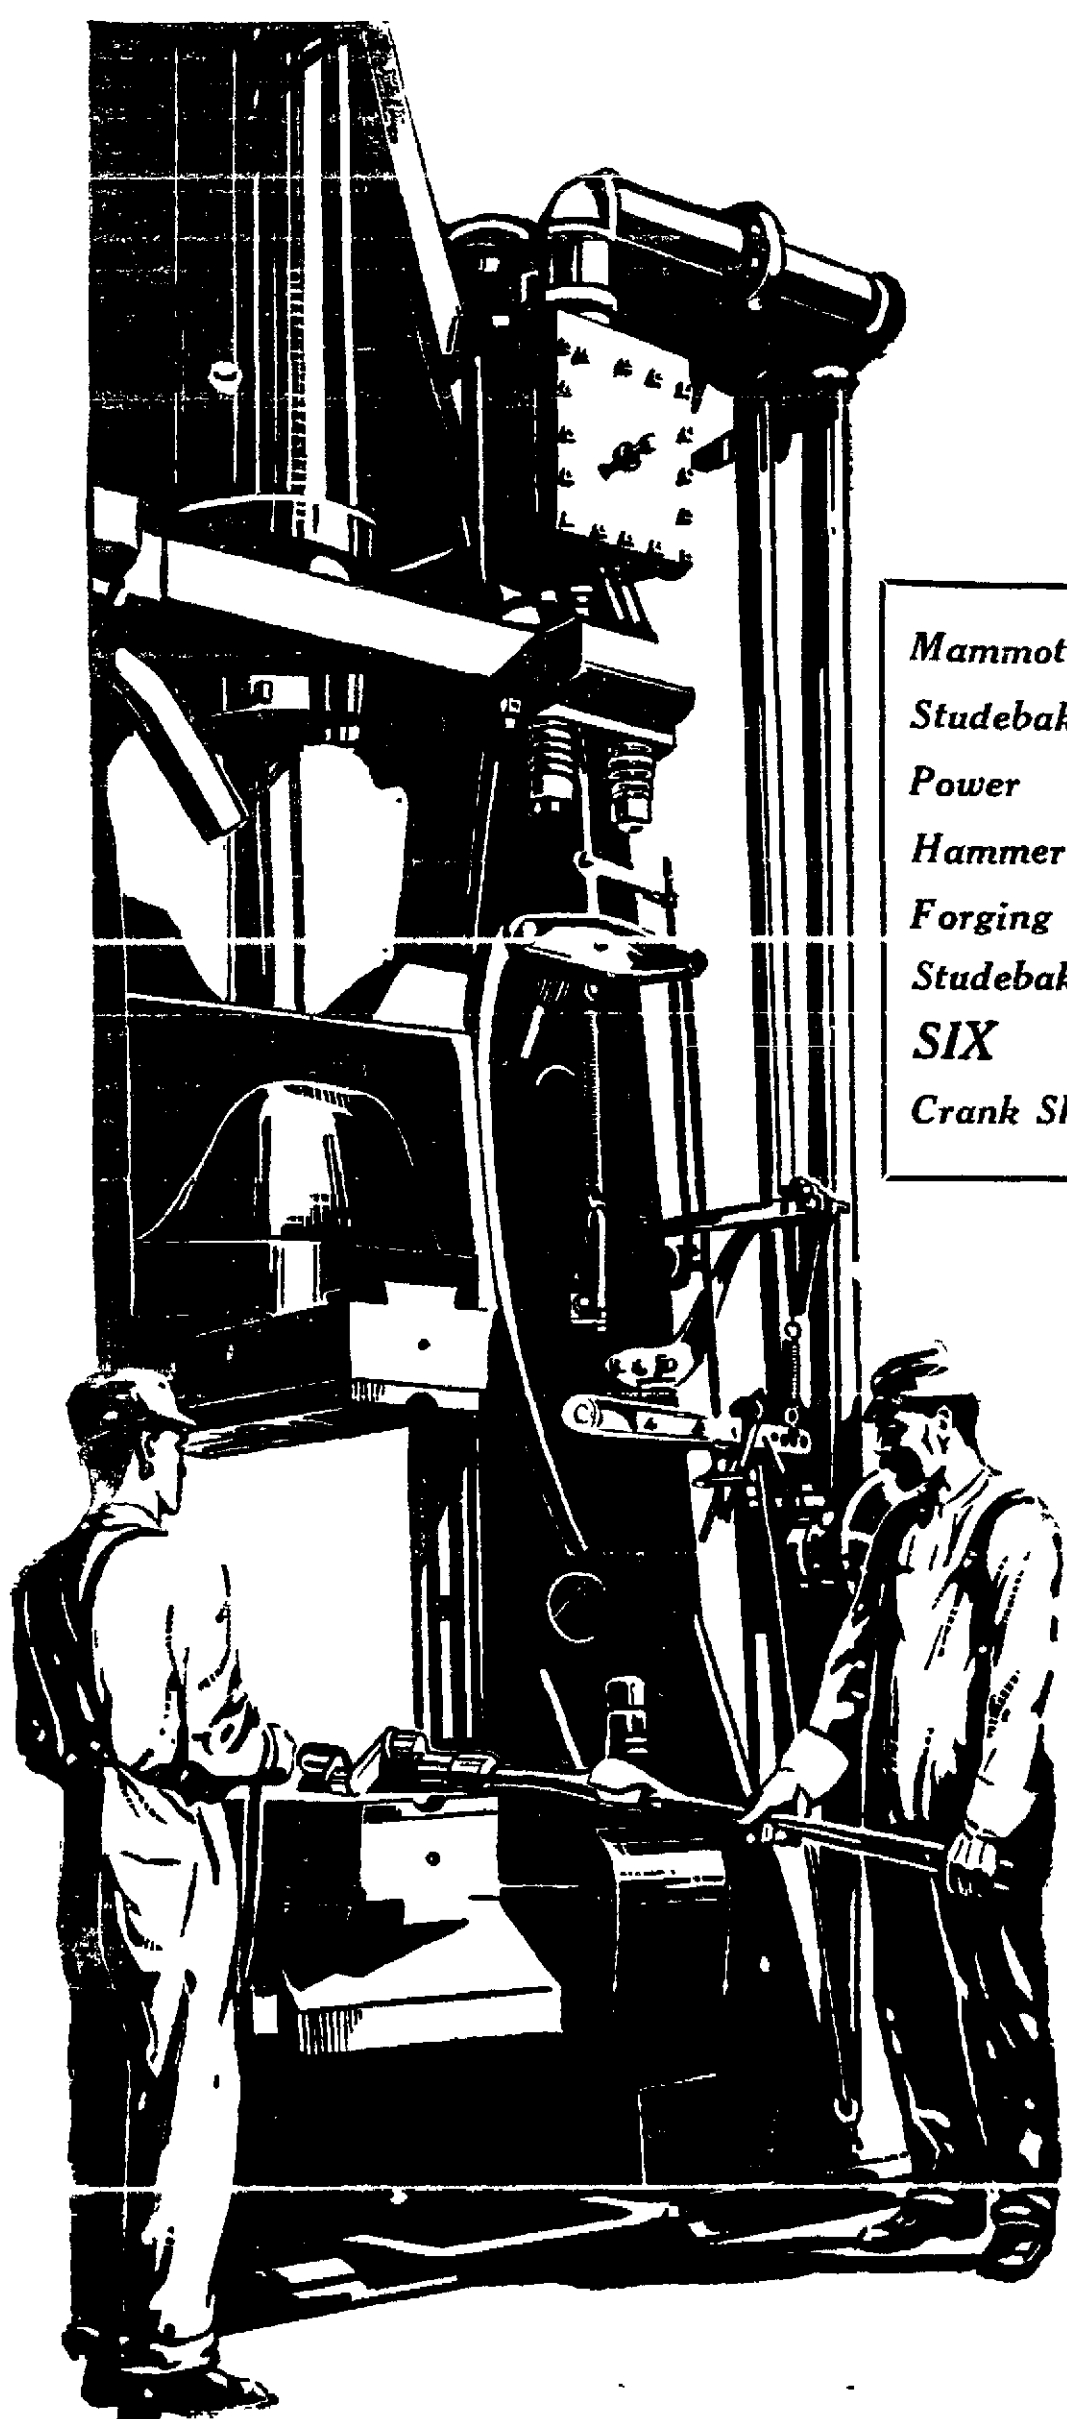

The net result is the greatest automobile value in the world today—the

Studebaker

ECONOMICAL
LIGHT WEIGHT

SIX

\$1575

Demonstration Will Sell This SIX Against Any Car Of Any Size Or Any Price

The Studebaker SIX will prove to you in half an hour its superiority over heavier, costlier cars.

It has a greater proportion of manufactured parts than the best of these heavier cars.

Each essential part is of special formula steel, heat-treated from two to four times to permit the use of light parts—with increased strength.

It will prove that this Studebaker combination of light weight and perfect balance holds the road far better than mere bulk.

Once set in a straight line the Studebaker SIX continues in a straight line.

It does not creep or slide toward the ditch from the crown of a country road.

This roadability begins in the motor itself—one of the smoothest-running, most perfectly balanced "Six" motors in the world.

When the motor is developing its greatest power vibration is practically imperceptible.

At a speed of thirty or forty miles an hour you will probably guess that you are going twenty or twenty-five.

Your tire cost, gasoline cost, and oil cost, are of course very much lower than they would be in a heavier car—even a "Four" of equal power.

Studebaker Demonstration Shows Even More Striking Superiority Against The Assembled "Six"

No assembled or semi-manufactured "Six" can stand up in demonstration against the Studebaker SIX.

Studebaker gives you special formula steels tested to 150,000 pounds per square inch.

The best steel the assembler can give you is the best he can get; tested by the mill—perhaps—to 100,000 pounds.

Studebaker doubles and trebles the strength of its own special formula steels by two to four heat treatments.

The assembler must pass the steel on to you exactly as he gets it.

Studebaker by this process produces parts two to three times as strong, and still holds down the weight.

To equal this strength the assembler would have to add weight which would be prohibitive.

So the factor of safety in the Studebaker SIX is bound to be immeasurably greater than in the best assembled "Six."

And the same elements work out in the Studebaker SIX to produce perfect balance.

As a result of this balance it rides better, makes better use of its power, is a better hill-climber, is easier on tires.

In short, the value, long life and roadability of a "Six" are in proportion to the number of manufactured and closely measured parts.

In that respect, as we said above, the Studebaker SIX leads the world.

That is why it is competing with the costliest "Sixes" and outselling them.

That is why assembled "Sixes" MUST COME DOWN in price; and CANNOT COME UP to the Studebaker in manufactured quality.

The Studebaker FOUR is of the same grade and quality of material and workmanship, and is manufactured with the same scrupulous care and closeness, as the Studebaker SIX.

Studebaker branches and dealers have, in stock, \$1,000,000 worth of service-parts. This means service to owners of a sort that assemblers do not and cannot give. In this respect we believe the Studebaker organization to be unequalled. In addition to its \$1,000,000 machinery equipment for car manufacture, Studebaker maintains a special plant for the manufacture of service-parts, to keep all branch and dealer stocks complete at all times.

The Studebaker Proof Book describes and pictures the scientific manufacturing operations of Studebaker. Send for it.

LAKESIDE

"Quantity Production of Quality Cars"

was snapped at random by THE TRIBUNE photographer on the picturesque tunnel road. Car in the foreground is the new Studebaker four, belonging to E. T. Toller of the Mathewson Motor Company in Oakland. Toller is shown at the wheel in all the pictures. The tunnel drive is without doubt the prettiest from a scenic standpoint in the county and also the roadbed is without a flaw. Many cars can make the climb all the way on the high gear, the grade is so gradual.

STUDEBAKER AUTO USES DISTILLATE

Six-Cylinder Sedan Runs for
15 Miles on Gallon of
Fuel.

When statisticians begin to tell you that within a few years the supply of gasoline will be depleted to such an extent that 40 cents a gallon will be no uncommon price, don't let it worry you. You can't run the modern motor car and run it as many miles to the gallon and at much less the cost of gasoline as at the present prices, according to E. Linn Mathewson, the Studebaker dealer in Oakland, who has to prove his assertion by a letter (the copy of which is reproduced below), from A. P. Miller of Berkeley, one of his customers who recently purchased a Studebaker Six. The letter, which is self-explanatory, tells the results of Miller's experiments in the matter of distillate.

"Mathewson Motor Co., Oakland, Cal.
Gentlemen: Replying to your inquiry as to my Six Cylinder Studebaker Sedan, will say, that it is a wonderful car, being very comfortable and particularly economical on gasoline and oil.
"I am averaging to my surprise, 15 miles to the gallon on gasoline. After experimenting with straight distillate, I am now using it altogether, and making the same mileage.

"I take great pleasure in commanding your house on its liberal service policies, and I might say, that though I do not have to call upon you often, whenever I do, you have always given me quick action with good results.
"I might add that this is my second Studebaker, and in my opinion, the second car is the only one. I tour anywhere in the country and find it a source of great comfort.

"Very truly yours,
(Signed) "A. P. MILLER,"
"4200 Shattuck Ave."

STUTZ TROPHIES SHOWN.
The Stutz Motor Company of Indianapolis has gathered in all of its racing trophies and is exhibiting a costly collection of silverware during race week. The Stutz trophies were won in a sensational campaign covering three years. A remarkable record was established last season when Earl Cooper and Gil Anderson won seven consecutive road race victories and gained the title of "official road racing champion for 1912."

The Chesapeake Motorcyclist Club of Baltimore, Md., is planning a 150-mile time run to be held early in June.

PICNICKING IN THE UVAS CREEK COUNTRY WITH A NEW LOZIER-FOUR.

JEFFERY FACTORY ON PRODUCTION RECORDS

Thirty-five cars per day, or a total of more than nine hundred for the month, was the record of the Jeffery factory during the twenty-five working days of May. New men are being added to the Jeffery force every day, although the working time is now thirteen hours, and the schedule for June is twelve hundred cars. The ideal of the Jeffery company has always been to manufacture a limited number of cars, machinery and buildings as accurately as possible.

About twenty-five per cent of the Jeffery output is the \$2250 Sixes, and the remainder is the \$1550 light four in which is embodied a high speed, high efficiency European motor.

HESITATION MOTORING.

"Hesitation motoring" is all the rage in San Diego, Cal., where owners and dealers are combining in efforts to demonstrate flexibility on high gear for their various cars. At present the lightweight Studebaker "Six" of Warner M. Bateman holds the record performance with a mile in 22 minutes, 31 seconds, officially timed. The test was over level streets and was done without slipping the clutch.

PROPER PRESSURE CUTS TIRE BILLS

Nothing is so important as proper air pressure in tires, if those who have to pay for the tires want satisfactory mileage, according to the Tire Conservation Bulletin on "Under-inflation—its Consequences," issued by The Goodyear Tire & Rubber Company.

"It's the air cushion that supports the car's weight, not the tire," says the bulletin. "The tire merely holds the air under pressure and makes the air cushion possible.
"About twenty pounds per inch of width is the proper minimum pressure for Goodyear tires. This pressure is plainly stamped on the side of the tire. Less than that amount will not properly support the car's weight and the tire flattens out at the ground. It is the continuous flattening out that weakens and finally breaks the tire walls, just as one breaks a wire by bending back and forth.
"The bending in the tire wall generates heat which deteriorates the rubber. As a result the plies of fabric separate from each other and roll up. Rubbing against one another after having separated finally cracks them. Then some point becomes too weak to hold the air pressure inside and a blowout occurs.
"To save tires on which damage from under-inflation has begun, Goodyear recommends Inside Tire Protectors—complete linings, made of several plies of fabric, and moulded to the shape of the casing, inside."

FATHER AND SON NEAR DEATH IN QUICKSAND

GARY, Ind., June 6.—Imbedded up to their shoulders in quicksand and gradually sinking, William Majhorek, 30 years old, and his son Joe, 8 years old, were rescued from certain death by Gary police and firemen.

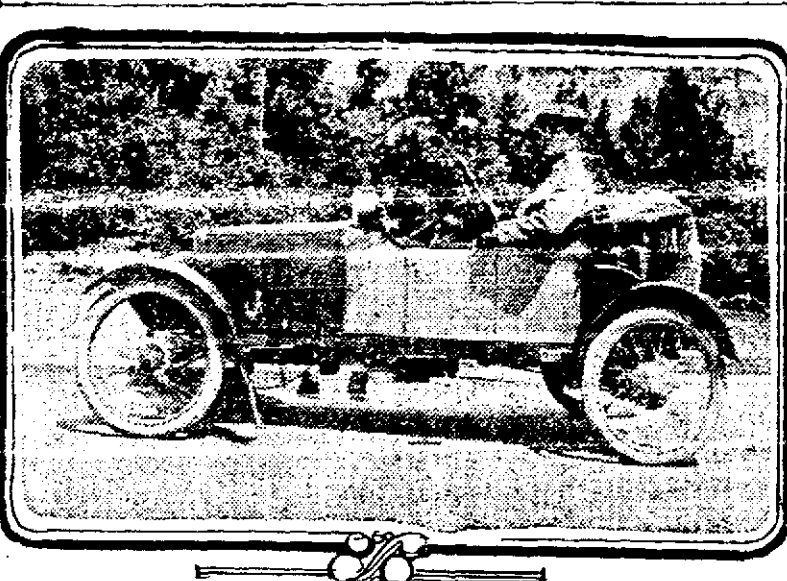

Majhorek was attempting to remove an iron well near his home and had excavated a large hole in the bottom preparatory to arranging tackle to raise the casing. He lowered his son, who was helping him, and the boy at once began to sink. The father sprang to the boy's rescue and he also began to sink. After struggling for two hours, and when on the verge of collapse, their cries finally attracted the attention of neighbors, who notified the police.

AGED COUPLE TAKE LICENSES TO WED

CINCINNATI, June 6.—Margaretta Goetz, sixty years old, the mother of fourteen children, ten of whom are now living, walked into the office of Marriage License Clerk Falk not many days ago, together with Daniel Jung, and applied for a marriage license.
A week later, Bernard Heckenborn, fifty-eight years old, a wood worker, walked up to the same license clerk and applied for a certificate to wed Emmelle Socha, forty-eight. To the question, Are

the affirmative and declared he was the father of fourteen children, all of whom are living.

R. C. KEENE OF THE OAKLAND HOUSE OF THE WESTERN MOTOR CAR COMPANY, AT THE PHENOMENAL MILEAGE RECORD OF 36.8 MILES TO THE GALLON IN A TWENTY-FOUR HOUR CONTINUAL RUN IN OAKLAND LAST WEEK.

BALKE WINS AGAIN.

Charles "Fearless" Balke, the Los Angeles cyclone, scored one of the most sensational "killings" in the annals of motorcycle racing, at the double header meet of the North Shore Motorcycle Club, Chicago, at the famous old Hawthorne track. Single handed and using but two machines, he won the 10 mile national professional championship, and the 6 other most important races of the two-day speed carnival, defeating the entire elite factory team. Balke and the Indian were the stars of the meet, easily and decisively humbled such top-notchers as "Bob" Perry, Carl Goudy, Glenn Stokes, and "Joe" Walters every time they came to the line with him. Over 2500 motorcycleists rode their machines to the meet, the assemblage being one of the greatest sights ever seen at a motorcycle race.

GRAVES WITH INDIAN SPEED KING AT ATLANTA.

M. J. Graves, who is campaigning at the Atlanta, Ga., motordrome this season with his eight-valve Indian, made a clean sweep of all events entered during the Shriners' Week races. The Los Angeles was the top notcher of the saucer speed sessions and brought the crowd to its feet repeatedly by his sensational work.

BOYD PLUCKS ROSE AT 86 MILE CLIP.

Denver, Colo.—Twisting the tail of his Indian gasoline "pony" until it was hopping along at an 86 mile gait, "Silver" Boyd trimmed Bard Rose by 200 yards in a 3 1/2 mile speed duel on the Brighton road. The boy had a side bet of \$100. On the result, and hundreds of motorcycle fans lined the course wildly cheering their favorites. Rose straddled an exit.

CAYON ROADSTER PROVES ECONOMY

24-Hour Run Made on Average of 36.8 Miles to the Gallon.

While many claims have been made off-hand as to the economy of small cars one of the very first actual demonstrations made along these lines to really ascertain the mileage possible for small cars in actual city-street driving conditions was conducted this past week by C. A. Penfield, Oakland manager for the Western Motor Car Company, who sent out one of the clever little Saxon roadsters on a twenty-four-hour, non-stop motor run, in and around Oakland.

Driving the car was R. C. Keene of the company's selling organization. The Saxon roadster during the 24 hours' continuous running covered exactly 240 miles with a total gasoline consumption of 6 5/10 gallons of Red Crown gasoline and one quart of lubricating oil, according to Penfield. This figures out to an average of 36.8 miles per gallon as gas, which is considered remarkable mileage for an automobile.

The run was started Tuesday morning and ended Wednesday morning at a corresponding hour. The motor was not stopped during the entire time, even when the drivers were changing places. The car was kept for the most part in the streets of Oakland but made two trips to Berkeley, two to Piedmont, two to East Oakland, one to Alameda and one to Hayward. No attempt was made to spare the car according to Penfield and the results were so encouraging that he contemplates some heavier and harder tests to prove that the cost of operating the Saxon roadster is well

MOUNTAIN LION IS FRIENDLY VISITOR

Beast Prowls Calmly Through Town, Retiring Finally to His Lair.

WHITEFISH, Mont., June 6.—A mountain lion was seen on the streets of Whitefish last evening. He was seen on Central avenue and when he got tired of the sights of Whitefish he proceeded to the tracks in front of a passenger train, which was standing there, and went back to his lair in the woods north of town.

Charles C. Hall, landlord of the Milwaukee hotel, is sponsor for the story and he is backed up by "Bub" Owen, a conductor on the Montana division, with headquarters at Havre. Charles Hall was at the depot to see the passenger train come in, and walked up town with Conductor Owen. When about opposite the Milwaukee hotel they perceived the lion walking in the middle of the street.

Conductor Owen at first took it for a very large cat and started to call to it in order to have a good look. Upon closer examination he and Hall both decided that they had seen enough and began a diligent search for telegraph poles or other high places of refuge.

They watched the lion while he leisurely proceeded to the depot. The animal's eyes squinted in the glare of the headlights from the engine, and he took flight and leaped into the darkness within the means of the average person.

"As a matter of fact," says Penfield, "this test proves that even for the man with large ears the addition to his garage of a Saxon for about town errands will save him much in the course of a year. The first cost is small and the upkeep far less than shoe leather."

Watch the Windows

This Coming Week for Goodyear Tire Displays Like This. They'll Show You Where to Get These Tires

Goodyear Week

Here and everywhere, this coming week, all the leading Goodyear dealers will make window displays like this.

It is done to show you where No-Rim-Cut tires are sold, and sold at Goodyear prices. Mark these exhibits. These are the dealers who, despite higher profits on other tires, supply you the world's best.

They Undersell 16 Other Makes

These dealers will sell you No-Rim-Cut tires for 28 per cent less than they cost in March, 1913. They will sell them below the prices asked for 16 other makes. They will sell you four tires for the price of three of some of Goodyear's rivals.

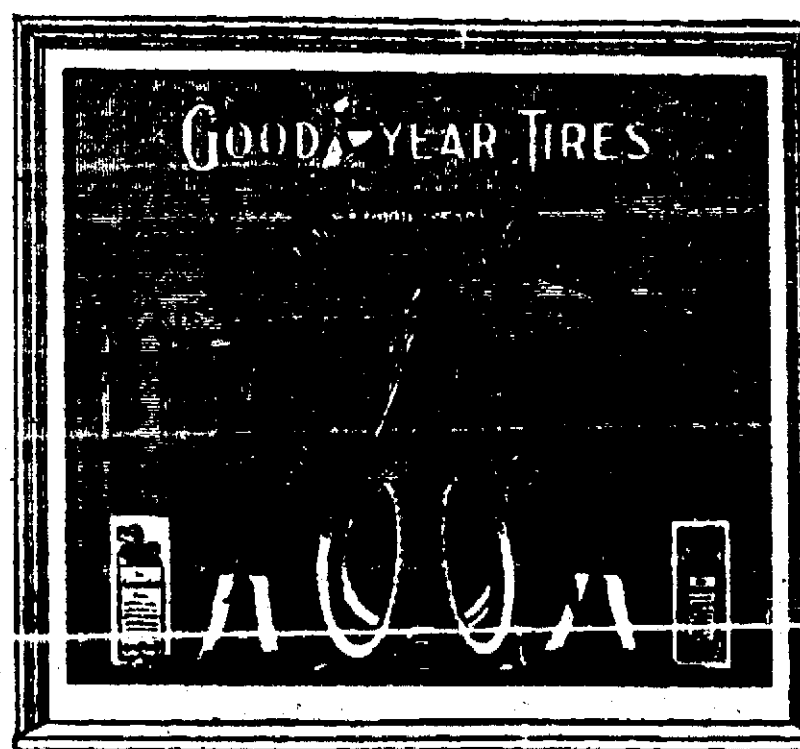

They will supply you, at Goodyear prices, the utmost in a

fire. The tire that out-sells any other tire in the world. The tire that won top place in Tiredom through millions of mileage tests.

They will sell you the tire which motorists are coming faster than ever before. This year's sales have broken every record, by 55 per cent.

Four Other Savings

In addition they give you these four features, found in no other tire:

Our No-Rim-Cut feature—the only feasible way to end rim-cutting.

Our "On-Air" cure—an extra process which costs us \$450,000 yearly. But it saves our users the countless blow-outs due to wrinkled fabric.

Our rubber rivets—hundreds of which are formed in each tire, during vulcanization, to combat tread separation.

Our All-Weather tread—the tough, double-thick anti-skid. It is flat and smooth, so it runs like a plain tread, but it grasps wet roads with a bulldog grip.

Not one of these features—mark you—is found in the costlier tires.

Note These Dealers

Note these displays—remember who sells Goodyears. You want these savings—mark where you can get them.

Goodyear place and prestige prove these the best tires built. And Goodyear prices show how mammoth output lowers factory cost.

Don't go to dealers who push lesser tires or tires at higher prices. Go to the dealers who sell at our prices the premier tire of the world. In fact, our dealers cost these dealers will save you a good many dollars per year.

LOZIER

VALVE IN HEAD MOTORS PROVE ABILITY

The Indianapolis Race Showed Motor's Power

If any further proof is needed to justify our oft-repeated claim that the valve in the head motor develops more power and speed than any other type of motor ever put in an automobile, this proof is furnished by the winners of the recent 500-mile race at Indianapolis, says C. S. Howard, head of the Howard Auto Co., Pacific Coast distributor of Buick cars. Howard was an interested spectator at the World's Automobile Classic on May 30, and to say that the results were

imply, in speaking of the race Howard says without doubt the contest at Indianapolis on Decoration Day was the greatest automobile event in the world's history, and the ability of any piece of machinery to stand the punishment that those cars were subjected to for approximately six hours demonstrates beyond the question of a doubt that the builders of automobiles have solved all the problems of automobile construction and that the future will see very few radical mechanical changes.

Of course I would very much have preferred to see an American car win first honors, but as this was not to be I was more than pleased to see not only first place, but second, third and fourth honors captured by cars using valve in the head motors. This decisive victory not only gives the valve in the head motor the honor of propelling an automobile 500 miles in a shorter space of time than ever before, but proves conclusively that the valve in the head motor is the most powerful and most reliable type of motor ever put in an automobile.

The Buick factory has long since withdrawn from racing but all who have followed the automobile industry will remember that in 1909 and 1910 the Buick racing team won practically every automobile event of any importance and the Buick then as now used valve in the head motors. In fact the Buick has always been a valve in the head motor from the very first one that was built way back in 1904.

While east Howard also visited the Buick factory at Flint, Mich. He states that the present season's business is at least 25 per cent ahead of any other year the Buick ever had, and that there is a continued stream of dealers and of branch managers pouring into "Trainload" Collins' office, endeavoring to get more Buicks. Howard states that he has no exception to the rule, and while he did not get as many Buicks as he wanted, he at least got an increase of 150 cars in his June allotment with a promise of still more in July.

FIRESTONE PLANT AGAIN EXPANDING

In order to meet the rapidly increasing demand for their product, the Firestone Tire & Rubber Company are again adding new additions to their plant. When H. S. Firestone put his final O. K. on the plans for the brand new building in 1910, it seemed that this plant was large enough to take care of the company's needs for years to come. The new building was completed and occupied in 1911. However, in 1912, it was necessary to again expand and new additions were added. In 1913 the company again cramped for room, and they again expanded.

1914 is but a repetition of the past, and the demand for Firestone tires makes it again necessary to add to their factory. One of their present wings, 60 ft. wide and 125 ft. long, is the south one of the wings will be extended 125 ft., with the basement and the first floor covering a space of 140 ft. in width. This will give them approximately 55,000 square ft. additional floor space. The original building was so arranged that the new additions do not impair in any way the efficient handling of the product.

During 1913 three new boilers were installed, having a capacity of 900 H. P. each, making 2700 H. P. in addition to their already large boiler capacity. These were ready for use by February, 1914, and have been in continual use since that time.

The Firestone Company will install a new 4000 kilowatt generator and steam turbine to furnish additional power needed for the extensions. Their present switchboard will be replaced by a new gallery board 70 ft. in length.

Adlai Stevenson Is Near Death, Is Report

CHICAGO, June 6.—Adlai Stevenson, vice-president of the United States under Grover Cleveland, has but a few days to live, his son, Lewis G. Stevenson, declared tonight at the Presbyterian hospital. "Father is just holding his own tonight," said the younger Stevenson. "He was weakened considerably during my mother's illness, and when she died he suffered a nervous breakdown. He is nearly 80 years old and everything is against him."

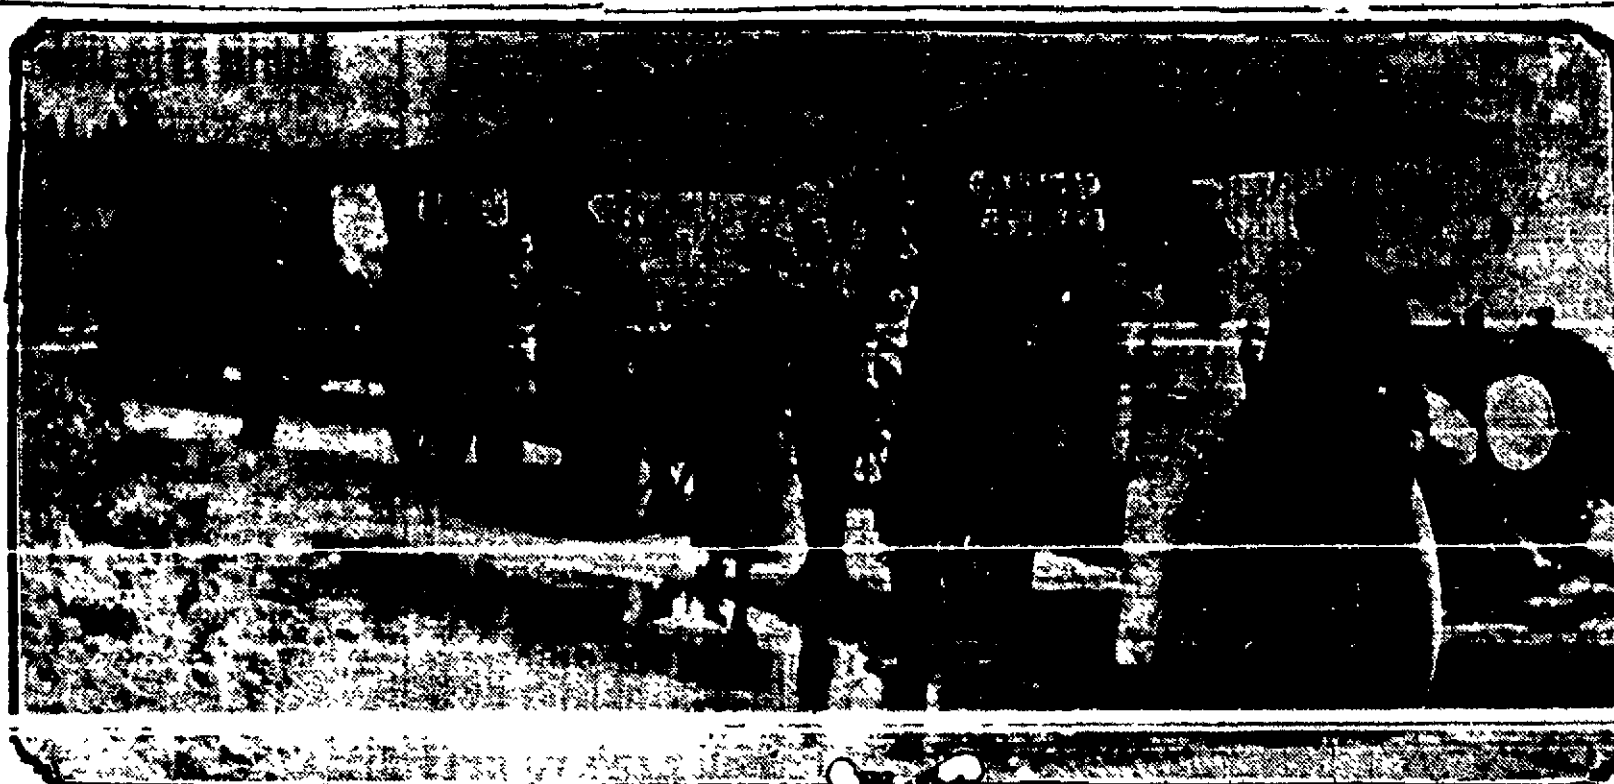

Suffragette Almost Gets Into Prison

LONDON, June 6.—The fact became known today that a militant suffragette disguised as a soldier in full dress uniform almost succeeded in gaining admission into Buckingham palace several days ago. The young "officer" was in a handsome cab and drove through the guard to the palace. As "he" stepped out "he" was recognized as a well-known suffragette and taken into custody.

WILSON'S POLICIES ARE ATTACKED BY KAHN

WASHINGTON, June 6.—Representative Kahn attacked President Wilson's policies which resulted, he said, in general business depression throughout the country in a speech in the House today, which bristled with invective and sarcasm and was greeted with laughter and applause.

Fatal Fight Ends Old Rancher's Feud

POPLARVILLE, Miss., June 6.—In a feud starting 50 years ago over a trivial matter, two men, one from each faction, are dead in Hillsville, a few miles from here.

Brothers and other relatives are gathered in Hillsville tonight and it is feared a bloody battle will follow with more fatalities. The dead: JOHN LEE, 64, cattleman. BOYD LADNER, 65, farmer.

Lee cut Ladner's throat with a razor. With blood streaming down his neck and staggering in death, Ladner shot Lee to death.

BATTLE STORY ISSUED BY NAVY DEPARTMENT

WASHINGTON, June 6.—How the American troops used a church steeple to aim at Mexicans in the sandhills, when Vera Cruz was seized; how three-inch shells from the Chester, San Francisco and the Prairie silenced sniping and hundreds of interesting details of the landing of troops as narrated by Admiral Fletcher, were given out today by the navy department. In a 6000-word dispatch, he detailed every move by the officers, men and American ships at Vera Cruz when that city was occupied. He told of the friendliness of foreign naval officers and of aid tendered by physicians and surgeons of foreign battleships when the wounded blue-jackets and marines were brought aboard the vessels.

BOY THROWS STONE AT BOX; EXPLOSION; DEAD

KANSAS CITY, June 6.—The ambition of Roy Branson, a fourteen-year-old lad, to be a baseball twirler, cost him his own life and the serious injury to three other lads through the explosion of dynamite caps today. Roy prepared to "wind up" and then threw a heavy stone which landed in a box of dynamite which, unknown to the lads, was lying near. They were playing baseball and the explosion that followed killed Branson and seriously injured Harry Hennessy, aged 9, Robert Hennessy, aged 13, and George Hennessy, 6.

AMERICAN ENTRANT IN DERBY GIVEN CUP

LONDON, June 6.—W. L. Brook, the only American entrant among the eleven competitors in the "aerial derby" was today awarded the gold cup and a purse of \$1000 as the winner of the first prize. Although Louis Noel of France was the first to complete the 55-mile circuit of London, he was disqualified.

SELLS WIFE'S PRESENTS AND IS SENT TO JAIL

STOCKTON, June 6.—Fred Weston pleaded guilty today before Judge Henry of Los Angeles to selling his wife's wedding presents. He was sent to the county jail for thirty days. The presents were given her at the time of her first marriage and not when she wedded the accused.

BRING BACK A BULLET.

A bullet hole in the forehead of the Studebaker car is an interesting souvenir. Larry Ward and party of New York are about to compete. The missile was collected near Chihuahua, Mexico, which was visited shortly before the Von Coss incident.

Bathing in Bustles Coney Island's Latest

NEW YORK, June 6.—Bathing in bustles is the latest for Coney Island. Announcement was made here today by several of the city's fashion experts that models with the newest thing in suits would be seen on the sands tomorrow and their notable feature would be the rear extension.

Waistcoat pockets and pantlets, the announcement said, would be features of the costumes. Despite this, they will be truly feminine. Jockey caps with long beaks will complete the latest suits, most of which will be developed in blue.

Woman and Children Killed in Collision

TENNETT, N. J., June 6.—Mrs. Nathan Leppath and her two children were instantly killed and Nathan Leppath was fatally injured this afternoon when their small touring car was utterly demolished by a freight train at a Pennsylvania railroad crossing.

CANAL TOLLS MAY BE COMPROMISED

Senators Agree to Change in Reading Following Sharp Tactics.

WASHINGTON, June 6.—Knowing that the tolls repeal bill could not be passed through the Senate without a strong American declaration and trapped in parliamentary maneuvering by Senator Norris, Republican, the President and his advisors this afternoon agreed to compromise. This compromise reads: "That the passage of this Act shall not be construed or held as a waiver of renunciation of any right the United States may have under the treaty with Great Britain, ratified the 18th of November, 1901, or otherwise to exempt the United States or its citizens from the payment of tolls for passage through said canal."

or affecting any right of the United States under said treaty or otherwise, with respect to the sovereignty over or the ownership, control and management of said canal, and the regulation of the condition or charges of traffic through the same."

This agreement was reached after several conferences between Senator Simmons, representing the President, and Senator Norris, who represented those who would not stand for the compromise. It was a violation of the Hayes-Pauncefote treaty.

ROCKEFELLER NOT TELL STORY

Believed That He Will Not Have to Appear on Witness Stand.

WASHINGTON, June 6.—Fearing dangerous illness, again, now, William Rockefeller from a statement made today, said he would not appear on the witness stand. This was the judgment of those who have followed the Interstate Commerce Commission's investigation of the New Haven's financial ills.

What was regarded as the release of Rockefeller from subpoena and at what was virtually the end of the commission's inquiry was the announcement of Commissioner McChord this afternoon that the hearings were indefinitely postponed. It was generally believed that today's session was the last of public hearings, and that Rockefeller and other directors will escape public ordeals on the witness stand.

It is possible that an attempt will be made to take depositions from Rockefeller, George McCulloch Miller, Morton

that they be excused from testifying. Despite McChord's public announcement today, Counselor Fox stated they be expected to go ahead with the program of continuing the inquiry next week by examining George F. Baker, millionaire Wall street banker, New Haven director and for many years the close personal and business associate of the late J. Pierpont Morgan.

George McCulloch Miller today presented a letter to the commissioner excusing him from appearing on the witness stand, but privately or by deposition on account of ill-health and advanced years.

Funeral at Church for The Late W. C. Barnard

The funeral of the late W. C. Barnard of the firm of Barnard & Bunker, grain merchants, San Francisco, and a resident of Piedmont, who was drowned in Gold Lake, Plumas county, Friday, will be held from the First Congregational Church here tomorrow. Arrangements were completed today by the members of the family, all of whom are prostrated with grief over the sudden death of the merchant.

GIRL STICKS OUT HER TONGUE; IT IS FROZEN

KEOKUK, Ill., June 6.—Alma Bently, 11-year-old girl of this city, was warm yesterday when she walked into a local butcher shop. She saw a pile of frost on an ammonia pipe to the refrigerator plant and stuck her tongue on it. She was held prisoner for ten minutes and before she could be pried loose, her cheek and arm were frozen to the pipe. She lost a portion of the end of her tongue and that member was severely injured when the doctor attempted to get her loose.

The Chicago Motorcycle Club will stage a number of national championship events on June 6 at Hawthorne track.

Before you start on your vacation trip, get some spare casings, and be sure you get

LEE

Tires. You realize that to properly enjoy your tour you must have absolute freedom from tire troubles. The most enjoyable motor trip can be hopelessly marred by having to repair punctures along the road. The only tire built that is guaranteed to insure you against punctures is the LEE

Puncture Proof

This tire is a real puncture-proof casing and as such is guaranteed by us. Thousands of metal discs imbedded in the tread makes it impervious to broken bottles and sharp spikes alike. B25—A comfortable, easily handled, light touring car, powerful enough for any service anywhere. 28 H. P. Five passengers. Price \$1,185. Fully equipped in Oakland.

Like all Buick Cars this model has the famous Buick Valve-in-the-Head motor.

The Valve-in-the-Head motor holds the world's record for speed, durability and economy.

The famous Indianapolis 500-mile speedway races this year was won by a car built with a Valve-in-the-Head motor. It not only defeated all other type motors, but hopelessly shattered all previous world's records. Also all other foreign cars in the money in this famous motor speed classic were built on the same Valve-in-the-Head motor principle that has made the Buick motor famous for its power, speed, durability and economy.

Give this thought—the motor is the most important part of the automobile—when you buy be governed by the experience of the past. Buick leads them all in the Valve-in-the-Head motor principle, and now the famous designers of foreign cars are adopting this principle as the only correct one.

FISHING TRIPS ATTRACT THE AUTOIST

Studebaker Party Land Limit Catch in the Calaveras

Heeding the call of spring, and all that that call brings to the mind of the hunter and angler, a party of lovers of the great outdoors decided that no month was better than May, and no place more attractive than the foothill country of California, and a sportsmanlike propensity, and wishing to get the most out of a week-end trip in the way of interesting motor-ing, and at the same time do a little trout fishing in some of the streams of the Sierra foothills, a party consisting of W. J. Richardson, manager of the Stude-

baker, and all of San Francisco, comfortably stowed away in a powerful Studebaker Six, soon found themselves travelling swiftly over the broad highway that leads from Oakland via the Dublin pass to Stockton.

This well-traveled road, familiar as it is to the motorists of California, always possesses enough beauty and glimpses of various scenery adjacent to delight those who drive over it, and the Studebaker party enjoyed every moment of the ride.

County House in Stockton loomed into view.

Arriving in Stockton, and after a short rest, the party left for Calaveras county via the road to Clements and Valley Springs. The country around here is rich in agricultural possibilities—many orchards, vineyards and farms are seen on all sides. With their arrival at Valley Springs the Studebaker tourists entered definitely into the foothill region of the Sierra. The country about here is in most instances, a great deal like it was in the days when Bret Harte and Mark Twain roamed these hills, gathering personal experiences that they were later on to use in their writings to such good advantage.

San Andreas, the next place reached, quaint little old mining town, is the county seat of Calaveras county, and being at the railroad, still has much of the old forty-nine aspect, its tree-lined streets and restful air making an enchanting break in the tour. Driven on in the gathering dusk, after sixteen more miles of interesting travel, the old deserted mining town of Sheep Camp was reached. Here a halt was made for the night, and under the careful care of Joe Poe, the party spent a very pleasant evening planning the next day's fishing trip, and according to the tales of old and the tales of gold that their host told them, the stream was whipped up by the earliest fishers until many silver shining members of the finny tribe were soon reposing safely in the water. The result of the fishing was a number of fine trout, and the party, after a splendid day's sport and driving, the party left for home, arriving in San Francisco tired but elated over the outing.

FALL STRAWBERRY IS GROWER'S HOPE

Centennial Bearing Bush May Be Produced After Late Raspberries.

HAMMONTON, N. J., June 6.—Fresh strawberries and raspberries on the breakfast table of the man of average means during September, October and November are promised as a result of the discovery of an immense berry raiser at this place.

Two years ago an Italian berry-grower named Ranere discovered a strawberry which, instead of growing "knockers" for the next year's plant, threw out a series of spurs which in the fall months bore fruit. Carefully nursing the new plant, Ranere soon had a field of fall-bearing raspberry bushes. His example being followed by neighbors, the discovery became widely known, and the result has been the propagation of carloads being sent to New York state alone.

Even as late as the end of November it was common on one of the roads leading to Atlantic City to see wealthy automobilists halt their machines in wonderment and purchase fresh-gathered berries from urbane to whose lot had fallen the last fruit of the berry fields.

Experiments are now being made with a view to raising strawberries for the late fall market. There are several instances of excellent strawberries being gathered here in October and November.

A devout Italian woman has named the new berry "God-Send," it having proved a mortgage-raiser.

TERROR OF TELEPHONE IS LATEST OF PHOBIAS

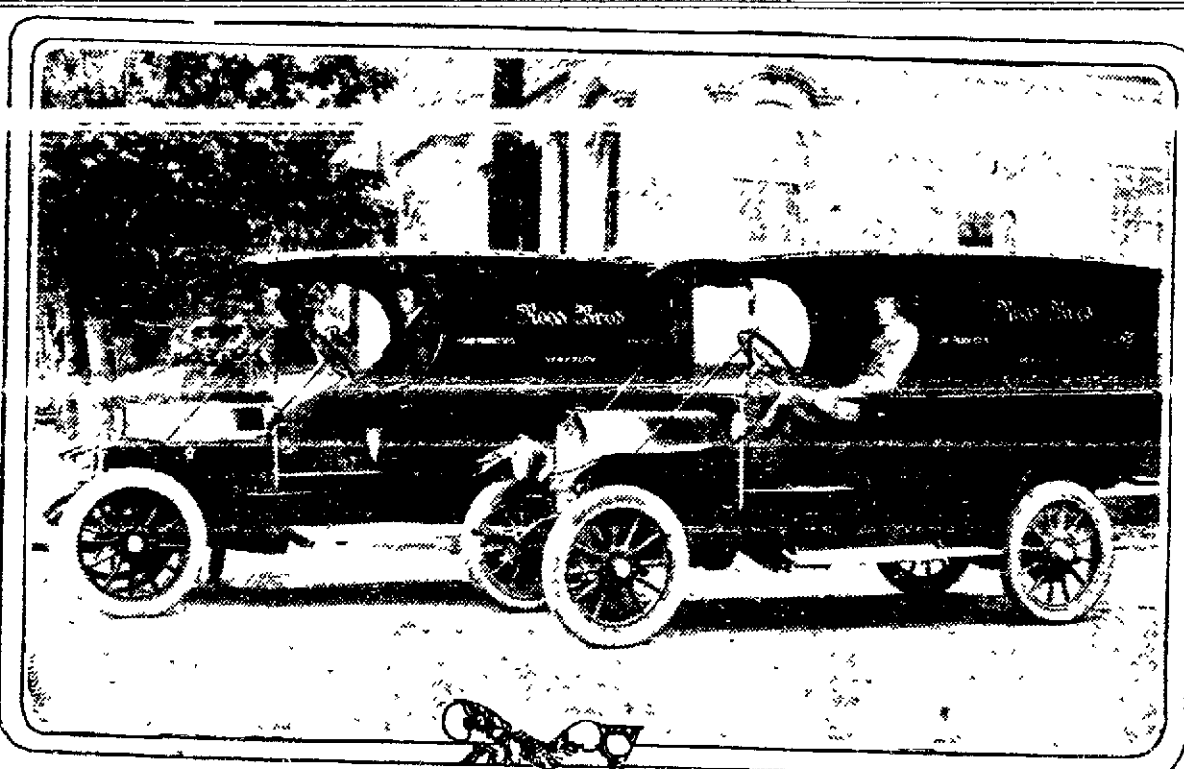

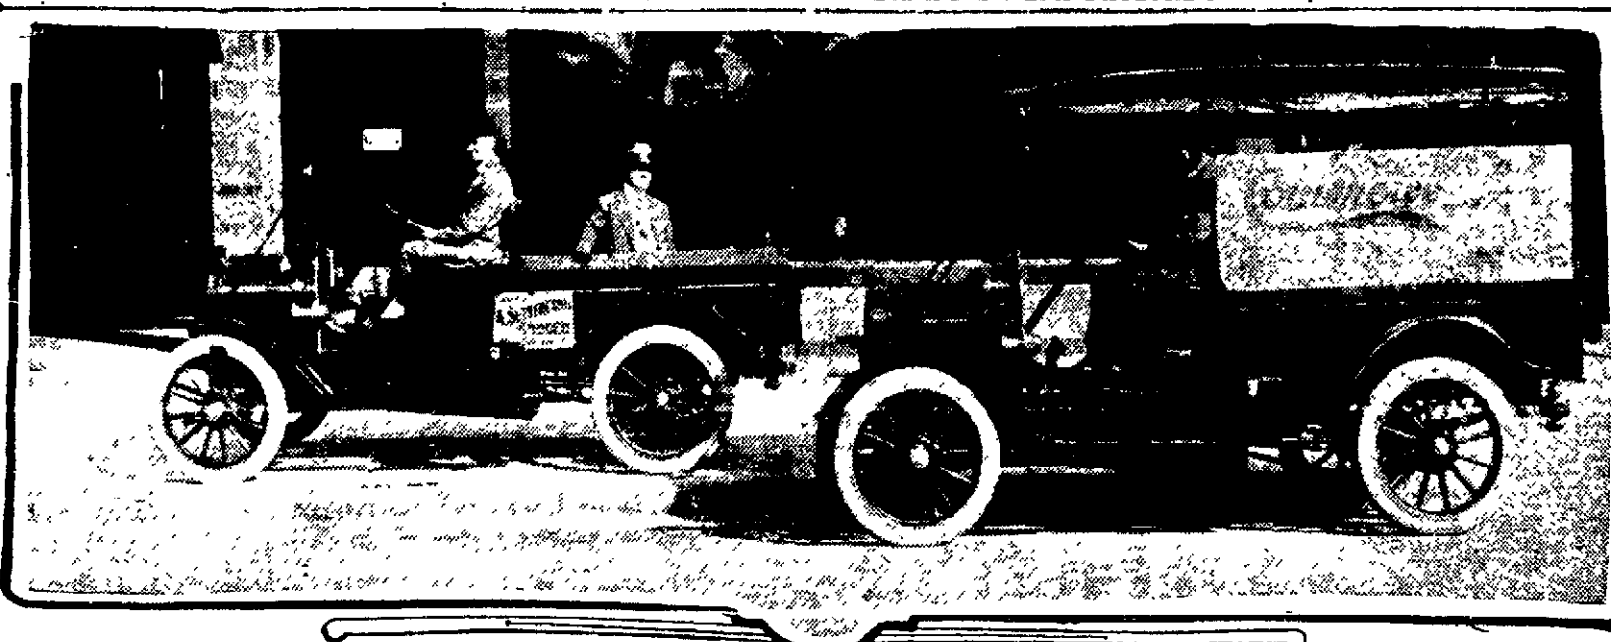

PARIS, June 6.—Telephonophobia is a new disease mentioned by the Gazette des Hopitaux, which describes a characteristic case. Madame N., a charming Parisienne, otherwise in normal health, is afraid of the telephone bell ring. "Seized with a sort of anguish, which sometimes has all the appearance of a panic attack," she is unable to answer the telephone. When her husband is out and she is compelled to reply herself she experiences as soon as she takes up the receiver, a terrible feeling of tightness and oppression round the temples, accompanied by violent palpitation of the heart. Her voice entirely changes, and she is almost incapable of articulating anything. So far no amount of reasoning has been able to vanquish this strange obsession of terror.

TERMINAL OVERLIFE TERM IN PENITENTIARY

OPPELOUSAS, La., June 6.—Life imprisonment was the sentence imposed by the district judge, Judge Fary on W. C. Walters, recently convicted of murdering five-year-old Robert Dunbar. The judge had found Walters "guilty without a doubt." Prior to announcing the sentence the court had overruled the motion of Walters' counsel for a new trial. Notice of appeal to the state supreme court was given.

The Akron (Ohio) Motorcycle Club has had a celebration to honor its members, and up to 100, which it expects to do.

LOST DOG APPEALS TO CROSSING POLICEMAN

ST. PAUL, Minn., June 6.—Not every dog knows enough to go to a policeman when it is lost. A valuable animal possessing this degree of intelligence appealed to Traffic Officer Martin Malone, at Seven Corners, by rubbing its nose on the officer's leg. When the animal refused to leave his side Malone concluded it was lost. The dog will be followed Officer Malone to Central station, where it is held for its owner. A collar worn by the animal bears the name of W. S. Graham, Riverside, Cal.

BEANS FOR CANNING BRING BIG RETURNS

NEILLSVILLE, Wis., June 6.—The canning factory here has demonstrated that there is no better crop for the farmer than beans for canning purposes. Several farmers have produced as much as \$200 an acre. It is the opinion of those who have investigated the matter that beans will be a competitor with peas in the canneries of upper Wisconsin in the future.

A 25-mile tour to Hudson, N. Y., was recently made by the "Ponkers Motorcycle Touring Club."

WOMAN RECOVERS HER NEEDLE LOST INSIDE

OLATHE, Kan., June 6.—About six years ago Mrs. James L. Chaney, a farmer's wife living southeast of Olathe, accidentally swallowed a needle, and she was so frightened that nothing was said about it at the time to her family. Yesterday she felt a sharp point protruding from her right side, took hold of it and drew out the needle. At no time had she felt any discomfort from this peculiar accident.

Six new motorcycles have been ordered for the Malden, Mass. police department.

WOMAN SENDS HER SON BACK TO CELL

After Escape From Prison He Is Returned to Serve Term.

LEAVENWORTH, Kan., June 6.—After being "turned up" by his own mother, a resident of Anderson, Ind., Henry C. Mantz, who escaped from the Kansas prison last February, was brought back today to complete his sentence on a charge of burglary. Soon after Mantz escaped his mother received a letter from him which had been written in St. Joseph, Mo. The letter explained that he had escaped from prison and that he would return home as soon as possible.

This letter was forwarded by Mrs. Mantz to Warden J. D. Botkin, with an assurance that if Mantz reached home he would be detained pending the arrival of a prison officer to take him back. Mrs. Mantz explained that while she loved her son very dearly, she was convinced he should pay the penalty for his crime and she would see that he was taken back.

Mantz arrived home last Saturday morning and an officer was sent immediately to bring him back. Mantz after his arrival at Lansing today explained that a desire to see his mother prompted him to escape.

FAMILY IS DROWNED ON HOME-MADE RAFT

BILLINGS, Mont., June 6.—William McKinney, a ranchman and rural mail carrier of Decker, Mont., and his 8-year-old son and 6-year-old daughter were drowned near their home on Tongue river when a home-made raft on which they were attempting to cross the river capsized.

FIRESTONE TIRES AGAIN WIN RACES

Sidelights on Indianapolis 500- Mile Speed Event Are Interesting.

Goux, the wiry Frenchman, whose sensational driving captured last year's Indianapolis Sweepstakes, found thousands of bets placed against him this Decoration Day, when it was announced that he would use foreign tires this year.

Never before have tires figured so prominently in both the betting and the race itself. "A mighty battle of tires" was surely a proper name for this greatest of racing events. Faster by far than last year, with tires literally red hot under the scorching, grinding and cruel speed of the heavy cars.

Firestone tires helped Goux to victory last year, and in the reverse race, foreign tires were his undoing this year. With 11 tire changes, he had no chance of winning, even though his speed between stops was wonderful. Barney Oldfield, in a Stutz crossed the

GIVE BED TO BEGGAR; THEY INHERIT \$8,000

SUNBURY, Pa., June 6.—For their "kindness and self-sacrifice" Mr. and Mrs. George Smith inherit nearly \$8,000 under the will of John Fell, 80, a beggar at Northumberland. The will was probated shortly before relatives of Fell arrived at Northumberland to contest the document.

Fell, who was believed to be almost penniless, went to the home of the Smiths several days ago and asked for shelter. He said he was friendless, that he felt ill and believed he was going to die.

Although the Smiths had only one bed they gave it to the old man and themselves slept on the floor.

The next day Mrs. Smith said Fell gave her a check for \$500 on a Northumberland bank and \$55 in cash. Before he died he made a will leaving to the Smiths his entire estate, said to consist of \$7,000 in a Wilkesbarre bank and stocks valued at \$300.

ARKANSAS LEADS IN SERPENT LORE

No Other State Has Produced So Many Snake Yarns Today.

Arkansas takes the lead in snake "stories" this season. Here is an interesting collection:

SNAKE DROPS IN HIS SLEEVE.
Bentonville, Ark.—While Ben Hale, a farmer, was cutting weeds on the edge of a wheat field he heard a hissing sound and at the same time a huge copperhead snake dropped into the sleeve of his coat. The reptile had leaped from a bush Hale succeeded in killing it without being bitten.

CATCHES SNAKE INSTEAD OF FISH.
Cattanooga, Tenn.—Small Lake 111 fishhook with a live minnow to tempt a catfish, but when he pulled in his line he found a large water snake instead.

COW BRINGS SNAKE HOME.
Lone Rock, Ark.—When Thomas Fee was standing in his back yard one of his milk cows came hurrying in from pasture and her horns. It took three men to uncoil the reptile.

FINDS SNAKE INSIDE FISH.
Bentonville, Ark.—While Aaron Shaw was clearing some perch he had caught in the White river, he found a small water snake, still alive, inside one of the fish.

CATCHES SNAKE IN TRAP.
Three Brothers, Ark.—Everett Johnson, 12 years old, had set a steel trap to catch a rabbit which he traced to a hole in a large earthen snake in the trap.

SNAKE SWALLOWS NEST EGG.
Gasville, Ark.—Mrs. William Darnell, a farmer's wife, missed a china nest egg from her henhouse several weeks ago in killing a blacksnake in Darnell's barn recently the reptile was cut in two and the lost egg was found in its stomach.

CAT AND SNAKE FIGHT TO DEATH.
Bentonville, Ark.—When Mrs. Lizzie Smith heard her cat snarling she investigated and found it fighting with a five-foot blacksnake. She ran to the garden for a hoe, but by the time she returned the fight was over. The cat had gotten through the snake's head, killing it, and the reptile in its death struggle could so tightly around the cat that it was killed.

FINDS RATTLER IN OVEN.
Mountain Home, Ark.—As Mrs. Sarah Collins of Vin started a fire in her cook stove to get breakfast, her attention was attracted to the oven by a strange noise within. She opened the door and found a large rattlesnake coiled ready to strike. The snake was killed and was found to have sixteen rattles.

Firestone

Tires Again Won

the Honors on American Cars in the Most Severe Tire
Test of the World---the 500-Mile International
Sweepstakes at Indianapolis, May 30th

BARNEY OLDFIELD in a Stutz took first place among American cars, one of the only two cars in the race using Firestone Tires.

At the Terrific Speed of 78.15 Miles Per Hour

Yet two of Oldfield's Firestone Tires went through the 500-mile grind unchanged—He made only three changes in all. Other cars changed as many as thirteen and fourteen tires. This record, with the winning of first place in 1911 and first and second place in 1913 by Firestones in this world test of Tires should be a clear Tire buying guide to you.

And Why Can You Get Firestone Quality--THE WORLD'S LEADER--AT ONLY AVERAGE PRICES?

Here are the reasons: The law of specialized effort and the law of volume. — Firestone builders are the world's Tire Specialists. You get the benefit of concentrated knowledge, experience and skill. Firestone--previously the largest exclusive Tire factory in the world--has increased its output 78 per cent this year — therefore, Firestone Quality can be built at the production cost of only ordinary Tires. Make our advantage in production your advantage in buying — have the nearest dealer supply you with Firestones.

Latest Gossip From the World of Sport and Outdoor Amusement.

**SOME MARVELOUS SHOTS
RECORDED IN THE
GAME OF GOLF**

**From Tee via Rock via Caddy's
Head on the Green and
Into the Hole.**

Once upon a time—
Before going any farther we wish to in-
form you that our efforts today will be
devoted to chronicling some of the mar-
velous doings of golfers—doings so mar-
velous in fact that they make men old

Well, to continue, once upon a time a golfer went golfing, and with one stroke he made a hole in one.

There was a four. This gentleman teed off from a little hill and attempted to drive the globe over a little pond. But he didn't get as far as the pond, and he was disappointed. He went right for the center of the pond.

Just as the golfer was about to start a putt or words on that order, something happened. Instead of dropping in to the green the ball slipped up to the face of a rock and rolled back. After the impact gave it new impetus, and the ball bounded away over the hill.

About 100 yards farther on was a very large tree. The ball struck the trunk and guessed it. The ball landed on the kid's coco, took into itself more impetus, hurled a small knoll, rolled into the green and into the hole.

Well, the golfer made this marvelous shot doesn't want to have his name known. It seems he's a little too modest about it—or a little too something, or other.

However, Oscar G. Reichardt of the Midland Valley Club of St. Louis (said to be the best in the world) has won "Slots in Golf" in one of the recent issues of the *Golfers' Magazine*, in recognition for having made a 20-foot putt in 10 strokes. In discussing the feat, he said it was necessary, the second time, to convince the skeptical that his first performance was not a fluke. And he said of this putting, "we do not know the fact that it had to be made with a semi-circle twist."

THE OTHERS.

And then, there's the case of C. W. Sherman of La Grange, Ill., that is chronicled in the same publication. Sherman's record was that he did not topped his second and his ball nestled in a bunch of rocks. Did Mr. Sherman's second and twelfth shot hit him? Sherman was wrong in that he did not hit the ball, and soaked the ball just where it ought to be soaked under such circumstances.

rolled into the hole, giving Sureau time to on a par four hole.

William T. Foster of the South Shore Country Club, Chicago, another Scotchman, was the first to get in the hole. The Hall of Fame, according to the article.

While playing a 380-yard hole at French Lick Springs, Ind., Foster got 200 yards out with his tee shot, then he took a shot using the midiron. He drove the ball against the flag pole. The ball bounced off against an oak tree and the tee shot rolled back to the hole. He decided it was enough bumping and veekely dropped into the hole.

In many American golfers came back from Europe. With stories of how they made a certain difficult hole in one that some of their skeptical friends began a little investigation. They found that the hole was considerably and shotted by their shrewd caddies.

It seems that some years ago Albee Dyer, an American, was a golfing, driving off from a little hole to a hole that was obscured from plain sight by the clump of trees did really make it in one shot. One day he arrived at the hole and found his ball had rolled so delighted that he dug into his lead and fishhook out a cold place hand it to the amazed caddy.

"Why," he asked the caddy.

"Why, my boy that's for you," replied the delighted Lambert. "It is the custom with us, whenever we make a hole in one, to give the caddy a treat to let the caddies in on it."

And since then—well, draw your own conclusions.

TANGO WHILE COOKING? ATTEND TRIBUNE SCHOOL

MRS.
MARY L.
HAINES,
Who Says
Girl Can
Cook and
Learn
Tango at
Same Time.

Many a girl has complained that one can't cook and learn the tango at the same time. It sounds hard—almost impossible. Until Mrs. Mary L. Haines, who comes to Oakland next week to teach Oakland women to cook at THE TRIBUNE cooking school, showed them. Here's the answer: Get a phonograph. Practice while the water's boiling—while the spaghetti or cake is baking—but watch the cooking between every record. In other words, cooking's not so hard as it looks, or so expensive, either, when done right. Economy first, and knowledge afterward. That's the answer to the problem. Of course, Mrs. Haines doesn't recommend tango practice along with cooking—but it can be done if it has to—and still hubby gets fed.

How many husbands have come home and demanded to know why they never got spaghetti to eat? How many wives answered that it was because they didn't know how to cook it? And didn't hubby go out to a restaurant to get it? Perhaps he flirted with the pretty waitress, too. Anyway, he ate more and spent more than was good for him.

Wherefore, girls, says Mrs. Haines, learn to make spaghetti. When she opens her free cooking school, under the auspices of THE TRIBUNE, in the big Pure Food and Household Economy Show, at which the Alameda County Grocers' and Merchants' Associations will play host for two weeks, she'll teach spaghetti right away. That isn't all. She'll teach everything from plank steak to meringue—but first she'll teach bread, pie—and spaghetti.

NOT A HARD DISH.
And, after all, spaghetti isn't such a dirty dish, when one is shown. THE TRIBUNE school will therefore add one dish to the number set before hubby when he gets home—and hubby usually likes spaghetti.

It's all a matter of tomatoes, onions and a few other things, none of which is expensive. Here's the recipe for one of her spaghetti dishes:
One can tomatoes, six medium onions, 1 red pepper, 1 garlic, minced, ½ cupful sherry wine, ½ teaspoonful tobacco sauce, ½ teaspoonful salt, 1 can hot mushrooms, a tablespoonful of Worcester-shire sauce and a cupful of sharp grated cheese.

This is the famed Spaghetti Royale, noted all over the world. Now for the mixing: Mince the onions, add the rest of the ingredients, let all simmer for two hours. Then add the sherry wine and the cheese.
In the meantime make a strong broth from a pound of hamburger steak or

lean soup meat. Put this on to cook while the first part is simmering.

Then take a package of imported spaghetti, cover with boiling salted water, and cook until tender; remove from fire, drain off, and cover for five minutes with cold water. Then, when the first mentioned mixture has simmered two hours, put all together, mix thoroughly, place in baking dish, cover with buttered bread crumbs and bake fifteen minutes. This will serve five people, and is even better when warmed over. It is well to add a cup of broth or sherry wine, though, when reheated.
If a smaller portion is required, just divide the recipe in half. But don't tell hubby macaroni or spaghetti can't be cooked!

FIRST WEEK'S PROGRAM.
The program for the first week of the Pure Food and Household show and THE TRIBUNE Cooking School, conducted by Mrs. Haines, is very attractive and should appeal to everyone. Also the brides are to have an afternoon. The two exhibits have had the finishing brush-up and all is spick and span. The two or more young lady demonstrators will be prepared to serve every kind of food made by the best manufacturers in the west to all that attend.

Aside from the demonstrations and cooking school there will be daily concerts, dancing, lectures on low cost of living, pie eating and other contests.

Monday night—Grand opening. Mayor Mott will press the button that will illuminate the big show and welcome the visitors and exhibitors and manufacturers.

Tuesday afternoon—Cooking school, baby show and housekeepers' afternoon. Tuesday night—Chamber of Commerce night. Special program.

Wednesday afternoon—Cooking school, baby show and brides of Oakland afternoon.

Wednesday night—Merchants' and Manufacturers' night.

Thursday afternoon—Cooking school, baby show and shoppers' afternoon.

Thursday night—Berkeley night.

Friday afternoon—Cooking school, baby show and housewives' afternoon.

Friday night—Alameda and Fruitvale night.

Saturday afternoon—Cooking school, Chinese baby show and teachers' and students' afternoon.

Saturday night—"My City Oakland" night.

The program for the second week, to be announced, will have special nights for the Rotary Club, Ad Club and various commercial and fraternal societies.

ERECT PRE-COOLING FACTORY AT LODI

LODI, June 6.—At an expenditure of between \$20,000 and \$25,000 for building and equipment, Mason Brothers are installing a pre-cooling plant which is perhaps unequaled on the coast.

Nearly all of the carpenter work is now completed and the machinery is being installed. The compressor, which is being placed on a new foundation, is a huge affair. It is of 35-ton refrigeration, which is equal to a manufacturing capacity of 20 tons of ice per day.

Pre-cooling rooms with a capacity to handle four cars of fruit at a time have been installed. Besides these rooms, there is one for regular cold storage, equipped with a brine refrigeration system. This room is 16x23 feet in size. During the busy season it will be used for banking the fruit over night. The fruit that is packed after a cold will be stored in this room until the next morning when it will be thoroughly cooled and ready for loading. A 60-horsepower electric motor will be used to drive the compressor.

It is stated by a number of fruit men that it is almost impossible to get proper refrigeration in the ordinary manner upon a 25,000 pound car with the ice capacity at hand, while with the pre-cooling method, it has been found that there is ample ice in the cars to hold the temperature at the required degree.

Before Mason Brothers started to erect the plant, they had yearly lost about \$1000 to \$1500.

When the company is making ar-

WATER SAMPLES ARE INSPECTED BY BOARD

AUBURN, June 6.—County Health Officer Dr. Theodore Snrpp of this city appeared before the city trustees at their meeting and exhibited two samples of water taken from the canal of the Pacific Gas and Electric Company at points above and below where the water flowing from the South Yuba system of the company empties into the Boardman ditch above Clippier Gap.

The purpose of the exhibit was to show the difference in the water flowing in the ditch after it has mingled with the water flowing from Bear River. Dr. Snrpp wished to show that if the supply of water for the city was taken from the ditch above the point where it joins the flow from Bear River, the water consumed by Auburn could be supplied with comparatively clear water and not be furnished with the yellow colored muddy water that now flows from the city reservoir above town.

The trustees referred the matter to the water and light committee of the board, who made a visit of inspection and will report the result of their investigation at the next meeting of the board.

WANTED: 61,950 MEN TO HARVEST KANSAS CROPS

TOPEKA, Kan., June 6.—Kansas needs 61,950 men, 6375 extra teams and 2240 extra cooks to harvest its wheat crop this year, according to an estimate made public yesterday

missioner and director of the Free Employment Bureau. His estimate is based on the reports of correspondents in every county in the state.

BREUNER'S QUICK DISPOSAL SALE

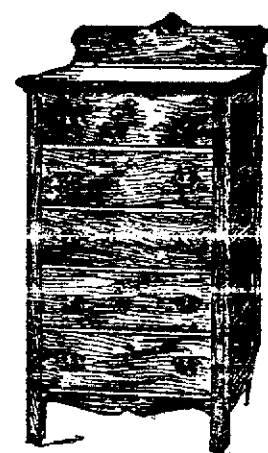

Of The \$54,000.00 Stock Of The HOME FURNITURE CO. Of Sacramento At 33 1/3 % Below Actual Wholesale Cost

Continues as the Supreme Money-Saving Event of the Year

Friday and Saturday we expected crowds—planned for crowds—and crowds CERTAINLY came. So whole hearted was the response that many were compelled to leave unable to buy. EVERYTHING HAS BEEN RE-ARRANGED and re-enforced—truly the store has been magnetized with values worthy of your coming miles to share in. Won't you come Monday or any day next week? We want the thousands of bargains to tell their own story.

DRIVES AUTO IN SPITE OF INJURY

Takes Wife to the Hospital, in Spite of Broken Arm's Pain.

OAKDALE, June 6.—Rather than disappoint his wife, R. G. Goldthorp, a prominent merchant of Oakdale, drove sixteen miles in an automobile with a broken arm and smilingly encouraged his wife while she prepared for a serious operation. Then, hours later, after the operation was over, Goldthorp finally told the physicians of his own accident and had his broken bones mended. Mrs. Goldthorp was taken to the hospital at Modesto to prepare for the operation. She asked that her husband be present during the operation, which had been set for 8 o'clock in the morning. In his hurry to reach his wife's bedside Goldthorp was careless in the handling of his machine, and when he reached the beach drive the crank around and broke his right arm below the elbow. Instead of rushing for a physician, Goldthorp finally started his auto with his left hand, and drove to Modesto, arriving there in time for the operation. He told his wife nothing of the accident, and smilingly suffered excruciating pain during the operation. Then when it was completed he told the physicians of the accident and had the arm set and put in splints.

BANKRUPTCY PETITION.

M. Jaeger, a conductor of Oakland, filed a petition in bankruptcy today. His assets are nil and his liabilities are placed at \$352.

GRANT PETITION TO FORM SHASTA PROJECT

REDDING, June 6.—The board of supervisors has granted the petition of about two hundred land owners who asked that the Anderson-Cottonwood Irrigation District be established. The supervisors permitted 4000 acres of Churn creek bottom to be included in the district, the only land in the bottom being exempted being a quarter of a section owned by Mrs. Mary E. Dinmore. So the district will include 27,000 acres of irrigable land, the bulk of it on the east side of the Sacramento river, between Redding and Cottonwood, with 4000 acres on the east side along Churn creek.

The supervisors fixed July 14 as the day for holding the election. Then the people of the district will decide at the ballot box whether they want to organize the district. At the same time they will elect five directors, one for each of the five subdivisions of the district.

The supervisors fixed the boundaries of the five subdivisions. The polling places are to be in the Anderson, Clear Creek, Cottonwood, Lone Tree and Pacheco school houses, respectively.

BULL CALF SELLS AT AUCTION FOR \$20,000

CHICAGO, June 6.—A bull calf less than four months old, was sold at auction here yesterday for \$20,000.

United States. The purchasers were Chicagoans. The calf was born February 25, is a Holstein and comes from famous pedigree stock.

ARMY WORM IS INVADING CHICO

Farmers and Orchardists Use the Water Cure on Pests.

CHICO, June 6.—Companies, battalions, regiments of army worms are invading the section in the vicinity of the Model Farm dairy, and the farmers and growers in that district are using the water cure to fight the pests.

Millions of the worms are now making that part of the country their temporary camping ground and giving land-owners considerable concern. T. Walburn, who owns a place adjoining the dairy farm was in town today and declares that he has been several days waging a strenuous campaign to keep the worm army from invading his place and eating up everything that is green. Walburn is fighting the pest with water, digging ditches and checking the march of the worms in this manner.

The army worm is a sort of second cousin to the caterpillar, only it does more damage in a minute than a caterpillar could do in an hour. They come suddenly, and finally, it is declared, take wings and disappear almost as suddenly as they come.

Millions of them travel together and lay every green twig that they come in reach of.

WASTE OF WATER LEADS TO RESTRICTIONS OF USE

TULARE, June 6.—Restrictions have been placed on the use of city water for sprinkling purposes, it appearing from the report of Superintendent Respieller to the trustees that much water was being used wastefully. This condition was especially marked during the night hours, when with the pumps running at full capacity there has been almost no gain in the reserve volume in the tanks. As a result sprinkling before 5 a. m. or after 8 p. m. has been forbidden, and inspectors are to be put on to check on violators. Where violations are detected the property owner will be compelled to install a meter and pay the meter rates in the future. Meter rates were also adopted ranging from a minimum of \$1 for the smallest size upward, according to the capacity of the meter to be installed. There has also been complaint of sprinkling with the open hose, that is, without the use of either hand or automatic fixtures on the hose, and the practice has been ordered discontinued under the same penalty.

G. W. Zartman and his daughter, Mrs. Hazel Gray, have gone to San Francisco for the balance of the week, where Zartman will take depositions in some litigation he is conducting, and Mrs. Gray will visit friends.

A. J. Pellerine, who has been in a hospital for several days suffering from a severe case of poisoning from a black spider bite, is reported to be very dangerously ill, the poison having permeated his system.

RURAL LETTER CARRIERS LOSE ADDITIONAL PAY
WASHINGTON, June 6.—The court of claims decided today that a rural letter carrier cannot collect additional

PRESENTS PLATE BUCHANAN USED

The White House Collection of Presidential Ware Enriched by Interesting Gift.

WASHINGTON, June 6.—Another addition has been made to the White House collection of presidential ware in the form of a handsome service dinner plate from a set which belonged to President Buchanan. This gift has just been received by Mrs. Wilson from James Buchanan Hey, of Annapolis, Md., a nephew and ward of President Buchanan, who served as his private secretary during Mr. Buchanan's occupancy of the White House.

The plate has an interesting history. It belonged to an exquisite set of pink banded service, each piece of which was elaborately decorated, which Mr. Buchanan purchased at the sale of household belongings of the French minister at Washington during the time Mr. Buchanan was serving as secretary of state under President Polk in 1845-49.

Mr. Buchanan prized the china highly and it was used by him in the White House and subsequently in his home at Wheatland, near Lancaster, Penn. Upon his death the china came into Mr. Hey's possession.

WOUNDED MAN COUGHS BULLET AFTER YEARS

FAIRTON, N. J., June 6.—A man who was wounded in a severe cough for several years, William Clark coughed up a bullet. Fifteen years ago he was shot in the chest at Wilmington, Del., and the bullet was never located.

CONTRA COSTA News of Two Big Counties ALAMEDA

FRIENDS TO WAGE CURRY'S BATTLE

Congressman Will Find Many at His Back in Coming Campaign.

RICHMOND, June 6.—Congressman Charles F. Curry will not be alone in returning to this district until August to prepare his plans for his battle for his reelection and so his friends here, led by Dr. C. L. Abbott, Dr. Charles B. Blake, Edward McEluff and many other local citizens, have taken steps to look after Curry's fight in this county.

The year ago to carry this county, which went for Roosevelt and Johnson, but Curry won out here by over 100. His work for the Richmond harbor appropriation has caused the local commercial bodies, regardless of politics, to get behind him this time.

As far as known, Curry will have no opponent for the nomination.

LIVERMORE

LIVERMORE, June 6.—The Livermore departed Wednesday for Honolulu to spend a month's vacation in the Hawaiian Islands. Arthur A. Campbell of San Francisco, his sister, Mrs. W. L. Lander, and Oakland, accompanied by their wife, Mrs. Norton, returned Monday after a visit with their father, J. Campbell, at Alameda.

Mrs. L. E. Madden, her son, Harold, and daughter, Miss Lillian, formerly of this place, were here from Berkeley Saturday visiting friends.

John Bernier departed Tuesday morning for California, where he will remain for a time, and expects to return to Berkeley, Mexico, as soon as the disturbances quiet down there.

James Munson, who has been occupying the old Westlake place on the corner of Grace and Vallejo, will leave Saturday for the north, to go to the home of his father, J. H. Munson, at San Francisco.

Mrs. L. E. Madden, her son, Harold, and daughter, Miss Lillian, formerly of this place, were here from Berkeley Saturday visiting friends.

CHURCHWOMEN TO GIVE AFFAIR ST. BERNARD'S IS BENEFICIARY

MISS ANNA FLANAGAN, WHO IS ON COMMITTEE ARRANGING BENEFIT FOR MELROSE CHURCH.

CHIEF OF POLICE TO SEEK SHERIFF'S STAR

RICHMOND, June 6.—James P. Arnold, for the past five years the head of the Richmond police department, today announced his candidacy for the position of sheriff of Contra Costa county at the coming primary.

Arnold planned four years ago to make the run, but owing to his then friendship for Sheriff R. R. Veale did not.

He will be pitted against Veale, who has held the office for the past twenty years and who has won out in some of the most strenuous and bitter political fights in the history of the county.

Arnold is a native of California, and has been in the Richmond police department since 1901.

EXTRACT COMPANY TO ERECT LARGE BUILDING

RICHMOND, June 6.—Announcement was made today that the Palmer Extract Company is preparing to establish its western branch plant in this city and that a site has been secured on the Southern Pacific right-of-way near Pullman.

The company is now negotiating with local contractors for the construction of the building, which will be one of the largest in the city.

WORKMEN COULD BUILD VESSEL

So Say Officers, Seeking Contract for Big Battleship.

MARE ISLAND, June 6.—Mare Island officers stated today that the present force of mechanics now employed by the hull department would be sufficient to build either battleship No. 4 or 5. At the present time the mechanics have turned out 11,000,000 pounds of material for the tankers Kanawha and Maumee.

Every one of the yard officials is anxious to land that battleship contract for the local government plant, as it would class Mare Island as a battleship yard, and the additional equipment that would be installed would make the local station the foremost government plant in the United States.

Mare Island officials, when advised that the difference of cost in the construction of the naval colliers Jupiter and Cyclops had been brought before the senate during the discussion of the naval appropriation bill, stated that the Jupiter cost \$2,000,000 more than the Cyclops, her sister ship, which vessel was constructed by a private firm.

Most of the \$400,000 can be found on the overhead charge side of the ledger, and the navy yard officials state that the Jupiter cost more on the way from the north. The pile driving crews have arrived and it is expected that by Monday morning work will be in full swing on the lower project.

BIG PILE DRIVER HAS STARTED ON BULKHEAD

VALLEJO, June 6.—The first pile driver belonging to the Healy Tugs and Construction Company's fleet has arrived here and is preparing to start work on the big bulkhead, which is to be constructed for the new government plant.

The bulkhead will commence at the bottom of the bluff in Pennsylvania street at a point about midway between Main and Franklin streets, and extend south until it meets the Port Costa Lumber Company's wharf at South Vallejo.

The bulkhead will commence at the bottom of the bluff in Pennsylvania street at a point about midway between Main and Franklin streets, and extend south until it meets the Port Costa Lumber Company's wharf at South Vallejo.

ENDERBORGERS IN NOVEL AFFAIR

Society Appears in Amateur Show at Hayward Church.

HAYWARD, June 6.—The society of the Christian Endeavor of the Congregational church of Hayward gave a most interesting and successful entertainment at Woodmen's hall on B street last evening to a large and appreciative audience.

A number of vocal solos were given by well known singers of Hayward. Hal Angus, in his inimitable style sang "The Good Old Moon Coming Out."

Picnics? Naughty, If by the Light of Moon, Is Edict

HAYWARD, June 6.—What's the good of the moon coming out, anyway? Hayward trustees have passed a resolution "The Picnic Ban," referring to outings "by the light of the silvery moon." Other town officials object to the picnics, including City Clerk J. D. Armstrong, while the daughters of the town and the young men of the town have also voiced complaints against certain of these picnics on the ground that they are "not the right thing."

Town Attorney Frank Mitchell said that the trustees are merely studying up just how a moon-

light picnic is held by the mayor, the city clerk and the improvement and church organizations. An ordinance restricting the conduct of such picnics will be drawn up.

MANY FARMERS IN NEW BUREAU

County in Line for Adviser, Is Now Assurance Given.

HAYWARD, June 6.—The Hayward Chamber of Commerce, members of which first thought of forming a farming bureau in Alameda county, had the satisfaction of learning at its meeting yesterday that its agricultural offering is growing lustily. Reports of the progress of the bureau made by President

of the bureau, indicate that 100 farmers or more will be enrolled as members before July 1, placing the bureau in the list of eligible for a farm adviser.

Reports were handed in by the committee appointed to arrange the bureau for the business meeting of the chamber. The committee consists of J. E. Walsh, H. R. Brown and C. Corwin. J. E. Walsh was reappointed secretary of the Chamber of Commerce and H. R. Brown, treasurer.

The fifty feet by ten feet advertisement signs ordered by the chamber to draw the attention of railroad travelers to the bureau, will be placed in position at the Southern Pacific and Western Pacific depots in Hayward.

June brides looking for a home will find our rent department convenient

Hard to find a desirable place when you want it without help. Let us help you. No charge.

We will get you a choice cottage, flat or bungalow in a good location, reasonable rent, and there will be no charge for the service. All we ask is that if you are going to furnish, you look us over before you buy.

We will take you around in one of our automobiles until you find a place that suits. We have every desirable house that is for rent listed—everything in Oakland, Alameda and Berkeley and know just where they are.

Furniture shown in rooms a great aid to newlyweds

This way gives a clearer idea of just what you want and how it will look in your home. We call your special attention to the furnishings in our four-room Cement Cottage built in our show windows this week. There are four rooms and reception hall. Also to our four rooms in one shown on the mezzanine floor.

TAKING A CHANCE NOT WORTH WHILE

Many Outings Spoiled by the Most Terrible of All Pains--Toothache.

Before you go on that long-planned vacation trip have your children's teeth attended to as well as your own. Countless otherwise ideal outings are spoiled by neglected teeth. Perhaps you say, "Those cavities have never bothered." But think, what would you do, miles away from any dentist, if they did ache? There would be one thing to do, come home. Wasted money, time, energy, opportunity for fun. Is it worth while taking a chance?

You may think you have no cavities, but you'd better have your teeth examined to be sure.

For a surprisingly small cost you can have those teeth filled, temporarily at least and thus insure yourself immunity from the most terrible of all pains--toothache.

My school is out now, so bring the youngsters and pay me a call. I have a specialist on children's teeth who will do the work without hurting and who has the "knack" of handling children. I will give my personal attention to your own work.

My offices are located on the second floor of the Macdonough Theater building, room 8, 1322 Broadway, corner of 14th street. Entrance on Broadway side. Phone Oakland 1235 for an appointment. My hours are daily 9 to 5:30, Monday, Wednesday and Friday evenings 7 to 9, and Sunday mornings 10 to 12. Don't forget the name--

DR. J. B. SCHAFFERT

STUFFS MULE'S EAR TO MAKE HIM STAND

ST. LOUIS, June 6.—A new and effective way of shoeing wild mules has been discovered by H. F. Goers of Bland, Mo.

"I recently watched a blacksmith trying to put a mule's first set of shoes on its feet," he said. "The mule stood for the first shoe, but kicked and pranced when the attempt was made to fit the next foot. Being heated and coaxing had no effect on the animal. Finally a bystander agreed to make the mule stand."

"He allowed the animal a few moments to get over its excitement. Then he petted it about the head and ears. In the meantime he had tied a small stone in his handkerchief. He poked this down into one of the ears and told the blacksmith to get to work. The mule stood still except that it shook its head and there was a blacksmith to get to work. The mule appeared to be thankful to obtain the session in making a mule's hoofs behave."

ALMOST CRAZY WITH BURNING ERUPTION

Began On Wrist. Kept Going Up Arm Till Near Elbow. Came as Rash. Itched So Almost Wild. Cuticura Soap and Ointment Cured.

Kearney, Colo.—"My father's trouble began on his wrist and kept on going up his arm until near his elbow. It first came as a rash and itched so he was almost wild with it. Then I thought I would try Cuticura Soap and Ointment and it seemed like the first application relieved him so much. Before that he was almost crazy with the itching but when I used the Cuticura Soap and Ointment it stopped it. I had to keep his arm down up in soft clothes so as not to rub it and make it itch more. I got two cakes of Cuticura Soap and two boxes of Cuticura Ointment and they cured him." (Signed) Mrs. Cora Boudel, July 4, 1913.

ECZEMA ON FACE BURNED

1825 7th St., Denver, Colo.—"My son's face broke out two years ago with eczema. It was very bad and he was almost wild with the itching. I used Cuticura Soap and Ointment and it seemed like the first application relieved him so much. Before that he was almost crazy with the itching but when I used the Cuticura Soap and Ointment it stopped it. I had to keep his arm down up in soft clothes so as not to rub it and make it itch more. I got two cakes of Cuticura Soap and two boxes of Cuticura Ointment and they cured him." (Signed) Mrs. Cora Boudel, July 4, 1913.

'PLACE OF DEATH' HAS FASCINATION

Ruins of Mitla, Ancient Burial City Near Oaxaca, Draws Tourists.

WASHINGTON, June 6.—The ruins of ancient cities, remnants of dead civilizations, have a fascination for most people. Be they scientists of great renown or mere mortals of more common clay, somehow something stirs within them at the touch of antique things. The average tourist seeking succor from the daily grind whether of the college lecture room or of the constant chase of the elusive dollar in trade and traffic who finds himself in some strange city and learns that not far off are the weather-beaten walls of an ancient temple, shrine, or palace, whose builders are unknown, hies himself at once to that place. He touches the crumbling stones, traces the grotesque figures and queer designs and marvells that such things could have been so many years before he came in earth, perhaps even before the very civilization of which he is a boastful part came into existence.

Mitla is a city of ruins—its place in Yucatan alone there are some 70 or more. Approach to some of these is too arduous to most tourists, but on the southernmost shore of the Republic lies the State of Oaxaca, whose capital is easily accessible. "Oaxaca City is reached from Puebla by the Mexican Southern," according to a statement in the latest pamphlet on Mexico, issued by the Pan American Union of Washington, D. C. "The distance is 228 miles and the trip takes 12 hours. It is 288 miles from Mexico City and the same distance from Vera Cruz. Its population is 40,000."

It was the early home of both Porfirio Diaz, former president, and Benito Juarez, the patriot and national hero. Its age makes it very attractive, but it is quite modern in many ways, possessing tramcars, electric lights, telephones, and other factors of comfort. Another feature connected with Oaxaca is the fact that from the city the excursion is made, about 25 miles to the southeast, to the ruins of Mitla, some of the best preserved ancient remains of an ancient civilization.

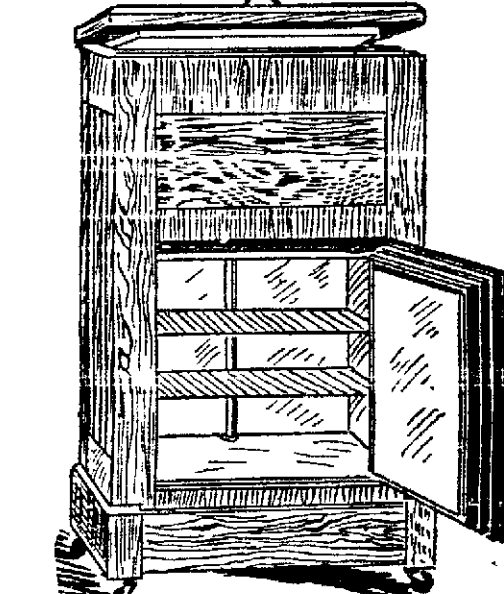

"THE PLACE OF DEATH."

Mitla is a contraction or corruption of the word Mitlan, meaning "The Place of Death." The modern village and the ancient ruins occupy the center of an arid plain or valley, surrounded on all sides by equally arid hills, on the highest summit of which are the well-preserved remains of a great fortress, whose walls are of a rough construction and without ornament of any kind. Nearly in the center of the plain a great group of buildings stand out completely exposed. Many of them are now nearly shapeless mounds and masses of ruins. Two great groups, however, are in comparatively perfect preservation, a third is incorporated with an old church, and a fourth, the great sacrificial mound, is surrounded by the ruins of a very ancient church. The principal buildings are of stone masonry. A condensed description of one will give an idea of the others.

The Hall of Pillars, the northernmost building of the north group, is a great room 125 feet long and 23 feet wide, interior measurements. The height of the walls is about 12 feet, the thickness varying from 3 feet 3 inches on the sides to 4 feet 6 inches for the front wall. The entrance is three doorways, nearly 8 feet wide, each composed of three members. Two enormous monolithic door jambs about 7 feet high, 6 feet wide, and 2 feet thick, surmounted by monolithic lintels nearly 20 feet long, 2 feet wide and 6 feet thick. The most striking feature of the room is a row of six monolithic columns running lengthwise of the room, each column standing 11 feet 1 inch above the floor, which is covered with cement. Their circumference is each 9 feet 6 inches. They are slightly tapered at the top which is perfectly flat. The interior walls are perfectly plain, while the exterior is covered with a rich decoration of panels of mosaic work surrounded by large squared and sometimes incised sculptured stones.

CENTURIES BEFORE CORTES.

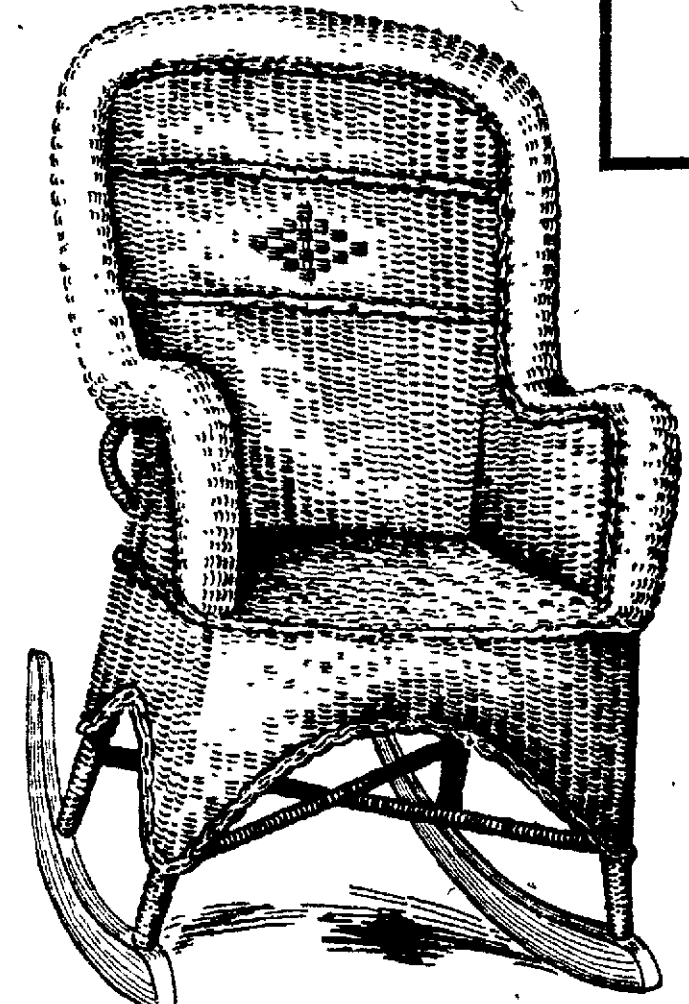

The great group of which this is the principal building, was probably the ceremonial hall. The south group was probably that in which the final ceremonies attending the death of a chief, high priest, or other dignitary were performed. The remaining buildings were probably for the use of the visiting dignitaries and for the priests and officers who served Mitlan Tschull, "The Lord of the Place of Death." The mounds on which the buildings now stand were covered with cream-white stones forming ample terraces about the buildings. The buildings themselves stood in the midst of the vast plain, brilliant crimson and white in the glaring sunlight. Entering the buildings one was placed in almost absolute darkness. Here, amidst the dim light of

White porcelain lined

A splendid family size as illustrated with porcelain lined provision chamber; stands 42 1/2 inches high, top feed; ice capacity 75 lbs. Case is solid ash golden finish, 18-inch provision chamber.

Terms \$4.00 down \$4.00 month **\$27.50**
